DR. J. C. WALLIS

*The highest type of friendliness was exemplified in his life. Kindliness, sincerity, thoughtfulness and fidelity were a part of his every day. The hand that soothed the sufferer's brow was guided by a soul overflowed with sympathy, and the skill of this great physician took root from a prayerful heart. A life well spent in a consecrated service for those among whom his lot was cast, and now as his unfettered soul goes singing on through the glories of the Great Beyond, men and institutions still gather his benefactions.*

For Winter—Black dress, trimmed in black, black cloak; black hat, trimmed with black ribbon and white plume; dark woolen goods or calicoes for school; strong leather shoes. For summer, cadet blue with cap to match. Light calicoes for school. For night exhibitions and other occasions, linen, lawn or tarlatan, white or colored may be worn. No silks, satins, or extravagant jewelry allowed to be worn during the session or on public occasions.

Patrons are urged to make prompt payments. The charges are moderate, considering the advantages afforded.

Collegiate Department—tuition \$5.00 per month; incidental fee \$1.00 per term. Piano \$5.00 per month, board and room \$10.00 or \$11.00, or \$12.00 per month.

Our government is mild, yet firm. No gentleman pupil will be allowed to visit young ladies. No lady pupil will be allowed to receive attention from young gentlemen. A faithful earnest pupil has no time for such diversion. The admission of pupils to the institution and the enjoyment of its privileges imply a sacred contract on their part to observe promptly all regulations.

## The Military Department of Ouachita College

OUACHITA showed its patriotism again by offering her services to the government. When the call came for the colleges of our land to take a part in the training of boys for the army, Ouachita was among the first to answer the call by offering her services. Ouachita has always maintained an efficient Military Department, and that was one of the many reasons which caused the War Department to choose Ouachita as one of the colleges to train soldiers.

There are many of Ouachita's students in the service of the country, and they are always found most efficient in whatever capacity they are serving. Ouachita students rank among the highest in the army because of their previous military training in college.

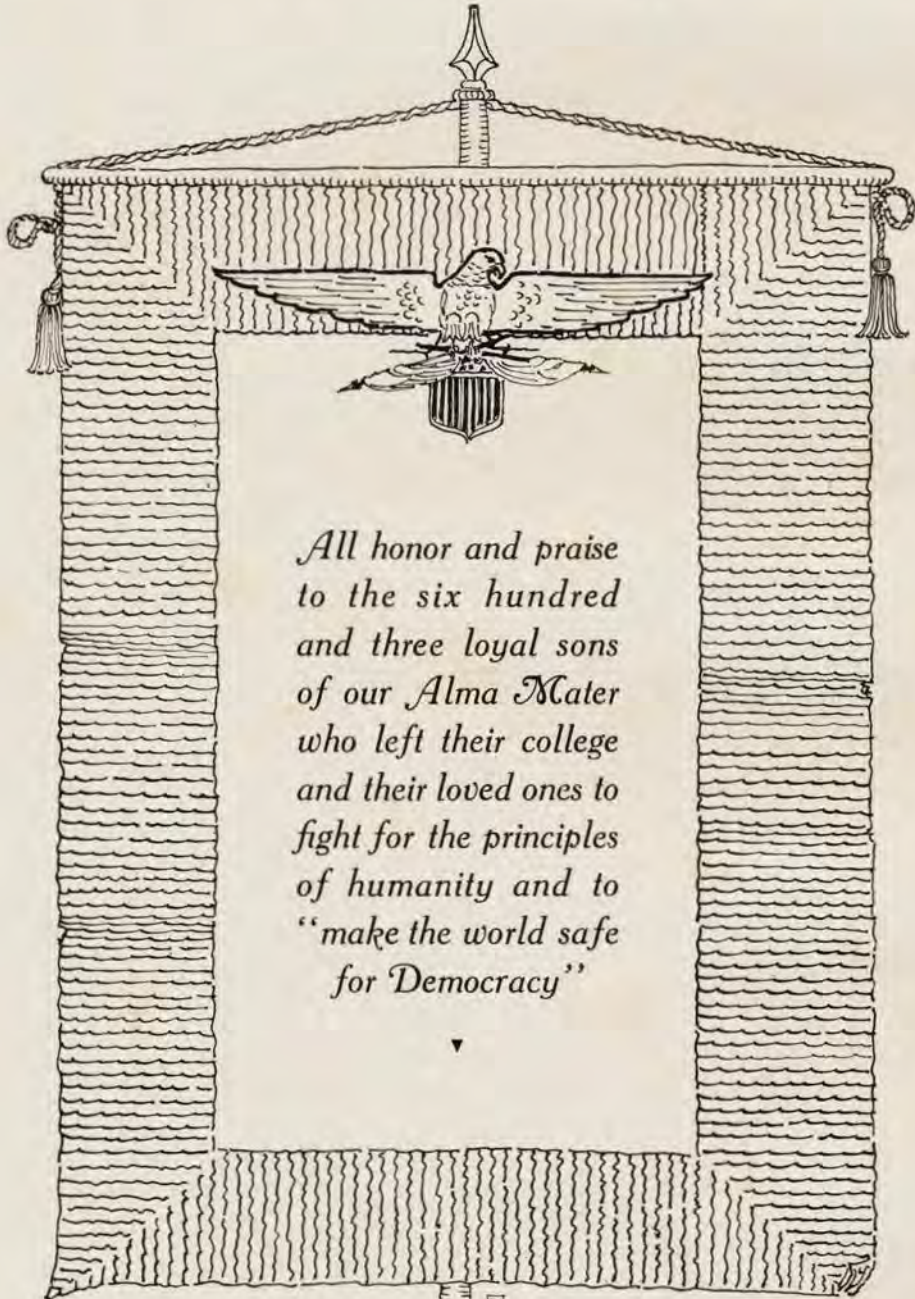

In September work was begun upon the barracks for a unit of the Students Army Training Corps, which was organized about October 1. Many students from all over the State came to Ouachita and were admitted into the S. A. T. C. Company "O" had an enrollment of 137 men. Ouachita was the first College in the tenth district, composed of Arkansas, Oklahoma and Texas, to reach its full quota. Capt. A. A. Roe was in charge of the S. A. T. C. and under his able instruction with the assistance of Lieutenant Joseph C. Benson, the men were taught many of the principals of modern warfare. The S. A. T. C. men were busy. Each day was filled with drill, school work and many other duties. From six o'clock in the morning until ten at night each man of Company "O" was busily occupied with various duties. In the S. A. T. C. the boys got a slight taste of real army life, which proved a benefit to all of them. On November 27, Company "O" was assembled and Capt. Roe read the orders of demobilization. On the afternoon of December 14, after having passed in a final review, the men were given their discharges.

Many of the boys entered College after the Christmas holidays and plans were soon made to organize a unit of the R. O. T. C. Upon request of Dr. Dicken January 20th, Capt. A. A. Roe was detailed to Ouachita as Professor of Military Science and Tactics. The unit was organized February 3.

Each member of the R. O. T. C. will be furnished a complete uniform, both Field and Garrison. Each member will be given a complete, new modern equipment including the new 1917 model rifle, and automatic pistol. Arrangements for rifle practice will be made in the spring and each member will be given 200 rounds of ammunition.

There will be a summer training camp of from four to six weeks for all members of R. O. T. C. units of the United States. It is approximated by our Commanding Officer that about 80 men from this unit will attend the summer camp.

*All honor and praise  
to the six hundred  
and three loyal sons  
of our Alma Mater  
who left their college  
and their loved ones to  
fight for the principles  
of humanity and to  
“make the world safe  
for Democracy”*

Before the door closes forever on our Junior life at Ouachita and all the brilliancy of of "Seniordom" blinds us, let us take a farewell look at the hopes and fears, the pursuits and achievements of our under classmen days here.

As Freshmen, we made an enviable record; one well deserving praise. Then as Sophomores, "still achieving, still pursuing," we added an extra lustre to our former bright record. Dropping our coat of egotism, and self-esteem, we passed into the Junior world with its studying, its playing, its responsibilities and its privileges. We have kept our record and stand in the front ranks of all phases of college life. We cannot see what is in store for us, but there are no shirkers among us, and it is predicted that many of our number will graduate with honors.

We are not singing the praises of the Class of 1920 for the mere purpose of boasting, but we can assure the Seniors that the enviable position they are leaving will be filled by those who will ever strive to keep high the record handed down by them.

With faith in the resourcefulness and loyalty of every member, we boldly step forward to fill the places they have left, with the assurance that the royal purple of Ouachita will, in turn, be handed down by us, without a stain.

# SOPHOMORES

## Sophomore Class

Ouachita College has every reason to feel very proud of its Sophomore Class of the present year. From our noble president, Jake W. Lowman, who, by the way, is an ex-Corporal in the S. A. T. C. (Safe at the College), as well as a hero of the gridiron, to Jesse D. Bollen, who has recuperated from his frightful experience which befell him in his Freshman year, and Whit Terrell, who, for his gallant service in the "Battle of Arkadelphia," has been awarded the "O. B. C." and other notable members of the class are young men and women who in future years will be figures of National repute.

Seemingly overnight the members of this class have changed from the giddy young "Fresh to the hard-working and serious-minded Sophomore. Our class is well represented in all the student organizations of our institution, and in these organizations we are endeavoring to uphold their former standard. The keynote of our class is patriotism, and we do not confine our loyalty merely to our Nation and State, but extend it to Ouachita as well. We hope that those who follow us will profit by our mistakes. We admit that we have a few on our record, but 'tis truly said that "He who never makes a mistake rarely amounts to much. He who makes too many loses his job."

# FRESHMAN

## Freshman Class

In the fall of 1918 there came to Ouachita the greatest number of Freshmen in the history of the institution. It is true that where so many are gathered, coming as they do from country, village, and city, you will find a very green bunch. It is also true, however, that under the direction of able and well trained teachers and upon hard work on the part of the pupil, it will be only a few months until all this greenness will be fading and they will be shining out next year as bright Sophomores.

Judging from their work for the past few months, and realizing the difficulties which arose from the organization and demobilization of the S. A. T. C., one would not think that these people were Freshmen. Yet this is to be the Class of 1922. We have already furnished material for the Tiger team, and for some of the best literary work in the institution. We realize that there are many disadvantages and difficulties confronting this class; but with determination on the part of each member, and working under our motto, "Green, but Growing," we ask that you only wait until the spring of 1922, when we shall appear in cap and gown with all the greenish hues and tints faded away, and the real dignity of Seniors taking their place.

## The "Preps"

When Woodrow Wilson began to advocate "preparedness" a number of high school students searched the world over for a college in which they might prepare themselves to meet their country's need. After careful consideration they decided upon Ouachita as being the very place for such a preparation. When they matriculated they were not surprised, for Ouachita revealed to them a vast field of knowledge in which to labor. Some of these students decided that foreigners had come to Ouachita to put the finishing touch to their knowledge caps.

As the days passed Ouachita looked at these little "preps" and said: "Tall oaks from little acorns grow," and a few years from today these "preps" will compose my Senior Class of geniuses.

## The Corinnean Literary Society

THE Corinnean Literary Society the second daughter of Ouachita's literary society family, was named for Corinne, the beautiful heroine of the Madame de Stael's book of that name, who in turn, was named for Corinna the Grecian poetess, famed as a goddess of beauty. From her christening the Corinnean Society has endeavored to emulate her god-mother in becoming the spirit of glorious, beautiful womanhood.

The society was first organized merely as a training school for the other older and stronger society, but by developing the literary, artistic and social tastes of her members she soon outgrew her position as a mere training school, and stood on her own merits. The girls entrusted to her motherly care became so devoted to her that they could not leave her and when they reached their Junior year were allowed to remain when they declared "Once a Corinnean, always a Corinnean."

Mrs. Estelle McMillan Blake, beloved by all Ouachita students, was her first governess, and Mrs. Fordyce then Miss Cay Dale was her first president. Then she has always had the protection of her gallant brother Hermesian who like a true elder brother has shared all her sorrows and joys, and stood by her in every way.

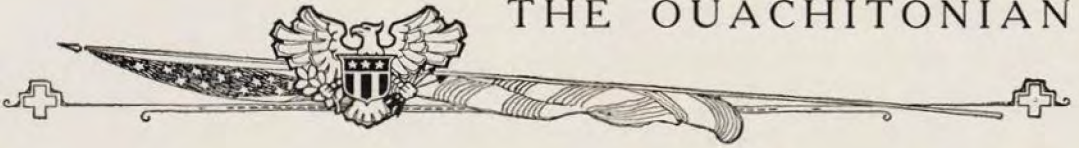

In the twenty-nine years of her existence she has accomplished a great deal along many lines. Especially during the past year have her activities been varied, and in patriotic work she has always been a leader. Many girls have been made better by her wonderful influence and have been led to strive ever upward and onward under the red and white banner of "Purity and Womanliness."

Corinnean always carries with her, her own chosen flower, the radiant Easter Lily and the high influence of the pure woman has mingled with the fragrance of the symbolic flower which throws out its sweetness upon the world through the lives of those who have dwelt within her beloved halls.

CORINNEAN LITERARY SOCIETY

## The Hermesian Literary Society

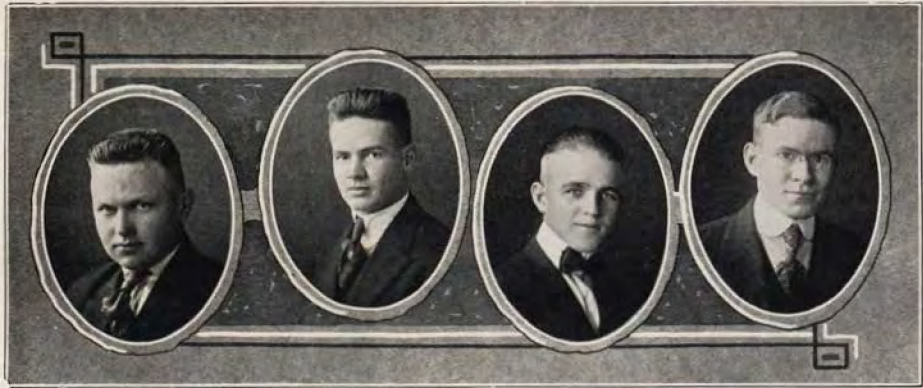

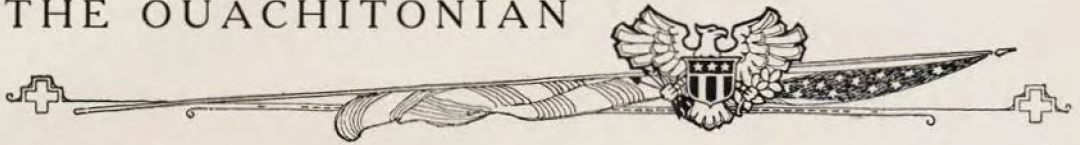

HIS Society was formed along with the Philomathean out of the old Adelpian Circle in 1888. Since its organization, this Society has always stood on the "Rock of Right Living," fighting everything incommensurable with its sense of justice, grasping every opportunity for advancement, and living up to its motto "Nil Cedendum."

Hermesians excel on the Athletic Field. Looking back over the records of Ouachita's teams we find that the large majority are Hermesians. On the drill ground the Hermesians are always at the head. We boast of Orators and Debaters of no mean ability.

Not only in College are the Hermesians to be found at the front but on the battle front as well the Hermesians have been well represented. And in the business, social, and political world the motto "Nil Cedendum" has carried many of Ouachita's old students to the top. It is not necessary to point out the successful men who have had their training in the hall of Hermes. The past is brilliant, the present is vigorous, and the future—well "Nil Cedendum" is their motto and "By their fruits ye shall know them."

Never during the history of the Alpha Kappa Society did such an enthusiastic host of workers throng the halls as at the first meeting held September 21, 1918.

On entering the hall the members were greeted by Miss Katherine, our excellent president, and a host of old members. Miss Walker in addressing and welcoming both old and new members, expressed her earnest desire to see the society grow and develop as never before. With the hearty co-operation of all members her desire has been fully realized. It seemed that each member during such times of strife realized her duty and responsibility and has met nobly the demands and duties thrust upon her. Never before in the world's history were trained thinkers more in demand than at the present time, and one of the places to secure this training is in the Alpha Kappa Literary Society.

The Alpha Kappas have been doing great things this year. First, we enlarged the Endowment Fund of Ouachita College, and at the same time were patriotic by buying a Liberty Bond.

Then came the despairing cry of the French orphans. This cry was met by a quick response, the Alpha Kappas pledging themselves to adopt a little girl and a big boy.

The Alpha Kappas have the reputation of doing everything they set out to accomplish. They are not afraid of work and some of the best work expended is the work for the society.

ALPHA KAPPA LITERARY SOCIETY

## Philomathean Literary Society

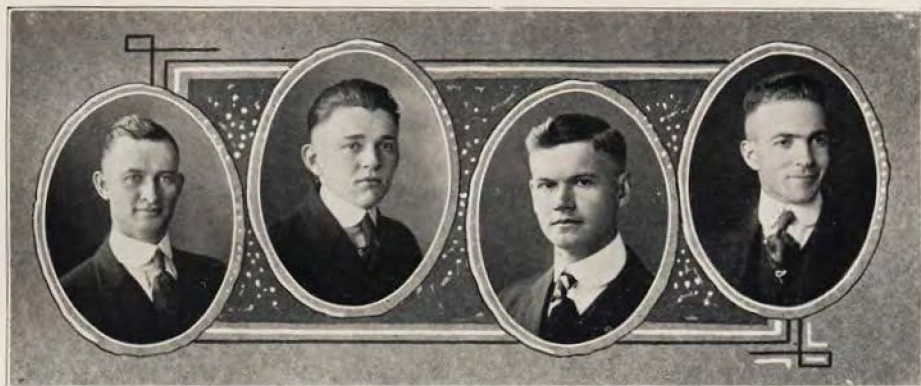

This has been an unusual and yet successful year for the Philomathean Society. It has been a year in which to show the unflinching spirit and untiring zeal of our members. Supposed obstacles seemed to face us at times, but never once has the Orange and White yielded to them. The "Home Fires" were kept burning from September until May. Despite the conditions made by the S. A. T. C., we continued our meetings, and before the year had closed, everything was above par again. Philomathean spirit can never be killed.

The Philomathean Society offers the best literary training in Ouachita. For thirty-two years it has done so, and bids fair to continue to do so under the incomparable motto, "Unless what we do is useful our glory is vain." Philomatheanism becomes life itself. Both the Philomathean Society and its excellent training are without peer.

This article would not be complete without some mention of our work and records this year. As introduction it would be well to notice that two of our Faculty are old Philomatheans. The first debating team is composed of Philomatheans. The President, Poet, Historian, and Orator of the Senior Class are Philomatheans. The Editor-in-Chief of the Ouachitonian is a Philo. Three presidents of the Ministerial Association are Philos. All officers of the Debating Council are Philos.

We were not able to celebrate our regular Oratorical Contest victory on Thanksgiving because of war conditions, but the Philos challenged for it later, having full confidence in their orator, Mr. Fuller.

## Debating Council

The Debating Council is now one of the best organizations connected with the College. For many years it was little noticed and was not even mentioned among the other organizations in the College but much interest has been added to the work done in this council.

Its purpose is, First, to have control and management of all Inter-Collegiate debates, and Second, to create among the students of the Institution a more thorough knowledge and greater appreciation for first class debating.

Much interest has been added to the latter by the addition to the English Department of a thorough course in Argumentation and Debating.

The Debating Council is composed of members of the student body and one faculty representative, Prof. C. C. Lemon. The council has instructive and profitable business meetings and anyone failing to join the Debating Council fails to join a very valuable and beneficial organization.

### Inter-Collegiate Debates

The outlook for Inter-Collegiate Debates this year is much better than at this time last year. Last year we had only one debate, that with Louisiana College over whom Messrs. Fuller and Mizell again won a unanimous victory.

This year we have already arranged for three debates and selected as many teams. The places on the first team were given to Messrs. Fuller and Mizell, by virtue of their having been on the team for the past two years. The members of the second team are Mr. Blaylock, who was on one of the teams last year, and Miss Dexter Rivers. This is the first time in the history of the College that a girl has won a place on the debating team and the Corinneans are indeed proud that they were the first to furnish such material. The third team is composed of Messrs. Hall and Hinson.

The debates already arranged are with Baylor University, Waco, Texas; Union University, Jackson, Tenn., and Louisiana College, Pineville, La. It has not been decided which of the debates will be held here, but wherever they are held we have confidence enough in our representatives to believe that we may expect another victory from each of them.

OUACHITONIAN STAFF, 1919

## Joys of the Staff

HAVING been bequeathed the gracious privilege of portraying to our friends and acquaintances the joys that come to the members of the Ouachitonian Staff, we take an opium pipe in mouth (in order to make it as vivid and yet as painless as possible) and by a concentrated effort, we float off into the land of dreams.

We float into our new realm with no remembrance of the present world except that war prices still prevail. We enter our final year at our Alma Mater with a keen desire to be first in everything especially our courses. We make a resolution embracing this desire and swear our allegiance to it. We begin our respective courses and in two or three weeks by dint of hard work and sweat of the brow, begin to ascend the ladder to fame. But alas, out of a clear sky falls a thunderbolt; the Ouachitonian editor-in-chief gets up in chapel one morning and by clever use of the English language brings us to tears about our own negligence in beginning the task set before us, bringing us quickly to life, by striking us on the head with a sledge-hammer which contains the information that the 1919 Annual will cost twice as much as in former years. He struggles manfully to stand up and explain that he speaks of the wholesale and not the retail price of the Annual, but his weak voice cannot be heard above the groans of pain that come from the student body, and he is finally forced to take his seat in oblivion.

Next day it is announced from the platform by a shrill voiced pedagogue that the Ouachitonian Staff will meet at one o'clock in the "BIBLE ROOM." We are dumfounded—think friends—a Ouachitonian Staff meeting in the "BIBLE ROOM." The most pessimistic and religious of us declare it sacreligious and we all go to our rooms and respective classes with blank and solemn faces.

Notwithstanding our thoughts we persuaded ourselves to meet at the agreed hour and we all are present—except the Editor-in-Chief. We wait patiently until two minutes after the afternoon session is supposed to start, and in he comes breathless and hatless and tries hastily to explain to us that his better half insisted that he dry the utensils used at the noon-day repast, and he being of a kindly nature could not resist the—command. He settles down to business at once and—the gong sounds, and we are driven from our retreat by a long robed P. H. D., D. D. D.—p. d. q., with proteges of various heights and shapes following at his heels. Above the uproar we gather from the Editor-in-Chief, who by this time is on top of the pulpit, that the meeting is abandoned until further notice.

Things pass rapidly from this moment, we have our next meeting and each editor of the various departments is full of ideas, "mostly undeveloped." They rise with one accord in voting a better Annual than any of our predecessors. Our work begins to take shape from this moment. The business manager schedules a sunshiny day for the picture making. We assemble the student body and the occasion is a decided success as all students have on their best duds. We take the "Preps" with a background of green; the

"Freshies" with their God-Mother, Mrs. Blake, the "Sophs" with their cute remarks, the various classes and clubs with their various peculiarities; and still the world turns 'round. As each gang is "coralled," to be struck we have to laugh at that very funny joke about "Breaking the Camery," no less than a thousand times, in order to keep the group in a pleasant mood and give the picture as much human-like atmosphere as possible.

After this eventful day we have meeting upon meeting, called by our Editor-in-Chief. There is no longer harmony in our circle. The business manager can get no adds, and is peeved at the world in general and, it seems the rest of us in particular. The "Amusement" Editors declare there is nothing amusing to be found in college. The Assistant Editor thinks he has the same duties as a vice-president, and therefore does nothing. The Athletic Editor is an athlete and is against giving space to anything except athletics. The Faculty Editor takes the "Flu" and cannot perform his duties, and so we go on and on.

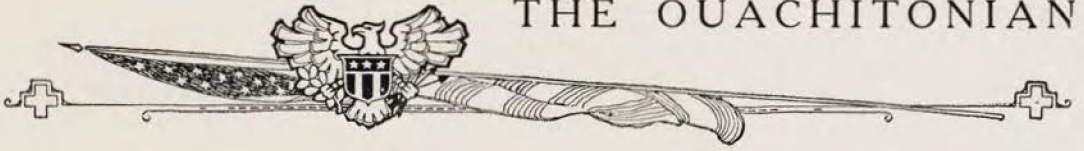

The time draws near when the Annual should go to press and none of the write-ups are in. An investigating committee is appointed from the staff to find the guilty persons who have neglected to write up their various organizations. They are at length all cornered, and made to work at the point of a bayonet. All the various write-ups and what nots, pour in on the staff about two days before they are supposed to be shipped. The Editor-in-Chief is swamped and clutches at the only straw, by dividing the work up among us all. We dive into it heels over head and we copy, group, and write until we are sure that we ourselves have begun the edition of the "World War," to be finished in one night. We all survive the task, however, and assemble next day to complete the "dummy" and get it off on the afternoon mail. We succeed and everyone is in high spirits. Oh, isn't it glorious to breathe the fresh air again with no burden upon your mind.

But a new menace presents itself. Each student seems to think that each of us is an information bureau, we are all swamped with questions of the following nature. "Is the Annual large or small this year?" "Has the Government lifted the restrictions on paper?" "Why do they cost so much?" "Is my picture any good?" (To which we answer cheerfully, "No" its just like "YOU") "Didn't you forget to give me my receipt for my subscription?" "Was my hair parted right?" "Did you notice I moved in our Freshman group?"—and Oh, my—? a thousand and one other things and questions whom only the All Highest could answer. We envy the bruin in his state of hibernation, and get relief only when we stop our ears with corks.

We go to bed one night with a weird feeling in our heads. We roll and tumble and dream—yes we dream that the "Ouachitonian" has returned and is a huge success. Yes, someone is knocking at the office door to deliver them—no that is not knocking at the door—we are puzzled, stupified, we try to collect our senses and by a last supreme tussel with our mental faculties we throw off the spell of opium and float back to earth again. We find, however, that the opium pipe has done its work; it has carried us through the trials and tribulations that present themselves to the editorial staff of an annual. We are grateful to the Chinaman for the lesson he has taught us about the use of opium—and though we may be dope fiends the rest of our lives, we congratulate ourselves on being alive—because surely it is better to be alive in this world than to be clothed in a wooden cloak, with an epitaph of failure holding down our heads.

## The Signal Ripples

THE Ouachita Signal Ripples, in the new form of weekly paper, is two years old. Last year, the first year of its life, was a successful one. It promoted the interests of the societies, worked out plans for the development of the classes, offered prizes for literary production and formulated programs for certain features of college activities with remarkable results. It told the news while it was news always.

The paper cost nearly \$1,000 for the year, every cent of which was paid for by subscriptions and advertising and by sale of extra issues to the college for advertising purposes. There were 214 paid subscriptions from students in societies and out and from friends over the State. Many letters came to the staff during the year showing appreciation of the work of the editors.

This year the standard set by the staff of last year has been raised. By way of experience the progress upward has been made. The number of subscriptions was raised by the persistent efforts and close work of the Business Manager and his assistant. The reporters and editors have gone about their work with such energy and skill that each paper has shown marked ability. Last year, by the influence of the paper's plan for the endowment more than \$1,000 was raised and put into the hands of the endowment committee of Ouachita College. This year the plan has been adopted by the Baptist Advance with the result that the amount raised has gone on up into the thousands. This year the paper has been able to devote its columns to other matters of importance.

Toward the first of the year a new editor-in chief and a new business manager were elected to take the places of Hermesian, Editor-in-Chief Thomas Watts, Jr., and Philomathean Business Manager, Wm. H. Berry. These men went into the Students Army Training Corps. The Hermesians asked the Corinnears to elect the chief editor. At once Miss Dexter River was promoted to the important and influential position.

She has piloted the paper along a highly successful way. Ellery Hinson was elected business manager, and his work has measured up to a record-making mark. Who follows him will have to hustle. Maurice Hall was made a reporter to take the place of H. A. Zimmerman, who had to leave college on account of sickness.

The influence and force of the paper among the societies and in the college can not be over estimated. The work which the editors and managers do, finds rich compensation in experience. There should be 500 subscribers next year. The paper deserves no less.

The Baraca Class has had the largest enrollment this year that they have had for many years. When the S. A. T. C. boys came to school in September, the class increased its membership to more than sixty. These were not men of just the common type, but men of character and men who were worth a great deal to the class. Some of these were dropped from the active roll after the holidays as they could not remain in school, but a large number remained and continued their work throughout the year.

Professor Charles D. Johnson has been an able teacher, and his life has been a Christian example. In his teaching he is conservative, but his methods are varied and progressive. Along with the spiritual lessons brought to class on Sunday morning, he has shown an originality commendable to all. We will stand by him for the love and respect we have for him.

The Baraca Class is one of the greatest organizations connected with the school. Within the walls of this room there is created a fellowship in the hearts and lives of its members that is never lost. The aim of the work is to satisfy the thirst for spiritual knowledge and create and develop within each member a strong Christian character.

The Berean Class began the scholastic year of 1918-19 under new conditions. In the first place a new teacher had to be found to carry on the work which Miss Storts had been compelled to lay down. Then the S. A. T. C. and the influenza epidemic brought about new conditions and new problems. The boys in the barracks were kept from attending Sunday School for several Sundays on account of the influenza quarantine, and this had a more or less demoralizing influence upon the Berean Class. The average attendance of the class has increased appreciably since the Christmas holidays.

While we had to give Miss Storts up, and we did so very reluctantly, we are very glad to have Professor Lemon to take her place. He is faithful to the work and his talks are always helpful.

The Berean Class has always been and will ever continue to be a power for good in Ouachita. We believe it will endure as long as the church and the college, to which it is so closely related.

The fact that this has been a most profitable year for the Philathea Class is partly due to the regular attendance and interest shown by each member, but largely to our competent teacher. Professor Haggard has been untiring in his efforts to raise the standard of the class. He is always in his place, making each lesson interesting and instructive.

The Euzelian Sunday School Class was organized several years ago, and although only a few of the old members are back, this year has been one of the best years of the class. The new members have shown much interest and enthusiasm, and the teacher, Mrs. I. W. Cook, has made the lesson very interesting and instructive.

### Dikonian Sunday School Class

The Dikonian Sunday School Class organized again in September with Professor Arnett as teacher. The class has been doing active work, and early in the year was recommended as a teacher's class by the Workers' Council of the church. The officers for the year were:

The Meador Mission Class was organized three years ago. One of our aims has been to prepare ourselves for teachers. Since our very competent teacher, Mr. B. Meador, has become superintendent, we have had some difficulty in securing a teacher, but we are hoping to find one who can fill his place. Until we do, we are appointing girls from the class each Sunday to teach the following Sunday. In this way we get some helpful experience.

Our class is supporting a foreign missionary this year. On the whole we have done good work, but we are looking forward to a greater and better work in the future than we have done in the past.

The Fidelis is an organized class with Mrs. McNutt as teacher. The success and interest of this class is due mainly to the instruction and leadership of our teacher. We now have enrolled twenty members who are eager to make this one of the strongest of the Sunday School classes. With the aid of our teacher and spiritual director we hope to make the work of the future far surpass that of the past.

Perhaps there has never been a year in the history of the Y. W. A. when it has accomplished so much. A greater number of the girls have taken part in every phase of these weekly meetings than ever before. As an organization and as individuals the aim has been to do good to some one else. In this they have touched many lives.

The contribution to State Missions was \$38.00. The schemes for foreign mission collection were quite successful. The little Chinese worker climbed to the top of the ladder, indicating that a fund of \$30.00 was ready to start to the Chinese worker, and now the little Chinaman is well on his way up the ladder again for the Chinese helper. The study classes, programs, our Bible quizzes, have kept the girls full of interest in the Y. W. A. In addition, we can mention the social side of this organization. During the time the girls were under quarantine the Y. W. A. came to the rescue with an afternoon tea. The Faculty started a collection of cups which is being added to by the girls. When this collection has increased sufficiently another social is promised.

We pray for many more, even better, years for the Y. W. A.

The Sons and Daughters Association which was founded in 1916 is an organization composed of the students whose parents, one or both, attended Ouachita College. Much praise is due Mrs. E. M. Blake, by whose efforts and interest this organization was formed. Since this organization was formed, not only has it grown in membership, but also in spirit and enthusiasm. We are justly proud of their parents, who, seeing the good in Ouachita, sent their sons and daughters to us.

## Ministerial Association

The Ministerial Association was founded to meet a specific need, and because it has met that need it will endure. It is as permanent as the college of which it is a part. The aim which the association has in view may be stated briefly as follows: to bring about a closer fellowship between the ministerial students, to develop in them a deeper love for the Master, and to prepare them for more efficient service.

Despite the fact that the Association has not now so large a membership as in former years, it has, nevertheless, accomplished a noble work. Its Thursday evening meetings have always proved distinctly helpful to its members.

We appeal to the young preachers in their earnest enthusiasm as well as those whose ripe consecration is a mark of many years of faithful service. We ask all interested friends, and especially those who share with us the high calling, to remember, also, the words of the Master: "The harvest is plenteous, but the laborers are few; Pray ye therefore the Lord of the harvest, that he will send forth laborers into the harvest." (Matt. 9:37-38).

"All the world's a stage," and the members of the Dramatic Club have for their aims the development, first, of the individual student and, second, the development among the students of an appreciation for real dramatic work. This has been done and is still being done in Ouachita by the giving of such plays as "Much Ado About Nothing," "The Servant of the House," etc.

This year most of the time has been given to short plays. Much good is coming from this kind of work. We are planning to give "Every Woman" as the Commencement play.

## CHIBBY CHEATHAM, *Quarter*

"Chibby" Cheatham came to us in 1915 from Fordyce High School, and being a "natural" athlete soon became a star. This is his fourth year on the team and was a fitting climax to four years of successful football. "Chibby" is known throughout the entire South as one of our leading "Backs" and is recognized as the most "Thrilling" and "Sensational" player in this State. This is "Chibby's" last year with us and when he shall have finished his football career elsewhere we feel sure that he may write in golden letters, high upon the athletic wall of fame the word "Successful."

## ROBERT COWGER, *Tackle*

After wandering around the State and going to various schools for about three years, Cowger came to us in 1917 in time to fill a big gap in the Jennings line. He stands 6 feet 3 inches and has no sympathy nor pity for the opposing linemen. He played guard for us in 1917 and was promoted this year to tackle on the opposite side from Captain Abraham. Thereafter, his side was never imposed on because of weakness.

## CAPTAIN JIM ABRAHAM, *Left Tackle*

This is Captain Abraham's fourth year on the team and despite the fact that he was a star with the famous Jennings machine of 1915, there is no doubt but that this was his most successful year. Standing six feet one in his stocking feet, his prowess is felt by the opposing line, and his equal as an all around football man is seldom seen in college football.

### OTIS GALLOWAY, *Fullback*

Although comparatively low in stature, Galloway is made on the "made-to-measure" plan of all Fullbacks. He is a hard man to hold, as he has a very wicked habit of squirming loose at the right time. He is an exceedingly good defensive man and has an art of stopping up holes made in the line by the opposing backs. He is all-state material and no doubt, by the time he takes his degree he will have made his place on the "Mythical Eleven."

### COY SHUGART, *Center*

Shugart came to us as an all-state high school man from Arkadelphia High in 1917. He played through the season of 1917 in his o'd position as Center. He soon won for himself the name of being the most accurate passer and best offensive Center Jennings had had in several seasons. So to speak, his work mellowed with age, as his work this year at Center was extremely pleasing to all.

### MONEY PERDUE, *Right Half*

Although a midget in size, Perdue is a veritable flash on the gridiron. His clever foot work gained for him the reputation of being one of the best offensive men in the State. His work on the defensive is none the less brilliant, as he is, without doubt, one of the fiercest tacklers of his calibre in the collegiate division of the State.

## "CHINK" DEWS, *Guard*

Chink was a Tigrette in 1917 and was advanced to the first team this year, after having put the "Hookworm" to route. He played guard in two games and exceeded the expectations of all in his good work. Chink has two years more in school and will, no doubt, make Jennings a good line man before he takes his degree.

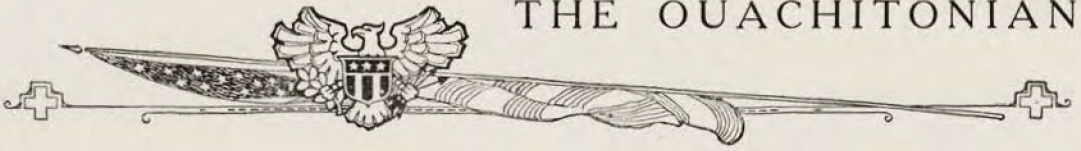

## DEWEY TOLLET, *End*

Tollet broke into the lineup the last game and gave a good account of himself. He has a football head and will make Jennings a good man before he has finished his course in Ouachita. He played a good smashing style of end in the game played and thereby, found favor in the hearts of all fans.

## "ARMY" WILKINS, *Halfback*

Army is the style of backs that makes the opposing bones crack when he hits. He is a sure tackler and a man who is always on the job. He runs a smashing style of interference and never fails to get his man. This is his second year on the team and he will, no doubt, be an all-state man before he leaves school.

## WALLACE REYNOLDS, *End*

Reynolds hails from Lake Village High School. He broke into the limelight by playing end for the Tigers the last game. He played a good defensive game and also is a good man on the offensive. He has a bright college football career before him.

## "PEN" PENNINGTON, *Guard*

Pennington came to us from Crosset High where a football game is a rare article indeed. He, however, did not hold his school's reputation, for when material was called for, he readily joined the colors and made a good man. He is young and strong and will make a valuable asset to the Tiger machine if he remains in school.

## "RED" PHILLIPS, *Guard*

Although Red had had little football before he came to college, he was an adept pupil and soon learned the art of knocking "em" down as they came by. He played Guard in the last game and is a good hard working man.

## JOHN WEPFER, *End*

Wepfer came to the Tigers highly recommended from the Castle Heights "Prep" school of Lebanon, Tennessee. He is a good fighting End, and had he not been forced out of the game on account of a weak ankle, he would have given a good account of himself. He played one game at End for the Tigers and demonstrated to the fans that he has the necessary fight which goes toward making a good End.

## JAKE LOWMAN, *Guard*

Jake came from Cabot in 1917 and although he had played no football before he came here, he took kindly to the manly sport. Under the watchful eye of Jennings, he soon developed into a progressive lineman. Jake was lost to us during the first game this year on account of an injury, but his playing during that part of the game in which he played, showed us that he had not forgotten the art of blocking and tackling which he learned well in 1917.

## LUCIAN ABRAHAM, *Guard*

Lucian was graduated from the High School division this year and upheld the Abraham reputation by playing with the Tigers his first year in school. He is but sixteen years of age and will, no doubt, before he leaves us, make us a good man.

## ROBERT ROWE, *End*

Rowe is a good, strongly built man and handles himself well on the field. He played High School football before he broke into the Tiger line-up at End and will, no doubt make a good man before his race is run at Ouachita. He has three more years in school and we are counting on him to help uphold the Tiger's tail in seasons to come.

## JOHN DUFFIE, *Guard*

Duffie has the build of a regular football player and he does not deceive his looks. He played his initial game at Guard for the Tigers and showed his ability to handle himself, as well as to oppose the linemen with a huge degree of satisfaction. He was forced to retire for the season on account of a slight injury, but we are looking for him back with us next season at full speed.

## Review of 1918 Football Season

BECAUSE of war conditions, the 1918 football season at Ouachita was very brief. This, however, does not foretell an unsuccessful season for such was not the case. On the contrary the Tigers went through the 1918 season covering themselves with glory. But two games were played, the first in November with the strong Pike Base Hospital team piloted by Schulkin (an all-western man in '17 with Iowa State University) resulting in a victory for the Tigers by a 19 to 6 score. The second and last coming in December—with the 112th Ordnance Company of Pike, which resulted in another victory for the Tigers by a 39 to 0 score.

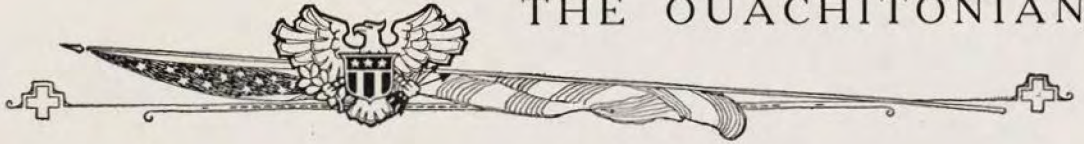

Our easy victories over these two Army teams showed that the Tigers had lost none of their footballism and it was with anxious eyes that they surveyed the various colleges in the State for further prey, but all to no avail. Negotiations fell through by no fault of ours. All of the other supposedly strong college teams including Hendrix, Little Rock College, and Jonesboro were challenged but without result, the first two claiming to be members of a State High School association, officered by High School men, and the latter being without a team. No attempt was made to entice the "Reddies" from across the ditch into a game because of the fact that athletic relations with our fellow-town collegians were discontinued when they refused to meet us in 1917.

Although unable to lead any of the State Colleges into a contest it could easily be seen by comparative scores that the "Tigers" were the class of the State. The Army and Navy Team of Hot Springs defeated both Hendrix and Henderson Brown teams and they in turn were "trimmed" by the Pike Base Hospital Team. The Tigers trimmed the Base Hospital eleven in their first game notwithstanding the fact that they had practiced but one week. Little Rock College defeated both the "Reddies" and Hendrix by seven and one points, respectively. The Tigers had a "seven touchdown" on each of these teams and therefore have plenty of argument when they boast of the strongest team in the Collegiate division of the State.

This "dope-pail" however, is not the mode nor the method of the Tigers; as has been shown repeatedly by their long string of victories over the Colleges and Universities which they have encountered both in and out of the State. It is referred to only when prospective opponents take shelter behind this or that protruding bush and refuse flatly to meet us on the gridiron.

Although the 1918 season was brief indeed it can easily be added to our long list of State Championship years in the Collegiate division.

## “Topsy”

OACH Morley Jennings began his athletic career at Albion, Michigan, in Albion High School in 1905. For three years he was a high school star in the State of Michigan; taking part in and playing a leading role in football, basketball, baseball and track. He graduated from Albion High School in the spring of 1908. The following fall he went to Albion College and began to “shine” in College athletics from the first. He was a star on the diamond, playing shortstop and pitching whenever needed. On the gridiron he made a reputation as a halfback which made him well known over the State of Michigan.

He remained out of school the fall of 1908 but resumed his studies at Mississippi A. & M. during the following winter term of 1909. He immediately came into prominence by being elected captain of the basketball team, on which team he played forward and led in the assault and victory over other teams in the S. I. A. A., including Alabama and Georgia Tech., Vanderbilt, Sewanee and several others who boasted strong fives.

As basketball was just coming into its own “Topsy,” as he had been nicknamed, was allowed to play at Mississippi A. & M. during his first year, but the following spring he was not allowed to take part in baseball or track, which already had a firm foothold in the S. I. A. A. because of the first year rule. The years of 1910-1911-1912 were eventful years in “Topsy’s” life. He played halfback for the A. & M. for two seasons on the football team, and made for himself a name which went down in the S. I. A. A. halls of fame for keeps. He was known as one of the most versatile backs in the South, a man hard to down, and harder yet to catch if ever in an open field. He was picked as a halfback on the all-Southern team (S. I. A. A.) of 1911 by most of the leading southern newspapers and without doubt deserved it.

“Topsy” was none the less conspicuous in other forms of athletics, playing forward on the basketball team, shortstop on the baseball team and running the 220 yard dash, the high and low hurdles, putting the shot and throwing the hammer and discuss in track. In the S. I. A. A. meet at New Orleans in the spring of 1912 he won first place in the high and low hurdles, second place in the 220 yard dash, and first in the discus, winning second place in the individual honors.

In the spring of 1912 he graduated from Mississippi A. & M. and came to us as our coach and athletic director in the fall of the same year. Up to the time of his arrival in Arkadelphia the “Tigers” had not had the best athletic teams in the world, but from that very moment their stock began to rise and has been on the incline ever since. “Topsy” has from that day put out teams in the various departments of athletics that struck terror to the hearts of the leading Colleges of this State. He has won many championships with his athletic teams and his peer as an athletic director would be hard to find in the South.

Besides being a “superb” athlete “Topsy” is somewhat of a mathematician as well as a dramatist. Because he is a mathematician he is head of that department in Ouachita. He is a dramatist—well because he has captured the heart and hand of one of Ouachita’s most fair and beloved daughters and now is the head of the family of three which resides peacefully in the little city of Arkadelphia, Arkansas. No friends, this is not his epitaph, but merely a statement of his athletic career “topped off” with a taste of peaches and cream.

## Jokes

Mrs. Blake—"Ruth, if you had more veil on your hat, you would be real pretty."

\* \* \*

Monroe—"I was over to see her last night, when someone threw a brick through the window and hit the poor girl in the side."

Lynn—"Did it hurt her?"

Monroe—"No, but it broke three of my fingers."

\* \* \*

There was a little confusion—Sergeant Newton called out—"Corporal of the Squad, where is your rear rank?"

Corporal—"Here it is in front of me."

\* \* \*

It was rumored that during the first cold weather, "Chink" Dews had to sleep with his cap on to keep from taking cold."

\* \* \*

Free beauty hints from one member of the Faculty among "The girls that our boys married over there."

\* \* \*

Use only one ostrich plume on a beaver hat.

\* \* \*

Notice especially the length and number of skirts.

\* \* \*

When eyebrows are like cotton slightly tint them.

\* \* \*

Do not wear a blue middy blouse on a great occasion. It isn't proper.

\* \* \*

Be careful where you sit.

\* \* \*

Cupid—"Isn't it exciting to have an engagement ring?"

Emma Jean—"It isn't nearly as exciting the first time as it is the second."

\* \* \*

Mr. Ware—"We had two good dictionaries in the library but Fred and Stella wore them out using them for a postoffice."

\* \* \*

Mr. Johnson—"What did Juliet go to the window for?"

Vega—"To get some fresh air."

\* \* \*

Wiley—"They go wild, simply wild over me. Ain't it so?"

# THE OUACHITONIAN

Louise Finger as music critic of C. L. S.—“Miss Smith’s piece was good. We enjoyed it. Besides it was such a beautiful piece.”

\* \* \*

Elizabeth McMillan—“Why aren’t there any c’s in German?”  
Mr. Haggard—“England has control of the C’s.”

\* \* \*

“Chibby” Cheatham—“Squads right!” Changing his mind, “as you is.”

\* \* \*

Mr. Zellers—The spine is what keeps a man from being a jelly-fish.

\* \* \*

Mr. Lemon in Biology—For what purpose does one bite food?  
Jim Abraham—To get a mouthful.

\* \* \*

Prof Johnson—This influenza is trespassing on the rights of our students. They can’t study.

\* \* \*

Prof. Haggard—When I was a little tow-headed kid, I didn’t know any more about a grammatical subject or logical object than a pig does side pockets.

\* \* \*

“Did Solomon have seven hundred wives?”  
Dr. Croxton—“Yes.”  
Perry—“Was he the man that said, ‘Give me liberty or give death?’”

\* \* \*

One day last week while it was raining a buzzing noise was heard.  
“Listen don’t I hear an aeroplane?” said some one.  
Elsie—“Yes, yonder it goes. It’s got on a raincoat.”

## ARKANSAS' LARGEST MANUFACTURING ENTERPRISE

This institution is helping to feed the world. Our business in 1918 was over \$6,000,000.00, and notwithstanding the fact that being the largest manufacturing enterprise in Arkansas, this is an institution with a soul bent on serving mankind.

We employ more than 500 men in Arkansas, and each man is taught that our slogan, "The Heart of the Grain Plus the Art of the Brain," is a real, vivid manifestation of the vital force behind this business. Every employe knows that the success of this institution is reflected individually in the success of each individual. Last year we paid out practically a half million dollars in wages, salaries and dividends. We gave every employe of our grain department 10 per cent of their last six months' wages in war savings certificates.
