Ouachita College.

Historical Sketch.

At the Arkansas Baptist Convention at Fayetteville in 1883, Ouachita College received its first impulse. It was then decided that such a college was a necessity, and a commission was appointed, with R. J. Coleman as President, to agitate the question and to report at the next annual meeting of that body. They reported to the Convention in 1884, at Pine Bluff, stating that the suggestion met with almost universal favor, but they did not think the time had arrived to begin the work, and recommended that the commission continue its work another year. At the Convention of this body in Hope, in 1885, the commission reported that after another year's agitation many of the associations in the State had passed resolutions requesting the Convention to build the College, pledging their support. The commission suggested the selection of a board of trustees, with instructions to begin the work of locating and building the College. The board was selected by the Convention and properly organized.

After a thorough canvass had been made of the desirable places in the State for the location of the College, the historic grounds of the old Blind Institute, at first the property of the State, and afterwards converted into the Red River High School, crowning the eminence on the banks of the beautiful Ouachita River, at Arkadelphia, were chosen for this seat of learning. Nature seems to have fitted the place for the purpose to which it was dedicated. In July, 1886, J. W. Conger was elected President of the institution, with instructions to select his faculty and organize the College, and to prosecute all necessary work.

The College was duly opened September 6, 1886, with a faculty of six teachers, and with 100 pupils enrolled the first day, in the old frame building located on the present campus of thirteen acres. The old building was in bad repair, but the citizens of Arkadelphia contributed about \$600 for improvements. The first year there was an enrollment of 235 pupils, 60 of whom were non-residents. The main College building was begun in 1888 and finished in August, 1889. The old building was enlarged in 1889 and used as a Young Ladies' Home. This building was burned in May, 1890. The generous people of Arkadelphia immediately raised a subscription to begin the erection of our present beautiful Young Ladies' Home. It was begun in 1890 and finished in February, 1891. In 1898 the Conservatory building, valued at \$15,000, was erected. The Mary Forbes' Industrial Home was added in the summer of 1906, value of property, \$2,500. The President's house was erected in 1898. The Chemical Laboratory was erected in 1905, at a cost of \$5,000. The seven buildings and campus are estimated to be worth \$102,500; libraries, laboratories, furniture and general equipment of the seven buildings, about \$28,000; total valuation of the property, \$131,500.

Dr. J. M. Hart served as first President of the Board of Trustees and continued in office five years, ending in June, 1891. Col. M. F. Locke succeeded him and served as President until June, 1894. Hon. W. E. Atkinson was elected and served until 1899; Eld. C. W. Daniel was President one year, when Mr. Atkinson was re-elected and is now President.

There has been a net average enrollment during the past nineteen years of about 400 pupils, representing during this period seventeen different States. There have been 261 graduates from the academic schools, and 168 in the Con-

servatory of Fine Arts, making a total of 429 graduates of the institution. There has been a yearly average of about 40 beneficiaries, who have received tuition fees gratis, amounting to about \$1,500 per year.

Purpose.

It is a narrow and false conception of education that fosters the development of the intellectual side of man's nature alone. True education demands the symmetrical training of the whole man—physical, intellectual, æsthetic, moral and spiritual. It is only thus that the student can be best fitted for accomplishing the greatest good for himself and his fellowmen and for doing most for the glory of God.

Christian education, or the building of character upon the fundamental principles of the Christian religion, must be given by Christian schools,—the Book of Books must be placed above all others, and its truths taught both by precept and example. The atmosphere of the institution must be a Christian atmosphere.

We strive to furnish as broad and thorough training in literature, science and art as that given by purely secular schools, and yet under the best religious influences—in this is our superiority over the secular institution.

Founded by the Baptists of Arkansas, and fostered by their State Convention, Ouachita College is a distinctively Christian institution. Its aim is to teach its pupils to place culture above wealth; usefulness above social position; to soften the heart and guide its emotions; to broaden and strengthen the intellect; to so mould, under the best Christian influences, the character of its students that, when they go out from its walls, they will be prepared not only to meet and grapple successfully with the problems of life, but to do this as loyal servants of God, and thus become a blessing to mankind.

Ministerial Students.

All young ministers, irrespective of denominational affiliation, with proper credentials, will be admitted free of literary tuition fees. Aid in payment of board is given as far as possible. Before entrance, however, the Board of Ministerial Education must examine the credentials of those desiring aid and recommend their admission to College. Correspondence is solicited. Address Rev. H. L. Winburne, Secretary of Board of Ministerial Education, Arkadelphia, Arkansas.

Buildings and Equipment.

There are four handsome brick and stone buildings and three frame buildings on and near the campus. All College buildings are of modern architecture, well ventilated and lighted, and have steam heat.

All dormitory buildings are equipped with the latest improved appliances in the way of electric lights, hot and cold water, bath-rooms, etc.

The campus is situated on a high bluff, within a few hundred yards of the churches and business portion of the town. No college has a more beautiful location and more cheerful surroundings. The campus is shaded, has concrete walks, beautiful shrubbery, and a constantly active fountain.

Main Building.

The main building is 126 x 80, three stories high, and contains offices, chapel hall (55 x 65), library, reception hall, society halls, art studios, and class-rooms for the Literary and Business Departments.

The Young Ladies' Home.

The home for young ladies is the gracious gift of the people of Arkadelphia and their friends, at a cost of more than \$20,000. This building is 150 feet long, with a projection in the rear of 125 feet. It has corridors 14 feet wide, extending the full length of the building; three stairways; double parlors; reception halls, in addition to conveniently arranged bath and bed-rooms. The rooms are carpeted and the corridor floors are overlaid with linoleum. The building is heated with steam. The gymnasium for young ladies is on the third floor.

Conservatory Building.

This elegant structure is admirably arranged for its intended use. It fronts 144 feet, is 75 feet deep and three stories high. Here are located the office and lecture-room of the Director of Music, studios for five music teachers, and the spacious auditorium, which is elegantly furnished with over 600 opera chairs, pipe organ, etc., and the practice rooms of the Conservatory.

President's House.

This building adjoins the campus, and is occupied by the President's family, and by this arrangement the President is enabled to have general oversight of the College day and night.

Chemical Laboratory.

This is 40 x 60 feet, two stories high, containing on the first floor a general laboratory 40 feet square, with separate desks for 96 students, a shop, and library. On the second floor are two large recitation rooms, one with opera chairs seating 45, the other with tables for 30; laboratory rooms for physics and advanced chemistry, a museum with fine glazed cases and a private laboratory for the director.

Mary Forbes Industrial Home.

This Home was added in the summer of 1906. It was largely due to the generosity of Rev. W. A. Forbes and dedicated to the memory of his daughter, Mary. It is a large two-story frame building, directly opposite the President's house. This Home is for young ladies of limited means; they do their own housework and receive board at actual cost. Their tasks are so distributed that no one loses more than one hour a day, on an average. They have a Supervisor who transacts all business of the Home and has general oversight of the young ladies. The cost of board, including water, fuel and lights, has averaged this year \$5.58 per month. The Home has been a success and justifies the hopes of its founder. The College makes no discrimination among its students in anyway.

Application for admission to the Forbes' Industrial Home must be accompanied by a deposit of \$5 and satisfactory testimonials as to health, experience in housework, and good character.

Library.

About 7,000 volumes, for which a complete card catalogue is now being prepared, are at the disposal of the students. The leading periodicals, dailies, weeklies, monthlies, both religious and secular, are found upon our tables. The library is a work-shop, in which students are aided and encouraged to make the best possible use of available material.

Museum.

We are constantly adding specimens, more than \$2,000 worth having recently been secured. In all there are about 7,000 specimens illustrating the salient features of Geology, Biology, Botany, Physics and Chemistry. It is particularly desired to increase the collection of Geological specimens

and Arkansas minerals. Biological materials, such as skeletons, embryos and pathological tissues, both human and animal, are also greatly desired.

Apparatus.

Several thousand dollars worth of apparatus and laboratory material has recently been acquired, so that science courses offered are suitably supplied. The equipment is constantly being increased as new courses are added. A large part of this apparatus is built in the laboratory shops, the equipment of which includes engine, lathe with turret, milling machine, drill press, circular saws, and many small tools.

A direct current dynamo of 2 k. w., ammeter, regulator, rheostat and transformer have been deposited in the Physical Laboratory by Mr. J. W. Wilson, of the Wilson Light and Power Co., Arkadelphia. Several other pieces of electrical apparatus have been built during the year.

Student Organizations.

Literary Societies.

The Alpha Kappa, Corinnean, and Polymnian Societies for young ladies, and the Philomathean, Hermesian, and Athenian Societies for young men are thoroughly organized and full of interest.

These Societies are strong factors in developing the social and literary tastes of their members. Experience in self-government is secured by the constant practice of parliamentary rules. Pupils are urged to connect themselves with one of the societies.

The societies have large and elegantly furnished halls.

Secret societies and all fraternities are prohibited.

Ouachita Ripples.

The College magazine has been increased to eighty pages. Space is given for reports from the various Academies and the Alumni. A strong effort will be made to make the College paper more nearly representative of the student body than it has ever been.

The subscription is \$1 per year. For information write to the business manager.

Christian Associations.

For more than two years the Y. M. C. A. and Y. W. C. A. have shown their value in building up the religious life in the school. The Sunday afternoon meetings in the Auditorium, conducted by the students themselves, are most helpful as a means of Christian development. At special meetings addresses are delivered by members of the faculty and others. These organizations contribute to the support of a missionary on the foreign field.

Officers for the past session have been: Y. M. C. A.—President, A. L. Green; Y. W. C. A.—President, Miss Linnie May Barnett.

Athletics.

Athletics are encouraged in so far as they do not conflict seriously with the academic work. Teams have been formed during the past and other years in football, baseball, basketball, tennis, track athletics, etc. Intercollegiate games are played under the rules of the Arkansas State Athletic Association, of which the College is a member. Athletics are under the direction of the Athletic Association, membership in which is open to all students, and of an Athletic Committee of the Faculty. Eligibility to play on the College teams is in accordance with the following rules:

1. No student shall be eligible to membership on a Ouachita team unless he is taking a course which requires at least fifteen hours a week of class-room work, or the equivalent of laboratory work.

2. No student shall be eligible to membership on a Ouachita team who has not been in regular attendance on classes for fifteen days before the first game in the Arkansas State Athletic Association schedule.

3. No student who has failed or been conditioned on more than one-third of his work shall be eligible to play on any Ouachita team.

4. No student who during the season absents himself without excuse from his College classes, shall be allowed to play in a match-game. Absences with the team are not to be included in the calculation.

5. No student whose class-work is eminently unsatisfactory shall be allowed to continue on a Ouachita team.

6. It shall be the duty of the managers of each College team to report to the President of the College and the Athletic Committee of the Faculty the names of the members of the team as they are selected, in order that their eligibility under the above rules may be passed upon. No man not so reported shall be eligible to play.

Ouachita Business College.

A. C. Moss, *Principal*.

Instruction is thorough and practical in every department. The pupil is put in charge of a set of books—buys and sells merchandise, declares profits and losses, and closes out the business. He is in actual business from the start.

A business education seems to be necessary for everyone in this progressive age. There is a greater demand to-day than ever before for proficient business men. The banks, mercantile business, railroads, telegraph companies, manufacturing enterprises, demand experts. Our Business College is designed to prepare men and women to fill worthily the best positions.

The President of the College and the Principal of this school will spare no effort to secure good positions for our graduates. We deal honestly with our pupils. We do not promise positions, but we think we are in position to do as much for graduates as are those who make certain definite promises, many of them never being fulfilled.

Scholarships are issued in the various departments, entitling the holder to instruction in that department until he finishes the course, regardless of the time required. Pupils can take their own time to finish the course. It requires from twelve to twenty weeks, according to the application and ability of the pupil. Our course has been extended and perfected until it includes everything necessary to a first-class business education, and is equal to that of any commercial college in the State.

Our course of study is so arranged as to combine Theory and Practice in the most admirable manner, and includes:

- Legal and Business Forms,
- Correspondence,
- Penmanship,

Spelling,
Commercial Law,
Business Arithmetic,
Political Economy,
Shorthand and Typewriting.

Military Department.

A sound mind in a sound body, both controlled by sound morals, is what Ouachita endeavors to give every student that enters her portals.

As one of the means towards this end a military department has been established.

Ouachita is the only college in the State having a regular army officer detailed by the War Department for duty with it.

Military discipline teaches neatness, promptness, courtesy, and devotion to duty.

The drill insures a regular amount of moderate exercise for every student, and is thus conducive to health. It also improves the appearance and carriage of the student.

Exercises both with and without dumb-bells are carefully used to symmetrically develop the frame and muscles.

It is in youth that the hollow chest, stooped shoulders, weak back, and other physical defects may be most readily overcome. This we endeavor to do.

All male students are required to drill unless excused on certificate of College physician for some physical disability, and must provide themselves with the prescribed uniform within a reasonable time after entrance. A deposit of \$15 will be required at matriculation for this purpose.

The latest U. S. Army rifles and other necessary supplies are used.

A military band has been organized among the cadets, and adds much to the pleasure of the drill.

All students participating will be required to provide themselves with the following articles of dress, which will be worn at all times during the scholastic year and during temporary absences from College:

1 suit—uniform	\$14.50
4 Chambray shirts	2.40
2 black ties50
2 pair Berlin gloves.....	.25
1 belt (tan)25
4 white collars50
1 pair russet shoes.....	3.50
	<hr/>
	\$21.90

Government.

The central aim of our work is to aid in the acquisition of culture, critical judgment, concentration of thought, and moral purpose. Our government is mild, yet firm. Childish caprice and youthful passion will be directed into a channel of improvement. No gentleman will be allowed to visit young ladies. No lady will be allowed to receive regular attention from young gentlemen. A faithful, earnest pupil has no time for such diversion. Receptions are given at the Home under the direction of the President and the Faculty at stated periods. Special rules and regulations will be read and explained from time to time. On admission to the institution pupils sign a contract to observe promptly all regulations.

Upon entering College the pupil is furnished with printed regulations.

Prohibitions.

1. Entering or discontinuing a department without permission.
2. Withdrawing from a class without permission.
3. Lessons of any kind taken outside of the College without permission.
4. Contracting debts at stores or elsewhere without written permission of parent or guardian and the consent of College authorities.
5. Attending balls, parties, theatres, or any public amusement calculated to interfere with regular study or good morals.
6. Absence from regular work, or from town without consent of the College authorities.
7. Absence from boarding-house after study hours begin without permission.
8. Keeping in possession a concealed weapon, playing cards or dice, or drinking spirituous liquors.

Pupils unwilling to keep these regulations should not apply for admission.

Dress.

Uniform dress not only promotes convenience and economy, but has a tendency to suppress the feeling of pride and rivalry in the matter of personal decoration. For these reasons, and to prevent extravagance and promote economy, the young lady boarders will be required to wear uniforms.

The uniforms are tailor-made and unique in design. The entire cost of uniform (including cap) of good serviceable material will not exceed \$15. This does not include shirt-waists.

Shirt-waists of white or cream-colored material will be worn with the uniform throughout the year. Each young lady should be supplied with rubbers, umbrella and raincoat.

General Items.

1. Arkadelphia, a little city of 4,000 inhabitants, is noted for its culture and refinement and morality. It is the college center of the State, having 700 college students, 1,300 members (white) in its churches, no saloons, no billiards or ball-rooms.
2. Health of pupils, moral, religious, and cultured surroundings were taken into consideration in locating the College. We feel that no mistake has been made. By special legislative act, we have prohibition for a radius of ten miles.
3. Church and Sunday school advantages are excellent.
4. Any pupil whose moral influence is not good will be dismissed at once. Flirting with young men or indiscreet conduct in public will subject a pupil to discipline. There will be no association with young men except in class-room.
5. Indiscriminate correspondence will not be allowed, and parents are requested to limit the number of their daughters' correspondents.
6. Parents should write cheerful letters to their children. Do not encourage them to visit their homes, as it is a positive disadvantage.
7. Parents will be notified if sickness occurs. Prompt and kind attention will be given. Trained nurse in charge of Infirmary.
8. All letters and packages should be addressed in care of the College.
9. *Boxes of eatables should not be sent.* The table is well supplied with wholesome food, and we can not be responsible for the health of pupils who eat irregularly and without regard to diet. Fresh fruit, however, may be furnished.
10. *If pupils find fault, make complaint, or do not seem to make satisfactory progress, justice to both sides demands that a personal investigation be made.*

11. All young ladies boarding in the Home will be required to attend all lectures and entertainments held in the Auditorium. Pupils accompanied by teachers may occasionally attend outside lectures.
12. No young lady boarder will, under any circumstances, be permitted to spend a night out of school, and parents are respectfully asked not to make such requests.
13. Steam heat, water-works, bath-rooms, closets, electric lights, telephone and telegraphic connections are in the buildings.
14. Those desiring bed-rooms for only two young ladies will pay \$10 per year more than those who room with three or four in a room.
15. NOTE WELL.—*Young ladies and teachers are required to furnish their own towels, soap, combs, brushes, napkins, one pair of blankets, one pair of sheets, one pair of pillow-cases, one spread, and one spoon.*
16. Every article in a pupil's wardrobe should be plainly marked.
17. Students will be held responsible for unnecessary damage done to furniture or buildings.
18. Matriculation on the first day is very important.

To New Students.

Young ladies should notify the President upon what train to expect them. All young ladies must go immediately to the Young Ladies' Home upon arrival. Young men must have the approval of the President in securing homes. It would be well for new students to bring certificates as to character from former teachers or pastors.

The College colors, old gold and royal purple, will be sent to all new students upon application. All students are requested to wear the colors in coming to College, for pur-

pose of identification. Committees of pupils or teachers will meet trains at opening.

Board for Young Men.

Many of the best homes near the College are open to young men boarders. Usually from two to eight board in a family. Board, furnished rooms, light and fuel, \$10 to \$14 per month.

To Teachers.

A strong course in Pedagogy leading to the A.B. degree has been added to the Curriculum. Association with mature students and progressive teachers, access to a good library, thorough instruction, a healthy, moral and literary atmosphere, all combined, offer many inducements to worthy and ambitious teachers. The teacher who desires advancement will do well to spend some time at least in Ouachita College. During the past year about fifty pupils secured positions through the efforts of the President and Faculty. About 250 of our former pupils are teachers. Directors who desire efficient teachers will do well to correspond with the President.

General Information.

Conditions of Admission.

Pupils from other institutions, bringing certificates of proficiency in the Preparatory Courses outlined on the last page, will be admitted to the Freshman Class, with the provision that the students admitted on certificate are on probation and must prove their ability to do the College work as a condition of remaining with the class. Pupils who do not bring such certificates will be examined on the subjects outlined under "Schedule of Preparatory Work."

Pupils claiming credit for College work done elsewhere must submit certificate giving in detail the work on the basis of which advance standing is desired, stating definitely amount of work done, time given to it, the method pursued, along with a catalogue of the institution from which they come.

Schools.

Instruction is given in the following schools:

1. Philosophy and Education.
2. Bible.
3. Latin Language and Literature.
4. Greek Language and Literature.
5. Mathematics.
6. Modern Languages and Literature.
7. English Language and Literature.
8. History and Political Science.
9. Sciences.

Courses of Study.

SCHOOL OF PHILOSOPHY AND EDUCATION.

Professor Johnson.

COURSE 1.—*Psychology*.—Three hours a week, Fall Term. Required. (57.)

This course takes up the general study of mental processes. It aims to train the student to observe the processes of his own experience and those of others, and thus become familiar with the psychological standpoint and fundamental psychological principles.

TEXTS AND REFERENCES.—James' *Psychology* (Briefer course); Angell's *Psychology*; Dewey's *Psychology*.

COURSE 2.—*Ethics*.—Three hours a week, Spring Term. Required. (57.)

The work of Ethics will base itself upon the psychological ideas acquired in the previous course, and the aim will be so to apply these principles to the analysis of character, habit, desires, and ideals as to make the student familiar with the main aspects of ethical theory, and thus arrive at a method of estimating and controlling conduct.

TEXTS AND REFERENCES.—Mackenzie's *Manual of Ethics*; Mills' *Utilitarianism*; Kant's *Theory* (Abbott); Muirhead's *Elements*; Sidgwick's *Methods*.

Prerequisite: Course 1.

COURSE 3.—*Child Study*.—Three hours a week, Fall Term. Elective. (57.)

Viewing education as an effort to assist development, it will be our task in this course to study the characteristics of the child at the different periods of his development with a view of determining what kind of mental food is most appropriate for each stage, and what methods of presentation are best adapted to each successive period.

TEXT.—Kirkpatrick's *Fundamentals of Child Study*.

COURSE 4.—*Principles of Teaching*.—Three hours a week, Spring Term. Elective. (57.)

This course will apply the principles discovered by recent investigations in child study and dynamic psychology to the work of the school-room. It will also make use of the direct studies of actual teaching which have been made by experts. It will take up such topics as attention, interest, instinct, habit, imagery; the training of the emotions and will; observation and reasoning power, and discuss these with reference both to the methods of instruction and their value for discipline. As the aim of the course is practical, much of the time will be given to concrete exercises, in which the principles studied are applied to practical problems of the school-room.

TEXT AND REFERENCES.—Thorndyke's *Principles of Teaching*; Thorndyke's *Elements of Psychology*; Kirkpatrick's *Fundamentals of Child Study*; James' *Talks to Teachers*.

Prerequisite: Course 1, or Course 3.

COURSE 5.—*History of Education*.—Three hours a week. Elective. (114.)

This course will make a study of the methods of those schools which have exerted a marked influence on the development of the educational ideal. It will begin with the schools of ancient Greece and end with Froebel's kindergarten. The principles on which the movements exemplified in these schools were based will be carefully reviewed, to obtain a comprehensive view of the progress of educational effort. The aim is to make the student acquainted with the educational aims and practices of the past and with the most important educational classics; and thus to enable him to obtain a foundation for the present theories and practices in the light of their historical evolution, and incidentally to acquire a knowledge of such principles as may be of service in the work of teaching.

COURSE 6.—*Logic*.—Two hours a week, Fall Term. Elec- tive. (38.)

Creighton.

COURSE 7.—*History of Philosophy*.—Two hours a week, Spring Term. Elective. (38.)

Weber.

The text-book is used as a guide, but the work in this course is done through a study of the writers themselves.

COURSE 8.—*Sunday-School Pedagogy*.—Two hours a week. Elective. (96.)

The aim of this course is to prepare for moral and religious instruction in the home and Sunday school. It begins with a study of educational theory to determine the place, the purpose, the material, and the methods of moral and religious education. A study is made of the individual and social characteristics of children and youth at each successive stage of their development.

The various institutions which exist to foster religious education are examined, and this is followed by a careful consideration of those phases of biblical truth best suited to promote Christian nurture at these stages, and by practice-work in applying these principles by actual teaching of Sunday school lessons.

TEXTS AND REFERENCES.—Coe's Education in Religion and Morals; Haslett's Pedagogical Bible School.

SCHOOL OF THE BIBLE.

Professor Johnson.

COURSE 1.—*The Life of Christ*.—Five hours a week, Fall Term. (95.) Elective.

As a proper background, the chief historical features of the inter-biblical period are rapidly sketched, and this is followed by a careful and detailed study of the Life of Christ as recorded in the four gospels.

COURSE 2.—*The Apostolic Age*.—Five hours a week, Spring Term. (95.) Elective.

A study of this period of Biblical history, as revealed in the book of Acts and the Epistles of the New Testament, considered in the order in which they were probably written.

Prerequisite: Course 1.

COURSE 3.—*Homiletics*.—Two hours a week. (76.)

The theory; the sermon; the text; the introduction; the proposition; the divisions; the development; the conclusion; the kinds of sermons; illustration; argument; style; the various methods of delivery; the conduct of public worship. Sermons and sermon-plans will be produced and discussed.

COURSE 4.—*Old Testament*.—Three hours a week. (114.)

A study of the varying fortunes of the chosen people as recorded in the historical books of the Old Testament, viewing representative prophets in their historical setting, and tracing the development of the Messianic Ideal.

COURSE 5.—*New Testament Theology*.—Two hours a week. (76.)

The principal teachings of Jesus and of the leading New Testament writers. An outline course from the historical point of view.

Courses 1 and 2 are prerequisite.

SCHOOL OF LATIN.

Professor Moore.

Applicants for admission to this school should have completed a course made up of grammar, prose composition, reading and mythology, as follows:

First Year.—Bennett's Foundations of Latin. Easy selections for reading. Brief colloquia.

Second Year.—Any four books of Caesar's Gallie War. Book 1 of "Writing Latin," by J. E. Barss. Bennett's Latin Grammar. Colloquia based on the leading events of the Gallic War.

Third Year.—The four orations against Cataline and either the Defence of Archias or the Manilian Law. Bennett's Latin Composition complete; Bennett's Latin Grammar. Colloquia based on the life of Cicero.

Fourth Year.—Five books of Virgil's Aeneid. Selections from

Ovid amounting to 1,000 verses. Guerber's Myths of Greece and Rome. Bennett's Latin Grammar. Colloquia on various topics.

The undergraduate work in Latin comprehends the following:

COURSE 1.—Five hours a week, First Term (95). Required of Freshmen.

Sallust, War of Cataline; Cicero, de Senectute; Latin Composition.

COURSE 2.—Five hours a week, Second Term (95). Required of Freshmen.

Horace, Selections from the Odes and Epodes; Virgil, Georgics.

COURSE 3.—Two hours a week, First and Second Terms (76).

Horace; Satires and Epistles. Tacitus; Germania and Agricola.

COURSE 4.—*Roman Comedy.*—First and Second Terms (76). Either 3 or 4 required of Sophomores.

Four selected plays of Plautus. Critical study of versification, language and syntax. Livy; Book I.

Course 4 alternates with Course 3.

COURSE 5.—*Latin Literature.*—Two hours a week, First and Second Terms (76). Elective.

Mackail's Roman Literature supplemented by lectures. History of Roman Literature, Capes' Early Empire.

COURSE 6.—*Roman Antiquities.*—Two hours a week, First and Second Terms (76). Elective.

A systematic consideration of the Roman family, status of women, marriage, children, education, the Roman house and its furniture, food, dress, baths, games and amusements, books, travel, religion, death, burial, etc. The aim of this course is to afford a more thorough and sympathetic knowledge of Roman

private life than the course in literature alone would give, through systematic lectures copiously illustrated by lantern views and photographs from the remains of Roman civilization preserved in Pompeii, Herculaneum, Rome and elsewhere.

Course 5 alternates with Course 6.

COURSE 7.—*Roman Satire.*—Two hours a week, First and Second Terms (76).

Lectures on the History of Roman Satire, with translation and exercises of selected satires from Ennius to Juvenal.

COURSE 8.—*Teachers' Training Course.*—Two hours a week, First and Second Terms (76).

Problems in teaching Latin; estimates of text-books; examinations of questions in pronunciation and syntax; peculiarities of orthography; exercises in teaching preparatory authors.

COURSE 9.—*Latin Epigraphy.*—Two hours a week, First and Second Terms (76).

Introductory lectures and the reading of inscriptions of different periods from squeezes and fac-similes.

COURSE 10.—*Latin Palaeography.*—Two hours a week, First and Second Terms (76).

A study of mediæval manuscripts from fac-similes.

COURSE 11.—*Advanced Latin Composition.*—Time and credit to be arranged.

This course presupposes the completion of the courses in Latin Composition outlined above, and aims to give the student the ability to write continuous Latin Prose.

SCHOOL OF GREEK.

Professor Moore.

Hereafter college credit will be given for one or more of the introductory courses outlined below.

COURSE I.

White's First Greek Book. Easy selections for reading.

COURSE 2.

Four books of Xenophon's Anabasis. Arnold's Greek Prose Composition. Goodwin's Grammar.

COURSE 3.

Ten selected orations of Lysias. Four books of Homer's Iliad. Advanced prose composition.

The undergraduate college work in Greek comprehends the following:

COURSE 4.—Three hours a week, First Term (57).

Demosthenes; De Corona. Advanced Prose Composition.

COURSE 5.—*Greek Tragedy*.—Three hours a week, Second Term (57).

Aeschylus; Prometheus; Sophocles; Philoctetes; Euripides; Hippolytus.

COURSE 6.—*Greek Literature*.—Two hours a week, First and Second Terms (76).

Lectures. A summarizing history of the development of the literature in connection with the political and social history of the people.

COURSE 7.—*Greek Antiquities*.—Two hours a week, First and Second Terms (76).

The land and the people. The equipment and environment of ancient Greek life. A study of the private life of the Greeks. Lectures illustrated by lantern views and photographs from ancient monuments and remains.

Course 6 alternates with Course 7.

COURSE 8.—Three hours a week, First Term (57).

Herodotus. Reading of Books I, III, and VII, with special reference to local history, topography and antiquities. Homer; Reading in the Odyssey; Study of Homeric poetry and Homeric life.

COURSE 9.—Three hours a week, First Term (57).

Aristophanes; The Knights, Wasps, Peace, Birds and Frogs. Thucydides; reading of Books VI and VII, mainly with reference to the literary and historical questions connected with the subject-matter.

Course 9 alternates with Course 8, and is collateral with Course 7.

COURSE 10.—*Teachers' Course*.—Two hours a week, First and Second Terms (76).

Lectures on Greek Grammar. Aims and methods in translating Homer and Xenophon. Bibliography for the teacher of Greek.

COURSE 11.—*The History of Greek Art*.—Two hours a week, First and Second Terms (76).

Tarbell's History of Greek Art and Gardner's Hand-book of Greek Sculpture. The course will be illustrated with lantern slides, most of them made especially for this college.

COURSE 12.—*New Testament Greek*.—Three hours a week, First and Second Terms (114).

Reading of Mark and selections from the Acts of the Apostles. Study of N. T. Grammar. The most interesting scenes in the Holy Land will be illustrated with lantern views.

SCHOOL OF MATHEMATICS.

Professor White.

Higher Arithmetic and the equivalents of Taylor's Elements of Algebra, Taylor's College Algebra to part second, and Beman and Smith's Plane Geometry, are required for admission to these courses.

COURSE I.—*College Algebra, selected portions*.—Five hours a week, First Term (95).

Taylor's College Algebra.

COURSE 2.—*Solid and Spherical Geometry*.—Three hours a week, Second Term (57).

Beman and Smith's *Geometry*.

COURSE 3.—*Plane and Spherical Trigonometry*.—Three hours a week, First Term (57).

Lyman and Goddard's *Trigonometry*.

COURSE 4.—*Analytical Geometry*.—Three hours a week, Second Term (57).

COURSE 5.—*Differential Calculus*.—Two hours a week, First and Second Terms (76).

COURSE 6.—*Integral Calculus*.—Two hours a week, First and Second Terms (76).

COURSE 7.—*Surveying*.—Two hours a week, Second Term (38).

Courses 1, 2, 3 and 4 are required of all candidates for degrees.

SCHOOL OF MODERN LANGUAGES.

GERMAN.

Professor Briscoe.

COURSE 1.—*Elementary German*.—Five hours a week (190).

FIRST TERM.—Spanhoofd's *Lehrbuch der deutschen Sprache*; Van Dael's *German Reader*; Andersen's *Bilderbuch ohne Bilder*.

SECOND TERM.—Storm's *Immensee*; Heyse's *L'Arrabiata*; Schiller's *Der Neffe als Onkle*; Von Hillern's *Hoher als die Kirche*. Sight reading, exercises and conversation.

COURSE 2.—*Second Year German*.—(190).

FIRST TERM.—Selected reading, such as Riehl's *Burg Neideck*; Bumbach's *Frau Holde*, etc.; Bernhardt's *German Composition*; sight reading with review of grammar.

SECOND TERM.—Freytag's *Die Journalism*; Chamisso's *Peter Schlemihl*; Goethe's *Herman und Dorothea*; Schiller's *Egmont Leben und Tod*, etc.

COURSE 3.—*The German Drama*.—Three hours a week, First and Second Terms (114).

Schiller, Lessing, Goethe.

FIRST TERM.—Wilhelm Tell, Maria Stuart, Wallenstein.

SECOND TERM.—Lessing's *Nathan der Weise*; Goethe's *Egmont*, *Faust*, Part I. Particular attention will be paid to the development of dramatic art and to the philosophical value of *Faust*.

COURSE 4.—*Modern German Literature*.—Two hours a week, First and Second Terms (76).

Selections from recent and contemporary writers. Study of the modern German novel. Reading of Ebers, Auerbach, etc.

COURSE 5.—*German Conversation*.—(114).

This course is intended primarily for those pupils who think of teaching German in the high schools. Its aim is to enable them to carry on the recitation in the foreign language. Methods of teaching will be given attention.

Prerequisite: Course 1.

FRENCH.

COURSE 1.—*Elementary French*.—Five hours a week (190).

Fraser and Squair. Reading: Van Dael's *Introduction to French Authors*; Daudet's *La Belle Nivernaise*, etc.; Selected Plays as *La Poudre aux Yeux*, *Le Voyage de M. Perrichon*, etc.; Halevy's *L'Abbe Constantin*. Conversation and exercise.

COURSE 2.—*Second Year French*.—Five hours a week (190).

Selected reading, such as Sand's *La Petite Fadette*; Merimee's *Colomba*; Rostand's *Cyrano de Bergerac*. The Modern French Poets. Sketch of the history of French Literature. Conversation, Composition and Syntax.

COURSE 3 (a).—*Victor Hugo*.—First Term, three hours a week (57).

Shorter Poems, *Hernani*; Ruy Blas, *Notre Dame de Paris*; Selections from *Les Miserables*.

COURSE 4 (b).—*Modern Prose*.—Second Term, three hours a week (57).

Selections from the best works of Daudet, Loti, De Musset, Augier, Souvestre, etc.

COURSE 5.—*The Classic French Drama*.—Two hours a week, First and Second Terms (76).

A critical and linguistic study of the classic dramatists; Racine, *Athalie*, *Esther*; Corneille, *Le Cid*, *Cinna*; Moliere, *La Misanthrope*, *Les Femmes Savantes*, etc.

COURSE 6.—*French Conversation*.—(114).

This course is intended primarily for those pupils who think of teaching French in the high schools. Its aim is to enable them to carry on the recitation in the foreign language. Methods of teaching will be given attention.

Prerequisite: Course 6.

SCHOOL OF ENGLISH LANGUAGE AND LITERATURE

Professor Simpson.

To be prepared for entrance into the first College course (Course 1 below), students must have had: (1) An advanced technical course in grammar; (2) an elementary course in rhetoric (Hill's *Foundations*, Genung's *Outlines*, or Waddy's, will indicate the amount); (3) the equivalent of six hours a week of literature. This last requirement should include about two hours of American literature, and most of the texts set for "College Entrance Requirements." It is recommended that the work in literature be given simultaneously with that in language and composition, e. g., grammar, four hours; literature, one; rhetoric (first year), three hours; literature, two; rhetoric (second year), two hours; literature, three.

COURSE 1.—*Advanced Rhetoric and Composition*.—Required of all Freshmen. Three hours a week throughout the year (114).

TEXT-BOOK.—C. S. Baldwin's "College Manual of Rhetoric." Weekly themes of from 100 to 200 words, with longer themes at stated intervals; certain reading is also required outside of the class, usually one book a month; selections made from standard novels and books for all time; written reports.

Course 1 is prerequisite to all other courses.

COURSE 2.—*English Literature*.—Required of all Sophomores. Four hours a week, Tuesday, Wednesday, Friday and Saturday throughout the year (152).

A general survey of the field from Chaucer to Stevenson.

TEXT-BOOK.—Moody and Lovett's "History of English Literature."

Course 2 is prerequisite to all courses following.

COURSE 3.—*Shakespeare*.—Two hours a week, First Term (38).

Two plays are read critically in class, with due attention to language and versification, as well as to literary and dramatic qualities. Six plays are read as parallel on which written reports are required of students, and informal lectures are given by the instructor showing the development of the poet's mind and art. The Arden edition of the plays and Dowden's *Shakespeare Primer* are used.

COURSE 4.—*Milton*.—Two hours a week, Second Term (38).

Study of the minor poems, six books of *Paradise Lost* and *Paradise Regained*. Johnson's and Macaulay's *Essays on the poet* are required as parallel. The Clarendon Press edition of R. C. Browne is used.

COURSE 5.—*Prose Fiction*.—Two hours a week throughout the year (76).

A study of representative English novels from Richardson to the present time.

COURSE 6.—*Nineteenth Century Poetry*.—Two hours a week throughout the year (76).

(a) The Romantic movement, Wordsworth, Coleridge, Byron, Shelley and Keats. (b) The Victorian period, Tennyson, Browning, Matthew Arnold, Swinburne.

COURSE 7.—*Old English, Introductory Course*.—Two hours a week, First Term (38).

Cook's "First Book in Old English" (3d edition).

COURSE 8.—*Middle English—Chaucer*.—Two hours a week, Second Term (38).

The Clarendon Press (student's) edition is used. The Prologue and five or six of the Canterbury Tales.

(Course 8 presupposes some knowledge of Old English and is a natural continuation of Course 7.)

COURSE 9.—*American Literature, Advanced Course*.—Three hours a week throughout the year (114).

A knowledge of the principal movements in our literature will be presupposed. Attention in this course is centered on the prose of Poe, Hawthorne, Emerson and Lowell.

COURSE 10.—*History of the English Language*.—One hour a week throughout the year. Required of students who elect 7 and 8.

Emerson's larger book, supplemented by lectures.

COURSE 11.—*Forensics*.—Three hours a week throughout the year (114).

A study of the principles of argumentation, with constant practice both in writing and speaking. Three long essays will be required (due November 27th, February 26th, May 4th), preceded by briefs. Shorter essays occasionally, and debates in class. Attention will be given also to delivery.

TEXT-BOOKS.—Baker and Huntingdon's "Principles of Argumentation;" Shurter's "Public Speaking."

NOTE.—Admission to this course is limited to students who have received a grade not lower than G in English 1.

SCHOOL OF HISTORY AND ECONOMICS.

Professor ———

HISTORY.

The applicant for admission to this school must be familiar with Montgomery's *Leading Facts in United States History*, Meyer's *General History* (or their equivalents), Arkansas history, and some primary work on Citizenship.

This subject is taught from the standpoint of cause and effect. A systematic study of the most important facts is required. Much time is given to literary and research work. Sources are consulted as much as possible. Written reports on assigned subjects are frequently required.

COURSE 1.—*History of Eastern Nations and Greece*.—Three hours a week, First Term (57).

COURSE 2.—*History of Rome*.—Three hours a week, Second Term (57).

COURSE 3.—*Medieval Europe*.—Three hours a week throughout the year (114).

COURSE 4.—*English History*.—Two hours a week, First Term (38).

COURSE 5.—*Constitutional and Political History of the United States*.—Two hours a week, Second Term (38).

COURSE 6.—*Other Modern Nations*.—Library work. Two hours a week, First Term (38).

COURSE 7.—*Church History*.—Two hours a week, Second Term (38).

ECONOMICS.

The first part of this course is designed to familiarize the student with the Principles of Political Economy. The text-book will be supplemented by lectures on the application of

these principles to practical affairs. Much time is given to library work.

Courses 9 and 10 give much attention to the government of modern States and to the laws regulating their intercourse in peace and their relations in war.

COURSE 8.—*Political Economy*.—Two hours a week throughout the year. Required. (76.)

COURSE 9.—*Institutional History and Administration*.—Three hours a week, First Term (57).

COURSE 10.—*International Law*.—Three hours a week, Second Term (57).

COURSE 11.—*Sociology*.—Two hours a week, Second Term (38).

COURSE 12.—*Economic Problems*.—(A continuation of Course 8, and open only to those students who have completed Course 8.) Two hours a week throughout the year (76).

Courses 1, 2, 4, 5 and 8 are required of all candidates for degrees.

THE SCHOOL OF SCIENCE.

Professor ———

MR. RICHARDSON,

MR. ROWLAND, *Assistants*.

It is the object of the work in this department to lead the pupil to find for himself a proper interpretation of nature. The introduction to each new science gives him a "new pair of eyes,"—eyes which must be properly trained before their judgment can be relied on. To this end, practical laboratory work with the most modern apparatus and facilities is included in all courses where practicable. Besides this, the

work is illustrated by lantern and microscopic slides and the many hundreds of specimens in the geological, chemical, physical and biological departments of the museum.

The attention of prospective medical students is directed to Courses 1, 2, 5, 6, 8, 9, 10, 11, 12a, 12b, in which work is done that is fully the equivalent of that given by the medical colleges, and for which the student should have no difficulty in getting credit in his medical course.

Engineering students will find that the Courses 6, 8, 9, 10, 11, 12a, 12b, will replace similar courses offered by the technical schools. By making these courses a part of their work at Ouachita, the time required for the professional degree will be materially lessened without sacrificing the advantages of a liberal college education.

The requirements for admission to the school are elementary Physiology, elementary Physics, and elementary Chemistry (with laboratory work).

COURSE 1.—*Physiology*.—Two hours a week, First Term (38). Required of Freshmen.

Martin's Human Body as a basis; lectures, illustrated with lantern, specimens and microscope; laboratory work; collateral reading.

COURSE 2.—*Botany*.—Two hours a week, Second Term (38). Required of Freshmen.

Bailey's Botany as text, supplemented by Gray, Chapman and Coulter; Individual laboratory work with compound microscope; lectures and excursions.

COURSE 3.—*Geology, Descriptive*.—Two hours a week, First Term (38). Required of Sophomores who do not take Course 6.

COURSE 4.—*Anthropology*.—Two hours a week, Second Term (38). Required of Sophomores who do not take Course 6.

A general discussion of the origin and development of the human race, based upon the most recent investigation. Lectures, fully illustrated. Collateral reading.

COURSE 5.—*Zoology*.—Two hours a week, First Term (38). Elective.

The study by dissecting and text-book of typical forms from Protozoa to Vertebrate; lectures, excursions.
Course 1 prerequisite.

COURSE 6.—*Physics, General*.—Two hours a week and four hours laboratory, First and Second Terms (95). Required of Sophomores who do not take Courses 3 and 4.

Trigonometry prerequisite.

TEXT.—Hastings and Beach.

The new Physical Laboratory provides excellent facilities.

COURSE 7.—*Astronomy, Descriptive*.—Two hours a week, Second Term (38). Elective.

TEXT-BOOK.—Young's Manual.

Practical work with the telescope and practical use of the standard works of reference; lectures.

Course 6 and Trigonometry are prerequisites.

COURSE 8.—*Chemistry, Descriptive*.—Three hours recitation and three hours laboratory per week, First Term (57). Required of Juniors.

TEXT-BOOK.—Newell's Descriptive Chemistry. Lectures profusely illustrated with specimens. In the laboratory each student is provided with individual apparatus and works at a desk provided with water, plumbing, illuminating gas, hydrogen sulphid, air blast and suction.

COURSE 9.—*Chemistry, Qualitative Analysis*.—One hour a week recitation, six to eight hours a week laboratory, Second Term (57). Required of Juniors.

The analysis and record of fifty unknown substances is required. Particular attention is paid to the opportunities this course offers in training the student to the habit of rapid, accurate reasoning.

COURSE 10.—*Chemistry, Qualitative Analysis, Advanced*.—One hour a week recitation, ten hours laboratory, First or Second Term (95). Elective to those who have had 9.

In this course special methods are applied and substances treated that would be out of place in the general Course 9. The work is made to meet the needs of the individual.

COURSE 11a.—*Quantitative Analysis*.—One hour recitation, ten hours laboratory per week, First Term (95). Elective to those who have had 9.

Gravimetric methods are studied and the analysis of twenty substances is completed.

TEXT.—Cairnes.

COURSE 11b.—*Quantitative Analysis*.—One hour recitation, ten hours laboratory per week, Second Term (95). Elective to those who have had 9 and 11a.

Practical familiarity with standard volumetric methods is first acquired; then twenty-five substances are analyzed.

TEXT.—Sutton, Clowes and Coleman.

COURSE 11c.—*Quantitative Analysis*.—One hour recitation, ten hours laboratory per week, First Term (95).

Technical analysis, including Water, Beverages and Sugar. Courses 9, 11a and 11b prerequisite.

COURSE 11d.—*Quantitative Analysis*.—One hour recitation, ten hours laboratory per week, Second Term (95).

Technical analyses, including Assaying and Gas Analysis.

Courses 9, 11a and 11b prerequisite.

COURSE 12a.—*Organic Chemistry*.—Two hours recitation and five hours laboratory per week, First Term (95). Elective to those who have had 9.

Hydrocarbons of the methane, olefine and acetylene series are studied, together with their most important derivatives. In the laboratory are given first exercises to train in technique, when each student prepares pure substances representing the compounds studied.

COURSE 12b.—*Organic Chemistry*.—Two hours recitation and five hours laboratory a week, Second Term (95). Elective to those who have had 9 and 12a

A continuation of Course 12a, including a study of the aromatic hydrocarbons and practice in ultimate organic analysis.

COURSE 13.—*Experimental Physics*.—First and Second Terms. One hour recitation, ten hours laboratory per week (190). Elective.

A course of one hundred experiments in Sound, Heat, Light and Electricity.

COURSE 14.—*Mechanical Drawing*.—One lecture a week and six hours laboratory (76). Elective.

An elementary course, including Orthographic, Projective, Isometric Perspective, Plain Lettering and the Rudiments of Machine Design.

MILITARY DEPARTMENT.

Captain Jackson.

Military drill is required of all students except those excused upon doctor's certificate of physical disability. All students participating are required to provide themselves with uniforms.

Commissioned officers will be selected from the Senior and Junior classes; non-commissioned officers from the Freshman and Sophomore classes.

Upon the graduation of each class the names of such students as have shown special aptitude for military service will be reported to the Military Secretary of the Army, and the names of the three students most distinguished in military science and tactics will be inserted in the United States Army Register.

The following courses are offered in 1907-1908:

COURSE 1.—*Infantry Drill, School of the Soldier, of the Company, of the Battalion, and Ceremonies*.—Three hours a week throughout the year (57).

COURSE 2.—*Army Regulations*.—Two hours a week, First Term (38).

COURSE 3.—*Field Service Regulations*.—Three hours a week, First Term (57).

COURSE 4.—*Manual of Guard Duty*.—Two hours a week, Second Term (38).

COURSE 5.—*Military Law*.—Three hours a week, Second Term (57).

COURSE 6.—*Military Field Engineering*.—Two hours a week throughout the year (76).

A recitation credit of 133 hours is required of young men who are candidates for degrees.

The required studies for the Degree of Bachelor of Literature are the same as those for the Degree of Bachelor of Arts, except that no Latin or Greek is required, and that the course is one year shorter in electives. Seventeen recitation periods per week.

Credit will be given towards undergraduate degrees for the following Conservatory courses:

Theory of Music, one year.....	(2 hours per week)	50 hours
History of Music, one year.....	(2 hours per week)	50 hours
Oratory, three years.....	(2 hours per week)	150 hours
History of Art, one year.....	(2 hours per week)	50 hours
Making a possible credit of.....		300 hours

Or, such theoretical courses in these subjects will be considered equivalent, hour for hour, to other electives for literary degrees.

REQUIREMENTS FOR THE DEGREE OF MASTER OF ARTS.

The work of this degree includes the equivalent of twenty hours a week for one year, to be divided into two parts, major and minor. The major requires thirteen hours a week in one department and a thesis; the minor, seven in another. The heads of the respective departments will provide a schedule of the work required of each applicant, which schedule

must be filed with the Faculty not later than the first day of October before graduation.

No degrees will be conferred upon any student of the College who has not sustained a good moral character.

Pupils completing any course of study in any school may be entitled to a certificate in that course.

No degree will be conferred on any pupil until all bills are paid or satisfactorily arranged.

Conservatory of Fine Arts.

Faculty.

WILLIAM LYON THICKSTUN, *Director.*

HENRY DOUGHTY TOVEY, *Pipe Organ.*

Miss SUE BELLE WOOD, *Piano.*

Miss MAUDE SWEENEY, *Piano.*

Miss BLANCHE FLEETWOOD, *Art.*

Miss MARGARET R. LYNDS, *Expression.*

....., *Voice.*

Miss KATIE DEE COOKE *Violin.*

No Conservatory in the Southwest has a better equipment than Ouachita. Its faculty of instruction is composed of the most capable and experienced men and women to be obtained. The beautiful and substantial conservatory building, with its thirty pianos, affords accommodations which could hardly be surpassed. The auditorium, seating six hundred, with its pipe-organ and grand piano, is an ideal place for recitals. The studios are light, spacious and cheerful. Here are to be found all the conditions necessary for good work. The branches taught are Piano, Voice, Pipe-Organ, Violin, Harmony and History of Music; Elocution; Painting in Oil and Water Colors, China Work, Drawing, Crayon, and Pastel. The courses of study are outlined on the following pages.

A HINT TO STUDENTS.

The question is often asked by music students, "How long will it take me to graduate?" To this in the great majority of cases no definite answer can be given, since much depends on health, mental equipment, natural aptitude and many other things, aside from the amount of time devoted to practice.

Many pupils need to be reminded that it is not the diploma which makes a course of study valuable, but the study itself; that infinitely more pleasure and profit are to be obtained from the years spent in study than from those spent in gazing at the diploma.

No student is allowed to leave a grade until he has thoroughly mastered it. The average pupil, under favorable conditions and by earnest and persistent effort, may reasonably expect to complete the piano course in five years—the vocal in four. The aim of the Conservatory, however, is to lead the student through each successive stage of development only so fast as nature has fitted him to go, so that the diploma which he may win at the conclusion of his course will testify to the amount of knowledge acquired, rather than to the number of years of study.

The course in all its departments is based on the classics, but is also made to include what is good in modern art. Eye, ear and brain are systematically trained in order that music study may be what it should be—a process of education rather than merely an "accomplishment."

Only in exceptional cases will a student be able to graduate after a single year of study in Ouachita Conservatory, and that only where previous musical training has been of the best, and natural ability is of a high order. The greatest care will always be exercised in recommending students for graduation, for it is only thus that the best interests of the Conservatory and its graduates can be maintained.

PIANO.

For more than a century the piano has been unrivalled in popularity by any other musical instrument. It was never so popular as to-day, for the fact is undisputed that no instrument except the organ enables a single player so nearly to combine in himself the powers of a full orchestra.

Modern methods of technic are employed, and from the first careful attention is directed to the production of a musical tone. The following is the plan of study:

PIANO COURSE.

Preparatory Grade.—National Graded Course, Books I and II; Sonatinas by Diabelli, Clementi, Kuhlau, Lichner and others; Beethoven, Opus 49; Bertini, Loeschorn, Op. 66; Pieces by Behr, Bohm, Bachman, etc. Major and Minor Scales, Arpeggios, preparatory octave work.

Pupils passing from the Preparatory to the Intermediate Grade must first pass a written examination in the rudiments of music and be able to play the Major Scales in various rhythms at a speed of 448 notes to the minute.

Intermediate Grade.—Kraus, trill studies; Heller, Opus 47; Loeschorn, Op. 66; Czerny, Op. 299; Sonatas by Mozart, Beethoven and Mendelssohn, Songs Without Words; Schumann, Album for the Young; Octave Studies, by Joseph Low or W. G. Smith; Bach, Inventions, Little Preludes and Fugues; Spauñths' Preliminary Techniques.

In passing from the Intermediate to the Advanced Grade pupils must show ability to play technical exercises at the following rate of speed in various rhythms:

Major and Minor Scales, similar and contrary motion, 528 notes to the minute.

Arpeggios, Major and Minor, dominant and diminished 7ths, 480 notes to the minute.

Octaves, 320 notes to the minute.

Advanced Grade.—Heller, Op. 45; Cramer; Clementi's Gradus ad Parnassum; Kullak, Octave Studies; Bach, Suites, Preludes and Fugues; Chopin, Op. 10 and 25, Valses, Nocturnes, Polonaises, Preludes; Beethoven, Sonatas; pieces by Mendelssohn, Schumann, Schubert, Liszt and other standard composers, classic and modern.

Pupils of the Advanced Grade who have obtained the required proficiency may be considered candidates for graduation, and ranked as Seniors.

VOICE.

The production of a pure, resonant and musical tone can only result from systematic, patient and intelligent study. The correct management of the breath and use of the vocal organs lie at the very foundation of the art of singing, and the closest attention is paid to these two subjects at the outset.

The following course of study is mapped out for vocal students:

Grade 1.—Lessons in breathing and production of tones; beginning of the study of *Messa di Voce*; intervals without portamento. Exercises for development, mixture and equalization of registers. Slow major and minor trills. Easy exercises in Randegger, Concone and Panofka. Easy songs.

Grade 2.—Study of intervals with portamento. Diatonic and chromatic scales in slow movements; Arpeggios and solfeggios and other studies of Randegger, Marchesi and Panofka. English ballads and easy German and French songs from Rubinstein, Franz, Mendelssohn, and Chaminade for the early development of the strictly classic taste.

Grade 3.—Diatonic and chromatic scales and trills in more rapid movement. More difficult studies of Sieber, Panofka and Marchesi. Beginning of study of selections from English, German, French and Italian Operas and more difficult selections of church music. Songs from classic writers.

Grade 4.—Continuation of classic writers. Special study is given in this grade to Oratorio work and French, German and Italian Operas.

REQUIREMENTS FOR GRADUATION.

Ear training and Notation, two terms, one hour a week. Harmony, two years, one hour a week. History of Music, one year, one hour a week.

In addition to these requirements, candidates for graduation must have passed the College entrance requirements in English. Evidence of the latter may be called for in the form of a paper four hundred words in length upon a subject not necessarily related to music, to be assigned by the director.

Before graduating the piano student will be expected to give a creditable public recital which shall include selections of equal difficulty with the Chopin studies or the Schubert-Liszt transcriptions. The pupil will also prepare a concerto or other similar piece to be played with a second piano accompaniment.

Vocal graduates will also give recital programs, made up of songs from the different schools of composition, including oratorio or operatic arias and German, French or Italian songs in the vernacular.

Graduates in vocal music must also have completed the preparatory grade of the piano course, and be able to accompany standard ballads of the modern English and American types in an acceptable manner. A study of Modern Languages for at least one year is also required of vocal graduates, in addition to the literary requirements already mentioned.

SIGHT SINGING.

This class is designed for those who wish to learn the rudiments of music and how to apply them in singing. Even those who are good performers on some instrument will generally find the class very beneficial, while to those whose musical education has been neglected, it will be of especial service.

A knowledge of singing is almost indispensable to any one who expects to engage in teaching, and is of great advantage in many

other walks of life. The sight singing class is open to all students of the Conservatory, and the attendance of vocal pupils is required.

OUACHITA CHORAL SOCIETY.

The Ouachita Choral Society is organized for the purpose of studying and performing the works of the best composers. Standard choruses are sung, and the expectation is that each spring a cantata or oratorio will be given in a style befitting its importance.

Last spring the "Rose Maiden," by F. H. Cowen, the well known English composer, was sung by a chorus of about 50 voices, with excellent soloists and an accompaniment of piano and pipe-organ. The large number of trained voices to be found among the student body makes membership in this society a pleasure of a sort to be found only in a strong, well-organized Conservatory of Music, occasionally in a large city.

THEORETICAL BRANCHES.

Harmony.—To be able to play a few instrumental pieces or to sing half a dozen songs is a long way short of being a musician. One of the most essential things in a course of study is Harmony. The importance we attach to this branch is sufficiently shown by the fact that two years of harmony are required for graduation. The deepest interest has been shown by the students, and a keen rivalry has developed which has made the Harmony classes one of the most important features of the Conservatory.

The course of study is as follows:

First Year.—Scales, intervals, triads and their inversions, chords of the seventh, cadences, augmented chords.

Second Year.—Modulation, suspensions, close and full score, retardations, appoggiaturas, passing notes, harmonization of melodies.

Text-Books.—Emery's Elements of Harmony; Krebs' Modulation Manual.

MUSICAL HISTORY.

A knowledge of the origin and growth of music as an art and science is also essential to one who aims at any degree of musical culture. An entire year is occupied with the study of the history of music as a requisite preliminary to graduation.

In addition to book-work, informal studio lectures are given, dealing with musical biography and other subjects about which a music student ought to know.

Students are taught to recognize and analyze the principal forms of musical composition and are required to familiarize themselves with the foreign terms in common use as marks of expression.

THE ORGAN.

The aim of the Organ Department is to fit the students for holding church positions. The standard of American taste in church music has made astonishing advance in the last ten years, and all signs point to a similar improvement in the decade to come. In consequence of this the field of church music presents great opportunities. The ability to play a pipe-organ and take the lead in church musical affairs is a most desirable thing for one who expects to engage in music as a profession, or whose natural liking for it would enable him to make it an adjunct to some other vocation.

Few places in the South present a better opportunity for the study of church music. The auditorium of Ouachita Conservatory is equipped with a good organ which may be used for practice by organ students.

The preliminary work at the organ is based on Ritter's Organ School and Eugene Thayer's Pedal Studies. Following these we use Dudley Buck's Studies in Pedal Phrasing, Bach's Little Preludes and Fugues, and Mendelssohn's Sonatas. These are accompanied by selections from the best composers of the modern French and English schools, such as Guilmant, Widor, Lemare, Calkin, Hollins, and others.

VIOLIN.

The violin is constantly growing in popularity, it being an instrument equally adapted to young men and women. The plan of study in this department is intended to create a taste for a high order of music. As soon as the students arrive at a stage of advancement which will enable them to do so, they will be admitted to the ensemble classes.

RECITALS.

Proceeding upon the theory that good music is its own best recommendation, frequent opportunities are given students to hear it. Every member of the faculty of the Conservatory is a skilled performer on one or more instruments.

Two recitals are given each year in which the entire Faculty takes part. There are also frequent programs given in which only a part of the teachers combine their talents.

School of Expression.

MISS MARGARET LYNDS.

The aim of this course is to correct bad habits of speech, to develop ease of manner and grace of body, to secure proper enunciation and pronunciation in reading aloud, to cultivate a taste for the best literature and become able to interpret it to others, to broaden the character, to develop the personality and give a harmonious cultural education to the individual. This work is of special value to clergymen and others whose life work will call for a continued use of the voice.

Public recitals are given frequently throughout the year whereby the student may gain confidence before an audience.

The course offered covers a period of three years, as follows:

FIRST YEAR.

Voice Culture, Vocal Expression.
 Articulation and Pronunciation.
 Analysis and Reading.
 Visible Expression—Del Sarte.
 Movement and Pantomimic Action.
 Sight Reading. Studies in Lyrics and Narrative Poems. Burns, Wordsworth, Scott, Longfellow, etc.

SECOND YEAR.

Voice Culture and Vocal Expression continued.
 Pantomimic Action, Dramatic Action, Impersonation.
 Expressive Reading. English Classics, selected. Special study of Shakespeare's Merchant of Venice, Midsummer Night's Dream, Julius Cæsar.
 Vocal Interpretation of the Bible. Extempore Speech. Oratory. Recitations from masters of English and American Literature.

THIRD YEAR.

Advanced Voice Culture.
 Special study of Shakespeare's Hamlet, Macbeth, Richard III. English Classics, selected. Expressive Reading, Dialectic Reading, Bible and Hymn Reading. Criticism. Orations. Recitations. Acting of Individual scenes and of whole plays. A liberal English education is requisite to good results.

Physical Culture and Gymnasium Work.

The purpose of this work is to increase chest and lung capacity, to straighten stooping shoulders, raise drooping head and strengthen the weak back; to secure grace and ease of bearing; to learn how to sit, how to stand and how to walk. Courses are given in Swedish gymnastics and in harmonic gymnastics. Special classes arranged for those needing special work. The school is well equipped with gymnasiums for young ladies.

Many students feel the need of work of this kind in college life, and those who follow out the prescribed courses of free and machine work will find themselves better students and more capable in every particular, for a strong mind must be supported by a strong body.

School of Art.

MISS BLANCHE FLEETWOOD.

The teacher in this department has enjoyed extensive study under the best masters, and brings to her work the latest methods.

Special courses for those desiring simply artistic work.

The regular course includes:

1. Object drawing in pencil, sepia, charcoal and pen and ink for illustration.
2. Cast work, oil and water colors from still-life and flowers.
3. Sketching from life and out-of-door work, landscape and figure. Advanced oil and water colors. Pastels and time sketches.

The study of the History of Art and Architecture continues throughout the course. Italian, Flemish, German and Dutch schools are treated separately and illustrated.

Lectures open to all students will occur frequently on the "Old Masters," practical art questions and topics of the day as related to Art. It will be shown how Art moulds character and influences thought.

Time given to each pupil, three hours per day, three days in the week.

Expenses.

Pupils entering during first month will be charged in full from first day.

School books, sheet music, tablets, writing material, etc., are kept in the College bookstore and will be furnished at low prices for cash. To be self-sustaining, our supply department must be on a *strictly cash basis*.

Patrons who wish to open accounts for these supplies can do so by depositing \$10 with the Business Manager. Should a student have a small medicine or express bill, and not be otherwise prepared to meet it, we shall feel at liberty to draw on this deposit for the amount.

If there is any misunderstanding or dissatisfaction about accounts, or *anything whatever*, write us a courteous letter, and prompt explanation will be made.

Withdrawals and Payments.

All charges are made by the term, and not by the month. If a student withdraws on account of sickness by advice of a physician, charges will be made only to time of withdrawal. If the withdrawal is for any other cause, *except with the full consent of the President, charges at full rates will be made to close of term.*

The annual session is divided into quarters. Payment for board and tuition of young ladies is required *quarterly in advance*. *No deduction for lost time can be claimed, except on account of protracted sickness, and then for no length of time less than a month.* No deduction for absence for the last four weeks of the session.

Liberal Propositions—Reductions.

1. A reduction of 25 per cent from all tuition fees in excess of \$100, paid by any one pupil or by the parent or guardian of one or more pupils, will be made. This does not apply to the Business College fees, nor to fees for room and board.

2. All non-resident ministers of the Gospel *in active service, who will become active agents for the enlistment of students, and who will undertake to give the institution full benefit of their influence in their respective circles*, shall have free tuition for their minor children in the regular literary course.

3. All resident ministers in the pastorate will be granted free tuition in the Literary Department for one minor child.

4. Pupils in the extra branches and Business College who do not take full work (17 hours per week in the Literary Department), will be charged in proportion to the number of hours per week taken. For illustration: A pupil taking piano and voice and English (reciting three hours per week) will be charged for the English three-seventeenths of the regular literary tuition.

Affiliated Academies.

Elsewhere in this catalogue will be found a course of study for the academies and the preparatory departments for the colleges. The academies are owned by the Board of Trustees, and are entering upon a useful career.

Ouachita Maynard Academy.

C. M. MYRICK, *Principal*.

In 1900 committees, under instruction from State Line and Current River Associations, purchased the property of Abbott Institute and asked the Trustees of Ouachita College to accept it as an affiliated academy. The request was granted, and the academy has been very prosperous. In 1903-1904, a two-story brick building was erected by the munificence of friends of the school. The property is valued at about \$10,000, has good campus, and is situated at Maynard, Lawrence County. The enrollment was 161 the past year, under a faculty of four teachers.

Ouachita Magazine Academy.

C. E. SCOTT, A.B., *Principal*.

In 1900 the generous people of Magazine proffered to the Ouachita Trustees a beautiful plat of ground and \$8,000 in good notes and subscriptions with which to establish an academy. As a result, we now have a beautiful two-story brick building, well equipped. Many improvements have been made during the past year.

Ouachita Bentonville Academy.

E. E. BAGWELL, A.B., *Principal*.

This property (\$20,000) is located in Bentonville, and was formerly known as Bentonville College. In 1900 the property was deeded to the Ouachita Board. The main building is a three-story brick, well furnished, situated on a beautiful campus of five acres. The generous people of Bentonville made donations for a dormitory, and a beautiful two-story brick building was erected and furnished the past year.

Ouachita Mountain Home Academy.

HENRY P. WEBB, *Principal*.

This property, formerly known as the Mountain Home College, is now free from debt. The buildings and campus are valued at \$20,000. A beautiful two-story stone building on the campus is used as a dormitory.

Ouachita Judson Academy.

J. L. CARTER, B.L., *Principal*.

This property is located at Fordyce, Ark. In April, 1907, it was added to the Ouachita-Central System. A new two-story brick-building, well equipped with modern improvements and located on ample grounds, constitute its equipment. The patronage has been good the past year, and it comes into the system free from debt.

All these academies will open in September with encouraging prospects. Expenses very moderate. Circulars, giving full information about the academies, may be had by addressing cards to their respective principals.

Accredited Schools.

The College desires to promote the growth of thorough secondary schools. The academies at Magazine, Bentonville, Maynard, Mountain Home, Fordyce, Bodcaw, and Friendship are affiliated with the colleges, having the same course of study, with the same text-books, as is given in the preparatory department of Ouachita and Central. Hence we give full credit to students from these academies who bring from their principals certificates stating in full the work done in the academies.

With reference to the relation to our colleges sustained by other schools, with different courses of study, which use different texts,—it is difficult to state anything more definite than that the College desires in all cases to give full credit for actual work done, and that certificates from principals, stating the time spent in recitation, the text used, and the parts of books completed in the various courses, will be honored, and the student will receive credit for the equivalent work in the preparatory department of the colleges, provided always that if the student fails to maintain his standing in the class assigned him, his work at Ouachita or Central is to be the final test of the character of previous work.

Advanced college standing will be given on the same conditions, in case such work has been done *with proper equipment and under such conditions as make satisfactory college work possible.*
