Donald Monfort Seward

- . . . for giving many years in service because you love Ouachita and Ouachitians,
- . . . for outstanding contributions while serving with competence as professor of mathematics and science, dean of faculty, dean of students, and chairman of numerous local and state committees,
- . . . for backing faithfully the Tigers at all athletic events, seldom missing a game,
- . . . for allotting time from an already full schedule to play in the orchestra, to don a uniform and march with the band,
- . . . for being a constant inspiration, exemplifying the high ideals characteristic of this institution,

We dedicate this volume, a part of the life of Ouachita College, to one whose life has been such an integral part here . . .

DR. DONALD MONFORT SEWARD.

FOREWORD

We, the students of Ouachita Baptist College, are proud to present this 1958 Ouachitonian. To us it is more than just a collection of pictures, snapshots and activities. It is more than just a diary of usual college events. Because we believe in Ouachita, and in its distinctive Christian contribution to higher education, we feel that this is the exciting record of young men and women preparing to serve their nation and their God in the greatest way possible. Through the example of the administration and faculty we have been shown, not just told, what the life of dedicated service can mean, and have been inspired to lead fuller, richer, more meaningful lives.

This volume does not end on the last page. As we leave, we carry with us the spirit of Ouachita which will never die, because it is founded on more than college yells and school colors—founded on the eternal principles of love of God and our fellow man.

“Ouachita, we sing thy praises . . .

The Queen of the College World.”
