SEVENTY-FIRST SESSION BEGINS MONDAY, SEPTEMBER 3, 1956
A WORD FROM THE PRESIDENT

Ouachita Baptist College has a program designed for the student who wants “quality plus” in his college education. High scholastic standards together with emphasis on personality and character development are designed to produce graduates highly trained but with more than mere facts at their command. We believe that a Ouachitonian has the necessary preparation to make a good living while living a good life, and we urge every person seeking these things in a college to consider this “queen of the college world.”

RALPH A PHELPS, JR.
President

GENERAL INFORMATION

Brief History of the College

The Arkansas Baptist State Convention in annual meeting at Hope, Arkansas, in November, 1885, voted to establish Ouachita Baptist College. The next month, by vote of the board of trustees, the college was located at Arkadelphia. Classes began in September, 1886. The college has operated without interruption in the same location since that date.

Eleven presidents have guided its development: Dr. J. W. Conger, 1886-1907; Dr. H. S. Hartzog, 1907-11; Dr. R. G. Bower, 1911-13; Dr. S. Y. Jameson, 1913-16; Dr. C. E. Dicken, 1916-26; Mr. A. B. Hill, 1926-29; Dr. C. D. Johnson, 1929-33; Dr. J. R. Grant, 1933-49; Dr. S. W. Eubanks, 1949-51; Dr. Harold A. Haswell, 1952-53; Dr. Ralph A. Phelps, Jr., 1953 to date.

Statement of Purpose

Ouachita Baptist College exists to meet the needs of young people in Arkansas and elsewhere for higher education. While her basic obligation is to her parent organization, the Arkansas Baptist State Convention, Ouachita has no restrictions as to belief or geographical location of persons whom it serves. Students come from many denominations and numerous states and nations.

Fundamentally, Ouachita is a liberal arts college dedicated to the twin purposes of helping the student to understand the world and society around him and of inspiring him to be a worthy citizen of that society. Inherent in her educational philosophy is the conviction that a correct sense of values and worthy use of knowledge can stem only from the philosophy and teachings of Christ.

Coordinate with the objectives in liberal education is the goal of helping the student acquire the means of making a good living while living a good life. To this end, courses are offered leading to careers in medicine, dentistry, research, teaching, business, music, art, the ministry, and other professional and semi-professional fields of endeavor.

Present Status of the College

The governing body of the institution consists of twenty-four trustees chosen by the Arkansas Baptist State Convention.

The college is fully accredited and holds membership in the North Central Association of Colleges and Secondary Schools, the Association of American Colleges, the National Commission on Accrediting, and the Southern Association of Baptist Colleges and Schools.

There are nineteen permanent buildings on the campus, all of them red brick, using modern or other styles of architecture. Five of the major
buildings have been completed within the past six years. Other buildings are planned or under construction.

The capital endowment stands currently at $636,466.77. The buildings and grounds are valued currently at $1,847,082.23.

Riley Library, serving both the college and the community, has at present 45,000 volumes, plus a pamphlet collection, film strips, recordings, and other audio-visual materials. About three hundred periodicals are received, of which the more important are preserved in bound volumes.

Present Programs of the College

The General Program of the college, administered by the President under the direction of the Board of Trustees, is dedicated to the continued improvement of instruction, expansion of curriculum, development of facilities, and growth of student body as the school seeks to serve better her constituency.

The Instructional Program, administered by the Dean of the Faculty, with a faculty of fifty persons well-trained in their teaching fields, offers over three hundred courses organized into seven broad divisions.

The Student Life and Activities Program, administered by the Dean of Students and using the services of faculty and resident counsellors, involves housing, board, student government, clubs and organizations, publications, health service, guidance and counselling, the testing program, athletics, and student social life.

The Regular Session, administered by the officers of the College, consists of two semesters of eighteen weeks each. Work offered in twenty-four departments leads to the four degrees offered by the college. The spring commencement concludes this session.

The Summer Session, administered by the officers of the College, consists of two terms of five weeks each. A student may earn up to six hours each term. Regular faculty members teach in the summer session, and regular college courses are offered in all divisions. Teacher-training receives special emphasis, with specialists in this field supplementing the regular faculty. The summer commencement concludes this session.

Extension Centers, administered by the Director of Extension Work under faculty direction, have been established in various parts of the state in order to provide an opportunity in higher education for people who cannot go away to college. At present, such centers have restricted their offerings to courses in religion and related fields. Instruction is provided by a person qualified to teach similar courses in the campus instructional program and is supervised by regular faculty personnel. Students qualified for admission to the college may earn credit toward a degree. Others may receive certificate recognition. Centers this past year were located at Berryville, DeQueen, Waldron, and Russellville.

Regulations of Financial Matters

Manner and Time of Payment

Expenses quoted on these pages may be expected to remain constant within the year. If circumstances warrant, however, the College reserves the right to change the price of meals in the dining hall without advance notice and the rentals on housing on thirty days’ notice.

Tuition and fees are payable in advance at the time the student registers. A three per cent discount on tuition and fees is granted for payment in full at that time, provided the student has not received a scholarship, work grant, or any sort of grant-in-aid.

All rentals are payable in advance either for the month or for the semester. Meals are to be paid for in advance, either monthly or by the semester.

If a student cannot pay the total semester expenses at the time of registration, a down payment of one hundred dollars ($100.00) will be acceptable, the remainder to be paid in three installments: on October 1, November 1, and December 1 during the fall semester, and on March 1, April 1, and May 1 during the spring semester.

Refunds

Housing reservation deposits may be returned to the student at the end of his stay at Ouachita provided the housing is in good condition and the student is not indebted to the college. In case the student does not take the housing reserved, the deposit will be refundable provided the student gives the school written notice two weeks before the beginning of the period for which the housing has been reserved.

Three-fourths of each deposit for courses in Military Science may be returned at the end of the course provided the uniform and equipment are returned in good condition and the student is not indebted to the College.

Refunds upon withdrawal from college are handled as follows:

Tuition. If withdrawal occurs within two weeks of registration day, 20 per cent of semester’s tuition will be charged; if during the third week, 40 per cent will be charged; if during the fourth week, 60 per cent will be charged; if during the fifth week, 80 per cent will be charged; if during or after the sixth week, full tuition for the semester will be charged.

Room and Board. Advance payments beyond date of withdrawal will be refunded. Such refund will be computed on a pro rata basis.

Meals in Dining Hall. Students living in dormitories are charged for all meals served in the College Dining Hall during the semester, except in case of an absence of at least two weeks because of illness. In such case, charges for meals will continue until the Business Office is notified. Stu-
dent requiring special diets must pay the extra cost, if any, as determined by the dietitian and Business Office. The Dining Hall will be closed during school holidays.

The Infirmary
For minor illnesses of less than a week’s duration, students are cared for by the College nurses. Cost of a physician’s first call is borne by the College. The student must pay for subsequent services, for all prescribed medicines, for necessary surgery, and for any hospitalization away from the campus.

Admission to Classes
Students will not be admitted to classes until the Business Office has stamped approval on registration cards.

Settlement of Accounts
Payment in full of all accounts must be made in the Business Office before a student may take final examinations, enroll for an ensuing semester, obtain transcript of credits, or graduate.

Financial Aid To Students

Loan Funds
Students at Ouachita College have the opportunity to secure loans from funds totaling approximately $50,000 given by donors interested in making possible a Christian education for needy and worthy boys and girls. Good moral character, satisfactory scholarship, promise of usefulness, economy in use of time and money, and need of financial assistance will be considered in selecting the beneficiaries. Help which the student receives from other sources will also be considered. The funds are administered for the College by a committee composed of one member of the Board of Trustees, two faculty members, and two students.

All payments on student loans should be made payable to the individual loan fund from which the money was borrowed.

Albert F. Riley Loan Fund. This fund of $2,000 was given in memory of Albert F. Riley by his brothers and sisters. Only laymen are eligible to borrow from this fund. Any student borrowing from this fund must have a “B” average in all college work and must furnish satisfactory security.

B. B. Cannon Loan Fund. Mr. B. B. Cannon left $12,000 to Ouachita Baptist College, the interest from which was to be used as a student loan fund to be known as the B. B. Cannon Loan Fund. Any student who has spent two semesters in Ouachita, meeting general requirements and furnishing satisfactory security, is eligible to borrow from this fund.
W. C. Edwards Memorial Fund. In memory of her husband, Mrs. W. C. Edwards has established a loan fund at the College to be used by worthy young men who are studying for the Christian ministry. This fund is designed especially to tide ministerial students over in emergencies and special needs, and with proper endorsements may be borrowed in small amounts.

Jim G. Ferguson Student Loan Fund. Jim G. Ferguson of Chicago, a native of Arkansas, has given Ouachita $5,000 as a fund to be loaned to worthy students. With Mr. Ferguson's permission $4,000 of this gift has been used to erect cottages for married ministers.

James J. Pugh Student Loan Fund. This fund, of about $18,000, was established by Miss Cynthia Ann Pugh, of Fayetteville, in memory of her father, for aiding needy and deserving students.

John T. Daniel Student Loan Fund. Mr. John T. Daniel, Jr., of El Dorado, has provided a generous loan fund with liberal terms to aid worthy and needy students. It is particularly designed to help those in need of immediate, short-term help occasioned by an emergency.

Belk-Jones Fund. Established by Mr. E. M. Jones, of the Belk-Jones Company of Texarkana, Arkansas, this loan fund is used at the direction of the President of the College to assist students in religious education.

Arkansas Congress of Parents and Teachers Loan Fund. The Arkansas Congress of Parents and Teachers maintains a loan fund for the use of college students who are preparing themselves to become teachers. The Congress is prepared to make interest-free loans not to exceed $200.00 for any one year to junior or senior college students who are currently enrolled in teacher training programs in the state and who need additional funds to help them remain in school. Further details and blanks for making application for the loans may be obtained by writing to the Arkansas Congress of Parents and Teachers, 529 Waldon Building, Little Rock, Arkansas.

Other Funds. Five smaller funds, the Mrs. Relda D. Wood Fund, the Mrs. Caddo McCabe Fund, the Mrs. Fannie T. McMillan Fund, the Eunice T. Wilson Fund, the S. A. Buchanan Fund, and the Curtis Rankin Memorial Fund are governed by the same rules and regulations as the Cannon Fund.

Scholarships

Honor Graduate Scholarships. A limited number of scholarships is granted each year to high school honor graduates. The usual amount of such scholarships is $50 per semester and can be applied against the regular tuition of $130.

Freshman ROTC Scholarships. Each year twenty-five scholarships providing $50.00 per semester for the first two semesters are granted to freshmen men. Preference is given to men who will pursue the full four-year ROTC course. The scholarship is credited to tuition and fees.
Theodore Blake Memorial Scholarships. In the will of Mrs. Estelle M. Blake, who died on January 23, 1950, a scholarship was provided in memory of her daughter, Theodore Blake. The amount of the scholarship is $250 per year for twenty-two years. It is to be given to an outstanding student, preferably a freshman, on the basis of ability and potentiality. This fund is to be controlled by the committee mentioned under Loan Funds. Applications are to be received by April 15 for the coming year.

E. M. Hall Memorial Scholarship. In order to perpetuate the memory of E. M. Hall, the trustees of Ouachita Baptist College, on April 25, 1929, set up a scholarship to be known as the E. M. Hall Memorial Scholarship. Mr. Hall served for more than forty years as a member of the board of trustees and was one of the most loyal and ardent supporters of the College. Mrs. J. L. Carter, daughter of the late E. M. Hall, has the power to designate the person to whom the scholarship will be awarded.

A. F. Haslam Scholarship. This scholarship amounting to $125 per year for four years has been provided by Mr. A. F. Haslam of Caracas, Venezuela. It is awarded by the scholarship committee of the College on the basis of scholarship, character, and promise of future usefulness. The money is to be applied against the regular tuition charge.

Ruby Cobb Haslam Scholarship. This scholarship has been provided by Mrs. A. F. Haslam, nee Ruby Cobb, of Caracas, Venezuela, and provides $125 per year for four years. It is awarded by the scholarship committee of the College on the basis of scholarship, character, and promise of future usefulness. The money is to be applied against the regular tuition charge.

Mrs. Ida Bottoms Scholarships. The interest from $10,000 left by Mrs. Ida Bottoms of Texarkana is to be given in scholarships to “help needy boys and girls of Arkansas get a college education.” The fund is administered by the scholarship committee of the College. It is anticipated that at least three scholarships amounting to $100 each will be available annually.

James J. Pugh Scholarship. Mrs. Cynthia Pugh of Fayetteville left the College $18,000 to be used both for student loans and student scholarships. The interest from this amount is to be used to provide scholarships for needy and worthy students. The scholarships are awarded by the scholarship committee of the College.

First Baptist Church, Waldron Scholarships. The First Baptist Church of Waldron, Arkansas, will provide annually two scholarships amounting to $240 each. The recipients of these scholarships will be designated by the donor.

Birkett E. Williams Scholarships. Two scholarships annually for students from Hempstead and Garland Counties have been provided by Mr. Birkett E. Williams of Cleveland, Ohio, who gave $19,000 so that the interest therefrom could provide these awards.
Opdyke Scholarships. Each year Ouachita receives three Opdyke Scholarships in the amount of $150 each from the Executive Committee of the Southern Baptist Convention. These scholarships are awarded for the education of mountain people.

Departmental Scholarships. A limited number of scholarships in various academic departments of the College are available. These amount to $50 per semester and are to be applied against the regular tuition charge.

Work Scholarships. The College is in a position to give a number of students part-time employment which enables them to defray a portion of their college expenses. Any credit balance which a student builds up in his account by work is not refundable in cash nor transferable. Application for work should be made to the Dean of Students on a specified form provided upon request. Ouachita Baptist College employs students as far as possible on its own campus, providing several kinds of jobs, such as work in the cafeteria, in the kitchen, on the campus, in the buildings, and in the library. Students who secure such jobs must give satisfactory service in order to hold their places.

Ministerial Grants-in-Aid. A minister residing in Arkansas and licensed or ordained by a Baptist church is eligible for an established discount of $50.00 per semester from the regular tuition under the following conditions: (1) his conduct and personal life must be worthy of a minister, (2) his scholastic work must be satisfactory, and (3) he must agree to refund this aid if he does not follow the ministry in the future.

Ministers' Wives and Children Grants-in-Aid. Wives and children of ministers of Baptist churches are eligible for the same discount as ministers. Before this discount may be granted, however, such students must fill out an application form which will be provided, on request, by the Business Manager. This form should be submitted at least thirty days prior to enrollment.

Arkadelphia Graduates Grants-in-Aid. A discount of $85.00 per semester is granted to graduates of Arkadelphia High School who reside in the Arkadelphia school district.

A student who receives one of the above scholarships or grants-in-aid is not eligible for second such scholarship or grant-in-aid, except possibly in the case of a student who might be given a work grant due to some special ability.

Employment. Ministerial students are assisted in securing part-time churches by the Head of the Department of Religion. The College does not encourage students to attempt to serve full-time in any church field or fields while enrolled as full-time students.

In addition, jobs are frequently available in the City of Arkadelphia.
STUDENT LIFE AND ACTIVITIES

Food and Housing

Costs to the student for these essential services are explained in the section on Financial Information.

Students living in dormitories will eat at the College Dining Hall.

Unmarried students, except those living at home, will reside on campus or in college-owned housing unless excused by the Dean of Students. Unmarried students living off the campus will occupy quarters approved by the College through the office of the Dean of Students.

Housing for single men is provided in the Field House, Johnson Hall, North Dormitory, and Conger Hall. A new 100-man dormitory is under construction. Housing for single women is provided in Terral-Moore Hall and Cone-Bottoms Hall. Each dormitory is under the supervision of a resident counsellor who is a member of the staff and works closely with the Dean of Students.

Single beds are provided. Linens, covers, and pillows will be brought by the student.

Housing for married students is provided in the nine cottages for ministerial students and the forty-three apartment units located on the North Campus. These apartments and cottages are unfurnished.

Reservations for housing both for single students and for married students are made in the office of the Dean of Students. Since waiting lists are sometimes necessary, reservations should be made as early as possible. The reservation fee, $10.00 for dormitory room or $20.00 for cottage or apartment, will be refunded if the student notifies the Dean of Students two weeks in advance of registration day that he has been prevented from coming.

Students already in residence may reserve accommodations for the next year provided they do so by May 1; thereafter, housing is accessible for old and new students on the same basis. No housing is considered reserved until reservation fee is paid. The College notifies the applicant of the confirmed reservation.

Medical Services

A physician, nurses, and a sixteen-bed infirmary are provided on the campus. First aid, simple diagnosis, and treatment for minor illnesses are available at little or no cost. Medical services in more serious cases may be had at the local hospital. Costs for the student are explained in the section on Financial Information.
The Counselling and Guidance Program

A conscientious endeavor is made at Ouachita to help the student solve both his personal and his academic problems. In addition to the competent specialists provided, each staff member is interested in developing the student into a well-rounded personality.

This program, under the supervision of the Dean of Students, provides counsellors who are ready to listen sympathetically, advise, and help seek solutions to the student's social, academic, or financial problems.

Guidance in one's studies is provided in two ways: a. by the admission and degree requirements explained in the section on the Instructional Program; b. by staff members who guide individual students toward their vocational and educational objectives. When a student first registers he is assigned to a faculty counsellor who assists in the selection of courses until an area of concentration is chosen. Then the student is assigned to a faculty member in the department in which the studies are to be concentrated. Aptitude, intelligence and proficiency tests administered early in the Freshman year help both student and counsellor to select the courses best adapted to the student's interests and abilities.

The Orientation Program during a student's first semester is designed to inform him of the opportunities in the instructional program, to help him to adjust to campus life, to introduce vocational facts to him, and to help him to successful and satisfying start in a college experience.

Remedial programs are provided for students with demonstrated deficiencies in essential skills. The Reading Clinic, for instance, helps students to develop vocabulary, speed, and comprehension in reading, as well as to remove certain reading handicaps. Courses of study are especially adapted in mathematics, speech, and written communication to assist students who encounter difficulties in such skills.

Social Life

Easy informality is the rule in Ouachita social life. However, group gatherings involving varying degrees of formality occur from time to time. The President's reception for new students at the beginning of each school year and the faculty reception for graduating students at the end of each school year are perhaps the outstanding formal events. Smaller groups have parties and entertainments sponsored by campus organizations, local churches, or staff members.

Social life in the dormitories ranges from the very informal "bull-session" to the more formal open house or reception. In the College Dining Hall good manners and table courtesies are expected always. Friendly greetings on the campus are traditional.

There are no national fraternities or sororities at Ouachita, but there are several local social clubs: for men, Beta Beta, Rho Sigma, Sigma Alpha Sigma and Alpha Omega Eta; for women, E.E.E., W.C.F., and
STUDENT LIFE AND ACTIVITIES

Gamma Phi. Within the framework of the College's objectives and ideals, these clubs pledge new students during stipulated periods in the school year. Hazing and corporal punishment are forbidden, and no club can function without a faculty sponsor.

Standards of Conduct

The Student Handbook, published each year, contains detailed regulations. In general, the rules are based on the desire of the faculty and staff that students enjoy the maximum freedom consistent with good citizenship, respect for the rights of others, and achievement in their studies.

Certain undesirable activities which are specifically forbidden include: disorderly conduct in dormitory, dining hall, classroom, library, or auditorium; drinking, carousing, or gambling, both on and off the campus; and smoking by women students.

Dormitory rooms are to be kept neat and clean. Defacement of walls or damage to furnishings must be paid for by the student. Furnishings may be removed from room only with permission of resident counsellor. Hot plates or double sockets for extra lights may not be used. Electric wiring is not to be changed by the student. The College will not assume responsibility for valuables left in dormitory rooms.

Women must have permission of a resident counsellor in order to make trips away from the College or outside Arkadelphia.

Student Government

The Student Senate, composed of elected representatives of the student body, deals with matters concerning the student body as a whole. It is a deliberative and planning group which works in close liaison with administrative officials of the College, interpreting official policy to the students and student wishes to the administration.

Dormitory councils, cooperating with the resident counsellors, enforce specific dormitory regulations and promote activities relevant to that dormitory.

Where and when needed, a special discipline panel, made up of both students and staff members, may be convened to deal with uncooperative students. This extreme measure is seldom needed.

Religious Life at Ouachita

Attendance at chapel is required of all students and staff members. Planned and presided over by faculty representatives, chapel is designed to deepen the student's spiritual life, broaden his cultural appreciation, and quicken his desire for learning.

Appreciation for religious values is cultivated further by staff members who are dedicated to the promotion of Christianity in higher
education, by vespers services and other activities of the Baptist Student Union, and by membership and activity in the churches of Arkadelphia and nearby communities.

Religious organizations on the campus include:

The Baptist Student Union. Largest and most inclusive of campus organizations, its purpose is to relate college activities to local Baptist churches and to deepen the spiritual lives of the students. The B.S.U. Council, elected annually and assisted by the student secretary, directs and coordinates various religious activities, promotes Religious Emphasis Week, sends representatives to the State B.S.U. Convention and the South-wide Student Retreats each summer. The local B.S.U. is affiliated with the Department of Student Work of the Southern Baptist Convention.

The Young Women's Auxiliary. Affiliated with the Women's Missionary Union and sponsored by a faculty member or faculty member's wife, this group endeavors to enrich the spiritual life of its members, train them for religious work, and enroll them in Bible and mission study courses.

The Ministerial Association. Composed of ministerial students, this organization promotes the devotional and intellectual life of its members and discusses their pastoral and professional responsibilities.

The O.B.C. Circle of the W.M.S. Sponsored by the W.M.U. of First Baptist Church in Arkadelphia, this organization of married women and older single women follows the programs of W.M.S. circles elsewhere.

The Life Service Band. This is the oldest organization on the campus for laymen who are dedicated to some form of Christian service as an avocation. Missionary activities and personal Christian living are the prime objectives of the weekly devotional programs and the extension work in neighboring communities.

The Volunteer Band. In promoting worship, training, experience, and fellowship for students who have dedicated their lives to home or foreign mission work, this group provides weekly devotional programs and missionary activities in surrounding communities.

Departmental Clubs

The purpose of such clubs is to foster closer relationships between teachers and students and to promote a livelier professional or academic interest in a given study. Departmental clubs now active on the Ouachita Campus include: Biology Club (Scio Vita), Chemistry Club, Commercial Club, Sigma Tau Delta (English Honor Society), Alpha Psi Omega (Honorary Dramatic Club), History Honor Society, Home Ec Club, International Relations Club, Math Honor Society, Musicians' Guild, Ouachita Players, Pi Kappa Delta (Debate), ROTC Rifle Club, Women's Recreational Association, Economics Club, Alpha Kappa (Sociology).
Dramatics and Music Organizations include: The Ouachita Players, a group of dramatics and other students who present several plays each year; The Ouachita Band which provides music for athletic and other events; The Ouachita Choir, well known over the state, which provides sacred music for churches and secular concerts for high schools, civic clubs, and other groups; The Treble Clef Club, a group of about fifty women not in the Ouachita Choir; The Men’s Chorus, a group of male singers not in the Ouachita Choir. Alpha Chi, honor society, has a chapter on the campus.

The Artists Series

Lectures and concerts by professional lecturers and artists bring to the student body periodically the best talent of the nation. No charge is made for these programs.

Publications

The Ouachita Signal, semi-monthly newspaper published by a student staff, is devoted to news about the College. Subscription price to non-students is $1.50 per year; for students, it is included in general fees.

The Ouachitonian, the yearbook, contains pictures of students, clubs and important events of the College year. Subscription price is included in regular fees.

Ripples is a literary magazine, published once per semester, written and edited by students, and sponsored by the Department of English. Its purpose is to discover and encourage literary ability among students and to make their literary productions available to other students. Subscription price to non-students is $1.00 per year; for students, it is included in general fees.

Placement for Graduates

Students and graduates wishing help in finding employment opportunities or graduate fellowships should file their application in the office of the Director of Placement. Information about certain careers and specific positions are available in that office also.

Athletics

Ouachita strives for excellence in both intercollegiate and intramural sports. The objective is for all students to participate in some sport, as well as to understand and enjoy spectator sports. Ouachita is a member of the Arkansas Intercollegiate Conference. Its teams compete in football, basketball, baseball, track, tennis, and golf.
THE INSTRUCTIONAL PROGRAM

The essential feature of any institution of learning is its formal program of instruction. It is recognized that a student may learn casually and informally and that out-of-class activities on a college campus are of inestimable value. However, the classroom, the library, the laboratory, and teachers who direct skillfully the student's use of such facilities make the college an institution of learning.

Ouachita Baptist College endeavors to offer the best in instruction, to hold high standards of achievement, and to help all students as far as possible to achieve those standards. If college education and college degrees are to be significant for an individual, it is necessary that the college maintain certain requirements for admission, for passing courses of instruction, and for receiving degrees.

Requirements For Admission

For High School Graduates

A person may qualify for admission by presenting a certificate from a class "A" or class "B" high school showing graduation with fifteen standard units and an average grade of "C" or better. Of the fifteen required units, three must be in English, two is science or mathematics, and one in social science. A third of the remaining units must be in English, foreign language, social science, science, or mathematics.

A graduate of a high school ranking below class "B" will be admitted if evaluation by the State Department of Education shows that he has fifteen standard units with grade average of "C" or better. A graduate may be admitted on probation for one semester if his grade average in high school was below "C" but not lower than half-way between "C" and "D" and if his principal or superintendent will recommend his admission.

For Non-Graduates of High School

A non-graduate of a class "A" or class "B" high school will be admitted, if he has earned fifteen standard units and if he is recommended by his principal or superintendent.

Any other applicant who is not a high school graduate will be admitted only on the basis of an examination showing that he has received the equivalent in his education of fifteen standard high school units. An applicant who is eighteen years old or older, whose certificate shows fifteen high school units before reduction by the State Department of Education and not less than thirteen standard units afterward, may be admitted upon taking the entrance examinations and intelligence tests. If the applicant is twenty-one years old or older, he may be admitted upon taking the entrance examinations alone, provided that he meets all
other requirements of the College. Veterans may be admitted on the basis of the G.E.D. test.

Non-graduates of high school will sometimes find it advisable to carry a limited academic load until they have demonstrated ability to carry a full load.

For Transfer Students

Students from accredited junior colleges or from accredited senior colleges will receive full credit for work done in such institutions, subject to certain limitations herein stipulated.

No more than sixty-six hours will be accepted from a junior college. No more than 104 hours from any other institution or institutions will be counted toward a degree from Ouachita College. No more than thirty hours from an accredited theological seminary will be accepted. At least twelve junior-senior hours in the area of concentration must be taken at Ouachita.

The nature and standards of courses offered in transfer must correspond closely to similar courses taught here. Not more than six hours of "D" grades will be accepted in transfer.

Correspondence and extension work from accredited colleges will be accepted up to thirty hours, but not more than ten hours of such credits may be counted in the area of concentration.

Students from unaccredited colleges will be tentatively admitted to Ouachita if they have had at least a "C" average and if their work is accredited at the State University of the state in which the college is located. No grade of "D" will be accepted from an unaccredited college. Credits from such institutions will be accepted in transfer only after the student has achieved a "C" average during a semester at Ouachita.

How to Apply for Admission

Application blanks may be obtained from a college representative or from the Registrar. The application blank completely filled out, a photograph (with name and date on back), and an official transcript of all previous high school and college work should be sent to the Registrar's Office at least two weeks before registration day. In some instances, the transcript may be submitted not later than one week after the beginning of a semester.

Admission, or formal approval of the application, is the prerogative of the College administration acting usually through an admissions committee. Notification of admission comes from the Registrar's office either by letter or by permit to enter.

Physical examination by the College physician, including chest X-ray, is part of the registration process and must precede final acceptance of the student as a candidate for a degree.
Academic Regulations

Time of Registration

Students who qualify for admission may enter at the beginning of the fall semester or the spring semester or any summer term. It is best to register during the specified registration period. Late registration is not encouraged and is forbidden after the third week following registration day. Students registering late may have to carry less than the average load and will be asked to pay a fine of two dollars for each day late, up to a total of six dollars.

In registering, the student is expected to consult with a faculty adviser, develop a tentative schedule, fill out registration and class cards, and arrange payments with the Business Office.

The Student's Academic Load

The average load is sixteen hours per semester. Less than twelve or more than seventeen hours per semester is considered outside the range of the normal load. A person registered for less than twelve hours is not classified as a regular student. A student carrying eighteen or more hours per semester must have the explicit and written permission of the Dean of the Faculty. Such permission is based on considerations of the student's average for the previous semester or semesters and upon the requirements of his degree program.

Students may not register in any one semester for more than three courses under the same instructor unless they have permission from the Dean of the Faculty. Enrollment in extension or correspondence courses must be approved beforehand by the student's adviser and the Registrar or Dean of the Faculty. A regularly enrolled student may not enroll in such courses if he is carrying over fourteen hours at Ouachita.

Changes in Course of Study

After a student and his adviser have arranged a semester's study program, changes in it are not encouraged. Any change of course after the first week and prior to the fourth week of a semester involves a fee of one dollar. Beginning with the fourth week, a student may not add a new course; and, if he drops without official permission a course in which he is failing at the time, he will receive a permanent grade of "F" in the course. If, by permission of the Registrar, he withdraws from a course during or after the fourth week and is passing in the course at the time, he will receive a grade of "W"; if he is failing at the time, he will receive a grade of "WF".

Definition of the Credit Hour

The semester hour is the basis for accreditation of academic studies. It represents one fifty-minute recitation or its equivalent per week for
eighteen weeks. At least two hours of laboratory work are required to equal one recitation period. One recitation period per week presumes that the student must spend two additional hours for preparation.

Grades and Quality Credits

Scholastic achievement at Ouachita is indicated by these symbols:

"A" is equivalent to three quality credits per semester hour and denotes excellence, the quality of work expected of superior students doing their best work.

"B" is worth two quality credits per semester hour and indicates better than average work.

"C" is worth one quality credit per semester hour and indicates average but satisfactory work of the average student.

"D" carries no quality credits and indicates passing but unsatisfactory work.

"F" indicates failure to achieve a passing quality of work. An "F" may not be removed from the record. It may be offset only by taking the course regularly in class again.

"I" indicates that a student's required work is incomplete and is given at the discretion of the instructor for good and sufficient reason. A grade of "I" automatically becomes "F" unless the deficiency is made up during the student's next semester of residence; in no case may it be made up after one year.

"W" indicates that student withdrew officially from the College or that he obtained permission from the Registrar to withdraw from a course after the normal three-week period for changing courses.

"WF" indicates that student withdrew officially from the course at a time when he was failing.

Classification of Students

A student is not entitled to class privileges until he has been certified by the Registrar's Office as a member of the class. A student is a freshman until he has earned 28 semester hours and at least 18 quality credits. Thereafter, a student is a sophomore until he has earned 59 semester hours and at least 49 quality credits. Then he is a junior until he has earned 89 semester hours and at least 79 quality credits, after which he is a senior, provided at least ten of his credit hours represent junior-senior work. A special student is one who is not pursuing courses leading to a degree or who is registered for less than twelve hours.

Academic Honors

The honor roll compiled at the end of a semester lists the names of students whose grade records are considerably above average. The mini-
mum qualifying quality credit average is 2.5 or above. A special Presidential Citation goes to students who have a straight "A" or 3-point quality credit average. To be eligible for the honor roll, a student must not only have the stipulated quality credit average but also must be registered for at least twelve hours of academic courses and have no incomplete or failing grade for the semester.

**Honors at Graduation** are conferred as follows: "summa cum laude" for 360 or more quality credits on the 128 required semester hours; "magna cum laude" for between 320 and 360 quality credits; "cum laude" for between 280 and 320 quality credits.

**Probation**

A limited academic load is required of students who enter under conditions other than the normal conditions explained in the section on Requirements for Admission.

A student on probation is limited to a partial load determined by the Dean of the Faculty. While on probation, he may not participate in intercollegiate activities or go on college-sponsored trips. Students who do not remove their probationary status within the next semester will be asked to withdraw either temporarily or permanently unless the college administration through the appropriate committee permits another semester on probation.

A freshman will be placed on probation if at the end of his first semester the number of quality credits earned is less than half the number of hours for which he was enrolled that semester. Thereafter, a freshman or sophomore will be placed on probation if he fails to earn twelve semester hours and nine quality credits in a semester. A junior or senior will be placed on probation if he fails to earn as many as twelve semester hours and twelve quality credits in a semester.

**Withdrawal from the College**

A student may withdraw voluntarily or at the request of the College. He may be asked to withdraw if: (a) it is determined that his actions or attitudes are unworthy of a good campus citizen; (b) his scholastic record falls below normal expectations or if he fails to remove his probationary status, as explained above; (c) his financial record is unsatisfactory to the College.

When the student withdraws for any reason, he is expected to report to the Registrar and to the Business Office before he leaves the campus. Failure to do so will result in continued charges for food and/or housing as well as adding prejudicial items to his official record.

**Transcripts**

Whenever a student desires to have a transcript sent to graduate or professional schools or to other institutions, he should request it at least
a week before it is needed. The request must be approved by both the Registrar and the Business Manager. Satisfactory arrangements for accounts must be made before transcript will be sent. The initial transcript is free; one dollar is charged for each additional one.

**Class and Chapel Attendance**

It is assumed that a student's registration in College indicates his intention to attend all meetings of his classes. Attendance is required at both chapel and classes. However, it is recognized that absence is sometimes unavoidable and that a set of rules governing attendance must be fair to the student, the instructor, and others concerned.

Class absences may be excused under any of four conditions: (a) illness certified by physician or infirmary supervisor; (b) official school business; (c) necessary church business (funeral, other emergencies, or annual associational meeting); (d) personal emergency, excuse for which must be approved by the Dean of Students. It is the student’s responsibility to obtain his excuse slip from the office of the Dean of Students and to show the excuse slip to the instructor of each class missed not later than the second class period following absence. In addition to excused absences, students may be permitted one unexcused for each semester hour's credit in a course, provided the instructor allows it. Excessive unexcused absences endanger a student's grades. Any student absent for any reason, excused or unexcused, for as much as twenty-five per cent of the class sessions will receive no credit for the courses in which such absences occur.

Chapel attendance is required of each student unless excused for good reason by the Dean of Students. Unexcused chapel absences are penalized on this basis: first one, no demerits; second one, one demerit; third one, three demerits; fourth one, four demerits; each additional one, four demerits. Demerits assessed will be recorded in the student's permanent personnel folder. A student who accumulates twenty-five demerits during one school year will be subject to dismissal.

**Requirements for Degrees**

Ouachita Baptist College confers the degrees of Bachelor of Arts, Bachelor of Science, Bachelor of Music, and Bachelor of Music Education.

Evidences of good moral character, fulfillment of all general and specific academic requirements, and formal approval by the faculty are the essential conditions for receiving a degree.

The Bachelor of Arts degree is conferred upon the student who meets the general requirements as listed below. The Bachelor of Science is conferred upon the student who meets the general requirements and achieves an area of concentration in Biology, Chemistry, Home Economics, Physics, or Mathematics, plus at least twenty hours in the other sciences. For the Bachelor of Music degree and the Bachelor of Music Education degree, a student must meet the general requirements and, in addition, comply with
specific requirements explained in the catalog section on the Department of Music.

Summary of Requirements

1. Semester hours totalling at least 128, and including:
   a. General Education courses* 43 hours, including:
      - Gen. Ed. 143a, b Communication
      - Gen. Ed. 234a, b Humanities
      - Gen. Ed. 213 General Psychology
      - Gen. Ed. 113 **Basic Mathematics
      - Gen. Ed. 105 **Physical Science
      - Gen. Ed. 135 **Life Science
      - Gen. Ed. 153-162 Religion in Life
      - Gen. Ed. 214-224 Civilization
   b. Physical Education or Military Science*** 4 or 8 hours
   c. An Area of Concentration 45 hours
   d. Courses numbered 300 or above, 42 hours

2. Quality credits totalling at least 128

3. Proficiency test in English usage (to be taken in junior year or later)

Note: A student must spend his senior year at Ouachita, completing not less than twenty-four hours of the last thirty-two hours required for graduation.

Not more than forty hours from one department and not over four hours of physical activity courses may count toward a degree.

A student must meet general requirements for graduation in the catalog under which he entered or in a subsequent catalog if he chooses. A student out of school more than two years must re-enter under the catalog in force at the time of re-entrance.

The student desiring a second degree at Ouachita must spend two additional summer sessions or a regular semester in residence. He may use the same basic requirements for both degrees but must have at least twenty additional hours in the area of concentration used for the second degree.

The Area of Concentration

The area of concentration, a more flexible program of study than the traditional major-minor arrangement, requires a core of at least twenty-

*Description of courses in General Education may be found in the catalog section for the division in which the course is taught: Communication and Humanities in the Division of Humanities; General Psychology in the Division of Education; Basic Mathematics, Life Science, and Physical Science in the Division of Natural Science; Religion in Life in the Division of Religion and Philosophy; Civilization in the Division of Social Science.

**If it contributes more to a student's educational objective, College Algebra or Trigonometry may be substituted for Basic Mathematics; General Chemistry or General Physics may be substituted for Physical Science; Botany or Zoology may be substituted for Life Science.

***Men must register for Military Science I and II, 8 hours; or if physically disabled, for Physical Education and Health, 4 hours. Women must register for Physical Education and Health, 4 hours.
four hours in one department, but permits the student to select from several departments for the remainder of the forty-five hours in the area rather than having to choose an entire minor from a single department. Thus, he can concentrate more effectively on an educational or vocational objective, and college education becomes more significant as preparation for a career.

The area of concentration will be worked out subsequent to the completion of the courses in General Education. Ordinarily, the latter requirements will be met in the freshman and sophomore years. The junior and senior years are then free for development of the area program.

In consultation with the Dean of Students, the College Counsellor, or faculty advisors, the student may outline his degree program at any time in his college career but must do so not later than his junior year. The degree program stating the student’s objective and outlining the courses contributing to that objective must be approved by the faculty advisor and by the Dean of the Faculty. When thus approved it becomes the program which, if completed successfully by the student, leads to the conferring of the degree.

The area of concentration shall consist of at least forty-five hours and shall contain at least twenty-four hours but not more than forty hours from some one department. The area may include, with the permission of the faculty advisor and the Dean of the Faculty, up to eight hours from the courses in General Education. At least twenty hours in the whole area of concentration, twelve of them in the chosen core, must be of junior-senior level. No work with “D” grade is acceptable in the area of concentration.

The area of concentration may cut across departmental or divisional lines if this contributes to the student’s educational objective. It may be directed toward professional study, such as pre-medical, pre-law, pre-engineering, teacher training, business, or the ministry; or it may be concentrated in subject-matter areas, such as humanities, social studies, fine arts, religion, mathematics, or natural sciences.

The minimum requirements for the area of concentration as stated here may be exceeded in some divisions or departments. The additional requirements are explained in the appropriate sections of the catalog.

### Suggested Courses Of Study

Specific and detailed suggestions for certain specialized study programs may be found elsewhere in this catalog (consult index) and in consultations with faculty advisor. In general the student should try to accomplish the program suggested below.

**First Year.** A freshman must take the General Education courses entitled Communication; he must take either Physical Activities or Military Science or, if unable to take this, lecture courses in Health. From the General Education requirements he should choose most of the rest of
his study program. If a freshman is certain of his educational objective
he may elect beginning courses in the chosen department. As a rule,
approximately half of the required courses in General Education should
be completed the first year.

Second Year. A sophomore should complete the remainder of his re-
quirements in General Education so that by the end of the year he will
be completely free to develop his area of concentration and work toward
his educational objective.

Third and Fourth Years. The student and his advisor must cooperate
closely during the last two years in order to complete and, if possible,
enrich the program leading toward the student's educational objective and
toward the degree sought.

Courses of Instruction

The program of instruction, under the general supervision of the Dean
of the Faculty, is correlated effectively through the grouping of courses
into divisions, each of which includes several related departments.

Each course has a three-digit number, the first digit indicating if the
course is primarily for freshmen, sophomores, juniors or seniors; the
second digit indicating the course number; the third indicating the num-
ber of hours credit. Courses numbered 100-199 are primarily for freshmen;
200-299 for sophomores; 300 and above for juniors and seniors. In no case
may a regularly enrolled freshman enroll for a course numbered above
300. It is not required that all freshman-level required courses be taken
in the freshman year; in fact, they may be taken as late as the junior
year.

Courses marked "a" and "b" are full-year courses, "a" designating the
first semester, "b" the second semester. Usually "a" is prerequisite to
"b", and in most cases both must be taken in order for credit to be given
for either.

Unless otherwise indicated, all courses are open to all students. Stated
prerequisites may be waived only with consent of the instructor. Unless
otherwise indicated, courses will be offered once each year.

The College reserves the right to withdraw or change courses; how-
ever, the indicated times for offering courses will be observed as closely as
possible.

DIVISION OF BUSINESS
ADMINISTRATION
Mr. Edmondson, Chairman

The Division of Business Administration undertakes to correlate prac-
tical business training with the objectives of liberal arts education and to
develop those skills and attitudes which will render the student competent
for immediate employment in business or as a teacher of business or for
graduate studies. Emphasis is placed on Christian ideals in business re-
lationships.

The Departments of General Business, Economics, and Secretarial
Science are included in the Division. Requirements for developing an
area of concentration are explained under each department.

I. GENERAL BUSINESS

Mr. Edmondson

This department affords instruction in business organization, law,
finance, accounting, retailing, and personnel management.

Requirements for Area of Concentration with Core in General Business: General Business 233a, b, 364, and fourteen additional hours from
this department, plus Economics 233 and enough courses from related
fields to total forty-five hours.

122. Introduction to Business.

Principles of business organization, promotion, financing, vocational
opportunities, and general business practices. Fall.

233a, b. Elementary Accounting.

An introductory study of accounting principles and techniques.

303. Business and Industrial Development.

A detailed study of the factors contributing to the location and de-
velopment of business and industry. Fall 1956-57 and alternate years.

A study of federal tax regulations and of the preparation of income
tax returns for individuals, partnerships, corporations, estates and trusts.
Spring 1957-58 and alternate years.

323. Credits and Collections.

A professional course dealing with problems of credit and collection
Fall 1957-58 and alternate years.

332. Corporation Finance.

The financial structure, problems and capitalization of corporations.
Prerequisite: 122. Fall 1957-58 and alternate years.

A general survey of laws affecting business operations, with emphasis
on contracts. Spring.
DIVISION OF BUSINESS ADMINISTRATION

373. Retailing.
Principles, practices, and problems of retail merchandising. Prerequisite: 122 and Economics 343. Spring 1956-57 and alternate years.

Elementary theory, presentation, and analysis of statistics in business. Prerequisite: Mathematics 113. Fall.

392a, b. Intermediate Accounting.
A study of more complex systems and problems of accounting. Prerequisite: 223b.

423. General Insurance.
The principles and practices of life, fire, casualty, marine, and transportation insurance. The economic and social services of insurance and its principal legal phases. Spring 1956-57 and alternate years.

A course in advanced research for seniors concentrating in business. Prerequisite: Business 383. Offered on demand.

431. Special Problems in Business.

443. Business Organization.
A study of various patterns and problems of business management and organization. Prerequisite: 122. Fall 1956-57 and alternate years.

462. Personnel Management.
A course dealing with selection, testing, training, and management of personnel. Prerequisite: 122. Spring 1957-58 and alternate years.

472. Salesmanship.
A study of the nature and importance of selling, analysis of the sales personality and salesman’s responsibilities, and a survey of the practices and techniques that have been proved successful. Prerequisite: 122 and Economics 343. Spring 1957-58 and alternate years.

II. ECONOMICS

Dr. Yeager

The study of Economics, closely related to the Social Studies, deals with man’s efforts to satisfy tangible needs from the materials of his environment. Theories of production and distribution and their impact upon social institutions are presented in historical perspective.
Requirements for Area of Concentration with Core in Economics: Economics 233 plus at least eighteen additional hours from this department plus enough hours from related fields of study to total forty-five hours.

   An introductory study of the terminology of economics and of the basic laws of production, exchange, distribution, and consumption. Each semester.

   A study of current national and international economic problems approached from both theoretical and practical standpoints. Prerequisite: 233. Spring.

303. Consumer Economics.
   The problems of credit, money management, and security planning as they affect consumers. Recommended for Home Economics students. Prerequisite: 243. Fall 1956-57 and alternate years.

313. American Economic History.
   Relating economic motivations to sectionalism, political parties, class conflict, and especially to foreign policy since 1900, this course covers the entire period from 1492 to the present. Prerequisite: 243, and Civilization II. Fall 1957-58 and alternate years.

323. European Economic History.
   Beginning with medieval Europe, then tracing the impact of the Mercantilists, the Physiocrats, and the Classical economists upon England and the Continent. Careful study of Fascism, Nazism, and Communism, and the economic background and aftermath of World War II. Prerequisites: 243 and Civilization I. Spring 1956-57 and alternate years.

333. World Resources.
   Demographic, natural, industrial, and capital resources are studied in their relation to problems of international cooperation and peace. Prerequisite: 243. Spring 1957-58 and alternate years.

343. Marketing.

353. Public Finance.
   An analysis of the sources of public revenue, the nature and extent of public expenditures and the problems of taxation at local, state, and national levels. Prerequisites: 243 and Political Science 213. Spring 1957-58 and alternate years.
392. Labor Relations.

The relationships of labor problems to the total socio-economic situation. The aims, methods, and history of labor unions. Prerequisites: 243 and Civilization II. Fall 1956-57 and alternate years.

423. History of Economic Thought.

The nature, importance, and development of economic thought. Analysis of ancient, Biblical, and medieval theories of production and distribution followed by study of modern economic theories. Prerequisites: 243 and Civilization I. Fall 1957-58 and alternate years.

433. Money and Banking.

The history of prices; basic principles of credit; banking and the Federal Reserve system. Prerequisite: 243. Fall 1956-57 and alternate years.

443. Corporate Concentration.

A study of problems and public policies arising from the concentration of economic power in the United States. Prerequisite: Economics 243. Spring 1956-57 and alternate years.

Major economic problems such as pricing, government control of business, etc. Prerequisite: 243. Spring 1958-57 and alternate years.

III. SECRETARIAL SCIENCE

Miss Orr

Courses in Secretarial Science develop skills in typewriting, dictation, transcription, use of office machines, and general office practice.

Requirements for Area of Concentration with Core in Secretarial Science: At least twenty-four hours in courses from this department plus Economics 233, General Business 233a, b, and 364, plus enough hours from related fields of study to total forty-five hours. At the discretion of the advisor, the core in secretarial science may include up to six hours in general business.

Students with high school credit in typewriting and shorthand may continue their study at a level indicated by results of advanced standing examinations. College credit may not be given for beginning shorthand and typewriting if high school units in equivalent courses are used as entrance credits.
102a, b. Beginning Typewriting.

For beginners only and not open to persons who already have ability in typewriting. Instruction and practice in basic skills and techniques.

202a, b. Elementary Shorthand.

Introductory course in Gregg shorthand, simplified. Instruction and practice in reading and dictation. Reviews of shorthand theory during second semester. Open only to beginners in shorthand. Prerequisite: 102b or equivalent.

212a. Advanced Typewriting.

Letter-writing with emphasis on syllabification, punctuation, and spelling; arrangement of reports and manuscripts involving tabulation and statistics. Prerequisite: Speed of 50 words per minute. Fall.

212b. Production Typewriting.

Designed to teach the student how to meet the production standards of business offices. This course provides a wide variety of typing jobs which must be planned, typed, and assembled. Prerequisite: 212a or two years of high school typewriting. Spring.

303a, b. Advanced Dictation and Transcription.

Intensive drill in dictation, speed building, and transcription, with emphasis on business office standards in quality and quantity. Student must achieve by end of first semester a dictation rate of 120 wpm, by end of second semester, 140 wpm, both with acceptable transcription rates. Prerequisite: 202a, b, or dictation rate of 80 wpm.

312. Filing Systems.

A comprehensive study of the fundamentals of filing. Practice in filing and finding and in setting up various filing systems. Fall.

323. Office Machines.

Instruction and practice in operating key-driven calculators, ten-key machines, rotary-type calculators, listing machines, duplicators, and machine dictation equipment. Lecture and laboratory. Fall.

342. Business Communications.

The fundamentals of business letter-writing with special attention to form and composition, including a grammar refresher section. Prerequisite: ability to type. Fall 1957-58 and alternate years.
423. Office Practice.

To prepare students for actual service as secretaries and to orient business teachers in office procedures, this course outlines the duties, responsibilities, and personal qualifications of a secretary and points out the best methods in office routines and style. Prerequisites: 212b, 303. Spring.

432. Teaching Commercial Subjects.

Discussion and demonstration of materials, methods, classroom procedures, and testing in the teaching of typewriting and shorthand in high schools. Prerequisite: eight hours shorthand and six hours typewriting or equivalent. Spring 1956-57 and alternate years.

DIVISION OF EDUCATION

Dr. Yeoman, Chairman

The Division of Education is primarily concerned with the improvement of teacher education. The major functions of the Division are to develop and administer the professional offerings, to coordinate the various aspects of the programs offered, and to render service in matters of teacher placement and follow-up.

The Division embraces the Departments of Elementary Education, Secondary Education, Physical Education, Psychology and Library Science. Areas of concentration are offered in all except Library Science. Programs of teacher education are offered in Elementary Education, Secondary Education, and Physical Education, each of which qualifies for certification in the state of Arkansas.

Ouachita cooperates with and participates in the Arkansas Experiment in Teacher Education.

General Education offered within the Division includes:

Gen. Ed. 213 General Psychology.

An introductory course dealing with the elementary principles, terminology, and various aspects of the different branches of psychology. Each semester.

Suggested Programs of Study for Teacher Education

Successful completion of one of the programs of study listed here will qualify the student for teaching in the state of Arkansas in the teaching areas indicated as well as meet requirements for the area of concentration. Deviations from the programs must be approved in writing by the advisor and the chairman of the Division of Education.

I. ELEMENTARY EDUCATION

Dr. Yeoman       Miss Wright       Mr. Donnels

The program in Elementary Education is designed to give training in pertinent subject matter and in skill areas stressing a broad working acquaintance with the elementary curriculum rather than with subject matter specialization needed in secondary school teaching.

Requirements for Area of Concentration with Core in Elementary Education: Education 132, 223, 303, 322E, 332, 352, 382, 392, 409E, 422, 433, 442, and 492; Art 322a, b; Speech, six hours including Speech 113a; Geography, three hours; History 402a, b; Physical Education 353 and 473.

Secondary Education 363, Physical Education 353 and Art 322a,b may be counted toward an area of concentration in Elementary Education.

132. Basic Music for Classroom Teachers.

A course in simple sight-reading, fundamental chord accompaniments, and other musical knowledge needed in teaching elementary school children. Fall.

223. Introduction to Education.

This course aims to acquaint the student with the field of education, to help him consider critically the wisdom of entering the teaching profession and to guide him in planning a program of study. Fall.
303. Educational Psychology, Elementary Level.

Emphasis in the course is placed on the psychology relating to the child as a learner. Fall.

322E. Evaluative Procedures.

A study of the techniques of grading, evaluation of progress, and determination of aptitudes and interests. Consideration of appropriate instruments and their uses and interpretation. Spring.

332. Children’s Literature.

Books for children are evaluated in this course. Reading areas are sampled and evaluated in terms of appropriateness for the child’s best interests, needs and abilities. Spring.

352. School Music, Materials and Methods.

A course in the use of materials and methods which the elementary teacher can use for instruction in music. Fall.

This course deals with problems and techniques of teaching arithmetic in grades one through six. Fall.

393. The Elementary Curriculum.

A study of the principles and practices involved in developing the program for the elementary school, with major emphasis on curriculum construction. Spring.

409E. Directed Teaching, Elementary.

In this course, the prospective teacher participates in all phases of the elementary teacher’s work by spending one-half of each day for one semester in a nearby public school. The student’s participation is directed by a cooperating teacher and the college supervisor. Prerequisite: Permission of the chairman of the Division of Education. Spring.

422. Teaching the Social Studies (Elementary).

A course dealing with the selection and presentation of materials and teaching techniques for history, geography, and other social studies. Fall.

433. Teaching the Language Arts (Elementary).

A study of planned sequential instruction in acquiring and expressing ideas in grades one through six, with emphasis on materials and tech-
niques pertaining to listening, observing, speaking, reading, and writing as the means of communication. **Fall.**

**442. Science in the Elementary Grades.**

A course dealing with skills, attitudes, and appreciations to be developed in relation to the child’s natural environment. Plant and animal life, mineral resources, and conservation are emphasized. **Fall.**

**492. Audio-Visual Aids in Education.**

A course designed to familiarize the student with audio-visual aids and how to direct a public school program in audio-visual education. The course provides practical experience in use of audio-visual equipment such as the motion picture projector, the slide projector, the opaque projector, and other mechanical devices. **Spring.**

**II. SECONDARY EDUCATION**

Dr. Yeoman Mr. Donnels

The program in Secondary Education is designed to prepare the student to teach in two academic areas. Major emphasis is placed on laboratory aspects of training procedures.

**Requirements for Area of Concentration with Core in Secondary Education:** Education 223, 322S, 343, 373, 413, 409S, and two hours in special methods in teaching area; Speech 113a; Physical Education 473 and enough additional courses from related fields to total at least forty-five hours. Courses in areas of teaching specialization will be determined by the student working with assigned counsellor.

Elementary Education 223 and 492 may be counted toward an area of concentration in Secondary Education.

**253. Principles of Secondary Education.**

A course designed to acquaint students with the history of secondary education, to interpret basic principles in the development of the program, and to consider purposes and objectives. **Offered on demand.**

**313. Co-curricular Activities (Secondary).**

A study of the types and relative values of organized out-of-class activities, with emphasis on organization and administration of activity programs. **Offered on demand.**
322S. Evaluative Procedures.
A study of grading, evaluating progress, and determining interests and aptitudes. The student is introduced to appropriate evaluative instruments and their uses. Spring.

343. Educational Psychology (Secondary).
A course designed to develop understanding of the problems in learning and in the motivation of adolescents. Consideration of the effects of subjective, objective, and interactive learning situations. Fall.

363. Guidance and Personnel.
A course in the methods of counselling, with practice in interviewing and the use of pertinent data. Offered on demand.

373. The High School Curriculum.
A course in the prevailing principles and practices in preparing the high school study program, with special emphasis on selection and organization of curriculum content. Fall.

409S. Directed Teaching (Secondary).
The course provides the prospective teacher participating experience in all phases of the high school teacher's work. One half of each school day for one semester is spent in a nearby public school working under the supervision of a cooperating teacher and the college supervisor. Prerequisite: permission of the chairman of the Division of Education. Spring.

413. General Methods and Observation.
A course in teaching methods, in the procedures for stimulating, guiding, and directing learning. Spring.

453. History and Philosophy of Education.
A study of the development of education from its beginnings until the present time, with special emphasis on the teachings and contributions of certain outstanding philosophers who influenced educational trends. Offered on demand.

491. Seminar in Secondary Education.
Guided by the chairman of the division, the student studies special problems in this field.

Special Methods Courses for Secondary School Teachers.

402S. Teaching the Social Studies (Secondary).

422. Teaching Commercial Subjects.
DIVISION OF EDUCATION

433S. Methods in Physical Education (See Physical Education Department).

452. Teaching English in High School.
472. Teaching Natural Science (Secondary).
482. Teaching Modern Languages (Secondary).
483. Methods of Teaching Home Economics.

III. HEALTH AND PHYSICAL EDUCATION

Mr. Shultz
Mr. Rodgers

Mr. Vining
Miss Ashburn

Courses in the Department of Health and Physical Education provide basic instruction in health and safety, train physical education teachers for elementary and secondary schools, and teach the value of games and sports in the educative process.

The Athletic Program

All students are encouraged to participate in intramural or intercollegiate sports. Such participation enriches personality by developing desirable attitudes toward health, social-mindedness, sportsmanship, competition, cooperative effort, institutional loyalty, and other values and skills that carry over into later life.

Ouachita is a member of the Arkansas Intercollegiate Conference and abides by the eligibility and other regulations of that conference.

Requirements for Area of Concentration with Core in Health and Physical Education: Forty-five hours, of which at least thirty-one must be in the Department of Health and Physical Education and the remainder from related fields. Specifically required from this department are courses 313, 383, 423, 463, 433S, 473, and a choice of two from M442, 432, 362, and 372. In addition, men must complete four activity courses (M111a, b and M121a, b) and women must complete four activity courses (W121a, b and W221a, b) plus W251a plus a choice of one course from W211, W231, W241, or W251b.

Activity Courses

The prescribed uniform for participation in activity courses is: for men, shorts, shirt, and basketball shoes; for women, white shirt, socks, tennis shoes and purple pedal pushers. The courses marked "M" are for men only, those marked "W" for women only.

55
M11a,b. Individual Sports.

Tumbling, gymnastics, handball and badminton the first semester; boxing, archery, and recreational sports the second semester.

M12a,b. Team Sports.

Touch football, speed ball, and basketball the first semester; volleyball, softball, basketball, and track and field sports the second semester.

W12a,b. Team Sports.

Volleyball, field hockey, and basketball the first semester; soccer, basketball, and softball the second semester.

W21. Marching, Tumbling, and Pyramid Building, Fall.

W22a,b. Individual Sports.

Archery and badminton the first semester; recreational games the second semester.

231. Tennis. Each semester.

W25a,b. Folk Rhythm.

Academic Courses

M142 or W142. Personal Hygiene.

In separate courses for men and women, stress is laid on safety, personal health, sane living, community health, and the physical welfare of school children. Spring.

152. First Aid.

Instruction and practice in rendering first aid in cases of injury or accident. Completion of the course qualifies one for the Advanced First Aid certificate of the American Red Cross. Fall.

223. Camp Leadership.

A course in developing programs for summer camps, with emphasis on the duties of camp counsellors. Spring.

262. History of Physical Education.

A study of the development of physical education programs with emphasis on recent trends. Fall.
273. **Community Health.**

A study of the principles of lighting and seating, ventilation and heating, food preparation, water supply, sewage disposal, disease control, and health agencies. **Fall.**

313. **School and Community Recreation.**

A survey of the nature and scope of school and community recreation, with emphasis on recreational problems in schools. **Spring.**

333. **Church Recreation.**

A survey course for ministers and religious education workers designed to give an overall picture of recreation, its organization and administration in both large and small churches. **Fall.**

M342. **Sports Officiating.**

A study of the rules and rulebooks for various sports along with practice in officiating for the major sports. Designed primarily for prospective coaches. **Fall.**

M352. **Track and Field.**

Theory and practice in each event of intramural and intercollegiate programs of track and field athletics. **Spring.**

353. **Physical Education Methods (Elementary).**

A study of the scope, motivation, and administration of school health programs. Instruction in methods, class routine, administration of the daily program, and graduation of subject matter. Included in the course are methods of teaching story plays, hunting games, mimetics and other activities. **Fall.**

M362 or W362. **Coaching Team Sports.**

A study of the theory and practice of playing and coaching field hockey, volleyball, basketball, and softball, with consideration for the administration and organization of these sports in intramural programs and physical education classes. **Fall.**

372. **Coaching Individual and Recreational Sports.**

A study of the techniques of coaching golf, tennis, archery, tumbling, handball, badminton, and horseshoe pitching, with consideration for the administration and organization of these sports in intramural programs and physical education classes. **Spring.**
383. Principles of Physical Education.

A course designed to improve understanding and appreciation of the purposes, values, nature, scope and significance of physical education. **Spring.**

This course deals with the prevention and care of athletic injuries, massage, taping, bandaging. Attention is given also to diet and physical conditioning. **Spring.**

423. Administration of Physical Education Programs.

A study of the administrative programs and problems in both elementary and secondary schools in both rural and urban districts. **Fall.**

432. Basketball Coaching.

Theory and practice in the fundamentals of offensive and defensive basketball, with emphasis on team formation, officiating, purchase and care of equipment. **Spring.**

433S. Methods in Physical Education (Secondary).

A study of methods for high school physical education programs, including time allotment, seasonal division of work, public relations, care and purchase of supplies and equipment, graduation of subject matter, and the handling of handicapped children. **Spring.**

M442. Football Coaching.

Theory and practice of offensive and defensive play, strategy and generalship, and playing various positions. Rules, ethics, sportsmanship, game values, early season practice, and the use and development of materials are also considered. **Fall.**

463. Kinesiology.

A study of body movements, of muscle and joint action in relation to physical activity. Mechanical analysis of the more commonly used physical skills. **Fall.**

473. Health and Safety.

A course which satisfies state teacher certification requirements and deals with the principles of health and safety education in elementary and secondary schools, with methods of teaching health and safety, and with administration of the program in schools. **Fall.**
483. Tests and Measurements.
A guide or teachers of physical education in measuring the student’s achievement. Spring.

IV. PSYCHOLOGY

Dr. Sutley Mr. Donnels

A study of psychology helps the student understand himself and other people. The Department seeks to point out practical uses of the subject in dealing with people as well as to provide a sound basis for advanced study in the field.

Requirements for Area of Concentration with Core in Psychology:
General Psychology plus at least twenty-one additional hours in this department and enough hours from related fields to total at least forty-five hours. Psychology 442 should be elected by students planning graduate study in Psychology.

General Psychology is prerequisite to all courses in the department. Religion 433 and Sociology 313 and 343 may count for credit in Psychology.

213. General Psychology.
An introductory course dealing with elementary principles, terminology, and various aspects of different branches of the subject. Each semester.

223. Mental Hygiene.
A study of the psychological factors relating to personal adjustment and mental health, with emphasis on the well-integrated personality, and some attention to the milder forms of normal variance. Spring.

233. Applied Psychology.
An investigation of certain psychological theories and practices applied to problems of medicine, law, criminology, and business. Fall.

313. Psychology of Childhood.
A study of the nature and needs of the child’s mental, physical, social, and emotional development. It is required that the student select and study one child. Fall.

333. Psychology of Adolescence.
A study of teen-age problems and development. The student is required to write a detailed report on his study of an adolescent. Spring.
353. Psychological Measurements.
   An introduction to psychometry and elementary statistical concepts, including demonstrations of group and individual tests and discussion of test rationale, construction, and interpretation. **Fall**.

413. Introduction to Clinical Psychology.
   A critical evaluation of the theories, problems, limitations, and trends in the field. The course is designed for serious students of clinical psychology and is open to students concentrating in psychology. **Spring**.

433. Psychology of Abnormal Behavior.
   A study of the severe mental and emotional deviations and illnesses. Consideration is given to the incidence, causes, symptoms, therapy, and prognosis of various conditions. Prerequisite: instructor's consent. **Fall**.

442. Statistics.
   A practicum in computations, the student being given opportunity for critical analysis and evaluation of elementary statistical techniques. Prerequisite: 353. **Spring**.

   Special topics are selected for research. Oral and written reports are required. Open to seniors who are concentrating in psychology and who have at least a "B" average. Others admitted by special permission only.

V. LIBRARY SCIENCE
   Mr. Seager

212. The School Library.
   A study of general library administration, book selection, and methods of library service. Designed primarily for the teacher-librarian, but other students above freshman standing may be admitted. Laboratory periods are required. **Fall**.

222. Library Services.
   This course, a continuation of 212, includes library administration, guidance in bibliography construction, reference service, and general library practices. Prerequisite: 212. **Spring**.

301-3. Reference.
   The first hour deals with materials in religion. The other two hours deal with general reference materials in other fields. Selection, evaluation, and interpretation of reference materials is the aim of the course. **Spring**.
DIVISION OF FINE ARTS

Dr. Mize, Chairman

The Division of Fine Arts, embracing the Department of Art and the Department of Music, has the dual purpose of training students for careers in one of the arts and of providing arts experiences for students seeking a liberal education.

I. ART

Mr. Raybon                      Mrs. James

Education in art develops appreciation for the beautiful and harmonious in life. Courses in art are open to students wishing to develop critical and creative abilities and to students desiring professional art training.

Requirements for Area of Concentration with Core in Art: Art 113a, b 213a, b, 233a, b, 312a, b, 333a, b, and enough courses from related fields to total at least forty-five hours.

Students usually furnish, with certain exceptions, their own art materials. The department reserves the right to use student work for exhibition purposes.

113a, b. Elementary Design.

A study of basic principles in choice and arrangement of form, value, texture, and color. Emphasis on individual creative work.

202a, b. Mechanical Drawing.

Instruction in the correct use of instruments for lettering, design, layout, and projections.

213a, b. Drawing.

Drawing from still life, landscapes, and portrait figures. One and two point perspective. 1957-58 and alternate years.

222a, b. Art Appreciation.

A non-technical cultural course, a study of the world's art and the principles involved in masterpieces of architecture, painting, and sculpture as well as in industrial arts and crafts. The scope and significance of visual art in civilization are emphasized. 1957-58 and alternate years.
233a. b. Advanced Design.

A more detailed study in selection and arrangement of mass, value, color, and texture, along with summary attention to abstract design, commercial design, interior design, and industrial design. Prerequisite: 113b. 1956-57 and alternate years.

302. Costume Illustration.

A study of the development of costumes and the application of art to clothing design. Prerequisite: 113b. Spring.

312a. b. Introduction to Art History.

Emphasizing relationships of art to environment, and illustrated with visual aids, this course develops understanding of the aesthetic and expressionistic character of the visual arts from prehistoric to modern times. Interpreting art by its motivating forces, the first semester deals with ancient and medieval art, the second with Renaissance and modern art. 1956-57 and alternate years.

322a. b. Public School Arts and Crafts.

Emphasizing the place of art in elementary and secondary school programs, this course deals with the principles and procedures in teaching the arts and crafts, and with the selection and preparation of illustrative materials for pupils of various grade levels.

333a. b. Painting.

Emphasizing color and composition in representation of form and space, this course deals with creative problems. Medium used (i.e., oil, paint, tempera, water color) depends on needs or desires of each student. Prerequisite: 113b.

411-4a. b. Studio Problems.

Work on advanced problems in a chosen branch of art is given according to needs and ambitions of individual student. Conference with instructor at least once a week.

II. MUSIC

Dr. Mize
Miss Bowden
Miss Lyon

Mr. Scott
Miss Wright
Mr. Birkhead
Miss Queen

The Department of Music prepares students for careers in the fields of musical performance, music education, and church music. It also pro-
vides courses for persons desiring non-technical knowledge of music as a part of their liberal education. For students desiring careers in musical performance, the Bachelor of Music degree is offered; for students who wish to become music teachers, the Bachelor of Music Education; for prospective music directors, the Bachelor of Music degree with a core in church music; for persons studying music for its value in liberal education, the Bachelor of Arts degree with a core in music.

Requirements for Area of Concentration:

a. With Core in Music (For B. A. degree)

Music 134a, b, 244a, b, and 462a, b, plus sixteen hours in applied music, three hours ensemble, and enough additional courses from related fields to total at least forty-five hours.

b. With Core in Applied Music (For B. M. degree)

Music 134a, b, 244a, b, 344a, b, 462a, b, 333, plus twenty-four hours in one field of applied music, twelve hours in a second field of applied music, three hours of ensemble, and six hours of French. Piano students must also take Music 492. All candidates for the Bachelor of Music degree must appear in public graduation recital.

c. With Core in Church Music (For B. M. degree)

Music 134a, b, 244a, b, 344a, b 462a, b, 363, 373, 413, 322a, b, plus eighteen hours in one field of applied music, six hours in a second field of applied music, and three hours of ensemble. All candidates for the Bachelor of Music degree must appear in public graduation recital.

d. With Core in Music Education (For B. M. E. degree)

Music 134a, b, 141a, b, 151a, b, 244a, b, 344a, b, 462a, b, 442a, b, and two hours ensemble, plus twenty-four hours of applied music, plus the required number of hours from the Division of Education to comply with the teacher certification requirements of the State of Arkansas. The twenty-four hours of applied music may be taken according to any one of three options:

Option I: Eighteen hours in student's major instrument, three hours piano, and three hours voice (either class or private)

Option II: For voice students, twenty-one hours in voice, three hours in piano; for piano students, twenty-one hours in piano, three hours in voice.

Option III: Nine hours in wind instruments, six hours in string instruments, six hours in piano, three hours in voice.

All candidates for the B. M. E. degree, except for Option III, must appear in public graduation recital.
Theory

122a, b. Fundamentals of Music.

Offered primarily for students not prepared by talent or background to enter standard courses in music theory or methods. Not open to students concentrating in music and does not offer credit toward music degrees. May count toward B. A. degree, and partially meets requirements for Arkansas elementary school certificate.

134a, b. Theory I.

An integrated study of sight-singing, ear-training, harmony, and counterpoint. Meets five periods per week.

141a, b. String Methods Class.

The student learns the functions of the principal string instruments and learns to perform on one of them — violin, viola, cello, or bass viol — with special emphasis on positions of instrument and bow.

151a, b. Wind Methods Class.

The wood-wind instruments are studied during the first semester, the brass and percussion instruments during the second semester.

244a, b. Theory II.

Continuation of the integrated course in sight-singing, ear-training, harmony, and counterpoint. Meets five periods per week. Prerequisite: Theory I.

322a, b. Choral Conducting.

A study of baton technique, conducting skills, and choral literature. Especially designed for directors of church music.

333. Survey of Music Literature.

Using recordings of musical masterpieces, this course aims to develop more critical appreciation of the elements of music, proper aesthetic judgments, and intelligent listening. Spring.

344a, b. Theory III.

An integrated study of form and analysis, orchestration, and conducting. Meets five periods per week. Prerequisite: Theory II.

363. Church Music I.

An introductory course for church organists and choir directors. Fall.
373. Church Music II.
A study of the historical development of hymns and church music. Spring.

413. Church Music III.
A study of the organization and management of church music programs, especially adapted to Southern Baptist churches. Spring.

442a, b. Public School Music.
A study of the aims, materials, and methods for teaching school music from kindergarten through sixth grade, followed by a study of methods of organizing and conducting junior and senior high school music departments, including glee club and instrumental ensembles; also a survey of music materials for high school music programs. Prerequisite: 141a, b, 151a, b.

462a, b. Theory IV. History of Music.
In the first semester, a study of music from primitive man to the nineteenth century, including early church music, the development of polyphony, and the beginnings of opera, oratorio, and instrumental music. The second semester traces developments from Beethoven to the present.

492. Piano Methods.
A study of drill methods, fundamentals, teaching materials, and principal problems of the teacher of piano. Fall 1956-57 and alternate years.

Ensembles
Each music major is encouraged to participate in an ensemble. Up to four hours credit in ensemble may count toward graduation. It is required that one enroll for both semesters in ensembles involving a half credit hour per semester.

130.5a, b. Ouachita Gleemen.
A chorus open to all college men, performing both sacred and secular music for various campus functions.

140.5a, b. Treble Clef Club.
A chorus for all college women, performing both sacred and secular music for various campus functions.

150.5a, b. Piano Ensemble.
Study and practice of two-piano literature for four hands and eight hands. Open to students who have attained intermediate grade level in piano.
160.5a, b. Little Symphony.
Selected from the better instrumentalists on the campus, this group participates in various campus activities.

171a, b. Band.
The College Band plays for athletic events and gives concerts during the year. Membership attained by tryouts at start of year.

181a, b. College Choir.
Performing both a cappella and accompanied, the Choir sings both sacred and secular music. Stress is laid on voice production, choral techniques, and interpretation.

Applied Music

Selective admission to courses in Piano, Organ, Voice, or Violin means that a student may register for applied music only after he has demonstrated to the head of the Department that he has had the preparation or has the ability to perform satisfactorily the work of that course.

Students will be placed in the applied music grade of their ability. Advancement to the next grade must be approved by the instructor and an examining committee.

All students taking applied music must attend the Repertoire class which meets once a week and consists of short recitals presented by various students.

Credit in applied music is arranged as follows:

Class instruction, one-hour credit
Two one-hour lessons, five hours practice per week.

Preparatory Grade, one and one-half hours credit
One half-hour lesson, five hours practice per week.

Intermediate and Advanced Grade
On the B. A. degree, two hours credit
Two half-hour lessons, seven hours practice per week.
On the B. M. and B. M. E. degrees, three hours credit
Two half-hour lessons, ten hours practice per week.

Pianoforte

A systematically developed technical background is the first prerequisite in modern piano playing. The best from all the so-called methods is used in teaching. Co-ordination of mind and muscle, rhythmical accuracy, correct phrasing, good tone quality, melodic outline, dynamic shading, and correct pedaling are the goals sought.

011.5a, b. Preparatory Grade.
Basic principles of touch and tone. Major and minor scales, legato and
staccato touch. Studies from Heller, Gurlitt, Czerny, Bertini. Pieces by Bach, Godard, Reinecke, Poldini, Clementi, and others.

103a, b. Secondary Piano.

Special piano instruction for students concentrating on applied music other than piano.

191a, b. Class Piano.

Small classes for adult beginners who are not piano majors. Two one-hour lessons, five hours practice per week.

291a, b. Class Piano.

Second year for students not concentrating in piano. Two one-hour lessons, five hours practice per week. Prerequisite: 191a, b.

Private Lessons in Piano.

113a, b. Piano I. First year, intermediate level. Technical exercises, scales and arpeggios, similar and contrary motion, with contrasting touches accenting in threes, fours, sixes, and sevens. Bach Album (Sarah Heinz); Bach, Little Preludes and Fugues; Bach easier two-part inventions; Joseph Low, octave studies; Czerny, Opus 636; pieces by Haydn and Mozart; Mendelssohn, Songs Without Words.

213a, b. Piano II. Second year, intermediate level. Advanced principles of touch, study of scales, in double thirds. Hanon’s technics; Czerny, Opus 299; Cramer-Bulow etudes; Bach two-part and three-part inventions; Haydn and Mozart sonatas; pieces by Mendelssohn, Weber, Schubert, Sinding, Rachmaninoff, MacDowell.

313a, b. Piano III. Third year, advanced grade. Scales in double thirds, chromatic double thirds, fourths, and sixths. Technical exercises from Hanon, Phillip, and Joseffy; Kullak’s octave studies, Clementi-Tausig, Gradus ad Parnassum; Czerny, Opus 740; Bach, English Suites and Partitas, Preludes and Fugues. Studies and pieces from Scarlatti, Chopin, Liszt, and Moszkowski.

To enroll in Piano III, a student must be able to play major and minor scales, similar and contrary motion, at 480 notes a minute; also arpeggios, major, minor, diminished, and dominant sevenths at 464 notes a minute. Moreover, a student must be able to play from memory an entire Beethoven sonata, a waltz and polonaise from Chopin, and three pieces from standard modern composers.

413a, b. Piano IV. Fourth year, advanced grade. Continued technical work. Bach Well-Tempered Clavichord, Moscheles etudes, Chopin etudes, Beethoven sonatas, piano concerto, or concert pieces selected by instructor. Pieces from Liszt, MacDowell, Henselt, Brahms, Tschaikowski, Debussy, Dohnanyi, and others. Study of Moszkowski’s Etudes de Virtuo-
site Op. 72, Villoing's Rubinstein Technics, and Phillips' Extra Pratiques. Memorization of two preludes and fugues from Bach's Well-Tempered Clavichord (or equivalent) is required.

Candidate for graduation must give public recital of the following or their equivalent: Beethoven Sonata, Opus No. 2; Schubert-Liszt song transcription; Chopin Etude, Opus 25, No. 10; a concerto, one movement; a group of three compositions from works of Grieg, Rachmaninoff, Brahms, MacDowell, or other standard composers. Candidate must also be able to play all exercises in Hanon's The Virtuoso Pianist.

Organ

Private Lessons only.

113a, b. Organ I. First year. Pedal studies of Clemens and Schneider; Dickinson, Art of Organ Playing; Bach, Eight Little Preludes and Fugues; hymn playing. Prerequisite: Completion of preparatory grade in piano or its equivalent.

213a, b. Organ II. Second year. Mendelssohn, Sonata in C Major; Reiman, Technical Studies of the Organ; Rinck, Chorale Studies; pieces by Buck, Rheinberger.

313a, b. Organ III. Third year. Bach sonatas, chorale preludes, fugues; Franck, Fantasie in C Major; Piece Heroique; shorter works by Foote, Karg-Elert, Handel, Wider, and others.

413a, b. Organ IV. Fourth year. Bach sonatas, chorale preludes, fugues; Mendelssohn sonatas; Vierne, movements from symphonies; smaller works by de Larmarter, Vaughan-Williams, Edmundson, Bingham, Reger, others.

Voice

Graduates in voice must have studied one foreign language (French, German, Italian) and have working knowledge of two others.

011.5. Preparatory Grade.

For students with insufficient preparation to enroll in Voice I.

191a, b. Class Voice. Small classes studying somewhat similar techniques as in private lessons, but with less individual attention. Not open to students concentrating in voice. Two one-hour lessons, five hours practice per week.
213a, b. **Voice II.** Second year. Extended major and minor scales and arpeggios to develop flexibility and full vocal range and uniformity in color and tone. Classic and romantic songs in English, German, and Italian. Some oratorio study. Student will appear on programs.

313a, b. **Voice III.** Third year. Exercises in embellishment, turns, trills, mordents, and fuller development of tone and color. Study of classics, of recitative and aria from opera and oratorio by Handel, Mozart, and others. Songs in English, Italian, German, and French. Student must assist in a recital.

413a, b. **Voice IV.** Fourth year. Emphasis on style and interpretation, on beauty and artistry of tone. More difficult songs from classic, romantic, modern, and ultra-modern literature; arias from opera and oratorio; songs of Strauss, Debussy, Ravel, Faure, Franck, and Russian composers. Senior voice recital required.

### String Instruments

113a, b. **Violin I.** First year. Technical exercises of Sevcik, Mazas, Dont, and Sitt. Studies by Keutzer, concertos of Accolay, Haydn; sonatas and sonatinas of Handel and Schubert; other works of medium difficulty.

213a, b. **Violin II.** Second year. Art of the Bow, Tartini; double stops of Ed. Herman; Mazas, Part II; scales and arpeggios, three octaves; Kreutzer etudes; Sevcik bowings; concertos of Rode, Vivaldi, Nardini, DeBeriot; Bach A Minor Concerto; pieces by Alard, Wieniawski, and Kreisler.

313a, b. **Violin III.** Third year. Technical studies, Sevcik Op. 1, Parts 3 and 4; scales in all practical forms of bowing; etudes of Rode, Rovelli, Fiorillo, sonatas by Franck, Schumann, Carpenter; concertos by Spohr, Bach E Major, and standard repertory compositions.

413a, b. **Violin IV.** Fourth year. Six solo sonatas; concertos of Bruch, Wieniawski, Lalo, Mendelssohn; sonatas by modern and classic composers. Students of violin present one public recital and participate in string ensemble.

113a, b. **Violoncello I.** First year. Exercises to develop thumb position; scales, major and minor, in four octaves; arpeggios; ensemble playing.

213a, b. **Violoncello II.** Second year. Continuation of 113a, b.

### Wind Instruments

**011.5. Preparatory Grade.**

For students without previous preparation, this course emphasizes correct embouchure, breath control, tone quality, articulation, and understanding of technical problems peculiar to the instrument, such as the flute, oboe, clarinet, bassoon, trumpet (cornet), French horn, trombone (baritone), and tuba.
113a, b. Wind Instruments I.

First year study of one of the following: flute, oboe, clarinet, bassoon, French horn, tuba, trumpet (cornet), or trombone (baritone). Studies and solo literature from masterpieces for the designated instrument. Exercises to develop correct position, embouchure, breath control, tone quality, and technical facility. Emphasis on mastery of scales, chords, and interval patterns for the instrument.

213a, b. Wind Instruments II.

DIVISION OF HUMANITIES

Dr. Doster, Chairman

Primarily concerned with the ideas of humankind as expressed in the literatures of the West, the Division of Humanities endeavors to integrate such ideas with the whole of life and to develop in the student that which is best stated in terms of the Renaissance concept of the complete man.

The Division includes the Departments of English and Comparative Literature, Foreign Languages, Journalism, and Speech, each of which offers an area of concentration as explained in its section of the catalog.

General Education courses offered within the division are:

Gen. Ed. 143a, b. Communication.

A course in effective reading and writing, with some attention to communication in speech. Required of all Freshmen.

Gen. Ed. 234a, b. Humanities.

An integration of literature and fine arts and covering the period from Classic Greece to the present, this course helps the student increase his capacity to appreciate ideas and the arts.

I. ENGLISH AND COMPARATIVE LITERATURE

Dr. Doster                Miss Rasberry
Miss Simmons              Mrs. Black
Miss Holiman               Miss Wellborn

This department exists primarily to acquaint students with the masterpieces of literature in English and with relationships of this literature to the whole of Western culture. Secondary purposes are to develop language
skills beyond the elementary objectives of the Communication course and to indicate historical and geographical relationships of English to other languages.

Requirements for Area of Concentration with Core in English: English 353a, 353b, 363, 413a or 413b, 431, 453 or 463, plus enough electives within the department to total at least twenty-four hours, plus twelve hours of a foreign language, plus enough courses in related fields to total at least forty-five hours.

Satisfactory completion of General Education courses 143a, b and 234a, b is prerequisite to any course offered by this department. Students electing this area of concentration must schedule 353a and 353b in proper order during their Junior year and must observe specific course prerequisites. Other students may schedule courses as suggested by their advisors.

Students electing this area will often be advised to schedule courses in excess of minimum requirements. Courses from other departments will not be accepted toward the core in English, but may count toward completion of the area of concentration.

312. The Drama.
A study of the drama as developed in the West, with emphasis on the literary values in the plays. Fall.

332. Creative Writing.
A course in creative writing designed for publication, with special attention to personal experiences as subject matter for such creative work. Spring, upon demand.

342a, b. The English Novel.
A study of the development of the English novel, with reading and discussion of representative novels. 1956-57 and alternate years.

353a, b. English Literature.
A concentrated survey of the development of English literature from the Old English period to the present, with emphasis on ideas and historical factors as reflected in the literature.

363. American Literature.
A survey of the literature of the United States, with emphasis on the major writers and their ideas. Prerequisite: 353a. Spring.

372. Advanced Grammar.
An intensified course in grammatical concepts and sentence analysis, designed primarily for students who may teach English. Fall.
413a, b. Shakespeare.

An intensive study of a few plays, with briefer consideration of others.

422a, b. Great Novels in Translation.

A detailed study of some of the great foreign novels, with analysis of their values as works of art and as interpretation of human nature. 1957-58 and alternate years.

A course in practical scholarly research techniques. Prerequisite: completion of at least two term papers in advanced courses in English or Social Science. Offered on demand and arranged individually.

442. The Appreciation of Poetry.

A course in the understanding and enjoyment of poetry. In order to obtain some concept of the poetic processes, students are encouraged but not required to compose original verse. Spring 1956-57 and alternate years.

453. History of the English Language.

A brief survey of the development of English out of the parent tongues, and of the linguistic processes involved. Spring 1957-58 and alternate years.

463. Chaucer.

The shorter poems and the Canterbury Tales, with some attention to the Middle English language as well as to literary values in the works. Spring 1956-57 and alternate years.

473. The Romantic Movement.

483. Contemporary Literature.

A study of trends in literature during the twentieth century, with emphasis on the decadent movement and the effects of war on literary art. Spring 1957-58 and alternate years.

493. The American Renaissance.

A study of American literature and civilization based on the Transcendentalist movement, Hawthorne, Melville, and Poe. Fall 1956-57 and alternate years.
II. FOREIGN LANGUAGES

Miss Gardner

The primary purpose of the department is to develop appreciation of French and Hispanic cultures through study of their languages, lives and literatures. The necessary study of pronunciation, grammar, and idiomatic expression is supplemented in the first two years with famous literary works, travelogues, and biographies in translation. A secondary purpose is to teach sufficient German to enable the student to read scientific reports in that language.

Requirements for Area of Concentration with Core in French: At least twenty-four hours in French plus sufficient courses from related fields to total at least forty-five hours.

French

223a, b. Elementary French.

A course in the fundamentals of pronunciation and grammar. Recordings are used for aural practice. Selections from standard authors are read on an elementary level.

343a, b. Intermediate French.

A course designed to develop accurate and fluent reading of French literature in the original. Translation of newspaper articles is required in order to increase vocabulary and command of idiom. Prerequisite: one year of College French or equivalent.

353. Advanced Composition and Conversation.

Individual training in diction, conversation, and advanced grammar for students wishing to acquire fluency in the spoken language. Prerequisite: 223b or equivalent. Fall.

362. Contemporary Literature.

Directed reading of outstanding literary works of the twentieth century, including selections from both magazine materials and anthologies. Prerequisite: 343b. Spring.

412a, b. Great Masterpieces.

A study of outstanding works of major French authors from the sixteenth through the nineteenth centuries. Prerequisite: 343b. Offered on demand.
421-4. Advanced Readings in French.

A course for advanced students who wish to read extensively in a particular field of literature. Prerequisite: 16 hours of French. Fall, on demand, and arranged individually.

Spanish

223a, b. Elementary Spanish.

A course in the fundamentals of grammar and composition, using the conversational approach. Readings on elementary level in order to stimulate interest in Hispanic culture.

323a, b. Intermediate Spanish.

Extensive reading of Spanish and Latin American literature on the intermediate level, with oral resumes and class discussions. Prerequisite: 223b or equivalent.

333. Advanced Spanish Grammar and Conversation.

343. Readings from Spanish-American Authors.

Selections designed to improve the student's facility in the language as well as his cultural information. Fall, on demand.

German

212a, b. Scientific German.

An elementary course designed for science students, with emphasis on vocabulary and aimed at early reading ability. 1957-58 and alternate years.

III. JOURNALISM

Mr. Redden

This department is designed both for those who plan a career in journalism and for those who wish to acquire journalistic skills to help them in other professions or businesses.
Requirements for Area of Concentration with Core in Journalism: Journalism 113, 123, 212, 223, 322, 413, 423 and enough additional courses in this department to total at least twenty-four hours plus enough courses in related fields to total at least forty-five hours.

Students in Journalism are required to serve on the Signal staff.

113. Introduction to Journalism.
A study of the entire field of mass communications with emphasis on journalism. Each semester.

123. Reporting.
Practice in the writing of straight news stories for newspapers and the college paper. Each semester.

212. Editing.
A laboratory course involving headline writing and correcting and preparing copy for the printer. A few lectures on make-up and libel laws. Prerequisite: Journalism 123. Each semester.

223. Feature Writing.
Theory and practice in selecting ideas, gathering materials, and preparing and selling manuscripts. Emphasis on special and Sunday newspaper features. Prerequisite: 123. Spring, 1957-58 and alternate years.

313. History of American Journalism.
A study of the development of the Fourth Estate and an interpretation of its value in American life, with special consideration for the principles governing the contemporary press. Fall 1957-58 and alternate years.

322. Religious Journalism.
A study of the preparation and editing of church publications and bulletins, and of their relationships to the secular press. Fall 1956-57 and alternate years.

413. Public Relations.
A survey of the purposes, methods, and media of public relations for industries, businesses, and institutions. Fall 1956-57 and alternate years.

A study of current problems, including sensationalism, the relationship of facts and opinions, the newspaper and law, democracy and the press. Prerequisite: 123. Spring 1957-58 and alternate years.
432. Supervision of School Publications.

A discussion of planning and problem-solving in public school publications, with emphasis on advertising, news content, and make-up. Summers, and on demand.

An intensive short session working out problems faced by sponsors of school publications. Summers.

IV. SPEECH

Mrs. Rudolph

This department provides training for prospective teachers of speech and for others who appreciate the cultural and vocational values inherent in the ability to speak effectively.

Requirements for Area of Concentration with Core in Speech: Speech 113a, b, 212a, b, 333, 343a, b, and enough additional courses in Speech to total at least twenty-four hours, plus enough additional courses in related fields to total at least forty-five hours.

Orientation in speech, emphasizing poise, spontaneity, sincerity, and self-mastery. Students completing this course are expected to continue with 113b. Fall.

113b. Voice and Diction.

A course designed to establish good speech habits through analysis of individual voices, drills in articulation, and instruction in developing flexibility, clarity, audibility, and musical quality in speaking. Spring.

123. Discussion and Debate.

A study of the techniques of group discussion and of the principles of argumentation and debate, including analysis, briefing, evidence, reasoning, and refutation. Fall.

171. Contest Debate.

Participation in intercollegiate debate on the national debate question. Prerequisite or co-requisite: 123.

212a, b. Oral Interpretation of Literature.

A course designed to acquaint students with the emotional and intellectual values of literary materials, as well as to train in the art of oral presentation.
DIVISION OF HUMANITIES

323. Dramatic Reading and Platform Art.

A course in gathering and arranging program materials, with emphasis on public presentation of studies from classical literature. Prerequisite: 212b. Spring.

333. Public Speaking.

Theory and practice in composing and delivering speeches of various types for various occasions. A goal of the course is to develop ability to express ideas effectively in everyday life. Each semester and summer.

343a, b. Play Production.

A study of basic principles of play production, including acting, make-up, stagecraft, and directing.

432. Character Portrayal.

Advanced study of acting techniques, with emphasis on the study and creation of character. Prerequisite: 343b. Spring.

A course in which the student is expected to apply the theories of dramatic production. One hour's credit is given for each one-act play presented publicly. Prerequisite: 343b. Fall.

453. Introduction to Speech Correction.

Elementary study of the diagnosis, nature, and problems of speech disorders. Prerequisite: 113b and junior standing. Spring 1956-57 and alternate years.

Theory and practice in radio-television production, involving acting, announcing, newscasting, continuity, music, directing, programming, script-writing, and station management. Prerequisite: junior standing and six hours of speech. Spring.

DIVISION OF NATURAL SCIENCE

Dr. Provine, Chairman

The Natural Sciences provide cultural values for all students as well as specialized training prerequisite to several vocations. The facts and relationships of the universe as well as the scientific method in thinking
should be known by all. Scientific knowledge is basic to careers in medicine, pharmacy, chemical research, engineering, and other fields.

The Division embraces the Departments of Biology, Chemistry, Physics, Mathematics, and Home Economics.

**General Education Courses in the Sciences**

All degrees require: 5 hours biological science, either General Education 135, Biology 115, or Biology 125; 5 hours physical science, either General Education 125, Chemistry 115, or Physics 115; 3 hours mathematics, either General Education 113 or Mathematics 123 or Mathematics 133.

**Gen. Ed. 105. Physical Science.**

This course presents the basic concepts from astronomy, chemistry, geology, meteorology, physics, and related fields. Four hours lecture, two hours laboratory per week. Each Semester.

**Gen. Ed. 113. Basic Mathematics.**

Stressing the essentials of mathematics, this course develops logical habits of thinking, a sense of quantitative relationships, and readiness to deal with mathematical problems in everyday life. Each semester.

**Gen. Ed. 135. Life Science.**

This course presents the essential facts from the world of plants and animals in the light of their significance for man. Demonstrations, films, and field trips are included. Three hours lecture, four hours laboratory per week. Each semester.

**Suggested Sequences for Pre-Professional Training**

**Pre-Medicine**

Pre-medical students should have had in high school: 3 units English; 1 unit algebra; 1 unit plane geometry; 1 unit history. In college, the pre-medical student should register as follows:

The importance of liberal arts courses to the premedical student may be clearly seen in the following quotation from the 1953 bulletin of the University of Arkansas School of Medicine:

It is the feeling of the faculty of the School of Medicine that the physician should be a broadly educated man . . . in a three-year pre-medical curriculum the required courses in physical and biological sciences . . . should represent practically the maximum in those fields.

Courses in the social sciences and the humanities should make up most of the remainder of the ninety (90) semester hours required. It is not true that students who have taken a large number of science courses have a better chance of being admitted to medical school than those who have chosen a more broadly cultural program. It is strongly urged that students take a four-year pre-medical course leading to a degree, if possible.

Pre-Pharmacy

The Pre-Pharmacy student should register as follows:

17 - 18 hours

The Medical Technology program, offered in cooperation with standard schools in that field, leads to the B.S. degree upon completion of the three-year pre-medical course as outlined in preceding pages and upon presentation of certificate showing twelve to fifteen months of study in a standard school of medical technology.
DIVISION OF NATURAL SCIENCE

Professional Chemists

This area of concentration in Chemistry includes enough work in mathematics, physics, and chemistry to prepare the student adequately for graduate study and with minimum requirements for a career as a professional chemist. The minimum requirements are: Chemistry, 40 hours; Mathematics, 18 hours; Physics, 10 hours; a reading knowledge of German.

Third and Fourth Years

Additional courses in Chemistry, Mathematics, and other fields needed to complete the minimum requirements for professional chemistry plus enough electives and courses in general education to obtain the degree.

The Arts-Engineering Program

Cooperating with the College of Engineering of the University of Arkansas, Ouachita Baptist College offers a five-year combination program. Following the three-year program outlined by this college and one year at the University's College of Engineering, the Bachelor of Arts degree will be conferred by this college. At the end of the fifth year, the student will receive from the University of Arkansas the Bachelor of Science in Agriculture, Chemical, Civil, Electrical, Industrial, or Mechanical Engineering.

18 hours

A similar arrangement has been made with the School of Engineering of Vanderbilt University, the only difference being that the B.A. degree will be awarded at the end of the fifth year of the program.

Pre-engineering students should have had in high school: 3 units English, 1 unit history, 1½ units algebra, 1 unit geometry. To enroll for the last two years at the University, the student must have made a grade point average of at least 1.5 during the three preceding years. If the student completes the three-year program here, he must carry at least seventeen hours per semester.

Instead of Mathematics 313 and 413, the prospective Chemical Engineer should take Chemistry 213a, b during the second year, and Chemistry 324a, b during the third year.
The prospective Electrical Engineer will spend one six-week summer session at the University between his third and fourth years. Prospective Civil Engineers will spend six weeks in Summer Surveying Camp between the fourth and fifth years.

I. BIOLOGY

Dr. Mundie  Mr. Sandifer  Mr. Oliver

The study of biology develops understanding of the life processes, of the interrelationships of living things, and of scientific methods and limitations. Courses offered serve cultural purposes and as prerequisites to medicine, dentistry, agriculture, forestry, and related fields.

For premedical students, Biology 115, 125, and 314 are required, and 323, 333, and 424 are recommended. For Home Economics students working toward the B.S. degree, Biology 115 or 125, 213, 222, and 232 are required. For teachers, ministers, and persons desiring general cultural courses, Biology 115, 125, 213, 222, 244, 314, 323, 333, 343, and 424 are recommended. For students in Physical Education, Biology 115, 125, 213, 314, 323, 333, and 424 are recommended.

Requirements for Area of Concentration with Core in Biology: Biology 115 and 125 plus at least fourteen additional hours in biology, plus enough hours from related fields to total at least forty-five hours.

115. Botany.

The first half of the general biology course, aimed to provide a broad cultural background for the general student as well as a sound basis for premedical students and professional biologists. Fall.

125. Zoology.

The other half of the general biology course, with stress on biological principles and their relationship to man. Spring.

213. Human Physiology.

A course dealing with the structure and function of the human body. Discussion of infection, immunity, and the prevention and control of diseases. Prerequisite: 115 or 125. Spring.

222. Bacteriology.

A study of bacteria and its relationship to man, plants, and animals. Classification, morphology, physiology, and environmental needs of bacteria are discussed. Prerequisite: 115 or 125 or Chemistry 115. Lecture only. Fall.
232. Bacteriology.
Laboratory only, including methods for preparing culture media, staining, culturing, and other common biochemical reactions. Co-requisite: 222. Fall.

301. Human Physiology Laboratory.
Laboratory only. Designed to teach use of instruments in the physiology laboratory through practical demonstrations. Prerequisite or corequisite: 213. Spring.

314. Vertebrate Comparative Anatomy.
Lecture and laboratory dealing with vertebrates phylogenetically, then by comparative study of anatomy. Includes dissection of the cat (to be furnished by student), dogfish, necturus, and some protochordates. Prerequisite: 115, 125. Fall.

323. Genetics.
A study of the basic principles, theories, and mechanics of heredity. Prerequisite: 115, 125. Fall.

333. Heredity and Eugenics.
A further study of the relationship of heredity to plant and animal improvement. Discussion of heredity and race problems, and of eugenics versus eugenics. Prerequisite: 323. Spring.

A study of relationships of organisms to each other and to their environment; of the structure, development, and distribution of animal communities in relation to environment. Lecture, laboratory, and field trips. Fall.

354. Plant Taxonomy.
A study of the principal groups of plants with reference to structure, ecology, life history, taxonomy, and phylogenesis. Laboratory work includes classification, observations, and dissections of plant types. Prerequisite: 115, or General Education 135. Spring.

414. Histology and Microtechnique.
Lecture and laboratory dealing with primary tissues of vertebrate animals, using the histological technique. A practical course for laboratory technicians, pre-medical students, and other biology students. Prerequisite: 115, 125. Fall 1957-58 and alternate years.
424. Embryology.
A comparative study of the development of the vertebrate embryo. Cell division, gametogenesis, fertilization, cleavage, gastrulation, and organ formation in the frog, chick, and pig are studied. Lecture and laboratory. Spring.

Given on demand and varied to suit needs of biology students.

II. CHEMISTRY

Dr. Provine

Dr. McCarty

The first year of Chemistry (115, 125) is designed for students wanting knowledge of the science for its cultural value, for its use in related fields, or as a prerequisite for further work in chemistry. Advanced courses are designed for students who need more thorough knowledge of the subject in preparation for work in chemistry, medicine, engineering, or other professions.

Requirements for Area of Concentration with Core in Chemistry: Chemistry 115, 125, 213a, b, 324a, b, and enough additional courses from this and related fields to total forty-five hours. Students pursuing chemistry in preparation for various careers should follow programs listed at the beginning of the Natural Science section.

115. General Chemistry.
The general course introductory to the science. Lecture three hours, laboratory four hours per week. Each semester.

125. General Chemistry and Qualitative Analysis.
Lectures on the theories and calculations involved in elementary qualitative analysis and the general chemistry of the metallic elements. Laboratory work consists of preliminary experiments and the separation and identification of the common cations and anions. Lecture three hours, laboratory six hours per week. Prerequisite: 115. Spring.

213a, b. Quantitative Analysis.
A study of some general methods of gravimetric and volumetric analysis. Lecture one hour, laboratory six hours per week. Prerequisite: Chemistry 125.
324a, b. Organic Chemistry.
A systematic study of the typical compounds of carbon. Lecture two hours, laboratory six hours per week. Prerequisite: 125.

345a, b. Physical Chemistry.
An introductory course to theoretical chemistry. Lecture three hours, laboratory three hours per week. Prerequisite: Chemistry 213b, Physics 125, Mathematics 223b.

413. Advanced Physical Chemistry.
Lecture three hours, Prerequisite: 345b. Fall

424. Organic Preparations.
A study of the more difficult relationships of organic chemistry, with special emphasis on laboratory preparations and purifications of typical dyes and drugs. Twelve hours lecture and laboratory. Prerequisite: 324b. Fall.

433. Qualitative Organic Analysis.
A course in systematic identification of organic compounds, including several preliminary experiments, followed by unknowns of both pure substances and mixtures. Nine hours lecture and laboratory. Prerequisite: 24 hours of Chemistry. Spring.

441-4. Special Studies in Chemistry.
Given on demand and varied to suit the needs of chemistry students.

III. HOME ECONOMICS
Mrs. Thomas
Mrs. Conner
Mrs. Elledge
Mrs. James
Mrs. Jones

The objectives of this department are: a. to prepare young women to meet the social, artistic, economic, and other demands upon better homemakers; b. to prepare them for commercial, home service, or other careers related to home-making; c. to provide certain cultural courses that may become part of a liberal education.

Requirements for Area of Concentration with Core in Home Economics:
For the Bachelor of Arts: 113, 142, 213, 313a, b, 323, 333, 343, 353, 363, 422, 433, 443 in the department. (Courses 403 and 413 may be substituted in some cases). Art 113a, b, and 302 are also required plus enough courses from related fields to total at least forty-five hours.
DIVISION OF NATURAL SCIENCE

For the Bachelor of Science: The same courses plus Biology 115 or 125, 213, 222, 232, and Chemistry 115. Students planning graduate study in foods should also take Chemistry 324a, b.

Students planning concentrations in home economics should in their freshman year take Art 113a, b, Chemistry 115 or 125, and Home Economics 113 and 142.

113. Clothing I.

A study of the basic principles of garment selection and construction, personal grooming, use of commercial patterns, fitting, clothing economies, use and care of sewing machines. Lecture one hour, laboratory four hours a week. Fall.

142. Textiles.

Discussion of the artistic and economic factors in selecting materials for clothing and household furnishings. Spring.

213. Foods.

A study of the principles of cookery and food preparation, with much attention to the production, cost, selection, nutritive value, and place of various foods in the normal diet. Lecture one hour, laboratory four hours a week. Fall.

222. Home Nursing.

A study of factors affecting family health; home care of the sick and aged. Lecture one hour, laboratory two hours. Fall.

A study of the principles and practices of good grooming, care and purchase of clothing, manners and social conduct, first aid and home nursing, and simple nutrition. Fall.

313a,b. Nutrition and Dietetics.

A study of the application of nutritional theory to both normal and pathological conditions, including the construction of dietaries. Lecture two hours, laboratory two hours per week. Prerequisite: 213, Chemistry 115, Biology 222 and 232.

323. Family Meals.

A course in meal preparation, table service, food economy and meal cost analysis, individual and group planning of meals for all occasions. Lecture one hour, laboratory four hours per week. Prerequisite: 213. Spring.
333. Marriage and the Family.

A problems course based on needs and interests of the class as to preparation for marital adjustments. Emphasis on family health and happiness. Open to juniors and seniors. Fall.

343. Home Planning and Furnishing.

A study of house plans and furnishings, emphasizing utility and charm of arrangement and applying the principles of design to interior decoration and home planning. Lecture one hour, laboratory four hours a week. Prerequisite: Art 113b. Fall.

353. Home Equipment.

Practical information on selection, care, and operation of common household equipment, including plumbing, heating, and lighting fixtures. Lecture one hour, laboratory four hours a week including equipment demonstrations. Spring.

363. Clothing II.

A continued study of commercial patterns, and application of the principles of costume design to planning, selection, and construction of clothing for different occasions and different individuals. Lecture one hour, laboratory four hours a week. Prerequisite: 113, 142, and Art 113b. Spring.

373. Clothing Selection and Care.

For students with no previous sewing experience, a practical course in fabric selection, garment construction, clothing alteration, care and use of the sewing machine. Spring.

403. The Infant.

A study of pregnancy and prenatal development; physical, mental, emotional, and social growth of the infant; his guidance and care in the home. Spring.

413. Tailoring (Advanced Clothing).

Adaptation of tailoring techniques to wash materials in street and sports wear. Experience with woolen material through construction of a suit or coat. Prerequisite: 113, 142, 363. Fall.

422. Household Problems.

Scientific methods applied to household activities and consumer problems. Discussion of the family's financial and administrative affairs. Spring.
433. Home Management.

Supervised instruction in practical home care and management. The students manage and operate the home management house during a residence period of at least nine weeks. Prerequisite: 422 and senior standing. One hour lecture per week. Regular dormitory rate charged for room. Fall 1956-57 and alternate years.

443. Child Development.

A study of the training and development of a child under normal family conditions. Lecture two hours, laboratory two hours per week by individual arrangement of work and observation in the nursery school. Prerequisite: Psychology 213. Each semester.

452. Adult Homemaking Education.

A study of recent developments in adult education relating to homemaking, with emphasis on promotion and organization of classes and on teaching techniques and materials. Spring.

473. Institutional Management.

A course in the principles of organization and the procedures of management in purchasing and preparing food for school lunchrooms and commercial food service units. Fall.

483. Methods of Teaching Home Economics.

A study in lesson planning, types of teaching, project teaching in home economics, testing methods. Emphasis on methods of teaching home economics in public schools and of organizing and conducting adult classes in home economics. Prerequisite: concentration in home economics and senior standing. On demand.

IV. MATHEMATICS

Dr. Seward

Miss Jones

Study in mathematics develops logical habits of thought and provides the techniques needed for study of the exact sciences.

Requirements for Area of Concentration with Core in Mathematics: At least twenty-four hours in Mathematics plus enough hours in related fields to total at least forty-five hours.
123. College Algebra.

Review of fundamentals, study of quadratic equations, solution of systems of linear equations, and other topics. **Spring.**

133. Trigonometry.

Solution of triangles, identities, and equations. Study of graphs. Prerequisite: Plane Geometry. **Fall.**

142. Engineering Problems.

The use of the slide rule and of mathematical tables in the solution of simple engineering problems. Prerequisite: 133. **Spring.**

223a, b. Calculus and Geometry.

Introductory study of calculus and analytic geometry. Prerequisite: 123, 133.

303. College Geometry.

Advanced plane synthetic geometry. Recommended for prospective mathematics teachers. Prerequisite: Plane Geometry. **Spring.**

313. Theory of Equations.

Solutions of algebraic equations of higher degree and of systems of linear equations. Prerequisite: 123. **Fall.**

322. Descriptive Geometry.

The construction with drawing instruments of two or more plane projections of a solid figure, space curve, or surface so as to represent correctly all of its dimensions. Prerequisite: 303. **Fall.**

343a, b. Differential and Integral Calculus.

Continuation of Mathematics 223a, b, including partial derivatives, double and triple integration, and applications to physics, chemistry, and business.

413. Differential Equations.

Ordinary differential equations such as occur in geometry, physics, and chemistry. Prerequisite: 343a. **Spring.**

432. Special Studies in Mathematics.

For students who wish to do independent work on advanced problems.
V. PHYSICS

Beginning courses in physics impart understanding of some of the laws and facts of the physical world, and develop the scientific method of reasoning, as well as laying the foundation for further study of the science.

Requirements for Area of Concentration with Core in Physics: At least twenty-four hours in this department plus enough hours in related fields to total at least forty-five hours.

115. General Physics I.

A study of the fundamentals of mechanics, heat, and sound. Lecture three hours, laboratory four hours per week. Prerequisite or co-requisite: Trigonometry. Fall.

125. General Physics II.

A study of electricity, magnetism, light, and an introduction to nuclear physics. Lecture three hours, laboratory four hours per week. Prerequisite: 115. Spring.

The theory of photochemical reactions in photographic processes and photographic cameras and lenses. Some practical application of photographic processes. Lecture two hours, laboratory two hours per week. Prerequisite: 125. Offered on demand.

223. Meteorology.

A study of physical principles involved in weather, interpretation of weather maps, exercises in weather prediction. Prerequisite: 125. Spring.

313a, b. Electricity and Magnetism.

A study of the principles of electricity, including a mathematical discussion of fields of force, potential, capacitance, resistance, and inductance. Problem-solving constitutes a large part of course. Prerequisite: 125 and Mathematics 223b. Offered on demand.

321. Electrical Measurements.

A study of electrical instruments and their use in measurements of current, potential, resistance, inductance, and capacitance. Co-requisite: 313b. Laboratory three hours. Offered on demand.
333. Statics.

A study of forces in equilibrium, especially the stresses in loaded structures. Prerequisites: 115 and Mathematics 223b. Spring 1956-57 and alternate years.

403. Nuclear Physics.

A study of the structure of matter and of nuclear radiation. Prerequisites: 125 and Mathematics 223b. (Credit will be given for either this course or Chemistry 413, but not for both.) Offered on demand.

413. Electronics.

An introduction to the fundamentals of radio and electronics, including direct current circuits, alternating current circuits, vacuum tube theory and application, and power supply units. Prerequisite: 125. Offered on demand.

421-2. Electronics Laboratory.

Application of the theory of radio and electronics to the building and testing of simple electronic equipment. Laboratory, three to six hours per week. Prerequisite or co-requisite: 413. Offered on demand.

DIVISION OF RELIGION AND PHILOSOPHY

Dr. McClain, Chairman

The Departments of Religion, Greek and Philosophy constitute this division.

The General Education courses taught in this division and required of all students are:

Using the Old Testament as the basic textbook, this course surveys the history of the Hebrew people. It relates to their cultural environments as well as to contemporary affairs and personal religious experiences. Problem areas and controversial matters are discussed. Each semester.

Gen. Ed. 162. Religion in Life II.

Inter-biblical history is first examined. Then with the New Testament as the basic textbook, the times of Christ, the Apostolic leaders, and first-century Christianity are surveyed. Spiritual values and experiences are stressed. Both 153 and 162 are prerequisite to further courses in the department. Each semester.
I. RELIGION

Dr. McClain
Dr. Phelps
Mr. Blackmon
Dr. Coppenger

Courses in this department are designed for all students who want to increase understanding of their Bible and its significance in society, and also for a specialized group of students who want to prepare for careers in the church and church-related institutions. There are courses in Bible interpretation, ministerial problems, Greek, church history, and religious education.

Required for Area of Concentration with Core in Religion: At least twenty-six hours in this department plus enough courses from related fields to total at least forty-five hours. Ministerial students electing this area are advised to take at least a year of Greek.

102. Ministerial Ethics and Manners.

Designed for men just entering the ministry, this course provides an early study of principles and practices of the profession. Discussion of such matters as dress, pulpit manner, and relationships to churches and to fellow ministers. Recommended for all ministerial students. Each semester.

203. Life of Christ.

A more detailed study of the teachings and doings of Christ, with emphasis upon his impact on society. Fall.

212a.b. Introduction to Religious Education.

A study of the methods and materials of religious education. The purpose is to acquaint all prospective church workers with the guiding principles of the church's educational program. Especially recommended for students who plan to become educational directors. 1956-57 and alternate years.

223. Life and Letters of Paul.

A detailed study of the life, writings, journeys, and influence of the apostle Paul. Spring.

233. Sermon Preparation.

An introductory course in the preparation and delivery of sermons. The great sermons of the great preachers will be studied. Spring.
243. Evangelism.
A brief study of the history and methodology of evangelism, with emphasis on the place of the Bible in both personal and church soulwinning. Fall 1957-58 and alternate years.

A study of the Psalms and other poetic books of the Bible, with attention to the construction, interpretation, and background of the passages. Fall 1957-58 and alternate years.

262. Old Testament Exegesis.
Designed to provide students with a pattern and method of study of Scripture. Thorough study of one book. Commentaries are consulted and compared. Knowledge of original language not essential. Spring 1956-57 and alternate years.

273. Rural Church and Field.
A survey of the rural church field and the opportunities for developing the spiritual life of rural people. A special study of rural church programs and administration, with assigned practical field work constituting part of the requirements. Fall.

303. The General Epistles.
A detailed critical and expositional study of the books commonly called the general epistles. Fall 1957-58 and alternate years.

313. The Practical Ministry.
A workshop course in the actual practice of ministerial functions such as weddings, funerals, the ordinances, etc. Conducting and leading in various ministerial activities will be discussed and demonstrated by outstanding ministers. Spring.

A study of the doctrines of the Bible, with attention to such subjects as revelation, inspiration, sin, salvation, the Trinity, and especially the doctrines that interpret our relationships with God through the saving work of Christ. Fall 1956-57 and alternate years.

333. Christian Missions.
A survey of Christian missions from the Reformation to the present. Emphasis on world movements which opened up avenues of approach for the missionary efforts. Spring 1956-57 and alternate years.
343. Baptist History.

This course traces the appearance of Baptists in history from the middle ages to the present time, with stress on distinctive tenets of Baptist faith and on Baptist contributions to the democratic way of life. Fall 1956-57 and alternate years.

353. The Southern Baptist Convention.

A study of the history, organization, policy, and practices of Southern Baptists, with attention to the development and functions of its boards, agencies, and committees. Convention leaders will visit the classroom to present various phases of the program. Spring 1956-57 and alternate years.

402. Biblical Archaeology.

A study of the archaeological discoveries relating to the Old and New Testaments. Spring 1956-57 and alternate years.

413. Religious Sects and Cults.

A study of various sects and cults active today, of the teachings and development of such groups as the Christian Scientists, the Unitarians, and the Russellites. Spring 1956-57 and alternate years.

423. Psychology of Religion.

A study of religious consciousness and behavior, both for groups and individuals. Emphasizing the integration of personality, the course draws its materials from both science and religion. Fall 1956-57 and alternate years.

Survey of the lives and teachings of the canonical prophets of the Old Testament in the light of the times in which they appeared. Spring 1956-57 and alternate years.

443. The Book of Romans.

A detailed study stressing background along with critical and expositional methods. Recommended for students who do not plan graduate level training. Fall 1956-57 and alternate years.

453. The Book of Hebrews.

A detailed study stressing background, along with critical and expositional methods. Recommended for students who do not plan graduate level training. Spring.
463. The Book of Revelation.

A detailed study stressing background, along with critical and expositional methods. Recommended for students who do not plan graduate level training. Fall.

II. NEW TESTAMENT GREEK

Dr. McClain

365a, b. Beginner's Greek.

A detailed study of vocabulary, conjugation of verbs, declension of nouns, adjectives, and participles, and other fundamentals of the language of the original New Testament.

403a, b. New Testament Greek, Second Year.

A reading course in the Greek New Testament using various books and passages chosen according to need. Emphasis on vocabulary, forms, and fundamentals of syntax. Prerequisite: 365b.

III. PHILOSOPHY

Dr. Coppenger Miss Rasberry

Philosophy deals with the principles underlying all knowledge and serves to integrate man's ideas into a coherent and whole pattern.

233. Introduction to Philosophy.

This elementary study of the basic problem of philosophy seeks to introduce the student to the spirit of reasoned inquiry which is needed for all philosophic thinking. Fall.

322. Logic.

A critical examination of the laws of rational thinking, with emphasis on the principles of deductive reasoning. Spring.

332. Christian Ethics.

An investigation of the principles and more important details of various ethical theories which have been formulated about the meaning of the Christian life. Both social and individual problems are considered. Fall 1957-58 and alternate years.
343a, b. Ancient and Modern Philosophy.

The development of philosophic thought from the Greek period through the Christian era, or from Thales to Bacon. Emphasis on the lives of the early philosophers and the development of major philosophical systems. The second semester surveys European philosophy from the Renaissance to date, and may be taken without the first semester as prerequisite. 1956-57 and alternate years.

Drawing upon the social, religious, economic, and political facts of American civilization, this course traces the development of philosophical thought in the United States. Prerequisite: 233. Fall 1956-57 and alternate years.

433. Philosophy of Religion.

A survey of the various types of religious philosophy found in the history of ideas. Prerequisite: 233. Spring 1957-58 and alternate years.

DIVISION OF SOCIAL SCIENCE

Dr. Daily, Chairman

The social studies are here presented in relationship both to man’s accomplishments and to projected plans for constructive human relationships. The dedication of the student to future social stabilization and progress is regarded as important as the acquisition of knowledge.

The Division includes the Departments of History, Political Science, Sociology, and Geography.

Pre-Law Courses. Pre-professional training for lawyers is quite flexible, but a major segment of it lies in the social studies, especially history, political science, and economics. A lawyer’s work is interwoven with government, business, and social problems. Hence the student preparing to enter any law school is counselled to elect as much as possible in the social sciences. In addition, such courses as logic and mathematics are suggested in order to train his analytical powers; such courses as communication, literature, and speech are suggested in order to develop his ability to express himself with clarity and precision.

The University of Arkansas Law School prescribes two acceptable plans for pre-legal training: a. two years (at least 66 semester hours) of
undergraduate courses followed by four years in Law School; b. three years (at least 97 semester hours) of undergraduate courses followed by three years in Law School.

Courses in General Education offered by the Division are:

**Gen. Ed. 214. Civilization I.**

A study of the general pattern of world civilization from the Renaissance to the present, with emphasis on development of the new life and thought which culminated in the 19th-century ascendancy of the West as well as the 20th-century clashes of ideologies and quests for world order. Each semester.

**Gen. Ed. 224. Civilization II.**

Understanding and appreciation of the legacies and problems of American civilization is the aim of this course. Using selected documents embodying American political and social philosophy, the approach is historical, but without the continuity of a survey course. Emphasis is laid on the impact of the industrial age, the contributions of modern diplomacy, and on the quest for domestic and world stability. Each semester.

---

**I. HISTORY**

Dr. Yeager  
Dr. Daily  
Dr. James  
Mr. Drummond

The general purpose of courses in history is to develop appreciative understanding of the problems and contributions of the past as well as keen and sympathetic insight into problems of the present. Courses are designed to prepare students for graduate school, for teaching positions, and for further professional training for law, civil service, social work, and other fields requiring a background of training in history.

**Requirements for Area of Concentration with Core in History:** At least twenty-four hours in this department of which at least eight must be in American and eight in European history. The twenty-one additional hours needed for an area of concentration must include three hours each in Economics, Political Science, and Sociology, and may include further hours in History.

**113. Early World Civilizations.**

A survey course presenting a panoramic view and analysis of the world civilizations of ancient and medieval times, with stress upon their contributions and relationships to modern civilization. Fall.
232a. b. Middle Period American History.

From the immediate background of the American Revolution, this course traces the leading economic, social, political, sectional, and diplomatic developments to the end of the Reconstruction era.

313. Medieval Europe.

A study of Europe from the fall of Rome to the Renaissance with stress on the institutions of the so-called Dark Ages, on movements that prepared the way for modern Europe, and on social, economic, political, and institutional changes as well as great personalities of the period. Fall 1957-58 and alternate years.

323a. b. Modern Europe.

A study of the period from the Renaissance and Reformation to the Versailles treaty, with much attention to the religious wars, the rise of world civilizations of ancient and medieval times, with stress upon their impact on Europe and world civilization. Emphasis on 20th-century nationalism and democracy and the issues leading to World War I. 1956-57 and alternate years.

333. The Old South.

A study of the development of economic, political, and cultural institutions of the ante-bellum South. A review of the peoples and movements that constitute the legacy of the New South. Spring 1957-58 and alternate years.

343. The Trans-Mississippi West.

Beginning with the Spanish period, this course reviews the American conquest of the Trans-Mississippi West and the continuous adaptation of the conquerors to their environment. Special attention to the impact of the West on American and world civilization. Fall 1957-58 and alternate years.

402a. b. Recent American History.

A study of the 20th-century movements which have influenced American life, of domestic and external affairs since World War I, and with special attention to development of American leadership in the world.

413. American Foreign Policy.

A study of the leading foreign problems and policies from the American Revolution to the present time, with special attention to relationships with Western Europe and Latin America and to American participation in solving world problems. Spring.
422a, b. Greek and Roman History.
A study of the rise, duration, and fall of two world civilizations, their strengths and weaknesses and their contributions to later world order. 1956-57 and alternate years.

433. Western Political Heritage.
A study of original materials illustrating the development of both totalitarian and democratic ideologies in Western Civilization. Fall.

443. Contemporary World History.
A discussion of world events since 1919, with stress on the causes of World War II, the challenges to democracy, and the present world situation. Spring 1956-57 and alternate years.

453. The British Commonwealth.
A study of the rise, development, accomplishments and recent disintegration of the British Empire. Spring 1957-58 and alternate years.

461. Seminar in History.
Special topics in American or European history are assigned, with extensive research and reports, either oral or written, required. Open to seniors with "B" average and concentrating in history; open to others only by special permission. Each semester.

II. POLITICAL SCIENCE

Dr. Yeager

Mr. Drummond

Political Science is concerned with the formulation and administration of political policies, and with the moral standards which condition such policies.

A study of the principles, organization, functions, and administration of federal government in the United States. Fall.

313. State and Local Government.
A study of the principles, organization, functions, and administration of state and local governments in the United States. Spring.

323. American Politics.
A study of the American political processes by which social pressures are translated into public policies. Stress is laid upon both structural and functional analyses of political organizations. Spring 1957-58 and alternate years.
DIVISION OF SOCIAL SCIENCE

333. Constitutional Law.

A study of the institutional forms and principles of constitutional law in the United States. Spring 1956-57 and alternate years.

Special topics will be chosen for intensive study. Written report will usually be required. Each semester.

III. SOCIOLOGY

Mr. Quick Dr. Phelps

The study of Sociology acquaints one with the social processes and social problems of mankind, the knowledge of which aids the student in adjusting to situations in society.

Requirements for an Area of Concentration with Core in Sociology: At least twenty-four hours in this department plus enough hours from related fields to total at least forty-five hours. Prerequisites may be waived by consent of instructor.

213. Introduction to Sociology.

A cross-section study of the science of society, including culture, collective behavior, personality, population, institutions, international conflict, social change, social disorganization, effects of inventions, and adjustment of man to culture. Each semester.

223. Rural Sociology.

An ecological study of the rural community, its structure, social strata, occupations, religious institutions, and influence upon the socio-economic order. Prerequisite: 213. Fall 1956-57 and alternate years.

313. Social Psychology.

A study of the relationships of individuals within groups and of the relationships of groups to each other. Prerequisite: Psychology 213. Fall.

323. Urban Sociology.

A study of the social structure of the city. Analysis of such urban traits as population density, secularization, individualization, secondary association, social heterogeneity, voluntary association, social mobility, and social tolerance. Prerequisite: 213. Fall 1956-57 and alternate years.
333. Interest Groups.

A study of contemporary interest groups, including in-groups and out-groups formally or informally united to achieve a specific goal or objective. Attention is given to such major human behavior areas as occupations, schools, churches, recreation, dating, and cliques. Spring 1957-58 and alternate years.

343. Social Factors in Personality.

An analysis and interpretation of physiological, societal, and cultural factors in the development and functioning of personality. Prerequisite: 213, 313. Spring.

353. Courtship, Marriage, Family.

A course tracing family development from teen-age to old-age, the process of mate selection, marital adjustments and maladjustments, parenthood, integration of family and community, and the latter years of married life. Prerequisite: 213. Spring.

413. Social Pathology.

A study of personal and social problems such as adolescent unrest, vandalism, delinquency, sex deviations, crime, and alcoholism, drug addiction, and suicide. Prerequisite: 213. Fall 1957-58 and alternate years.

433. Social Control.

A survey of various agencies of social control and the methods by which they can be made effective in directing human behavior. Prerequisite: 213. Fall.

443. Collective Behavior.

A study of the factors that determine group behavior, with emphasis on the agencies of communication, such as press, radio, movies, and television, and their effect upon the forming of public opinion. Prerequisite: 213. Fall 1957-58 and alternate years.

453. Ethnic Relations.

A critical analysis of race relations, especially in the United States, with special attention to the status of the Negro in the South. Prerequisite: 313, 343. Spring 1957-58 and alternate years.
463. Criminology.

A study of crime and the criminal, of the socio-cultural factors in criminality, and of pioneer theories in criminology. Considerable attention to treatment of crime by the police, the courts, and the penal system. Prerequisite: 413. Spring 1956-57 and alternate years.

IV. GEOGRAPHY

113. Introduction to Human Geography.

A study of the earth's surface and the relationship of its features to man's political and cultural development. Fall.

202. Conservation of Natural Resources.

A study of the principles and methods of conserving natural resources, with special consideration of such problems in the state of Arkansas. Spring.

DEPARTMENT OF MILITARY SCIENCE

Major Clare H. Armstrong, Jr., PMS&T

Captain Elton C. Rodgers
M/Sgt. Andrew Y. Austin
M/Sgt. James E. Carter

Sp/2 James D. Howell
Cpl. Milton L. Bridges
Mrs. Helen J. Mathis

The Department of Military Science implements the Reserve Officer's Training Corps (ROTC) program. The purpose of the program is to train college students for positions of leadership in the Armed Forces in time of national emergency and in the civilian community in time of peace as well as to provide junior officers for the active Army. In addition, the program contributes to the objectives of Ouachita Baptist College by instilling in students a sense of duty and by aiding in the development of character, leadership, integrity, loyalty and self-discipline.

Successful completion of the curriculum in General Military Science enables students, upon graduation and depending upon the current existing needs of the armed forces, to be commissioned as Second Lieutenants in the following arms and services: Armor, Adjutant General Corps, Artillery, Army Security, Chemical Corps, Engineer Corps, Finance Corps, Infantry, Medical Service Corps, Military Intelligence Corps, Military Police Corps, Ordnance, Quartermaster Corps, Signal Corps, and Transportation Corps.
Required Courses

All male students entering Ouachita Baptist College at the beginning of or prior to the beginning of the junior year must complete successfully before graduation the basic course, Military Science I and Military Science II, provided they are: a. citizens of the United States; b. over fourteen years of age; c. regularly enrolled as students; d. physically and morally qualified; e. willing to file a loyalty statement certifying to non-affiliation, past or present, with organizations designated by the Attorney General of the United States as totalitarian, fascist, communist, or subversive.

Veterans with six months honorable active service may receive credit for Military Science I. Veterans with twelve months honorable active service may receive credit for both Military Science I and II.

Elective Courses

The last two years of training, Military Science III and IV, are open to male students who: a. are selected by the President of Ouachita Baptist College and the Professor of Military Science and Tactics; b. can qualify for appointment as second lieutenant prior to reaching twenty-eight years of age; c. have successfully completed the basic course or received credit in lieu thereof; d. achieve an acceptable score on a qualifying examination.

Before enrolling in the advanced course, the student must execute with the United States Government an agreement stating that he will: a. complete the advanced course, Military Science III and IV, including one summer camp of approximately six weeks' duration; b. accept a commission in the Army Reserve, if tendered; c. serve on active duty as a commissioned officer for not less than two years after receipt of commission, if called, and will remain a member of a Regular Reserve Component of the Army until the sixth anniversary of the receipt of commission; d. serve on active duty for training for a period of six months after receipt of commission and will remain a member of a reserve unit until the eighth anniversary of receipt of commission. Once a student signs the agreement to attend the advanced course, he is committed to continue until successful completion.

Students enrolled in the advanced course, Military Science III and IV, receive: a. commutation of subsistence and commutation of military uniform; b. travel pay to and from summer camp and pay at the rate of $78.00 per month while there. During the course of the two year period, students in the advanced course will receive approximately $700.00 in monetary assistance.

Induction Deferment may be granted to students in Military Science under the terms of the Universal Military Training Service Act of 1951 subject to quota limitations, provided the students: a. execute the agree-
ment described above; b. maintain satisfactory scholastic standing in all academic and military subjects; c. demonstrate continuously the mental, moral, and physical attributes of a leader.

112a, b. Military Science I.

Organization of the Army and ROTC; American Military History; Individual Weapons and Marksmanship; and School of the Soldier and Exercise of Command.

212a, b. Military Science II.

Crew-served weapons and gunnery; Map and aerial photograph reading; School of the Soldier and Exercise of Command.

313a, b. Military Science III.

Small unit tactics and communications; Organization, Function and Mission of the Arms and Services; Military Teaching Methods; Leadership; School of the Soldier and Exercise of Command.

413a, b. Military Science IV.

Logistics; Operations; Military Administration and Personnel Management; Service Orientation; School of the Soldier and Exercise of Command.
