SOME OBJECTIVES OF OUACHITA COLLEGE
1. To help students acquire knowledge which will enable them to understand better and to appreciate more the world in which they live.
2. To help students find themselves and their places in society.
3. To prepare students not only to make a better living, but to think better and live better for God and man.
4. To offer special training to students who want two or more years in a liberal arts college before entering a professional school.
5. To train teachers for positions in secondary schools.
6. To train ministers, missionaries, evangelistic singers, church secretaries, and other Christian leaders.
7. To create on the campus an atmosphere that will give students a desire to render civic, social and religious services in whatever life work they may follow.
HISTORICAL SKETCH

Historical Sketch

Ouachita College was established by the Arkansas Baptist State Convention at the annual meeting in Hope, November, 1885. A board of trustees consisting of fifteen members met in Little Rock, December, 1885. After considering all bids, Arkadelphia was chosen as the location of the college. The buildings and grounds that had formerly housed the State's School for the Blind, were purchased from the state.

The college opened September 6, 1886, and has served continuously at Arkadelphia since that date. New buildings have been added from time to time until today Ouachita has an excellent college plant valued at $2,500,000.00.

Dr. J. W. Conger, the first president, served twenty-one years, 1886-1907. He did a monumental work. Much of what Ouachita is today is due to his services. Dr. H. S. Hartzog served as president from 1907 to 1911. He came to Ouachita from the Presidency of the University of Arkansas. His four years as president did much to keep Ouachita on its high plane of service. Dr. R. G. Bowers, 1911-1913, spent two busy and fruitful years as president. He resigned in order to return to the pastorate. Dr. S. Y. Jameson, president from 1913-1916, was one of the outstanding leaders in the Southern Baptist Convention. Under his leadership all Ouachita debts were paid. Dr. C. E. Dicken's administration from 1916 to 1926 was a period of constructive development for Ouachita College. It was under his leadership that Cone-Bottoms Hall, the fireproof dormitory for girls, was built. Mr. A. B. Hill was president from 1926-1928. He is an alumnus of Ouachita College, and came from the office of State Superintendent of Public Instruction. It was under his leadership that Ouachita College became a member of the North Central Association of Colleges. Dr. C. D. Johnson, 1929-1933, had formerly been a member of the Ouachita College faculty. He came from Baylor University and spent four years as President of Ouachita College. It was under his leadership that the department of Business Administration was organized. Dr. J. R. Grant was president from 1933 to 1949. During his administration the enrollment increased from 250 to a peak of 1,000 for the twelve months of 1947-1948, the $165,000 debt was paid and the physical plant more than trebled in value.

The endowment of $576,000 has been raised over a period of several years. The two largest gifts of $100,000 have come from the Southern Baptist Convention and the General Education Board.

During its sixty-four years of service Ouachita College has trained 20,000 men and women, who have gone out to serve in many lines of work not only in every section of Arkansas and the United States, but in many nations.

Dr. S. William Eubanks, President of Ouachita College, assumed the position of president June 1, 1949, at which time Dr. J. R. Grant was made President Emeritus.

Dr. Eubanks was born in Monett, Missouri. He is a graduate of William Jewell College, Liberty, Missouri, and earned the Master of Arts degree, University of Missouri; the Master of Theology and Doctor of Theology degrees at Southern Baptist Seminary, Louisville, Kentucky.

For four years he was Director of Student Personnel at William Jewell College and for three years was head of Bible and Religious Education Department of Carson Newman College, Jefferson City, Tennessee.
Dr. Grant has stated that, "It's doubtful that the board could have found anybody anywhere more generally satisfactory to all concerned than Dr. Eubanks; his background, training and temperament qualify him for the big job he will find here."

During the 1950-51 school year the instructional facilities were materially improved by the addition of the new Riley Library and the new Science Hall. The Riley Library was dedicated on May 22 as a part of the commencement exercises. It was actually occupied for the first time on July 22. Classes began to utilize some of the space in the new Science building during the fall term. This splendid new building will be put into full service by September of 1951.

Buildings and Grounds

The Ouachita College campus is on a high elevation overlooking the Ouachita River, the college farm and pecan orchard. The shrubbery which has been added to the native shade trees helps to make the Ouachita campus one of the most beautiful in the South.

The 21 brick buildings have been well placed on the campus for convenience, efficiency and beauty. There are about 100 apartments, cottages and trailers.

Temporary Administration Quarters. The present administration building was used as the president's home until the destruction of "Old Main" by lightning just after Commencement in May, 1949. "Old Main" consisted of some twenty-five rooms. The third floor was occupied by the chemistry and biology class rooms and laboratories. The second floor consisted of class rooms, and the main floor housed the administrative offices and the library.

For the present the administration offices will remain in the president's home.

During the emergency the registrar and dean are using large rooms in the basement floor of Mitchell Hall, across the street from the administrative offices. Most of the classes are held in Mitchell Hall, Bailey Hall, the new Science building, the Little Theatre, Dining Hall and the Gymnasium.

Mitchell Hall, the auditorium and music conservatory just south of the President's home, is one of Ouachita's newest buildings. The auditorium in the $250,000, three-story stone and brick building, will seat one thousand people. The building has thirty-six rooms and houses the entire fine arts department. A $30,000, 3-manual Kilgin pipe organ has been installed, a gift of Mr. and Mrs. Jim Ferguson. It contains a $3,000 electric organ—a gift of the Little Rock Ouachita Club.

The Science Hall is a completely modern fireproof building. The new one-quarter million dollar science hall will be put into full service for the first time in the fall of 1951. This building houses the departments of Biology, Chemistry, Physics and Mathematics and is one of the most modern structures of its type in the State of Arkansas. It has facilities to accommodate a student body of one thousand. Some overflow classes from other departments can be accommodated in this building.

Ernest Bailey Hall is one of Ouachita's newest buildings. It is a large two-story semi-fireproof building on the north and east part of the cam-
It houses five departments—home economics, business, english, history, and foreign languages.

The Gymnasium stands on the northwest corner of the campus. A part of the day it is used by girls; other hours of the day it is used by boys. This building is fully equipped for many plays and games as well as regular classroom work and is also headquarters for the School of Military Science.

The Riley Library, of modern functional architectural design, situated in the center of the campus of Ouachita Baptist College received its name from the Riley family of El Dorado, Arkansas. The building, constructed during the year 1949-50 following the fire of May 23, 1949, was made possible by a gift of the Riley family. It is a one story fireproof building constructed of brick and aluminum and is air conditioned for summer comfort and has built in floor coils to make the building more attractive and serviceable during the winter months.

The Dining Hall and Art Building stands on the north side of the campus near the center. On the first floor is the college dining hall where about five hundred students and faculty members eat. The second floor is the home of Ouachita's art department, and Veterans Examination Center.

The Little Theatre, containing auditorium, offices and classrooms, is situated on the northeast corner of the campus. It is the home of the Department of Speech.

The Three Dormitories for boys are on the east side of the campus. These dormitories will accommodate nearly two hundred boys, one dormitory having an apartment for the dean of men.

Cone-Bottoms Hall is a fire-proof dormitory for girls. It is on the southwest side of the campus. On each of the three stories the rooms are divided into suites of two with bath between. It is one of the most modern dormitories in the South. Besides offices, parlor and the dean's apartment, it has rooms for one hundred fifty girls.

Terral-Moore Hall. This new two-story 40 room girls' dormitory on the west side of the campus is the first of four buildings from the $1,000,000 campaign. Mrs. E. S. Terrall finished it as Terral-Moore Hall. It is one of Ouachita's most beautiful buildings.

Men's Apartment Dormitory. The new 18 apartment dormitory was first occupied January 25, 1947. Most of the material for this steel building which is housing eighteen veteran families was bought from the government at a small cost.

Trailerville. North of the football stadium the college has a number of trailer units and nine 4-room cottages. These quarters are available for married students.

Housing Project-Ouachita Farm. Forty-three apartment units are located one-half mile north of the campus on Highway 67. These quarters are also available for married students.

Flenniken Memorial Hall, a recent addition to Ouachita's campus, is a beautiful two-story student center building. The first floor consists of a large play room, a guest room, dining room and kitchen. The second floor has the auditorium, prayer rooms, office, reading room, apartment and ladies' lounge. This much-needed building was made possible by a gift from Miss Emma Riley.

The Home Economics Cottage is on the south side of the campus near the center. The first floor contains reception room, dining room and
kitchen. The second floor contains bedrooms for girls taking the course in Home Management. Most of the home economics work is now done in Ernest Bailey Hall.

The Bookstore and Postoffice Building is a beautiful one-story brick. It stands on a lot west of the college cafeteria and is a busy place where students go to get their letters and buy "incidentals."

The large Stadium, Gridiron, Diamond and Field House are all on A. U. Williams Athletic Field, about two hundred yards north of the gymnasium. In recent years Birkett L. Williams, Class of 1910, has contributed $6,000 for buildings and improvements on A. U. Williams Field. This field is separated from the main campus by a beautiful ravine well covered with large beech, pine and oak trees. The two-story Field house is one of the most modern to be found on any college campus. The two-story modern press box on top of the stadium was added in 1949.

The Cannon Infirmary, a modern 16 bed infirmary, was erected north of the administration building in the summer of 1948. A gift from Dr. and Mrs. G. E. Cannon of Hope, Arkansas, made this building possible. A registered nurse is in charge at all times.

The Central Power Building stands on the west side of the campus.

Other Small Buildings are the cleaning and pressing building, a food storage house, a garage for the college bus.

The Marble Tiger, the Neon Tiger, the Marble Memorial to our men who fell in battle, the steel flag pole, three concrete memorial tennis courts, the flower beds, cedars, pine and evergreen hedges help to create the campus atmosphere that makes Ouachita.

General Information

STUDENT CONDUCT

Young men and women enroll at Ouachita College with the understanding that it is a college with Christian teachings, environment and objectives. It is owned and supported by the Arkansas Baptist Convention for the purpose of Christian education. The college can serve best when the student behavior and attitudes are in harmony with these ideals and aims. Every effort is made to enlist students in church attendance and activity.

Such practices as drinking, gambling, destroying and abusing property, and carousing around late at night are prohibited. Girls are not permitted to smoke. Other things in order, girls must have permission from parents to make trips away from the college, and only by permission of the matron are they permitted to go outside the city of Arkadelphia. The college has rules against smoking in or around buildings other than the Bookstore and dormitories, and the administration cautions against carelessness at any time and place.

Unnecessary use of automobiles by students is discouraged. Relationships between young men and women at all times are expected to be in accordance with the ideals and standards of the institution.

The college provides a well-balanced program of social, academic, religious and physical activities. Such administration and faculty committees as counseling, discipline and student personnel exist and work for the better welfare of the individual student and college group.
GENERAL INFORMATION

RELIGIOUS ORGANIZATIONS

Worship. A general assembly at which the attendance of the students is required is held Tuesday and Thursday of each week in the College Chapel. Daily Vesper services are conducted under the direction of the Baptist Student Union. These meetings are well attended and add much to the devotional life of the student body.

Students are expected to attend worship on Sunday. The churches of the city welcome the attendance, and value the assistance of the students.

Baptist Student Union. Ouachita College maintains a well organized Baptist Student Union. Its purpose is to connect the school with the church and to deepen the spiritual lives of the students. Each student who is a member of any one of the religious unit organizations on the campus or the Sunday School or B.T.U. is automatically a member of the B.S.U. Each year this group elects officers to compose the Council and with the representatives from the unit organizations they direct and govern the various religious activities. The organization has a student secretary to direct its affairs on the campus.

Representatives are sent to the State B.S.U. Convention each fall and to the Southwide Retreat at Ridgecrest, North Carolina, each June. Also the B.S.U. promotes Religious Emphasis Week on the campus each year. The local organization is affiliated with the Department of Student Work of the Southern Baptist Convention.

The Young Women's Auxiliary. The Young Women's Auxiliary, a student organization affiliated with the W.M.U., is supervised by officers of its own selection and by an advisory committee from the faculty. The purpose of the Auxiliary is to aid in enriching the Christian life of the individual members and to train for effective leadership in religious work. It is designed to keep the student in touch with modern and worldwide moral and religious movements. It endeavors to enroll every dormitory girl in Bible and mission study classes.

The Ministerial Association. The Ministerial Association has for its object the promotion of the interests of the ministerial student. It meets each Thursday evening for the purpose of rendering programs in keeping with the devotional, intellectual, and pastoral duties of its members.

Ouachita College Woman's Missionary Society. This organization has replaced the former Ministerial Auxiliary. Membership is composed of married women and older single women on the campus. Requirement for membership is attendance on at least one meeting and an interest in the work as a whole. The work of the society is similar to that of W.M.S. organizations of Baptist churches, with special emphasis on community missions, tithing, the Royal Service Programs, and Bible study. The purpose of the organization is to prepare women to do Woman's Missionary Society work in churches after college days. The organization meets each Thursday night at 7:00.

Life Service Band. The Life Service Band is the oldest organization for lay students on the campus. It is composed of students who wish to give themselves to definite Christian work or to engage in Christian service as an avocation. Its purpose is to train, to inform, and to inspire its members in missionary activities and personal Christian living. It renders weekly devotional programs and does extension work throughout the year in the neighboring communities.

The Volunteer Band. The Volunteer Band is an organization composed of those who have surrendered their lives to do either foreign or home
missions work. Its purpose is to provide worship, training, experience and fellowship for those seeking to enter missionary work. It provides weekly devotional programs and promotes missionary activities in surrounding communities.

CLUBS

The Dramatic Club. A club, named the Ouachita Players, composed of students of speech and others interested in dramatics, has regular meetings and from time to time presents plays.

Departmental Clubs. Most of the departments have departmental clubs open to students especially interested in the subjects concerned. It is recommended that each student seek membership in one of these clubs with permission of his major professor.

Scholarship Society. On February 22, 1928, the Ouachita Scholarship Society was granted a charter in Alpha Chi, a national Scholarship Society. Nominations for membership are made from the members of the junior and senior classes who have met the prescribed requirements.

Debate Club. Ouachita is the Arkansas Beta Chapter of Pi Kappa Delta, the largest forensic fraternity in the world, and competes in its national and provincial conventions. The chapter's debaters have won numerous awards during the last few years in both state and regional tournament competition. The club sponsors the Ouachita Forensic Festival for college students in January and the Forensic Frolic for high school students in March. Several extensive fellowship tours have been included in the debate program. A possible total of eight semester hours credit may be earned by debating the full four years in college. Prospective debaters planning to enter Ouachita are invited to get in touch with the Ouachita coach, Dr. David O. Moore.

STUDENT LOAN FUNDS

Loan Funds. Students of Ouachita College have the opportunity to secure loans from various funds controlled by the college. Good moral character, satisfactory scholarship, promise of usefulness, economy in use of time and money, and need of financial assistance, shall be considered in selecting the beneficiaries. In estimating the student's need, any help he is receiving from other sources shall be considered. The funds which are named below are administered for the college by a committee composed of one board member and two faculty members.

When making payments on student loans, all checks should be made payable to the individual loan fund.

The Albert F. Riley Loan Fund. This fund of $2,000 was given in memory of Albert F. Riley by his brothers and sisters. Only laymen are eligible to borrow from this fund. Any student borrowing from this fund must have a "B" average on all college work and must furnish satisfactory security.

B. B. Cannon Loan Fund. Upon the death of B. B. Cannon, $12,000 was left to Ouachita College, the interest from which was to be used as a student loan fund to be known as the B. B. Cannon Loan Fund. Any student who has spent one semester in Ouachita, meeting general requirements, and who can furnish satisfactory security, is eligible to borrow from this fund.

W. C. Edwards Memorial Fund. In memory of her husband, Mrs. W. C. Edwards has established a loan fund at the college to be used by worthy
young men who are studying for the Christian ministry. This fund is designed especially to tide ministerial students over in emergencies and special needs and with proper endorsements can be borrowed in small amounts.

**A. F. Haslam Loan Fund.** This Fund has been established by Mr. and Mrs. A. F. Haslam of Caracas, Venezuela. Mrs. Haslam, nee Ruby Cobb, was graduated from Ouachita College in 1925. The purpose of this fund is to help deserving students. It can be borrowed in small amounts at a low rate of interest and is handled similar to other loan funds.

**Jim G. Ferguson Student Loan Fund.** Jim G. Ferguson of Chicago, a native of Arkansas, has given Ouachita $5,000 as a fund to be loaned to worthy students. This timely gift puts college education within reach of many boys and girls. With Mr. Ferguson's permission $4,000 of this has been used to erect cottages for married ministers.

**Other Funds.** Five smaller funds, the Mrs. Relda D. Wood, the Mrs. Caddo McCabe Fund, the Mrs. Fannie T. McMillan Fund, the Eunie T. Wilson Fund, and the Curtis Rankin Memorial Fund, are governed by rules and regulations the same as the Cannon Fund.

**SCHOLARSHIPS**

**Theodore Blake Memorial Scholarship.** This scholarship fund was provided for in the will of Mrs. Estelle M. Blake who died on January 23, 1950. A scholarship in memory of her daughter, Theodore Blake, provides for tuition for a worthy student each year. This fund is to be controlled by the trustees of the Albert F. Riley Loan Fund.

**E. M. Hall Memorial Scholarship.** In order to perpetuate the memory of E. M. Hall, the trustees of Ouachita College on April 25, 1929, set aside a fund to be known as the E. M. Hall Memorial Scholarship. Mr. Hall served for more than forty years as a member of the board of trustees, and was one of the most loyal and ardent supporters of the college. Mrs. J. L. Carter, daughter of the late E. M. Hall, has the power to designate to whom the scholarship will be awarded.

**PUBLICATIONS**

**Ouachita Signal.** A bi-monthly known as The Ouachita Signal, is published by the students. Ample space is given in this paper for reports of the various activities of the college. The students' subscription to this paper is included in the tuition fee. The subscription price to others is $1.50 per year. It is hoped that every patron, former student and friend of the college will avail themselves of the opportunity to keep in close touch with the college by subscribing to this paper.

**Ouachitonian.** The Ouachitonian is an annual pictorial survey of college life as the students see it. The Ouachitonian contains usually not fewer than one hundred sixty pages, and is beautifully bound.

**MUSICAL ORGANIZATIONS**

**The Little Symphony Orchestra.** The Little Symphony Orchestra is a student organization under the direction of the Professor of Violin. The Orchestra meets twice a week for practice.

**The Ouachita Band.** The purpose of the Band is to encourage and to stimulate good music among those who want to take part. The Band meets three times a week for practice under the direction of the Band Instructor.
The Ouachita College Choir. The Choir, composed of 40 to 50 mixed voices, which meets five times weekly under the supervision of the Professor of Voice, is known for its accompanied and unaccompanied choral art in churches in and out of the state.

LECTURES AND LYCEUM

Lyceum. Recognizing the benefit to our students which grows out of bringing celebrated artists to the institution, the college provides each year a series of lectures and concerts. This brings the student into actual contact with some of America’s leading personalities.

SPEECH AWARDS

The following cash awards are offered with presentations to the winners during Commencement:

C. L. Durrett award to the best freshman men’s extempore speaker.
R. C. Dailey award to the best freshman women’s extempore speaker.
Hamilton Moses award to the best extemporaneous debater.
J. R. Grant award to the best Bible narrative reader.

In the Spring of each year the Gene Rudolph Poetry Reading Festival is held with book awards for the winners in lyric, narrative and religious poetry reading. Second place awards are given in all the above speech contests.

THE RILEY LIBRARY

Purpose. The college library is planned to serve the faculty, students and interested community readers in study and research. Reference service is an important function of the library service, as well as giving assistance in encouraging independent reading. For this reason special exhibits on interested subjects and books are displayed in the library.

Size. The library contains more than 35,000 volumes, 25,000 pamphlets and other items. About 300 periodicals and government publications are received regularly. There is also a record collection for use by the various departments.

Gifts and Special Collections. In the recent past the library has been enriched by a number of special gifts including the Remmel collection, given by the estate of Colonel H. L. Remmel of Little Rock. Judge Roscoe P. Conkling of the Supreme Court of Missouri gave generously from his personal library. Dr. J. R. Grant, retired president of Ouachita College, also donated titles from his collection. Mr. A. B. Bonds, Commissioner of Education from Arkansas made possible a gift of 200 volumes from the Library of Congress. The library also houses a special collection for the Arkansas collection and the Baptist history collection.

Library Services. In addition to reference service the library procedures include aids in audio-visual work. Film service is provided through rentals and purchases. Maps, charts and a picture collection also serve in this capacity.

General Scheme of the Building. The library plant includes a main reading room which will accommodate approximately three hundred readers; a workroom space, a browsing room, a listening and film room for use by audio-visual classes, a stack room of three levels and office spaces for librarian and staff.

Library Procedure and Hours. All books not for reference and not
GENERAL INFORMATION

in reserve collections circulate for two weeks. Current periodicals are used in the library. Non-current periodicals, if unbound, are lent for 7 days. Reserve books are placed for two hours and three days, according to faculty requests and amount of usage. The library is open from 7:30 a.m. to 9:30 p.m. Monday through Thursday; Friday 7:30 a.m. to 6 p.m.; Saturday 7:30 to 12 noon.

FACULTY MEETINGS

Regular meetings of the faculty are held on the first Tuesday of each month at 5:00 p.m. The curriculum committee meets at the call of the dean. The executive committee meets at the call of the president.

SUMMER SESSIONS

The summer school begins usually about the first of June, immediately after the close of the spring semester. It is divided into two terms of five weeks each. A student may earn six semester hours credit each term, making a total of twelve hours for the summer session. The regular members of the faculty are retained as teachers for the summer school thus insuring a high grade of work. Teacher-training is emphasized during the summer session. Specialists are brought in from the outside to supplement the regular faculty in this field. Regular college courses leading to a degree are offered in all divisions.

A post summer session of two weeks duration is held in the early part of August. Limited advance courses are offered for this session. Students can make three hours credit during the two weeks.

THE GUIDANCE PROGRAM

Ouachita encourages its students to develop a well-rounded intellectual, religious and social life. To assist students in achieving such a development the school provides for them a guidance service, in personal and school matters, opportunities for religious development, and facilities for recreation.

Guidance Administration. The guidance service is headed by the Director of Student Personnel. He supervises the general entrance testing program, is responsible for maintaining non-academic records on all students and for giving direction to the entire guidance program, and administers special tests and inventories upon student request. Students are free to consult him on matters which cannot be or have not been approached in the regular faculty-counselor program.

Faculty-Counselor Program. The faculty-counselor program is made up of those members of the faculty who counsel and advise with the students. On entering school, the freshman or sophomore is assigned to a faculty counselor. A student may go to his counselor for educational, vocational, and personal guidance.

Student Conferences. All Freshmen and Sophomores are requested to attend four scheduled conferences a year. These conferences are scheduled at intervals throughout the year so that the student may have assistance in planning and evaluating his program of study. The conferences are not disciplinary meetings nor are they intended to be such.

The assigned counselor remains as the student’s special faculty friend until the student reaches his junior year. During his junior and senior years the student is counseled and advised by the head of the department in which the student is majoring.
Admission and Registration. Students presenting the necessary high school credits or their equivalents and all official records as required for entrance may be admitted. All policies of admitting and registering students are controlled by the faculty. The dean and the registrar are empowered and apply these policies in all cases to individual students.

Employment and Placement of Students. During the year students are helped in finding part-time jobs on the campus or in local stores. Ministerial students are helped in securing half-time pastoral work in outlying communities. The dean assists graduates to find positions for which they are qualified, or to avail themselves of fellowships in graduate schools.

Any student desiring or needing to work for any part of his expenses should consult the business manager.

Athletics and Physical Education. All students are required to take physical education unless they are physically disabled. Since the college has an R.O.T.C. unit those male students participating in the military program do not have to take the required courses in physical education.

Participation on the college athletic teams is determined by the coach of the team and the administration of the college. Athletes representing the college in inter-collegiate contests are expected to maintain at least a "C" average on their class work.

Students may find opportunities to play on the intra-mural teams since an intra-mural sports program is sponsored by the athletic department. All activities are controlled by a faculty committee.

Housing. The college offers housing for both unmarried and married students. Freshmen girls are housed in Terral-Moore Hall and girls in the sophomore, junior and senior years are housed in Cone-Bottoms Hall. Each Hall is supervised by a housemother who resides in the dormitory. At the present time the Dean of Women is the housemother of Cone-Bottoms Hall.

Boys may find accommodations in North Dormitory, Wallis Hall, and the Barracks, all three buildings being on the campus. Most of the college athletes are housed in West Hall or the Field House. The men's dormitories are supervised by the dean of men who resides in the North Dormitory.

A limited number of married students may find college accommodations either at the Apartment Dormitory consisting of two-room apartment units, or at Trailerville located just off the campus. Forty-three apartment units located on the college farm one-half mile north of the campus on Highway 67 are available. If the student is a married ministerial student, he may rent one of the four-room individual cottages at Ouachita Court, which is located beyond Trailerville.

Students who expect to live in the dormitory will need to bring bed linen for a single-sized bed, a pillow, and bed covering suitable for the seasons. Since the College is located within the city limits of Arkadelphia, articles of dress and personal toilet articles may be purchased locally.

No student shall be permitted to take rooms and board off the campus unless permitted to do so by the Director of Student Personnel and Deans. The same authority has general supervision for the housing of the student on and off the campus.

Board. All students housed in the dormitories for unmarried students, will be charged for all meals served at the college dining hall during each semester. This regulation is made since the food is prepared and
served under the direction of a trained dietician. Students requiring special diet must pay the extra cost of such a diet, the cost being determined by the dietician and the business manager.

Scholarship. Students are encouraged to achieve to the level of their best ability. In recognition of students doing good work, there is published at the end of each semester honor rolls. Students who make all "A" grades are listed on the first honor roll; those who make "A's" and "B's" are listed on the second honor roll; those who make a "B" average are listed on the third honor roll. Students who are named on the honor rolls receive a letter of commendation from the Dean of the College.

Failing Students. A student who demonstrates that his work is not a passing quality, is consulted by the instructor. If after the instructor or professor consults with the failing student the student's work has not changed to a passing level, the Dean confers with the student. If any special remedial work is necessary, the director of student personnel is advised.

Student Discipline. Discipline in Ouachita College is a minor problem. Students who enter the College are held largely responsible for conducting themselves in such a manner as not to reflect disfavor on themselves or the college. Usually minor infractions of dormitory rules or of college regulations are handled by the dean of men or the dean of women. Should a problem of major importance arise, its solution is handled by a special faculty discipline committee.

Student Council. Students participate in the government of the college with the administration of extra-curricular activities, certain disciplinary and social affairs, and the honor system. Each dormitory has a student council to enforce the rules and regulations adopted by the group and approved by the dormitory officers. There is also a general student council of the college. The persons serving on the council are the representatives of the student body elected each year by the students. The president of the student body acts as the master of ceremonies at each chapel program and is the person who makes public all announcements or decisions which are passed on from the faculty or from the students.

Student Health. The college has a modern infirmary which has on its staff a full-time college nurse and infirmary matron. Students are treated by the nurse for minor ailments. When a student requires the service of a physician the college assumes the cost of the first consultation. The student or his family is held responsible for the cost of any further visits by the physician.

In trying to maintain good student health, a well-planned physical education program is open for student participation. The college dining hall strives to maintain good nutritional health by serving well-balanced meals.

Academic Regulations

REQUIREMENTS OF ADMISSION

Applicants for admission must present to the college letters or recommendation in respect to moral character and academic capacity. One of these letters should be from a high school principal or superintendent. A photograph with name and date on back is also requested. Students transferring from other colleges must furnish a letter or certificate of honorable dismissal.
All applicants must be formally admitted to the college by the college administration. Students should make application and be formally admitted well in advance to the opening of school. In no case will a student be allowed to continue in school who does not present all entrance requirements within a week after his enrollment.

**PHYSICAL EXAMINATION BY MEDICAL DOCTOR**

It is required that every student pass a careful physical examination before final admission to the college. The college will furnish forms for this report. Each student applying for admission should go to his local or family physician for this examination well in advance of the opening of school. This will give the college opportunity to consider the physical fitness of a student for admission and will give the physician time to correct minor difficulties.

A physical examination will be required of each athlete in each intercollegiate sport before the training period each season.

**ADMISSION FOR HIGH SCHOOL SENIORS**

New students are required to send in transcripts of former work to the Registrar. The transcript should be sent in as early as possible and certainly not later than two weeks before the opening of school. Upon request the college will furnish a blank for high school credits.

Graduates from class “A” and class “B” high schools will be admitted to the college on a superintendent’s or a principal’s certificate showing that the applicant has fifteen standard high school units provided he has a grade average of “C” or better. An applicant who has almost a “C” average may be admitted on probation for a semester upon the recommendation of his high school principal. Non-graduate applicants from class “A” and class “B” high schools will be admitted to college on a certificate showing fifteen standard units provided the certificates are accompanied by the superintendent’s or principal’s recommendation that the applicant be admitted.

Applicants from schools below class “B” will send their certificates to the State Department of Education at Little Rock for evaluation; if evaluation by the State Department of Education shows that the applicants have fifteen standard units they will be admitted.

Other applicants will be admitted only on the basis of an examination showing that they have the equivalent of fifteen units. Applicants eighteen years of age or older whose certificates showed fifteen high school units before reduction by the State Department and not less than thirteen standard units may be admitted after the entrance examination and perhaps supplementary intelligence tests. If the applicant is twenty-one years of age or older, he may be admitted on the basis of an entrance examination alone, provided he meets all other requirements of the institution.

Of the required fifteen units the students must submit:
3 units in English.
2 units in science or math.
1 unit in social science.

Not more than four units will be accepted in vocational subjects.

**REGISTRATION**

Students may enter at the beginning of the first semester, the begin-
ning of the second semester or at the beginning of each term of summer school. Students will not be enrolled in any class until after they have registered.

**PENALTY FOR LATE REGISTRATION**

Students registering late will not be allowed to enroll for a full load. The penalty for late registration will be one hour reduction from the normal load for each week missed. A fine of two dollars per day will be charged for late registration, the total not to exceed six dollars. This regulation will not apply to new students or for the first registration of the year.

**CLASSIFICATION**

A student shall be classified as a freshman until he has earned 28 semester hours of credit and 18 quality credits; after which he shall be classified as a sophomore until he has earned a total of 59 semester hours of credit and 49 quality credits; then, he shall be classified as a junior until he has earned a total of 89 semester hours and 79 quality credits. He shall be classified as a senior when he has not less than 90 semester hours credit and not less than 80 quality credits. Students not pursuing courses leading to a degree shall be classified as special students.

A certified roll of each class will be made by the registrar early in the year. No student will be entitled to class privileges who has not been certified by the registrar's office.

**ACCREDITING ACADEMIC WORK**

The basis for accrediting the student's work is the semester hour, which is used to designate credit for one recitation of fifty minutes a week for a semester of eighteen weeks. Two hours of laboratory work are accepted as equivalent to one hour of recitation or lecture. In the Division of Fine Arts three hours credit is allowed for each semester's work in applied music; provided the practice per week, as specified by the instructor, is done; also provided the equivalent number of hours of theoretical work is submitted.

**GRADES**

There shall be four passing grades, A, B, C and D. "A" shall denote excellent and shall carry three quality credits for each semester hour of the course. "B" shall denote good and shall carry two quality credits for each semester hour of the course. "C" shall denote the lowest satisfactory grade and shall carry one quality credit for each semester hour of the course. "D" shall denote a bare pass and shall carry no quality credits. A student not passing shall receive "F" or "I". "F" denotes failure and is a permanent grade. A student receiving "F" as a semester grade may receive credit on the work graded only by registering for the course again and taking it regularly in class. "I" denotes incomplete and shall automatically become "F" unless the deficiency is made up during the next semester of the student's residence in college. No incomplete shall, in any case, be made up after one year. At the close of each semester a report of the grades made will be sent to the parent or guardian of each student.

**TRANSFER FROM JUNIOR COLLEGES**

Graduates of standard junior colleges are admitted as juniors. Students coming to Ouachita from standard senior colleges will be given full
credit for the work done in such institutions, provided it is similar in nature and standards to the courses outlined in the Ouachita College Catalog, and on the understanding that in no case will more than 104 semester hours of credit be given for transfer work, and that at least six junior-senior hours in both the major and minor fields (course to be designated by the major or minor professors) must be taken in Ouachita College. No more than six hours of “D” grades will be accepted on transfer nor more than three hours of “D” grades for any one semester.

TRANSFER FROM NON-ACCREDITED INSTITUTIONS

In case of colleges not fully accredited by their regional agency or the state university, only students with a better than “C” average will be admitted at Ouachita College and will be placed on trial until a semester of fifteen (15) hours of resident work has been completed. If the student makes a good “C” average or better during this period, his former collegiate work will be accredited to the extent that his courses parallel courses at Ouachita College. No grade of “D” will be accredited from this type of institution. In no case will transcript credits be recorded until the above conditions have been met.

TRANSFER CREDIT FROM THEOLOGICAL SEMINARY

No more than ten hours credit from an accredited Theological Seminary will be counted toward a degree.

TRANSFER FROM OUACHITA

A student wishing to transfer from Ouachita College to another institution should, at least one week before the transfer is to take place, request the registrar to send a transcript of his record and a letter of dismissal to the institution. One transcript of a record is furnished each student without charge; for each additional copy a fee of one dollar is charged, which fee is to be sent to the office with the request. No transcript may be granted unless the student has paid all bills due the college or has made satisfactory arrangements.

CORRESPONDENCE WORK

Ouachita College does not offer correspondence work. In accepting work from other schools, not more than thirty hours of correspondence work may be applied on the 128 hours required for graduation. Of the thirty hours, not more than ten may count on any major or minor.

No student is permitted to enroll in a correspondence course while he is registered for more than fourteen hours of work at Ouachita College. The student must file with the Dean, after receiving the approval of the major professor, a request for permission to take a correspondence course in advance of enrollment for the course if he expects to apply the credit on his Ouachita manuscript.

In the case of students who may have enrolled for correspondence work prior to entrance to Ouachita, the student must also register this fact with the Dean’s office at the time of enrollment.

EXCUSES FOR CLASS ABSENCES

Students are required to attend chapel and all classes.

Absences are of two kinds; excused and unexcused.
GENERAL REGULATIONS

Students will be excused for absences on account of illness; sickness or death in the immediate family; college business; or approved essential pastoral functions.

Each unexcused absence from the last class session before or the first class session after a scheduled holiday shall count as two (2) absences.

Any regularly enrolled student who is absent for all causes from more than twenty-five per cent (25%) of the sessions of a class or has more than three unexcused absences in a class will receive only two-thirds of the semester hours credit that course normally counts.

Any regularly enrolled student who has three (3) unexcused chapel absences will forfeit one quality credit for the first three and one quality credit for each additional three (3) unexcused absences thereafter.

The student will go directly to the teacher involved for excuses covering the first absence in a class which carries one hour credit, the first two in a two-hour class, the first three in a three-hour class, the first four in a four-hour class, and the first five in a five-hour class. Thereafter the student will obtain excuses in the following manner:

Absences from class and chapel will be reported by the students as follows: Men students will report each absence by turning in filled-in prepared form with proper evidence to the chairman of the excuse committee so that the approved form may be given to the teacher within three days exclusive of holidays after the students return to class.

Dormitory men will receive evidence from the dean of men except for absences on college business. Local ministerial students will receive evidence from the head of the Bible department except for absences on college business. Other men students will see chairman of the excuse committee for evidence requirements. The college representative responsible for absences on college business will furnish evidence to the chairman of the excuse committee.

Women students will report each absence by turning in filled-in prepared form and proper evidence to the dean of women or to her appointee so that the approved form may be given to the teacher within three days exclusive of holidays after the student's return to class. The college representative responsible for absences on college business will furnish evidence to the dean of women.

At the end of each semester students with excessive absences or four or more unexcused absences will be reported to the Registrar's office by the teachers.

General Regulations

Juniors and seniors may be enrolled in freshman and sophomore courses only with the consent of the dean and the major professor. Freshmen and sophomores may be enrolled in junior and senior courses only in rare cases and only with the consent of the dean and the adviser. As stated elsewhere, junior-senior courses taken in the freshman or sophomore year do not carry junior-senior credit.

In general, students are expected to carry academic courses plus military science or physical education in the case of first and second year students. To carry less than 12 hours or more than 17 hours academic work in one semester, special permission must be obtained from the dean.
No student will be permitted to change his course of study except by permission of the registrar and the instructors concerned. After the lapse of three weeks no change in subject is permitted except in special cases and upon the payment of a fee of fifty cents. If a student drops a course in which he is failing, at any time after the first two weeks, he receives an "F" as a permanent grade. In special cases a student may drop a course before the close of six weeks, without a grade of "F" if he is passing at the time the course is dropped.

Students should complete freshman work before taking up junior or senior work. If an incomplete grade in a course open to freshmen is removed during the session of graduation, or a non-required freshman course is taken, after ninety semester hours of work have been completed, it will count for one-third less than the value of the course.

No student will be permitted to take more than three courses nor more than eight hours whichever is greater under the same teacher during any one semester except by special permission of the Dean.

Qualitative Standards for Continuing Residence

Any regular student failing to make as many as twelve hours and nine quality credits per semester will be placed on scholarship probation during the next semester of attendance at Ouachita. This probation will be lifted when the student has maintained a "C" average for one semester in all courses for which he is enrolled. Students normally may not be carried on probation for more than two semesters. Students who fail to comply with the above requirements may be asked to withdraw from the institution for one semester or permanently.

WITHDRAWAL FROM SCHOOL

If, for any reason, a student finds it necessary to withdraw from school, he must report this fact to the business office in order that his account may be cleared and to the registrar so that he may be officially dropped and his teachers notified. Failure to adhere to these regulations will result in continued class absences, loss of hours and failing grades.

CERTIFICATION REQUIREMENTS IN ARKANSAS

General Information: All teachers engaged in teaching in any public school of Arkansas must possess a valid license. To be eligible to secure a teacher's license an applicant must be at least 18 years of age, must be of good moral character and believe in a Supreme Being. Contracts for teaching positions in the public schools are not valid without certificates.

Application for Certificate: Applicants for certificates based upon examination should apply to the County Supervisor in the county in which the applicant plans to teach.

To make application for a statewide certificate, based on college credentials, the candidate for license must file an application with the Supervisor of Teacher Education and Certification, State Department of Education, Little Rock, Arkansas. Application forms may be secured from the Supervisor of Teacher Education or from the registrar's office.

An application for any license must be accompanied by transcript of college work completed and a recommendation signed by the dean, registrar or designated college official. A fee of $2.00 and a poll tax receipt must be attached.

DEGREES

Ouachita College confers the degree of Bachelor of Arts, Bachelor of Science, Bachelor of Music Education and Bachelor of Music. To be eligible for one of these degrees, the student must be of good moral character, fulfill the requirements for the degree and meet other requirements and obligations demanded by the college.

REQUIREMENTS FOR DEGREE OF BACHELOR OF ARTS

The minimum requirement for graduation is the completion of 128 semester hours. In the case of women four hours shall be activity courses in physical education***. In the case of men eight hours shall be in military science or in physical education***. Every student must take Bible 112a, b, or 212a, b; Education 213; English 113a, b and 213a, b; ten hours of laboratory science, including five hours from Biological Sciences and five hours from Physical Sciences; and History 113a, b, or 133a, b.

To major in any subject, the student must submit twenty-one semester hours in addition to the general requirements in that subject, except that in no case shall more than thirty hours be required. To minor, fourteen hours in addition to the general requirements are necessary, except in no case shall more than twenty-four hours be required. Twenty-seven
hours shall be the minimum requirements for a major in any subject and twenty hours for a minor. In view of these statements, the total number of hours required for a major or minor is not the same for all subjects.

The student must choose his major subject upon registration or not later than the beginning of the second semester of his sophomore year with the approval of the department head concerned. The head of the student’s major department collaborates with the student’s counselor in regard to his academic program. At the beginning of the junior year the head of the student’s major department becomes his advisor. The minor should be chosen by the student only with the approval of the major professor and should be in a field related to that of the major. Courses on which a student has received a grade “D” do not count toward the completion of the minimum requirements for a major or minor. A student may not receive credit for more than forty hours in any one subject. It is also required that at least twelve hours of work toward a major be in courses numbered 300 or above. Eight hours of work toward a minor must be in courses numbered 300 or above.

The requirements for graduation is governed by a dual standard, one of quality and one of quantity. The quantity of work is measured by the number of semester hours completed. The quality of work is indicated by the number of quality credits earned by the student. In checking credits for honors, quality credits are counted only on the 128 hours accepted for graduation. No degree will be given a candidate who has less than 128 quality credits. A student graduating with 360 or more quality credits will receive the distinction of “Summa cum laude;” one graduating with 320 quality and less than 360 will receive the distinction of “magna cum laude;” and one graduating with 280 quality credits and less than 320 will receive the distinction of “cum laude.”

Of the 120 hours of academic work required for graduation, 45 hours must be of junior and senior standing; that is, courses numbered 300 or above, and must be taken in the junior or the senior year in order to receive junior-senior credit.

A student must have spent his senior year in this college, completing here not less than twenty-four hours of work.

No student is permitted to graduate under the rules and regulations of any Ouachita catalog published more than five years prior to the date of graduation. He may choose as a guide any catalog published subsequent to his matriculation as a student, provided it meets the requirements stated in the preceding sentence.

A student who is candidate for a second degree (after one is earned) must spend an additional summer session or regular semester in residence. He may use the same major for both degrees but must meet requirements for a minor in addition to the one used for the first degree.

**SUMMARY OF REQUIREMENTS FOR B. A. DEGREE**

  teachers, and for those students who have not had United States His-
  tory in High School. Six hours of Sociology can be substituted for
  the history requirements for home economics majors only.

*** In accordance with paragraph two under "Requirements for De-
  gree of Bachelor of Arts" the minimum requirement in hours is more
  than this in some subjects.

REQUIREMENTS FOR DEGREE OF BACHELOR OF SCIENCE

The same general requirements must be met for the Bachelor of
Science degree as for the Bachelor of Arts except that twenty hours in
math and science other than the particular science chosen for the major
must be submitted. The Bachelor of Science degree will be conferred on
all successful candidates who major in any of the following departments:
Biology, Chemistry, Home Economics, and Mathematics.

REQUIREMENTS FOR BACHELOR'S DEGREE IN GENERAL
HOME ECONOMICS

For the Bachelor of Science degree in General Home Economics in
addition to the home economics curriculum, as outlined elsewhere in this
catalog, twelve hours of chemistry and seven hours of biology are required.
These sciences will fulfill the requirement for a minor for home economics
students. The social science requirement may be met by taking six
hours of sociology.

For a Bachelor of Arts degree in General Home Economics one must
major in Home Economics and meet all other general requirements for the
B. A. degree.

DEPOSITS AND RESERVATIONS

The information as to the deposit for Military will be found under the heading “Division of Military Science”.

Rooms will be reserved in the dormitories on application to the president. Current students have the privilege of selecting and reserving a room for the following year by May 1. After this date, all rooms are open for selection by present students and new students alike. No room selection becomes a reservation until the reservation fee of $10.00 is paid and no refund will be made on a reservation fee if the request is not received before August 1. This fee is not credited to the student’s account but is held as a deposit. It is refundable after graduation or when the student withdraws from school.

The conditions under which dormitory rooms are rented are given below:

1. Students are expected to bring bed linen and blankets (for single beds), pillows, towels, and window curtains. With the exception of these items the dormitory rooms are furnished.

2. All dormitory rooms will be inspected periodically and students will be charged for any damage to the building or the furniture. Occupants who create or permit disorder in their rooms, who interfere with the comfort of other students, or who deface or destroy the property, will be dismissed from the building.

3. Changing the electric wiring or using double sockets to burn extra lights is not permitted. No hot plates are permitted.

4. Students are not permitted to drive nails, tacks, or pins into the walls or to disfigure the walls in any way.

5. Furnishings must not be removed from the rooms in which they have been placed without permission of the dean in charge.

6. The college assumes no responsibility for any personal property, jewelry, or other valuables kept in dormitory room by students.

A reservation fee of $20.00 is required on all apartments, and no refunds will be made on a reservation fee if the request is received later than August 1.

HOUSING

The college provides the following housing:

An apartment dormitory on the campus. This building contains sixteen two-room apartments and three three-room apartments, all unfurnished. Couples who do not have children may apply for these apartments. The established monthly rental is $23.00 for the two-room apartments and $29.00 for the three-room apartments. All utilities are furnished.

Forty-three apartment units located on the college farm one-half mile north of the campus on Highway 67. All of these units are furnished with gas ranges, heating stoves, and ice chests. The two, three, and four-room apartments rent for $19.00, $23.50, and $26.00 respectively. All utilities are furnished.

The above rental rates as stipulated will be maintained unless cost of operating the facilities make a change imperative. In this case, the rentals are subject to change on thirty days’ notice.

A $20.00 deposit is required with each application for housing. This deposit is refundable when the apartments are vacated. Facilities are assigned to applicants in the order applications are received.

A few years ago friends of Ouachita College provided funds for the
erection of nine four-room cottages especially for the benefit of married ministerial students. The monthly rental on these is $18.00, utilities not furnished.

In addition to these cottages the college owns a small apartment house where apartments may be secured by ministerial students. The rates on these apartments are nominal.

**REFUNDS**

The following refund policy will apply on the accounts of all students who for any reason leave school before completing a regular semester:

<table>

</tr>
<tr>
<td>Over five weeks</td>
<td>100%</td>
</tr>
</tbody>
</table>

Advance payments on room and board will be refunded if the student leaves school for any cause. The refund will be computed on a pro rata basis.

**SCHOLARSHIPS AND WORK GRANTS**

A limited number of scholarships are granted each year to high school honor graduates. The usual amount of such scholarships is $50.00 per semester and can be applied against the regular tuition charge of $131.00.

The college is in a position to give a number of students part-time employment which enables them to defray part of their college expenses. Any credit balance which a student builds up in his account by work is not refundable in cash nor transferable. Application for work should be made to the president or business manager on a specified form provided upon request.

**MINISTERIAL STUDENTS**

Active, licensed, or ordained ministers will be admitted to the literary department of the college at an established discount of $50.00 per semester on the regular tuition charge of $131.00. The Arkansas Baptist State Convention makes provision for this allowance on tuition to ministerial students. However, **before this allowance can be granted such students must fill out a prescribed form which will be provided upon request to the president or business manager.** This form should be submitted to the college at least thirty days before the student enrolls.

Wives and children of ministers will be admitted to the literary department of the college at the same rate as ministers. The Arkansas Baptist State Convention makes provisions for this allowance.

**STUDENT SELF-HELPS AND AID**

Many students meet part of their expenses by work in the college. Ouachita College employs students as far as possible on its own campus, providing several kinds of jobs, such as work in the cafeteria, in the kitchen, on the campus, in the buildings, and in the library. Students who secure such jobs must give satisfactory service in order to hold their places.

In addition to the work provided by the college, some students find jobs in the city of Arkadelphia which furnish considerable assistance in helping them to meet their expenses.

No student shall be permitted to solicit advertisements, or funds for any purpose without the consent of the administration.
Courses of Instruction

Regular college course numbers contain three digits: the first digit indicates whether the course is primarily for freshmen, sophomores, juniors, or seniors; the second digit is a course number; and the third tells the number of semester hours credit. Courses marked "a" and "b" are full year courses; unless otherwise indicated, "a" indicates a first semester course and "b" a second. In many cases the "a" course is a prerequisite of the "b" course. No credit is allowed for one semester of a two-semester course unless specifically indicated. Courses numbered from 100 to 199 are primarily for freshmen; courses numbered from 200 to 299 are primarily for sophomores; courses numbered 300 and above are intended only for juniors and seniors.

The college reserves the right to withdraw or to change courses at any time. No course will be offered for less than six students. The privilege of remaining in Ouachita may be forfeited by any student who does not conform to the Christian environment or regulations of the college.

DIVISION OF HUMANITIES

A chief purpose of this division is to develop in students an intelligent application of the finest thoughts of the finest minds as expressed in the literature of England, America, and other leading countries; and thereby, since literature is an interpretation of life, to intensify the student's appreciation and understanding of life itself. A second purpose is to develop good writing and speaking habits. In the case of foreign languages the objectives are a reasonable ease in speaking and understanding the language concerned, and the intimate contact with great foreign writers to be secured through reading them in the original. A student may major or minor in English or Speech or minor in French.

I. ENGLISH AND COMPARATIVE LITERATURE

Associate Professor Simmons
Assistant Professor Holiman
Assistant Professor Osborne
Instructor Black

The courses in English and Comparative Literature have three objectives: first, to develop in the student accurate and effective writing habits; secondly, to help him learn to read intelligently; and thirdly, to acquaint him with the masterpieces, not only of English and American literature, but of the western world literature in general, through the medium of translations. It is not necessary to take both semesters of a course unless specifically stated. Majors must submit thirty hours of English, with at least eighteen junior-senior hours; their courses must include 323 a, b; 413 a, b or 422 a, b; 433 a, b and 451. Minors must submit twenty-four hours of English, with at least twelve junior-senior hours; their courses must include at least one semester in each of two of those required of majors. In addition to the minimum hour-requirement in English courses, majors must submit an approved course in each of the following: Art, Foreign Language, History, Music, and Speech, which courses must total fifteen hours.

100. Elementary English

A non-credit course required of students not prepared for 113 a, b. Miss Simmons.
OUACHITA COLLEGE, ARKADELPHIA, ARKANSAS

113a, b. Freshman English
In this course students receive instruction and practice in reading and writing. Miss Holiman, Mr. Osborne, Miss Simmons, and Mrs. Black.

213a, b. Great Writers of the Western World
An introduction to great literature through the reading and discussion of some of the masterpieces of literature from the time of the ancient Greeks to the present. Miss Holiman, Miss Simmons, and Mr. Osborne.

232. Juvenile Literature

312. The Drama
The art and the development of the drama. Miss Holiman. First semester: Students taking this course must enroll also in Speech 342.

323a, b. American Literature
A survey of American literature with emphasis on the major writers.

342a, b. The English Novel
A study of the development of the English novel, with reading and discussion of representative novels. Miss Holiman.

362a, b. Romantic Poets
First semester: Coleridge and Wordsworth, with some attention to minor writers. Second semester: Byron, Shelly, and Keats. Mr. Osborne.

413a, b. Shakespeare
An intensive study of a few plays with briefer consideration of others.

422a, b. Great Novels in Translation
The class will consider at length some of the great foreign novels, analyzing their values as works of art, and as interpretations of human nature. Miss Holiman.

433a, b. A Survey of English Literature
A concentrated survey of the development of English literature from the Anglo-Saxons to the present. Miss Simmons.

443. Approaches to Poetry.
A course in the understanding and enjoyment of poetry. First semester.

451. Senior Thesis
Open only to majors. Mr. Jones, with the assistance of the English staff. Given each semester. To be arranged individually.

463. Chaucer
The Canterbury Tales and part of The Troilus. First semester.

2. FRENCH
Assistant Professor Gardner

The purpose of these courses is to develop an appreciation of France and its people through a study of its language, literature and life. Supplementary readings of famous literary works, writings on travel in France, and biographies will be added to the necessary study of pronunciation, grammar and idiomatic expressions of the language. A minor in French is offered covering the following courses:
113a, b. Elementary French
The fundamentals of pronunciation and grammar will be stressed throughout the course. Choice selections from favorite authors of France are begun on the elementary level and continued throughout the year.

213a, b. Intermediate French
Individual attention will be given to the development of correctness and fluency in reading French literature in the original, as well as to an intelligent comprehension of the idiomatic expression of the language. Designed for students with 5 hours of college French or 2 or more units of high school French.

312a, b. Survey of French Literature
Outstanding works of major French writers with special emphasis on various literary movements from the sixteenth century through the nineteenth.

412a, b. Contemporary French Literature
Directed reading of outstanding literary works of twentieth century. Magazine material is used in conjunction with selections from anthologies.

3. GREEK
Associate Professor Wallace

214a, b. The Language of the New Testament
The aim of this course is to present the fundamentals of the Greek language in which the New Testament was originally written. This will include learning the vocabularies, declensions of the nouns, adjectives and participles, and conjugation of the verbs. Prerequisite: Sophomore standing. Dr. Wallace.

313a, b. New Testament Studies in Greek
This is a reading course in the Greek New Testament. The Gospels of John and Mark, and some of the shorter epistles are read. Vocabulary and forms are emphasized at the beginning of the year. The fundamentals of syntax are studied through the year. Prerequisite: 214a, b, or equivalent. Credit on this course may be applied on a major in Bible and Religious Education. Dr. Wallace.

4. SPANISH
Assistant Professor Gardner

113a, b. Elementary Spanish
Fundamentals of pronunciation, grammar and composition are stressed. Reading on the elementary level will be used to stimulate interest in Spanish literature.

213a, b. Intermediate Spanish
Advanced exercises in pronunciation, grammar and composition are stressed. Designed for students with 5 hours of college Spanish or 2 or more units of high school Spanish.

SPEECH
Associate Professor Rudolph
Assistant Professor Prosper
The courses of study in Speech are planned to give training for those
who desire to prepare themselves for the teaching of various phases of Speech, for those desiring to study Speech for its cultural value, and for those going into the professional world who desire to cultivate greater facility in the forceful and effective expression of their ideas.

Requirements for a major in Speech include the following courses: 113a, b; 123; 212a, b; 333; 342; 351; 422; 431, plus six junior-senior elective hours in Speech and four hours in physical education activity courses.

Requirements for a minor in Speech include: 113a, b; 212a, b; 333; 342; 351; 422; 431 plus two junior-senior elective hours in Speech.

In addition to the hours of speech required, majors must submit 15 hours of work from the following five groups and must submit at least three hours in each of three groups:

1. Education and Psychology 313 or 333
2. English (junior-senior courses)
3. Appreciation and History of Music or Art
4. Foreign Languages
5. Philosophy 333, 343

There are two national honorary fraternities to which Speech students are eligible:

Pi Kappa Delta, national honorary forensic fraternity.
Alpha Psi Omega, national dramatic fraternity.

113a. Fundamentals of Speech

This is an orientation course in the field of speech. Emphasis will be placed upon the securing of poise, spontaneity, sincerity, and self-mastery. Credit is allowed on Speech 113b without taking Speech 113a, but no credit is allowed on Speech 113a unless Speech 113b is taken. First semester.

113b. Voice and Diction

A course designed to establish good habits of speech through (1) analysis of each individual's voice and articulation; (2) class instruction in the development and care of the speaking voice; (3) drills for careful articulation; (4) application and adaption of this instruction to individual abilities and needs. Emphasis on the development of flexibility, musical quality, audibility, and clarity. Second semester.

212a, b. Oral Interpretation of Literature

An analysis of material from both intellectual and emotional viewpoints. Selected studies from the best literature for public presentation. The purpose of this course is not only to equip students for public reading, but to lead to and appreciate the highest spiritual and intellectual values of literature. Mrs. Rudolph.

322. Dramatic Reading and Platform Art

Gathering and arranging of program material. Selected studies from classic literature for public presentation. Admission by consent of instructor. Mrs. Rudolph. Second semester.

333. Public Speaking.

Theory and practice in composition and delivery of speeches of various types and for various occasions. The aim of the course is to develop the ability of the student to express his ideas effectively under circumstances that arise in the normal course of life. Mrs. Rudolph. First and second semester. (Summer term also, Mrs. Rudolph.)
DIVISION OF HUMANITIES

342. Acting
A study of elementary principles in acting primarily from the point of view of the teacher or director of the school theatre. Laboratory work in the preparation of short scenes which demonstrate the various principles of acting. Co-requisite: English Drama. First semester.

A practical course in the directing, casting, and selection of usable plays. Open only to speech majors and minors. Prerequisites: 342, 351. More credit may be arranged. Second semester.

432. Character Portrayal
Advanced study of the technique of acting, with special emphasis on the study and creation of character. Prosper. Second semester.

441-2-3. Applied Play Production
An opportunity to put into practice the theory learned in Speech 431. Credit given on basis of one hour for a one-act play produced for the public. Prerequisite 431. Prosper.

443. Introduction to Speech Correction
Prerequisite, Junior standing and Speech 113b. An introduction to the diagnosis, nature and problems of various speech disorders. Not offered 1951-52.

453. Business and Professional Speaking

Private Instruction
Adapted to the needs of the individual student. It may consist of corrective work, platform reading, or advanced study in some field in which course work is offered. The private courses are as follows: 102a, b; 202a, b; 302a, b; 402a, b; $18.00 for each semester hour.

FORENSIC ACTIVITIES

The department sponsors and supervises an extensive program of intra-mural and intercollegiate debates and other speech contests which provide special training for students with unusual talent.

123. Discussion and Debate
A course designed for students interested in the philosophy of, and in participation in, group discussion and a study of the principles of argumentation and debate, including analysis, briefing, evidence, reasoning and refutation. Dr. Moore. First semester. Lab. required.
270a, b. Contest Debate.
Same as 371 and 471, but open to Sophomores only. Dr. Moore.

371a, b. Contest Debate
Prerequisite: 123. Study of the National Debate question for those interested in competition debate. Dr. Moore.

471a, b. Contest Debate
Prerequisite: 123. Study of the National Debate question for those interested in competition debate. Dr. Moore.

RADIO
133a, b. Fundamentals of Radio Broadcasting
An introductory course in radio designed to acquaint the student with the various phases of radio. Laboratory fee $5.00. Prosper.

383a, b. Direction of Radio Programs.
An advanced course in radio with special emphasis on announcing, commercial and sustaining radio copy, laboratory work in microphone practice with criticism, and utilization of recording and playback equipment. Laboratory fee $5.00 per semester. Prosper.

DIVISION OF SCIENCE
Professor Provine, Chairman

The Division of Science offers instruction in biology, chemistry, physics, mathematics, and home economics. The aims of the division are two-fold: to develop a cultural value of studies in these fields and to give practical training culminating in a specialized preparation for life work. More specific objectives will be found in the statements introducing each field of study in the division.

1. BIOLOGY
Professor Mundie
Assistant Professor Stewart

The biology department aims to develop an understanding of the tactics and strategy of science as it applies to the living world. Emphasis is given to the methods and limitations of science as a prerequisite to the intelligent use of knowledge. The department offers courses that are prerequisite to such professions as medicine, dentistry, agriculture, forestry, and related fields. A major or minor is offered in biology.

 Majors should take the following courses: 115, 125, twelve hours in 300 and 400 courses under the direction of the major professor. Students desiring to major in biology should make application to the professor of biology and seek his advice relating to a minor and related fields as soon after the freshman year as possible. Minors are required to take course 115, 125, eight hours from 300 or 400 courses; and the remaining hours may be selected from 200, 300, or 400 courses.

 Majors in biology who are candidates for the A. B. degree must submit fifteen hours in related fields, preferably distributed in mathematics,
occasionally students desire to major in biology and minor in some non-science field such as Bible. This may be permitted upon meeting the following related field requirements: eight hours in mathematics or additional science above the major and seven hours selected from the courses below: Sociology 353; Physical Education 142 and 362; Psychology 313 and 333; and Conservation 203. Other courses may be acceptable in meeting related field requirements upon consultation with the major professor.

Students who take a double major in biology and physical education should take the following courses in biology: 115, 125, 213, 314, 323, 333, and 424. Sufficient courses may be elected to complete the major. Related field requirements may be met by selecting 15 hours from three of the following groups:

- Education 313, 333
- Mathematics, chemistry, physics—any courses
- Physical Education 142, 362
- Sociology 333

**RECOMMENDED COURSES IN BIOLOGY FOR VARIOUS GROUPS OF STUDENTS**

**Students majoring in physical education:**

- Biology 115, 125, and 213 recommended.

**Students majoring in biology and also majoring in physical education:**

- Biology 314, 323, 333 and 424 recommended in addition to above.

**Premedical and predental students:**

- Biology 115, 125, and 314 are required. In addition 323, 333 and 424 courses are recommended.

**Home Economics students:**

- Biology 213, 222, 232 are required.

**General liberal arts training:**

- Biology 115; 125; 213; 222; 232; 333; 424 are recommended.

**Teachers in Public schools:**

- Biology 115; 125; 222; 232; 234; 314; 323; 333 are recommended.

**Ministerial students:**

- Biology 115; 125; 222; 232; 323; 333; 424 are recommended.

**General Biology. Botany 115. Zoology 125**

An introductory course for students beginning work in biology. The aim of the course is to give liberal arts students a broad cultural background in the general field of biology and also to give a good foundation to the premedical student and to those majoring in biology. Fundamental biological principles are stressed. Applications of these principles are made to man whenever possible. This should develop in the student a better understanding of himself and the world about him. Lec. 3 hrs., Lab. 4 hrs.

**213. Human Physiology**

A course designed to acquaint the student with the structure and functions of the human body. Diseases, infection, immunity, and methods
of prevention and control are also discussed. Prerequisite: Biology 115, 125. (Home economics students may substitute Chemistry 115.)

234. Plant Taxonomy
A study of the principal groups of plants with reference to their structure, ecological relationships, life histories, taxonomy, and phylogenesis. Laboratory work includes classification, observations, and dissections of typical plant types. A course recommended to prospective teachers as well as minors and majors in biology. Second semester. Lee. and Lab.

222. Bacteriology
A course dealing with the fundamentals of bacteriology. Emphasis is given to the study of bacteria in relationship to man, to plants, and to animals. Their classification, morphology, physiology, and environmental needs are discussed. Prerequisite: Biology 115, 125 or Chemistry 115. Lecture only. First semester.

301. Human Physiology
Laboratory only. A course designed to acquaint the student with the instruments used in the physiology laboratory and the structure and functions of the human body. Practical demonstrations are used wherever possible. Only those students who have had or are now taking human physiology lecture are eligible to take this course.

314. Vertebrate Comparative Anatomy
A course dealing with the vertebrate animals from a phylogenetic standpoint followed by a comparative study of their anatomy. The laboratory work includes the dissection of certain protochordates, dogfish, Necturus, and the cat. Premedical, pretechnician, preental, and minors and majors in biology are advised to take this course. Prerequisite: Biology 115, 125 and junior-senior standing. A cat is to be furnished by each student. First semester. Lee. and Lab.

323. Genetics
This course is designed to develop an understanding of the basic principles and facts and theories of the mechanics of heredity. Prerequisite: Biology 115, 125. First semester.

333. Heredity and Eugenics
The relationship of heredity to plant and animal improvement is stressed. Eugenics versus eugenics is discussed. Heredity and some of the race problems of man are surveyed. Prerequisite: Biology 323. Second semester.

414. Histology and Microtechnique
A comparative study of the primary tissues of vertebrate animals. Histological technique followed by tissue study is taken up in the laboratory. A course of practical value to all biology majors, preental and premedical students as well as future laboratory technicians. These types of students are advised to take this course. Prerequisite: Biology 115, 125 and junior or senior standing. Offered in alternate years. Lee. and Lab.
424. Embryology
A course devoted to a study of the development of the vertebrate embryo from the comparative viewpoint. Cell division, gametogenesis, fertilization, cleavage, gastrulation and organ formation in the frog, chick, and pig are studied. Second semester. Lec. and Lab.

431-4. Special Studies in Biology
The subject of this course will vary to suit the needs and desires of students in biology. Given on demand.

2. CHEMISTRY

Professor Provine
Associate Professor McCarty

The first year of Chemistry, Courses 115 and 125, is designed for students who desire a knowledge of the science for its cultural value; for its use in related fields; or as a prerequisite for more advanced work in Chemistry. Other courses are planned to meet the requirements of those who desire a more thorough knowledge of the subject; to prepare for work in Chemistry, Medicine, Engineering or for other professional uses.

Students majoring or minoring in Chemistry must take the following courses: 114a, b; 214; 224; 324a, b. Those beginning Chemistry after 1951 take the following courses: 115; 125; 213; 324a, b; the remaining hours to be selected from 300 or 400 courses. Majors who are candidates for the A.B. degree must take, in addition, at least fifteen hours of work in related courses in Mathematics and other sciences.

115. General Chemistry
A comprehensive cultural course in chemistry designed for all students. Lectures and recitations three hours and laboratory four hours a week.

125. General Chemistry and Qualitative Analysis
A continuation of the study of general chemistry with emphasis on the metallic elements. Some of the lecture periods are devoted to the theories involved in elementary qualitative analysis. The laboratory work consists of preliminary experiments and the separation and identification of the common cations and anions. Prerequisite chemistry 115. Lecture and recitation three hours and laboratory four hours a week.

214. Qualitative Analysis
A study of theory and systematic analysis of inorganic substances. Lecture and recitation two hours and laboratory four hours a week. Prerequisite: Chemistry 115.

224. Quantitative Analysis
A study of some of the general methods of gravimetric and volumetric analysis. Lecture and recitation one hour and laboratory six hours a week. Prerequisite: Chemistry 214.

324a, b. Organic Chemistry
A systematic study of the typical compounds of carbon. Lecture and recitation two hours and laboratory four hours a week. Prerequisite: Chemistry 115. First and second semesters.
334. Quantitative Analysis
   A continuation of Chemistry 224 with the same number of hours lecture and laboratory. Prerequisite: Chemistry 224. Summer session. Provine.

344a, b. Physical Chemistry
   An introductory course to theoretical chemistry. Three hours lecture and two hours laboratory per week. Prerequisite: Chemistry 224, Physics 214, Physics 224 and Mathematics 223. Mathematics 213 may be substituted for Mathematics 223.

424. Organic Preparations
   A study of the more difficult relations of organic chemistry through laboratory preparations. Special emphasis is given to the preparations and purifications of typical dyes and drugs. Prerequisite: Chemistry 324. First semester. (12 hours lecture and laboratory.) Provine.

433. Qualitative Organic Analysis
   A systematic identification of organic compounds. This course includes a number of preliminary experiments, followed by unknowns of both pure substances and mixtures. Prerequisite: Twenty-four hours of chemistry. Second semester. (9 hours lecture and laboratory). Provine.

443. Special Studies in Chemistry
   The contents of this course will vary to suit the needs and desires of majors in chemistry. Given on demand. Provine.

3. MATHEMATICS

Professor Seward

The aims of the instruction in Mathematics are to develop logical habits of thought and to provide the techniques necessary to the study of the exact sciences.

 Majors must take fifteen hours in related courses, chosen from at least three of the following five groups, subject to the approval of the department head. Physics, Chemistry, Biology, Business and Education.

113. Basic Mathematics
   This course contains the minimum essentials of Mathematics necessary to a well rounded general education. It is required of all students who indicate their need of such a course by their Mathematics entrance test.

123. Algebra
   Prerequisite Mathematics 113 or two years of high school algebra. Quadratic equations, review of fundamentals, and solution of systems of linear equations.

133. Trigonometry
   Solution of triangles, identities, equations and graphs.

223a, b. Calculus and Geometry
   Prerequisite Mathematics 123, 133. Contains an introduction to calculus and to analytic geometry.

303. College Geometry
   Advanced plan synthetic geometry. Recommended for prospective teachers.
DIVISION OF SCIENCE

313. Theory of Equations
   Solution of algebraic equations of higher degree and systems of linear equations.

343a, b. Differential and Integral Calculus
   Prerequisite Mathematics 223a, b.

413. Differential Equations
   Ordinary differential equations such as occur in geometry, chemistry, and physics.

432. Special Course
   A course for majors who wish to do independent work on some problems assigned by the instructor.

4. PHYSICS
Professor Seward

115. General Physics
   A general introductory course to such topics as mechanics, heat, light, sound and electricity. Prerequisite: One year each of high school algebra and geometry. Four lectures and one laboratory.

213. Modern Physics
   Introduction to electronics, structure of matter, and nuclear physics. Prerequisite: Physics 115.

5. HOME ECONOMICS
   Associate Professor Thomas
   Instructor Jones

The objectives of the department are to prepare young women for the important position of homemaking, and for the vocations that grow out of homemaking activities. The curricula are arranged to meet the needs of those students who desire a good foundation in the subject relating to the social, scientific, artistic, and economic problems of the home; for those who wish to enter the commercial field; and for those who wish to follow any career radiating from the home economics field.

The department of Home Economics also aims to give instructions to students interested in other divisions of the college who may elect courses in home economics as a part of liberal education.

HOME ECONOMICS MAJOR

The general requirements for a B. A., or B. S. degree must be met. The B. A. degree will be conferred upon those with a major in home economics and a minor in some other field. The B. S. degree will be conferred upon those with a minor in science. The following courses are required of all home economics majors.
### Nutrition:
- **213 Foods I** 3
- **223 Family Meals** 3
- **313a, b Nutrition and Dietetics** 6

### Clothing:
- **113 Clothing I** 3
- **142 Textiles** 2
- **233 Clothing II** 3

### Homemaking:
- **322 Marriage and the Family** 2
- **422 Household Problems** 2
- **433 Home Management** 3
- **443 Child Development** 3

**Total:** 30

* Any student anticipating graduate study in Foods should take Organic Chemistry.

### MINORS

A minor in home economics is recommended only for those students interested in the field from a homemaking standpoint.

### Home Economics:
- **113 Clothing I** 3
- **142 Textiles** 2
- **213 Foods I** 3
- **223 Family Meals** 3
- **322 Marriage and The Family** 2
- **443 Child Development** 3
- **422 Household Problems** 2
- **343 Home Planning & Furnishing** 3

**Total:** 21

*Rel. Art 353 may be substituted for H. E. 422.*

Entrance into any other courses in Home Economics may be only through meeting pre-requisite requirements.

### For Teaching:

Home economics majors interested in teaching in non-vocational schools should take the following courses:
- **253. Principles of Secondary Education**
- **323. Measurements in Secondary Education**
- **493. Methods of Teaching Home Economics**
- **313. Child Psychology, 333 Adolescent Psychology, or 233 Educational Psychology**
- **423. Directed Teaching**

In addition to the above courses, students desiring to qualify for a teaching certificate in the state of Arkansas, must complete 203 Conservation, and 12 hours in Social Studies (may be history, economics, sociology or political science.)

DESCRIPTION OF COURSES

113. Clothing I

The aim of this course is to teach fundamental principles of garment selection and construction, personal grooming, study and use of commercial patterns, principles of fitting, use and care of sewing machines, clothing economics. Lecture one hour, and laboratory four hours a week. Prerequisite or co-requisite: Related Art 113. Mrs. Jones. First Semester.

142. Textiles

The purpose of this course is to teach artistic and economic consideration of selecting materials for clothing and household furnishings. A study of textile fibers and fabrics, their structure, properties, manufacture and wearing qualities and special buying problems that confront the consumer. Open to non-majors. Mrs. Thomas. Second semester.

233. Clothing II

The objective of this course is continued study of commercial patterns and application of the principles of costume design as applied to the planning, selection, and construction, according to the occasion as well as to the individual; budgeting and consumer buying. Lecture one hour, laboratory four hours a week. Prerequisite: Home Economics 113 and 142, and Related Art 113a, b; and Co-requisite Related Art 303. Mrs. Thomas. Second semester.

413. Tailoring (Adv. Clothing)

Adaptation of the tailoring principles to wash materials in a street or sport dress and to woolen material through the construction of a suit or coat. Prerequisite: Home Ec. 142, 113 and 233. Offered on demand in 1950-51.

213. Foods

The intent of this course is to teach the principles of cookery and food combinations of the every day diet. The preparation of food, production, cost, selection, nutritive value, and place in the diet. Lecture one hour and laboratory four hours a week. Mrs. Thomas. First semester.

223. Family Meals

The purpose of this course is to teach food economy in planning and serving meals. Meal preparation, methods of table service for all occasions, marketing and cost of meals, individual and group planning of meals for groups. Lecture one hour and laboratory four hours a week. Prerequisite: Home Economics 213. Mrs. Thomas. Second semester.

313a, b. Nutrition and Dietetics

The object of this course is to teach the nutritional theories as applied to normal and pathological conditions. The content includes the principles of human nutrition and their application in the construction of dietaries; the effect of inadequate and incomplete diets; selection of foods for various ages in health and disease. Lecture two hours and Lab.
two hours per week. Prerequisite: Home Ec. 233, Chemistry 204, Biology 222 and 232. Mrs. Thomas. First and second semester.

322. Marriage and the Family
The problems of the course are to be based upon needs and interest of the class as to preparation for marriage, marriage adjustments, with emphasis on health and happiness in the family. Prerequisite: junior standing. Mrs. Thomas. First and second semester.

353a, b. Institutional Management
The aim of this course is to study problems involved in the administration of institutions dealing with feeding large groups. Field work in observing in local wholesale groceries, markets, and warehouses in relation to purchasing problems. The college cafeteria is used as a laboratory for problems in large quantity cookery, organization, administration of institutions dealing with feeding large groups. Field work one hour. Laboratory hours to be arranged. Prerequisite: Home Economics 313a, b. First and second semesters.

422. Household Problems
This course intends to present scientific methods as applied to household activities. The financial problems of the family with some attention to other administrative problems and consumer education. Prerequisite: Junior standing. Mrs. Jones. Second semester.

433. Home Management
This course is intended to give supervised instruction in the practical care and management of the home. Students, under supervision, manage and operate the home management house. Cottage residence nine weeks. Prerequisite or co-requisite: Home Ec. 422 and prerequisite: Senior standing. Regular dormitory rate charged for room. Mrs. Jones. Offered first semester. Lectures to be arranged. (1 hour per week).

493. Education
The aim of this course is to stress methods of teaching home economics in public schools, and the methods of organizing and conducting adult classes in home economics. Lesson planning, types of teaching, project method of teaching with emphasis on home projects, testing instruction, instructional materials, curricula for junior and senior high schools. Prerequisite: major in home economics and senior standing. Mrs. Thomas. First semester.

425. Directed Teaching
See Education Department write-up.
103a, b. Elementary Design

Miss Miller. M. W. F. 10:00-12:00. See department of art for description.

302. Costume Design

A study is made of the history of costume design and the application of art principles to the designing of clothes. Miss Miller. Second semester. T. Th., 8:00-10:00.

343. Home Planning and Furnishing

This course is intended to give experience in applying the principles of design to problems concerning home planning and interior decoration. The content includes a study of house plans and furnishing, emphasizing utility and charm of arrangements. Laboratory includes problems in interior decoration, in making floor plans and furnishings of rooms. Lecture one hour. Laboratory four hours a week. Prerequisite: Related Art 103a, b. Mrs. Jones. First semester.

353. Home Equipment

The purpose of this course is to give practical information on the selection, care and operation of common household equipment, plumbing, heating, lighting. Laboratory involves lectures on, and demonstrations, of equipment. Lecture one hour weekly, laboratory two hours a week. Mrs. Jones. First semester.

DIVISION OF SOCIAL SCIENCE

Professor Daily, Chairman

This division includes History and Political Science and Geography, Philosophy, General Business and Secretarial Studies, Biblical Education, Sociology, and Education and Psychology.

1. HISTORY AND POLITICAL SCIENCE

Professor Daily

Assistant Professor Drummond

The aims of courses in these fields are: To develop within the student an appreciative understanding of the problems and contributions of the past, a keen and sympathetic insight into those of the present, and an urge to dedicate himself to the promotion of future social stabilization and progress; to prepare students for graduate schools, for teaching positions, for social service work, and for governmental service, legal and other professions that require this training.

A major in history and minor in history or political science are offered in this field. For the major a total of twenty-seven semester hours of history plus fifteen acceptable hours in related fields are required. History 133a, b is required of all history majors and minors. No major or
minor may be completed in general social science. Credit may be earned for either semester of any year course without the other semester being taken.

The related fields requirement for history may be completed by selecting three hours each in the fields of economics, political science, and sociology from group 1 and the remaining six hours from courses in group 2.

1. Economics 213a, b; Political Science 213, 313; Sociology 213, 413.
2. Geography 203; English 323a, b; 433a, b; French 213a, b; Spanish 213a, b; Bible 322, 333, 342a, b; Education 413.

A. HISTORY

133a, b. Survey of American History
Beginning with the immediate background of the American Revolution, this course stresses the leading economic, social, political, sectional, and diplomatic developments in the United States to the beginning of World War II.

213a, b. Survey of World Civilization
This course presents a panoramic view of world civilization of the past with a view to the better appreciation and understanding of the civilization of our day. Our heritage from the past is stressed.

313. Medieval Europe
A study of Europe from the fall of Rome in the West to the Renaissance. The special emphasis of the course is placed on the institutions which carried on during the so-called dark ages; the movements which prepared the way for the coming of modern Europe, the social, political, institutional, and economic changes, as well as the great personalities, of the period. History 213a, or its equivalent, is prerequisite. Second semester.

323a, b. Modern Europe
The course begins with the Renaissance and Reformation and extends to the Paris peace settlements at the close of World War I. Considerable attention is given to the religious wars, the rise of world empires, the French Revolution and Napoleonic wars and their effects on Europe and world civilization. Special emphasis is given to the Twentieth Century developments of nationalism and democracy and to the issues leading to the World War. History 213b is prerequisite. Not offered in 1951-52.

333. The Old South
A study of the rise and development of the institutions—economic, political and cultural—of the South to the end of the reconstruction era. The aim of the course is to present in review those peoples and movements whose legacy has so enriched the New South. Second semester.

413. American Foreign Policy
Beginning with the study of foreign affairs of the American Revolution, consideration is given to the country's leading foreign policies to the present time, especially those toward Western Europe and Latin American and as regards participation in the solution of world problems. History 133a, b is prerequisite. First semester.

423. Greek and Roman History
A study of the rise, duration and fall of these two world empires. The elements of strength and weakness in both civilizations are stressed as are also their contribution to the later world order. First semester.
433. History of Political Thought
A review of the outstanding contributions to political thinking since Plato. Considerable consideration is reserved for present day ideologies. Not offered in 1951-52.

443. Contemporary World History
A general consideration of world developments since the Paris Peace Conference of 1919. Special stress is placed upon the challenges to Democracy and to the causes leading to World War II. Some consideration will be given to the present day world situation. Not offered in 1951-52.

451. Undergraduate Seminar in History
Special topics in American or European history will be chosen for study. Acceptable oral or written reports of student researches will be required. Open to senior history majors who have at least a "B" average in the department. Each semester. Time to be arranged.

B. POLITICAL SCIENCE AND GEOGRAPHY

203. Introduction to Human Geography
This is a survey course dealing with the materials and methodology of geography. Consideration is given to the meaning and tools of geography but the emphasis of the course is on the factors of natural environment and their human significance. Second semester.

213. American Federal Government
A study of the principles, organization, functions, and administration of federal government in the United States. Special attention is given to the evolution and interpretation of the Federal Constitution and to recent governmental tendencies. First semester.

313. American State and Local Government
This course presents a study of the states and their constitution-making and their vast expanse of activities. Considerable consideration is also given to city and local governments. Not offered in 1951-52.

323. American Politics
A study of the American political processes by which social pressures are made into living realities. Both the structural and functional analysis of our political set-up will be stressed. First semester.

352. Public Finance
A study of public expenditures, revenues, and debts, the fiscal administration of national, state, and municipal governments, stressing fundamental economic fiscal policies and principles.

402a, b. Business Law
This course includes an introduction to the study of business law, contracts, principal and agent, employer and employee, negotiable instruments. The second semester includes principal and surety, insurer and insured, bailor and bailee, carriers and shippers, vendor and vendee, partnership and corporation law. 402a should precede 402b.

413. American Foreign Policy
Beginning with the study of foreign affairs of the American Revolution, consideration is given to the country's leading foreign policies to the present time, especially those toward Western Europe and Latin America and as regards participation in the solution of world problems. History 133a, b is prerequisite. Dr. Daily. First semester.
423. Public Administration
An introductory study of the rise, program, problems and prospects of American public administration. Prerequisite: Political Science 213. Mr. Drummond. Second semester.

433. History of Political Thought

6. EDUCATION AND PSYCHOLOGY
Professor Haswell
Assistant Professor Wright
Instructor Donnels

It is the purpose of Ouachita College, through the field of education and psychology, to add to the academic training a professional knowledge and appreciation essential in developing the public school system and the right attitude toward teaching. By a proper selection of courses in this department a student may secure a state license to teach in the elementary junior high schools or senior high schools in Arkansas.

A student may take a minor in Education under the following conditions: (a) that the candidate meet all the requirements for certification either on the elementary or secondary level in the state in which he desires to teach, (b) that the candidate presents twenty-one hours in Education nine of which must be junior-senior hours. No more than nine hours may be offered in Psychology nor more than six in Directed Teaching, (c) the candidate for secondary certificate must meet the requirements for at least two teaching fields in the state where he is to be certified.

A student may complete a second major in Education by completing six hours in addition to those required for the minor of which at least three hours must be junior-senior. Students desiring to major or minor in Education will not be allowed to take their first major in General Business or Bible and Religious Education since neither of these courses are taught in the public schools.

213. General Psychology
This course attempts to survey psychological principles as they pertain to the processes of learning, of motivation, and of emotional experiences. Emphasis is placed upon psychology as one possible system of
thought which helps man understand himself and his role in society. First and second semester.

223. Introduction to Education and Orientation
It is the purpose of this course to give the student an opportunity to examine the possibilities of the teaching profession and to help them to determine whether or not they should enter a teacher training program. Students will be given opportunities for pre-teaching experiences through observation and actual work activities with school age children. No prerequisite. First and second semester.

253. Principles of Secondary Education
A study of education from the viewpoints of biology, psychology and sociology. This course deals with the underlying principles governing the historical development of the American system of public education, the secondary pupil, and the curriculum, with special emphasis on secondary education. Prerequisite: Sophomore standing and Education 213. Dean Haswell. Second semester.

313. Educational Psychology for the Elementary Level
Emphasis in the course is placed in general on the psychology that underlies a child’s development and more specifically on the psychology involved in the child’s learning processes.

332. Evaluative Procedures
The matters of grading student class work, of evaluating student progress, and of determining student proficiency, aptitude and interest will be discussed. This course will be designed to offer the elementary or secondary teacher practical evaluative procedures that belong to our present school system.

333. Educational Psychology for the Secondary Level
The adolescent with his problems of adjustment at home, in the high school, and in society is studied. Emphasis will be placed upon the problem of motivating the student to perform as proficiently as possible.

355. Curriculum and Methods on the Elementary Level
A basic course in which teaching procedures and materials for use in grades one through six are presented. Curriculum construction and its relation to the Arkansas State course of study are given special consideration. Emphasis is placed on the teaching of reading as a fundamental tool in the learning process. Although this course is designed primarily for students of junior and senior classification it may be taken by second semester sophomores in order to fulfill certificate requirements on the sixty hour level. Miss Wright.

363. Guidance and Personnel
The goals of the course are to assist teachers by providing methods for counseling their students, for stimulating a better student-teacher relationship, and to give practice in the skill of interviewing and experience in devising and using a cumulative record.

413. Methods of Teaching in High School
A study of the general principles underlying the teaching of high school subjects. Each student will do special work on the methods for teaching his major subject. The subject matter of this course consists of the outcomes of teaching, assignment, review, planning the instruction, supervision and teaching how to study, quizzes, examinations, use of tests, grouping, recitation, preparation, procedures, and class room experimentation. Prerequisite: Six semester hours in Education and junior standing. Dean Haswell. First semester.

6. EDUCATION AND PSYCHOLOGY

Professor Haswell
Assistant Professor Wright
Instructor Donnels

It is the purpose of Ouachita College, through the field of education and psychology, to add to the academic training a professional knowledge and appreciation essential in developing the public school system and the right attitude toward teaching. By a proper selection of courses in this department a student may secure a state license to teach in the elementary junior high schools or senior high schools in Arkansas.

A student may take a minor in Education under the following conditions: (a) that the candidate meet all the requirements for certification either on the elementary or secondary level in the state in which he desires to teach, (b) that the candidate presents twenty-one hours in education nine of which must be junior-senior hours. No more than nine hours may be offered in Psychology nor more than six in Directed Teaching, (c) the candidate for secondary certificate must meet the requirements for at least two teaching fields in the state where he is to be certified.

A student may complete a second major in Education by completing six hours in addition to those required for the minor of which at least three hours must be junior-senior. Students desiring to major or minor in Education will not be allowed to take their first major in General Business or Bible and Religious Education since neither of these courses are taught in the public schools.

213. General Psychology
This course attempts to survey psychological principles as they pertain to the processes of learning, of motivation, and of emotional experiences. Emphasis is placed upon psychology as one possible system of
thought which helps man understand himself and his role in society. First and second semester.

223. Introduction to Education and Orientation

It is the purpose of this course to give the student an opportunity to examine the possibilities of the teaching profession and to help them to determine whether or not they should enter a teacher training program. Students will be given opportunities for pre-teaching experiences through observation and actual work activities with school age children. No prerequisite. First and second semester.

253. Principles of Secondary Education

A study of education from the viewpoints of biology, psychology and sociology. This course deals with the underlying principles governing the historical development of the American system of public education, the secondary pupil, and the curriculum, with special emphasis on secondary education. Prerequisite: Sophomore standing and Education 213. Dean Haswell. Second semester.

313. Educational Psychology for the Elementary Level

Emphasis in the course is placed in general on the psychology that underlies a child's development and more specifically on the psychology involved in the child's learning processes.

332. Evaluative Procedures

The matters of grading student class work, of evaluating student progress, and of determining student proficiency, aptitude and interest will be discussed. This course will be designed to offer the elementary or secondary teacher practical evaluative procedures that belong to our present school system.

333. Educational Psychology for the Secondary Level

The adolescent with his problems of adjustment at home, in the high school, and in society is studied. Emphasis will be placed upon the problem of motivating the student to perform as proficiently as possible.

355. Curriculum and Methods on the Elementary Level

A basic course in which teaching procedures and materials for use in grades one through six are presented. Curriculum construction and its relation to the Arkansas State course of study are given special consideration. Emphasis is placed on the teaching of reading as a fundamental tool in the learning process. Although this course is designed primarily for students of junior and senior classification it may be taken by second semester sophomores in order to fulfill certificate requirements on the sixty hour level. Miss Wright.

363. Guidance and Personnel

The goals of the course are to assist teachers by providing methods for counseling their students, for stimulating a better student-teacher relationship, and to give practice in the skill of interviewing and experience in devising and using a cumulative record.

413. Methods of Teaching in High School

A study of the general principles underlying the teaching of high school subjects. Each student will do special work on the methods for teaching his major subject. The subject matter of this course consists of the outcomes of teaching, assignment, review, planning the instruction, supervision and teaching how to study, quizzes, examinations, use of tests, grouping, recitation, preparation, procedures, and class room experimentation. Prerequisite: Six semester hours in Education and junior standing. Dean Haswell. First semester.

THEORETICAL SUBJECTS
Assistant Professor Becker
Assistant Professor Bowden
Assistant Professor Lyon
Assistant Professor Queen
Assistant Professor Wright
Instructor Martin

102. Fundamentals of Music
This course is offered primarily for grade school teachers or students who are not prepared to enter other courses in sight singing, ear training, harmony or methods of teaching. Credit for the course is given on the Bachelor of Arts Degree. No credit is offered, however, toward the Bachelor of Music or Bachelor of Music Education Degrees. This course partially meets the requirements of Public School Music for the Elementary Certificate of Arkansas. It is not open to Music majors. Mr. Becker.

111a, b. Sight Singing, Ear Training and Dictation
A course designed to train the sight reading ability and the ear of the student. Exercises in syllable singing, melodic and rhythmic dictation, and recognition by sound of perfect, major and minor intervals are included. Miss Lyon.

122a, b. Harmony
Scales, intervals, elementary chord formation, melody writing, primary and secondary triads, dominant seventh and secondary sevenths, harmonization of original melodies, harmonic analysis, the playing of cadential combinations including many of the important chord forms. Miss Queen. Two class meetings and one Quiz section.

130.5. Ensemble
The purpose of the ensemble department is to give each student experience in ensemble playing. Each music student may be required to participate in at least one of the following: Choir, glee club, piano en-
sembles, string and wind ensembles. To be arranged.

141a, b. String Methods Class
The student learns to perform on one string instrument—violin, viola, cello or bass viol—with special emphasis on teaching of positions of instrument and bow, and gains a fundamental knowledge of each string instrument. Miss Lyon.

151a, b. Wind Methods Class
The first semester is spent learning to play one of the wood-wind instruments, with emphasis on teaching woodwind classes. The second semester is spent learning to play a brass instrument. An elementary knowledge of the percussion instruments is also required this semester.

160.25 Little Symphony
The membership of the Little Symphony is selected from some of the better instrumentalists of the campus. It participates in college activities throughout the school year. Miss Lyon.

170.5 Band
The college band plays for all athletic events and gives several concerts during the year. Membership in the band may be had by tryouts at the first of the year. Students who participate in the band will receive one semester hour credit for each year. No junior-senior credit is allowed for Band work. Mr. Martin.

211a, b. Sight Singing, Ear Training and Dictation
Continuation of 111a, b, but on a more advanced level. Miss Lyon.

222a, b. Harmony
Ninth, eleventh, and thirteenth chords; altered chords derived from interchange of mode; Neapolitan sixth; augmented harmonies; transition; modulation; harmonic analysis. The playing of cadential combinations including all of the important chord forms. Miss Queen. Two class meetings and one Quiz section.

252a, b. Church Music
For those who desire to direct church choirs and have charge of church music in Religious Education. This course deals with the study of hymns, anthems, special music and directing of choirs and congregational singing; the methods and means by which music may be made most effective in religious worship; the relationship of music and worship; Christian values to be found in worship through music; the purpose of a church-wide music program; qualifications of a Director; relationship of pastor and choir, etc.; history and hymnology. Prerequisite: Music 111a, b (music majors) and Music 102 (non-music majors). Mr. Becker.

260.5a, b. College Choir
Mixed chorus, a capella and accompanied; sacred and secular repertoire. Christian worship and choral literature. Fundamentals of voice production, breathing, vowel formation, relation of vowel and consonant, phrasing, shading, tone color. Registration limited to forty-five. Consult Mr. Becker during registration. Credit 1 hour, full year only.

301. Keyboard Harmony
Practical application of the work done in harmony. Keyboard resolution of seventh chords, cadences, simple chord progressions, and modulations. Miss Wright. To be arranged.

302. Conducting
The purpose of this course is to give the student a knowledge of the
art of conducting. Complete study of music terms, denoting time, expression, dynamics; study of Italian, French, and German musical terms; transposition; score reading, library readings. Practice in the technique of the baton. The latter part of the course is spent in the actual conducting and rehearsing of band, orchestra, chorus and other ensembles. Miss Lyon. First semester.

312a, b. **Form and Analysis**

Critical analysis of form and the harmonic and contrapuntal material found in selected works from Bach, Beethoven, Schumann, Mendelssohn, Chopin, and the contemporary composers. Practical written work in various forms, including the simple two and three-part, rondo and sonata form. To be arranged. Miss Bowden.

333. **Survey of Music Literature**

This course has as its purpose the training of intelligent listeners, proper judgment of values and demonstration of music with records, with special emphasis on the orchestra, vocal music, music history, modern virtuosi and masterpieces of music. College students who wish a more critical appreciation of the elements of music may take this course. Miss Lyon. Second semester.

**Ed. 342. Public School Music—Materials and Methods (non-majors).**

This course is designed for the general teacher in the public schools who must teach some public school music along with general school teaching. It completes the Public School Music requirement for elementary certificate in Arkansas. Prerequisite Music 102. Mr. Becker.

352. **Band Arranging**

This course may be taken in lieu of Orchestration 452b. It is designed to give actual practice in arranging musical numbers for the college band. Mr. Martin. To be arranged.

363a, b. **History of Music**

This course is a study of the evolution of music from its earliest study of primitive and ancient music and early Christian music; the development of polyphony, the early stages of the opera, oratorio, and instrumental music until the beginning of the nineteenth century. The second semester is a continuation of Music 363a, and should not be taken before the preceding course. The development of the different forms of music is continued from the time of Beethoven up to the present time, including a study of the modern school. Mr. Becker.

400. **Graduating Recital**

Candidates for the Bachelor of Music and Bachelor of Music Education degrees will be required to give a graduating recital. No credit is given for a graduation recital.

**Ed. 405. Directed Teaching**

See Education Department write-up.

432a, b. **Counterpoint**

Simple counterpoint in two and three-part, five species. Simple counterpoint in four parts, all species. (Florid melodies as canti fimi.) Double counterpoint. Text: Kitson. Miss Bowden. To be arranged.

**Ed. 442. Public School Music—Materials and Methods (non-majors)**

This course is designed for the general teacher in the public schools
who must teach some public school music along with general school teaching. It completes the Public School Music requirement for elementary certificates in Arkansas. Prerequisite Music 102. Mr. Becker.

462. Voice Methods
Prerequisite: Two years of voice. A practical course adapted to the needs of the teacher of voice. Theories of voice production and voice problems are discussed. Mr. Becker. Offered each semester.

492. Piano Methods
For students intending to teach. Thorough drill methods and fundamentals. Presentation of teaching material and study of the piano teacher's problems. Miss Wright. First semester. To be arranged.

ART
Assistant Professor Miller

The aim of art education is to develop a sense of appreciation for the beautiful and harmonious in our daily living and environment and to offer professional art training. Art courses are open to any student wishing to develop his critical and creative ability.

A minor in art of not less than 20 semester hours, eight of which must be junior-senior hours may be applied toward the A.B. degree.

Students are required to furnish their own materials with the exception of certain materials and studio equipment provided by the college. The Department of Art reserves the right to retain student work for temporary or permanent exhibition.

BASIC ART

213a, b. Drawing
Drawing from still life, landscape and portrait figures. One and two point perspective.

233a, b. Design
A study in the selection and arrangement of mass, values, colors and texture. The work gives the student a summary knowledge of the various fields of design such as: abstract design, commercial design, interior design and industrial design. Offered alternate years.

333a, b. Painting
Creative problems in painting, with emphasis on the composition and function of color in achieving form and space. The media used (i.e. oil paint, water color, or tempera) will be selected according to the needs and desires of each student.

411-4a, b. Special Problems
This work will be given according to the needs and ambitions of each individual student and will consist of advanced problems in his chosen branch of art. Each student will have individual conferences once a week.
to discuss the research and laboratory work in his particular problem. Alternate years.

APPLIED ART

202a, b. Mechanical Drawing
Correct use of instruments. Lettering applied geometry and projections. Offered alternate years.

302. Costume Design
A study is made of the history of costume design and the application of art principles to the designing of clothes. Second semester.

322a, b. Art Education
A study of the aims of art in the school and its place in the integral program. Theory, processes, and procedures for teaching art and crafts in elementary and secondary schools with the selection and preparation of illustrative material to meet the needs of pupils of different grade levels. Required for Arkansas Elementary Certificate. Offered alternate years.

HISTORY OF ART

222a, b. Art Appreciation
This is a general cultural course, non-technical in nature, designed to acquaint the student with the principles and masterpieces of the world's art (primarily architecture, sculpture, and painting, but with attention also to the crafts, industrial arts, photography, etc.). Illustrated lectures, demonstrations, and discussions are employed as a means of developing an awareness of the scope and significance of visual art in human civilization from ancient to contemporary times. Open to all students.

312a, b. Introduction to Art History
Introduction to study and appreciation of painting, sculpture, architecture and minor arts from prehistoric to modern times. The aim of the course is to develop an understanding of the aesthetic and expressionistic character of the visual arts and interpret them in relation to the motivating forces that influence them. The first semester is devoted to ancient and medieval art; the second semester deals with Renaissance and modern art. Emphasis on relation of art and environment. Illustrated with visual aids. Required of all art minors.
