This Conference Proceeding is brought to you for free and open access by the Carl Goodson Honors Program at Scholarly Commons @ Ouachita. It has been accepted for inclusion in Scholars Day by an authorized administrator of Scholarly Commons @ Ouachita. For more information, please contact mortensona@obu.edu.

Discovering Historical Data In Clark County

Sociology of Research Methods

Introduction: Learning how to conduct studies using ARC GIS mapping, enabled this class to gain a new perspective of the historical significance of Clark County. Becoming educated in this software, along with obtaining a deeper knowledge of the history in Clark County, has enabled integration and appreciation for the community and higher learning.

History of Clark County: Founded on December 15, 1818. This was the third county formed by the Americans in Arkansas. Named after William Clark, the Governor of the Missouri Territory.

The Hoo Hoo Monument of Clark County AR. Built in 1909 to honor the "International Concatenated Order of Hoo-Hoo", a fraternal group of Lumbermen. This group was founded in 1892 by Bolling Arthur Johnson and five other men. Wanted to unite the lumber industry within the state to create a common ground of ethics and have communication with everyone. A black cat with the tail shaped as a nine became the emblem because they based their fraternity on Egyptian traditions. They chose the number nine based off of the commonly known saying "cat's have nine lives", and to illustrate the number of jurisdictions they had, communications, etc.

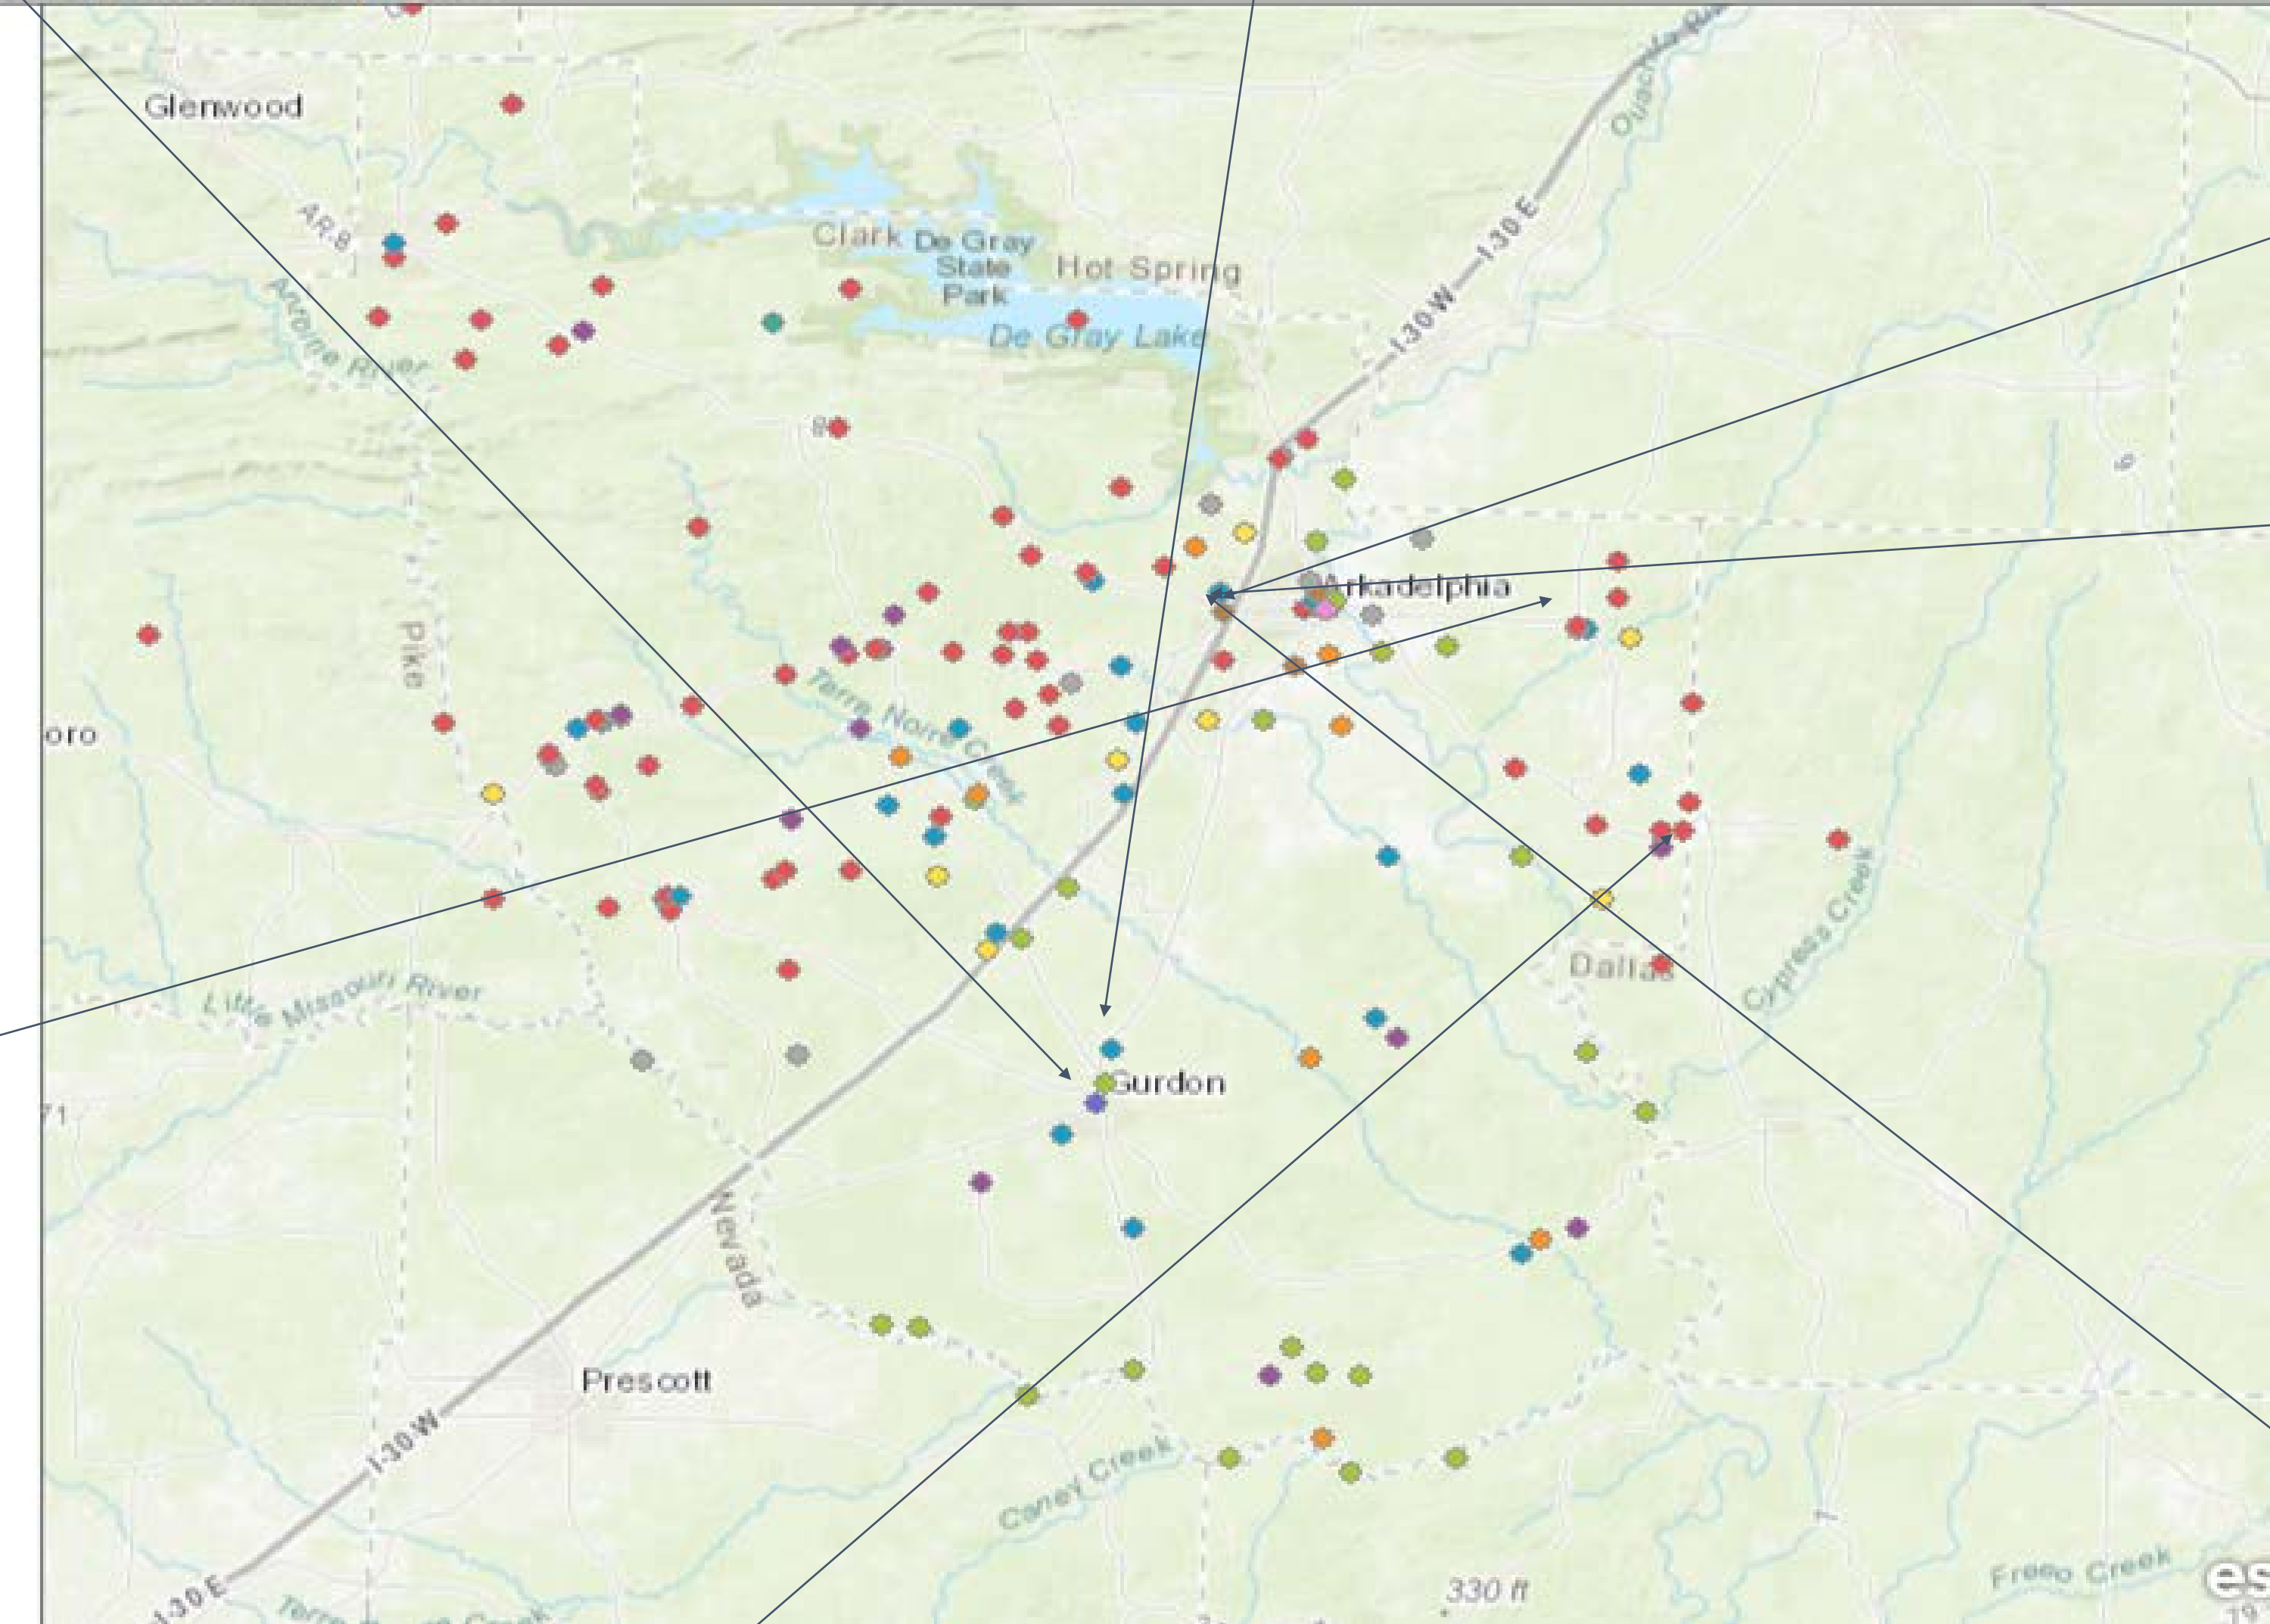

The Boazman House, Clark County AR. Built 1847 by Michael Boazman. One of the oldest structures in the County. Cost was \$1,500 and a slave". Used as a meeting place within the community. This family was involved in founding the Mt. Bethel Baptist Church. House was along the route of the Federal Army which marched through Clark County during the Camden Expedition. The original owners are buried behind the house, in the cemetery.
