HISTORY

Ouachita College came in answer to the prayers of the faithful Baptist leaders in Arkansas, who for many years had been in most thorough sympathy with the efforts of American Baptists to found and maintain colleges where learning and religion might be developed in symmetrical unity. In the year 1886, when Ouachita College was founded, the Baptists in Arkansas were neither rich nor numerous. They believed in Christian education, and they had the courage of their convictions, and with little money or property they established Ouachita College, which has meant much to Arkansas.

After much prayer and after the Baptist State Convention had year after year expressed its purpose to establish a Baptist College in Arkansas by keeping an Education Commission working upon the problem for many years, finally at the Convention at Hope, November, 1885, the Education Commission submitted a report which contained the following:

"The Commission recommends to the Convention the propriety of electing at this session of the body fifteen wise and prudent brethren as a Board of Trustees, five of whom shall be a quorum, and this board shall have the power of self-perpetuation, and that it shall be a body politic having under its control the absolute management of the school for the Convention. It shall be the duty of this Board of Trustees to report to the Convention at its annual sessions the material progress, financial conditions and workings of the school."

The report was adopted and the following Board elected: J. P. Eagle, A. B. Miller, B. R. Womack, A. J. Kincaid, J. B. Searcy, A. J. Fawcett, J. M. Hart, J. Dunnigan, J. K. Brantley, C. D. Wood, W. E. Atkinson, M. F. Locke, V. B. Izard, W. A. C. Sayle, and A. W. Files.

This Board of Trustees met in Little Rock, December 24, 1885, and considered bids for the location of the college. At the same meeting Arkadelphia was chosen as the location, and Dr. J. W. Conger, an alumnus of Southwestern Baptist University, was chosen as President. The College began its first session September 6, 1886, in the old Blind Institute Building, which had been refitted and equipped for this purpose. In the year 1888 the main building was erected, and the following year the old institute building was transformed into a Young Ladies' Home. This building was burned in May, 1890. The generous people of Arkadelphia immediately raised a subscription to begin the erection of our present beautiful Young Ladies' Home. It was begun in 1890 and finished in February, 1891. In 1898 the conservatory building, valued at \$15,000.00, was erected. The Mary Forbes Industrial Home was added in the summer of 1906; value

of property, \$2,500.00. The President's Home was erected in 1904.

Dr. J. W. Conger, the first President of Ouachita College, served in this capacity for twenty-one years. He gave his heart wholly to the college, and it is certainly true that much of the present prestige and power of the institution is due to his untiring efforts. In the year 1907 he resigned to accept the Presidency of Southwestern Baptist University, his alma mater. He was immediately succeeded by Dr. H. S. Hartzog, who was formerly President of the University of Arkansas. The faithful labors of Dr. Hartzog left their stamp upon Ouachita College. In February, 1911, Dr. Hartzog resigned, and in March, 1911, Dr. R. G. Bowers, an alumnus of the college, was chosen as President. His labors in this capacity began in June, 1911.

After two years of faithful service, he resigned in the spring of 1913 in order to return to the pastorate. Dr. S. Y. Jameson was elected President of Ouachita in June, 1913, and served until January 1, 1916. A notable and praiseworthy achievement of his administration was the liquidation of all the mortgage indebtedness of the institution, amounting to something near \$65,000.00.

Professor H. L. McAlister, for several years Professor of Mathematics and Dean of the College, was elected chairman of the Faculty and was chief administrative officer until the close of the school year, June, 1916.

Dr. Chas. E. Dicken was elected President of the College, January 20, 1916, and assumed active control of its affairs in June, 1916.

If a college is to be judged by the usefulness of the men and women it sends out into the world, the impartial historian will give Ouachita College a very high and honorable place. The financial struggles have been many and threatening; but we believe that our greatest financial burdens are in the past. More and more Christian men and women are realizing that contributions to Christian education are most effective, both in developing civilization, and in advancing and building up the kingdom of God. In June, 1916, Mrs. Florence Wilson entered into her rest, and it was found that she had bequeathed to Ouachita College several thousand dollars for permanent endowment. She was the widow of the late J. W. Wilson, who was a Ouachita student and afterward a very generous member of the Board of Trustees. He himself left \$10,000.00 to his alma mater. Mrs. Wilson's gift is a little more than \$21,000.00. In October, 1918, Dr. J. C. Wallis entered into his rest, bequeathing to the college \$30,000.00 for endowment, and we are praying that these noble examples may stimulate other contributions to the same great cause.

Erection of \$300,000.00 addition in buildings began in April, 1920.

The new gymnasium, Science Buildings and College Dining Hall were put in use in the fall of 1920.

LOCATION

Arkadelphia is located among the picturesque hills of Clark County, sixty-six miles southwest of Little Rock, on the Iron Mountain railroad. It is a beautiful town of about five thousand inhabitants, with all modern conveniences. It has a most complete filtered water system, which insures at all times an abundant supply of pure, clear, soft water.

The dominant interests of Arkadelphia are centered upon its colleges and the general environment is distinctly educational and religious. Allurements to fashionable dissipation are not in keeping with its citizenship or social atmosphere, and high standards of conduct and character are not only expected, but required.

The campus is situated on a high bluff, overlooking the Ouachita River, and is within a few hundred yards of the four churches and the business portion of the town. No college has a more beautiful location nor more healthful surroundings.

BUILDINGS

The building equipment of Ouachita College consists of eleven buildings located in such a manner that each building is a working unit of the whole. The executive offices, library, study hall, class rooms, and literary society halls are located in the main, or Administration Building. The School of Fine Arts and the general auditorium are located in the Conservatory Building. This building is connected with the main boarding hall for young women by a covered corridor. There are two science buildings, a book store and a gymnasium, the uses of which are indicated by their names. The other buildings with the exception of the President's Home, are used exclusively for the accommodation of boarding students and teachers. The main boarding hall for young women and the Forbes Industrial Home are presided over by the Dean of Women.

The Forbes Industrial Home was added in the year 1906. It was largely due to the generosity of Rev. W. A. Forbes and Mr. J. M. Adams. It was dedicated to the memory of Rev. W. A. Forbes' daughter, Mary. This home is for young women of limited means, who do their own housework and receive board at cost. It has amply justified the hopes of its founder and annually accommodates about fifteen girls. New girls' dormitory, dining hall, conservatory building, and heating plant now being added.

EQUIPMENT

LIBRARY

About seven thousand volumes, for which a complete card catalogue has been prepared, are at the disposal of the students. The leading periodicals, dailies, weeklies, monthlies, both religious and secular, are found upon our tables. The library is a workshop in which students are aided and encouraged to make the best possible use of available material.

STUDENT ORGANIZATIONS

LITERARY SOCIETIES

The Alpha Kappa and Corinnean Societies for the young women and the Philomathean and Hermesian Societies for the young men are thoroughly organized. They meet once a week in their large and elegantly furnished halls and are doing enthusiastic work. These societies are strong factors in developing the literary tastes of their members. Experience in self-government is secured by the constant practice of parliamentary rules. Every student is urged to connect himself with one of the societies.

Secret societies, fraternities, and clubs of all kinds whatsoever, are prohibited.

OUACHITA SIGNAL

During the past two years the four Literary Societies of the College have published an eight-page weekly paper known as *Ouachita Signal*, incorporated with the *Ouachita Ripples*, founded in 1889. Ample space is given in this weekly paper for the various activities of the College, and the faculty and alumni often use it as a medium for the expression of their views. The subscription price is \$1.50 a year, thirty-six editions. It is hoped that every patron and former student of the College, as well as our friends at large, will avail themselves of the opportunity to keep in close touch with the College by subscribing for and reading this paper.

THE OUACHITONIAN

The *Ouachitonian* is the name adopted by *Ouachita College* students for the annual publication. It is a pictorial survey of college life from the viewpoint of the student. It is an illustrated history of each year at *Ouachita College*. The *Ouachitonian* contains, usually, not fewer than 160 pages, and is beautifully bound, with original design on cover.

It was not started as a money-making enterprise. Indeed, the editors and business manager will be very happy if the books are printed without loss. The Ouachitonian is a book of great value to the students who live among the scenes described. In later years it will revive sweet memories of classmates and college life. Each student is urged to bring at the opening \$4.50 to subscribe for a copy of the Ouachitonian.

CHRISTIAN ACTIVITIES

Ouachita College, fostered by the Baptists of Arkansas, stands emphatically for Christian Education. The Bible has an important place in the curriculum and in the class room. Chapel service, a distinctly religious service, is held for thirty minutes every school day, at 9:00 o'clock.

SUNDAY SCHOOL

The churches of the town maintain well organized and thoroughly equipped Sunday Schools and the students get the advantage of these. The young ladies of the Home and a majority of the young men, attend the Sunday School at the First Baptist Church, where there are large, enthusiastic classes for both. Several members of the Faculty teach in this Sunday School. The organized class movement, as recommended by our Sunday School Board, is well developed.

ATTENDANCE AT RELIGIOUS SERVICES

Attendance at chapel services is required of all students in the college, except such as are specially excused.

Every student is required to attend divine services at the church of his or his parents' choice at least once every Sunday. Students are urged to connect themselves, either as pupils or teachers, with a Sunday School class.

THE YOUNG WOMEN'S AUXILIARY

The Young Women's Auxiliary, a student organization among the young ladies, in affiliation with the women's work of the Southern Baptist Convention, is supervised by officers of its own selection and an Advisory Committee from the Faculty. The purpose of the Auxiliary is to aid in deepening the Christian life of the College and to give training for effective leadership in religious work. It keeps the students in close touch with modern and world-wide moral and religious movements. It endeavors to enroll every student in Bible and Mission study classes. In addition to the frequent meetings of its various committees, the Auxiliary meets once a week for religious exercises.

THE MINISTERIAL ASSOCIATION

The Ministerial Association has for its object the promotion of the interests of the ministerial students, all of whom are eligible to membership. At the meetings, held every Thursday evening throughout the year, the programs are such as will prove of lasting benefit to the students. Of course, the work done is in keeping with the devotional, intellectual, and pastoral duties of the young ministers.

VOLUNTEER BAND

The Volunteer Band is composed of such students as expect to give their lives to missionary work and are preparing for such work. The band meets regularly for the discussion of missionary topics and for the study of missionary literature. The work is exceedingly helpful to all such students. It also helps to keep alive the missionary enthusiasm of the other students.

THE CHORUS

A chorus of selected voices is maintained through the year. Standard chorus and operettas are rehearsed. Twice a year the Chorus gives a public entertainment.

THE ORCHESTRA

The College Orchestra has weekly rehearsals. It appears frequently during the year.

THE DRAMATIC CLUB

A club of students from the Department of Expression has regular weekly meetings and from time to time presents plays.

These three organizations, the Chorus, the Orchestra, and the Dramatic Club, afford valuable practice to the students. They are under the direction of the heads of the departments they represent and are free to the students.

MINISTERIAL STUDENTS

The great need of our Christian host today is an efficient ministry. Every young preacher owes it to himself, to the kingdom of God, which needs his service, to the lost, who wait to hear his message, and above all, to God who called him, to be and do the very best that he possibly can. He cannot afford to neglect his educational training.

From the very beginning it was intended that Ouachita College should be a suitable place for the education of young ministers. It is not a theological seminary, but it is ready to help every deserving young preacher to get a college education, and

the course in the Bible Department will prove especially helpful. Young preachers who come with the indorsement of their home churches are given free tuition. Our Seminaries give credit for work done in this department.

MINISTERIAL AID

In addition to the free tuition mentioned above, the Board of Ministerial Education gives some help to such ministerial students as stand in need of help. Contributions are made to this fund by churches, societies, and individuals, and the Board disburses these funds according to the absolute needs of the students. Quite a number of individuals and organizations are undertaking each the support of one ministerial student at from \$12.50 to \$20.00 per month. Such work is both magnanimous and wise, and it will certainly pay large dividends, both to the donors and to the kingdom of God.

COLLEGE ATHLETICS

Ouachita College stands for clean athletics. The man who has an ideal education has been trained spiritually, intellectually, and physically. We believe the ideal man should have a trained mind, a pure soul, and a strong, enduring body. A college should give proper attention to the culture and development of each. The students of Ouachita College organize themselves into an athletic association, and they elect the officers of the association and the managers of the various teams. This association cooperates with the college authorities in the enforcement of the athletic rules. It is required that the conduct on the athletic field shall be kept free from immoral practices and profane language. No student who fails to maintain satisfactory class standing will be allowed to be a member of any athletic team.

The President of the college will keep in his office a record of the class standing of every student who plays on any team. This record shall be kept upon a card known as an eligibility card. The grades will be furnished every two weeks to the President by the respective teachers to whom the student recites. When the standing of such student shall fall below the requirements of the college, the President will remove him from the team. No student who does not carry at least twelve hours of college work will be allowed to play on any team. All inter-collegiate games must be approved by the President. The number of games to be played and all trips taken by the athletic teams are subject to the approval of the President. Long trips interfering with college work will not be permitted. No student will be allowed to play on any of the college teams until he shall have filed with the President written permission from his parent, or guardian.

College athletics is a part of college life. It should receive its proper emphasis, and every student should reap its benefits. If for any reason it should appear that it is not best for any

student to engage in active participation in this phase of college life, he will not be allowed to do so. Cheerful permission will be given to any student and he will be given proper encouragement should he show himself willing and able to meet the requirements.

GOVERNMENT

It is naturally supposed that every boy and girl who comes to Ouachita College does so with the idea of conducting himself or herself in such a manner as not to make serious reproof or humiliation necessary. Every student will be given full opportunity to become familiar with every requirement which is made necessary for the proper advancement, management, good name and reputation of the College. If it should appear that any student is unwilling to cheerfully obey the requirements of the College authorities his connection with the College will be severed at once.

GENERAL REGULATIONS

All non-resident students are required to take their meals at the College Dining Hall. No student will be permitted to enter any class or department or discontinue the same without permission. No student will be permitted to contract debts at stores or elsewhere without the written permission of parent or guardian, together with the consent of the College authorities. Attending public amusements will not be permitted except by special permission from the President. No student may be absent from town without consent of the President. Every student is required to be and to remain in his room after the beginning of study hour in the evening. Loitering on the streets or about the stores of the town will not be permitted. Literary societies will not be permitted to give other than the regular literary program without permission from the President. No student will be permitted to be absent from Chapel exercises without the consent of the President. Any breakage or damage to college property must be promptly accounted for at the Executive Offices. It is to be understood that each student accepts and agrees to obey these general regulations upon matriculation.

Any student found not to be in sympathy with the spirit of control and the institutional life of the college will be promptly dismissed.

DRESS

Every young lady should be supplied with rubbers, umbrella, and raincoat. Every article in a student's wardrobe should be plainly marked. Simplicity in dress will be strictly enforced. Expensive dressing will not be allowed.

SPECIAL NOTICE TO YOUNG LADIES

Every young lady and every teacher is required to furnish her own towels, soap, combs, brushes, napkins, pillow, one pair of blankets, one pair of sheets, one pair of pillow cases, one spread, and one spoon.

All young ladies boarding in the Home will attend all lectures and entertainments held in the auditorium. Students accompanied by teachers may occasionally attend outside lectures.

No young lady boarder will, under any circumstances, be permitted to spend a night out of school, and parents must not make such requests.

Steam heat, waterworks, bath rooms, closets, electric lights, telephone, and telegraphic connections are in the building.

Students will be held responsible for unnecessary damage done to furniture or buildings.

Any student whose moral influence is not good will be dismissed at once.

Indiscriminate correspondence will not be allowed, and parents are requested to limit the number of their daughters' correspondents.

Parents should write cheerful letters to their children. Do not encourage them to visit their homes, as it is a positive disadvantage.

Parents will be notified if sickness occurs. Prompt and kind attention will be given. A nurse is in charge of the infirmary.

No young lady will be permitted to leave for home the last two weeks of the session, unless providentially required to do so, and parents must not make such request.

All letters and packages should be addressed in care of the College.

Boxes of eatables should not be sent. The table is well supplied with wholesome food. We cannot be responsible for the health of students who eat irregularly and without regard to diet.

If students find fault, make complaint, or do not seem to make satisfactory progress, justice to both sides demands that a personal investigation be made.

Much worry could be avoided in cases of dissatisfaction on the part of students and patrons by promptly and kindly reporting same to the President. It is to the interest of the authorities of the College to cooperate with the patrons in securing the best results and this will be done cheerfully wherever possible.

No guests may be entertained at the Young Ladies' Home until permission is obtained from the President.

TO NEW STUDENTS

Young ladies should notify the President upon what train to expect them, so that someone may be at the station to meet them. All young ladies must go immediately to the Young Ladies' Home upon arrival.

Young men, upon arrival, must report to the President's office immediately. Assistance will be given cheerfully in securing suitable room. Loitering about town or boarding place and delaying to matriculate will not be tolerated.

All new students should bring a certificate of character and of work done under former teachers. Bring High School certificate.

Students are requested to wear the College colors in coming to College, to facilitate identification. The colors are old gold and royal purple, and will be sent to all students upon request. Committees of students or teachers will meet all trains at the opening of school.

CHEAP BOARD FOR YOUNG WOMEN

There are many young ladies who desire an education who must economize in order to have means sufficient to go to college. Provision has been made for such young women in the Forbes Industrial Home. Young ladies, by assisting in doing the housework, can secure board at from \$10.00 to \$15.00 a month. Each young lady in this home does her part of the work in about one hour a day. This is a great blessing to many. The Home accommodates fourteen young ladies. It has gas for cooking and heating, electric lights, sewerage connection, bath room, and the building is being repaired and refitted for the next session.

Young ladies desiring accommodations in this home should send in application early with \$10.00 entrance fee, before the rooms are taken. The young ladies of this home are under the supervision of the Dean of Women.

BOARD FOR YOUNG MEN

Young men can secure rooms, with light and heat, in good homes near the College, at from \$4.00 to \$7.50 per month each (two in a room). Table board will be furnished in the College Dining Hall at \$20.00 per calendar month. No deduction will be made on account of meals missed except on account of protracted illness necessitating temporary withdrawal from school. All non-resident students are required to take their meals at the College Dining Hall.

PHYSICAL TRAINING

A good gymnasium has been provided and all students will be required to take such physical training as seems suited to their needs.

A physical director has been employed who will, together with the Director of Athletics, have charge of the gymnasium and will give instruction to young men.

The gymnasium at certain hours will be open to young women and they will be given systematic physical training under supervision of the teacher of expression.

Every student will be required to pay a fee of \$10.00 for the session and this will entitle such student to attend all athletic games, except the Thanksgiving game, free of charge.

OUACHITA-HENDERSON LECTURE COURSE

For a number of years Ouachita and Henderson-Brown Colleges have been combining their lecture courses, and by this means have been able to get much better talent than either school could get alone. The lectures alternate between Ouachita and Henderson-Brown Auditoriums. All the money received from ticket sales is put into securing the very best attractions to be had. Season tickets are sold to students for \$2.50. These tickets usually sell in cities for \$5.00. By this method the students are given a high-class lecture course for a moderate fee. Students are required to take a season ticket to the lecture course.

The course for the coming year has been selected and offers special advantages to the students of both colleges.

EXPENSES

The cost of a college course largely depends upon the habits of a student. Ouachita College is not run as a money-making institution. It has a deficit every year. It gives to its patrons that for which they pay, and a great deal more. From time to time liberal friends donate money to Ouachita College to help meet the deficits.

WITHDRAWALS AND PAYMENTS

If there is any misunderstanding or dissatisfaction with respect to accounts, or any other matter, write us a courteous letter, and prompt attention will be given.

All bills are due on the first day of each term, and must be paid at that time or made satisfactory with the President. After reasonable time is allowed for payment and bill is not settled, student will be required to withdraw from the college.

All charges are made by the term and not by the month. If a student withdraws on account of sickness by advice of our physician, charges will be made to time of withdrawal. If the

withdrawal is for any cause not approved by the President, charges at full rate will be made to the end of the term.

The annual session is divided into three terms. Payment for boards and tuition is required in advance at the beginning of each term. The Fall Term being the longest, and the fees being due also, parents will find that the Fall Term bill will necessarily be larger than the bill for winter or spring term. No reduction for loss of time will be made, except on account of protracted illness, and then for no length of time less than one month. No reduction will be made for absence for the last four weeks of the session.

Students in extra branches who do not take as much as fifteen hours per week in the Literary Department will be charged in proportion to the number of hours per week taken.

Any student carrying two or more fine arts studies, for which he pays regular rates, is entitled to one study in the Literary Department without extra charge.

If examinations are taken at other times than during the regular examination periods, \$1.00 extra per subject will be charged each student.

Former students requiring lists of credits will be furnished same upon payment of a fee of \$1.00.

Parents are urged to limit the spending money of students.

CLASSIFICATION OF STUDENTS

Each student on entering, will be required to submit to the Classification Committee a certificate showing subjects studied, textbooks used, and grades made on work completed elsewhere. Blanks for this purpose will be furnished upon application, and must be signed by the proper authority of school last attended.

Each student, on reaching Arkadelphia, must immediately report for classification.

No student will be allowed to take more than twenty hours of preparatory work. No student will be allowed to take more than eighteen hours of college work.

No student will be allowed to carry less than twelve hours of work, unless a lighter assignment is granted by the President.

No student will be enrolled in any subject until he presents to the instructor a matriculation card calling for instruction in that subject.

No student will be allowed to change his enrollment, except by permission of the President and the instructor concerned.

No credit toward a degree will be given for an uncompleted course, unless the part completed is a teaching unit within itself.

Each student in the Preparatory Department must complete as far as possible the preparatory work before entering upon college courses.

ATTENDANCE

Each student is required to attend the daily chapel services, and also every exercise of the several studies to which he is assigned. At the close of each term a report is sent to the parent or guardian of each student, indicating his standing in each of his studies for the term.

When a student has obtained permission to make a change in his studies he must enroll at the first exercise after his admission to the new course.

No student will be admitted to an examination in any subject from which he has been absent one-third of the term.

Every absence from the class shall be counted zero.

EXAMINATIONS

All classes are examined at the end of each term. No student will be admitted to a special examination until he presents the instructor with a receipt showing that he has paid a fee of \$1.00 for that examination.

In reckoning grades the ratio between the daily average and the final examination shall be as 2 to 1 or 66 to 33 out of a possible 100.

The standing of each student is indicated upon a percentage basis, 100 per cent being perfect and 70 per cent being required to pass any subject.

ENTRANCE REQUIREMENTS

A thorough knowledge of the fundamental principles of arithmetic is assumed as an essential part of the early school work in mathematics.

1 and 3. **Algebra**—The requirements in this branch cover two years of work. The first year's work is taken up with the elementary principles of Algebra, including the easy methods of quadratics. The second year's work (given after completion of plane geometry) constitutes a thorough course in the principles of Higher Algebra to logarithms. Two entrance units are allowed for this work.

2. **Plane Geometry**.—The requirements in Plane Geometry include those principles contained in the ordinary texts on the subject. Original exercises, loci, mensuration, and lines and plane surfaces are studied carefully in this work. The requirements for this branch cover one full year's work. One entrance unit is allowed for this work.

IV. LATIN

The entrance requirements for Latin are those recommended by the Committee of Fifteen. To satisfy these requirements one must have had a systematic course extending through four school years, five lessons a week.

The work of the text-book is supplemented by informal lectures, designed to put the student into possession of a first-hand working knowledge of the Bible, to create an interest in Biblical and religious study, and to leave a definite impression as to the unique character of the Bible as a history of God's revelation of Himself to man.

SCHOOL OF FINE ARTS

LIVINGSTON H. MITCHELL, DIRECTOR

Ouachita Conservatory offers ideal opportunities to the music student who wishes to receive a musical education and at the same time enjoy the social, religious, and intellectual advantages of a Christian College. Ouachita Conservatory holds a place of its own among the better conservatories of the South.

Every Conservatory student is required to carry one or more literary studies. The teachers, both in the Conservatory and in the College will give advice and assistance in arranging a course of study suited to the student's individual needs.

The College Library is open to conservatory students. Many valuable books of musical subjects are in the Library. Among them, Upton's "Concert Guide", "Stories of the Standard Operas", the "American Encyclopedia of Music", and "Grove's Musical Dictionary."

On the reading table are found "The Musical Courier", "Musical America" and the "Etude", three of the leading music journals of America.

The Art Department, and Expression Departments also receive periodicals devoted to their respective lines of study.

RECITALS

Students are given frequent opportunities to hear good music, and this is one of the advantages afforded our Conservatory students. The members of the Faculty are chosen for their ability as performers, as well as skill in teaching, and recitals are given each session in which all are heard.

The College Lyceum course presents each year concert numbers on its list of attractions, and other high-class musical entertainments are given by visiting artists.

STUDENT RECITALS

Students are given ample opportunity for practice in public appearance at the regular fortnightly afternoon recitals, the various public recitals, and the programs given every week by the literary societies.

PIANOFORTE

Modern playing demands that the student have a systematically developed technical foundation, supple arms, light wrists, and firm, sure fingers responsive to the commands of the will. These conditions may be brought about by well-guided efforts during the first years of study.

We are convinced that the development of the intellectual and the emotional must go hand in hand with technical progress, and we carefully select such pieces and etudes as are adapted to the capabilities of the students in the respective grades.

As the needs of different students are not uniform, it is impossible to have a list of studies to be followed strictly by all, but the following course of study shows the ground expected to be covered by each candidate for graduation, and, so far as he goes, by each student in piano.

VOICE

ALFRED HALL

—

The only fundamental basis upon which the Art of Singing can be developed is Tone-placement, the Alpha and Omega in singing. No two voices are precisely the same. It very naturally follows, therefore, that a careful diagnosis of each voice is absolutely necessary to achieve satisfactory and permanent results. In the prescribed course which follows, special emphasis is laid upon this most important factor. When the color and quality of tones blend with the student's natural characteristics, a gradual and systematic study of the development and expansion of the voice follows. The choice of songs, too, is a matter of great magnitude; and, in the selection of vocal compositions, infinite care will be taken to meet the demands of the student's peculiar requirements.

ELEMENTARY.

Placement of medium voice; open tones, vibration, resonance; diaphragmatic breathing; shaping of vowels; distinct enunciation; poise; studying of pitch and intervals; simple vocal exercises; songs of easy grade and miscellaneous composers.

SCHOOL OF EXPRESSION

MISS FRANKIE CONDRAY, Director

The Department of Expression has for its object the culture of the individual—culture spiritually, mentally, and physically—a well-trained, magnetic voice; a graceful, easy presence; courteous manners; sincerity of truth. It is self-evident that a strong personality, a cultured noble womanhood, is infinitely superior to any tricks of voice or gesture. When one loves the truth and lives it, and can present it effectively to others, he has learned the best possible preparation for the work of life, as well as for the work of expression. We cultivate those qualities of mind and heart which lie beyond all expression, and which spontaneously create its requisite forms.

No ironbound prescribed course will be adhered to in this work. If any selections named in the curriculum prove not adapted to the individual needs of the student, they will be abandoned and others substituted.

REQUIREMENTS FOR GRADUATION IN EXPRESSION

Candidates for graduation in Expression are required to have completed the regular Freshman College work, Physiology, Philosophy, English Courses I, II, III, and V, and Education I, two years of French or German, and to present a thesis under direction of the head of the department. ART

MRS. ALFRED HALL

The study of art has in the last few years taken a prominent place in the prescribed course in all schools. People are coming to recognize that the student is not broadly educated unless he has been trained in some degree to see and appreciate the beautiful. It becomes more and more evident that every student can learn to put down on paper or canvass his impressions of it, for drawing is another form of writing.

The aim of this department is to teach drawing and to help the student say in form and color what interests him.

The annual exhibit of work done by the students is held at commencement time. The students are requested to leave their work for this occasion. Students may enter the department at any time.

The studio is a large, fine room, with good lights. It is provided with casts, geometrical slides, and pieces of pottery.

COURSE OF STUDY.

Drawing from geometrical slides, simple studies in charcoal and pencil from still life, fruit, and flowers. Design, sketching from nature and still life. Composition.

SKETCH CLASS.

This class is held twice each week. Study from the model in all mediums.

CHINA PAINTING.

This work is made very interesting in that it is original work. Conventional designs are used by the students, themselves, among their designs. Flower and fruit forms are used for decoration. The kiln is conveniently placed in the studio.

COURSE IN DESIGN.

One year. Study of Rhythm, Harmony and Balance. Simple designs showing these principles.

Conventionalizing natural and flower forms and applying them to practical needs.

HISTORY OF ART.

This class is open to all students of the school. Three hours a week during the Spring term.

COURSE IN PUBLIC SCHOOL DRAWING.

This course is designed to fit students to teach drawing and painting after public school methods. It includes drawing from nature, still life, block, in charcoal, pencil, water color, and colored crayons; also landscape drawing from memory and imagination and illustration.

There is no course more helpful than this, for the methods must be simple and easily understood, in order that the student may have no difficulty in presenting the work in a class room. One hour a week throughout the year.

REQUIREMENTS FOR CERTIFICATE IN ART

The course of study outlined in Art covering a period of four years' study.

History of Art.

All entrance requirements in English and History.

RESERVE OFFICERS' TRAINING CORPS

CAPTAIN IRWIN L. LUMMIS, Infantry, U. S. Army

FIRST SERGEANT JOHN MAURER, U. S. Army

The Reserve Officers' Training Corps is an application of Military Training to students in college, given along with regular Academic Courses and at such times as not to interfere with other College work. The experiences of the World War proved that in times of National Emergency, the leaders of troops could best be selected from College trained men. With this in view, the Government has granted the requests of about three hundred colleges scattered throughout the country that Military Departments, under the direction of the War Department, be placed in higher Institutions, which agree to certain conditions.

The college, upon being granted a Unit of the R. O. T. C., promises to make Military Training one Department of its curriculum, to place the Army personnel detailed by the War Department, as members of its Faculty, and to be responsible for all government property used by the students of the Institution. It must also agree to have at least one hundred physically fit male citizens enrolled in the Unit and to co-operate with the Army personnel to make the Military Department a success. The Government agrees to detail Army Officers and Non-commissioned officers in sufficient numbers to conduct the training of the Unit, and to furnish equipment of all kinds necessary for the members of the Unit, and to co-operate with the institution through its officers on detail duty at the institution.

Ouachita College has had Military Training for over twenty years, and in 1919, it was granted an Infantry Unit of the R. O. T. C. To direct this work, one officer and one first Sergeant of the Regular Army are detailed at the College. Equipment furnished, includes rifles, machine guns, Automatic rifles, with all auxiliary equipment and ammunition necessary for their use, and a complete uniform for each member of the Unit.

The Corps at Ouachita College is divided into two Courses, the Advanced and Basic, each of which is divided into the practical and theoretical work. The practical work is done entirely on the Field, in the nature of drills and manuevers, while the Theoretical work is done almost entirely in the classroom, and consists of the study of Tactics, and Military methods. For the Theoretical work, the college grants credit towards a degree, from the list of General Electives, one hour a year in classroom receiving one hour credit. Six hours credit may be gained in the Military Department during four years at college.

The Basic Course consists of the first two years work of the Unit, three hours a week, drill, and one hour a week in classroom. During the first two years, the student is taught the duties, and actually performs them, of a private and non-commis-

sioned officer in the Army. To be eligible for the Advanced Course, the student must have completed the Basic Course, and be recommended by the Professor of Military Science and Tactics, and the College President. He must also agree in writing to attend one summer Training Camp of Six weeks, at a place designated by the War Department. For being in the Advanced Course, a student is paid a Commutation of Rations, which varies with price of foodstuffs, for the year 1920-21 being fifty-three cents a day, for the entire two years. Two hours a week classroom work is required in the Advanced Course.

Attendance at the Summer Camp is compulsory for members of the Advanced Course and optional for members of the Basic Course. These camps are centrally located, and to them, members of the R. O. T. C. in Various colleges of the vicinity are sent. For the Summer, 1920, the Ouachita Students were sent to Camp Jackson, near Columbia, South Carolina, while for 1921, the camp was at Fort Snelling, near St. Paul, Minnesota. Transportation to and from camps is paid by government; clothes, food and quarters are furnished, and in addition, members of the Advanced course are paid one dollar a day while in Camp. The time spent at these camps is devoted mainly to field work, the students being given similar work to that given to candidates for commissions at the Officers' Training Camps during the World War. The Associations made, travel experience gained, and training received by the students, make these camps of a very important value to each attendant, and it is greatly desired that all students of the Basic Course, as well as those required to attend, attend them. The Physical development of students at past summer camps has been remarkable.

During the school year, considerable time is spent on development of Athletic tendencies of the student. Endeavor is made to have each student enter in some branch of Athletics, rather than have a picked few men be the only ones in Athletics. With this in view, contests are held between the companies and Platoons in Baseball, Basketball and Track events. General Calisthenics are also given to each member of Unit.

The Unit at Ouachita takes a two day hike and Manuever during the Spring, at which time each man carries field pack, including blanket, shelter tent and rations. Individual cooking is done by the students, and experiences of soldiers in the field are had by each man.

The Unit at Ouachita College is one of the Best, for its size in the country. Its percentage of men in the Advanced Course, and attendance at Summer camps is very high. Considering that the ultimate object of the R. O. T. C. is to train college students to become Reserve Officers upon graduation, who will be called to active duty in command of troops in times of National Emergency, Ouachita College Unit, accomplishes its purpose. Each year several seniors receive Commissions in the Reserve Corps as second Lieutenants of Infantry.

These commissions are given to graduates of the Advanced Course who successfully complete the work prescribed by the War Department, at the time of their graduation from the College. The commission is for a period of five years, during which time, the Reserve Officer is subject to call for not more than two weeks each year for additional field training. During this training period, he draws the pay and allowances of his rank, and is paid usual travel allowance for transportation. Except at his own request, or during National Emergency, when citizen troops are used by War Department, Reserve Officers may not be on active duty longer than this two weeks period. He may however, hold a commission in the National Guard.

TO TEACHERS

There are many burdens not immediately connected with the class room which fall upon each teacher. These are common burdens and must be equally shared by all. Absolute loyalty to the College regulations, and to the administrative officers is an essential part of every teacher's contract, and no teacher will be retained who does not manifest the letter and spirit of this requirement.

The general conduct and esprit de corps of the institution are essentially influenced by the disposition and character of the teachers, and perfect unanimity in this respect is required. At the Young Ladies' Home there are certain duties of chaperonage and discipline which must be equally shared by the resident teachers. There are no exceptions in this respect.

Daily attendance at Chapel and monthly attendance at Faculty meeting is required.
