**Fall '79**

Course Preference Survey for the Spring, 1980, Semester will be held October 22 to November 9 this year. The class Schedule for all practical purposes is the Final Schedule. Adjustments that must be made will be published as corrections and additions for January registration.

Changes in Procedure have been kept to a minimum, although the new cardless system has influenced us to make these:

The Student will be responsible for taking a trial schedule signed by his own Faculty Counselor to Data Processing.

The entry into the computer will serve both the course preference survey and will reserve a place in the class. They will be entered in the order received.

Classes may close during the survey. They will not be reopened at Registration time except by recommendations of the Department Chairman and the Dean or Vice President for Academic Affairs.

A certain amount of over-booking may be necessary within limits. This is to accommodate the optimum number of students and to anticipate some no-shows for the class.

The student will receive a confirmation of those classes into which he or she has been admitted (which have not been closed before his or her trial schedule arrived at data processing) a week or two after the survey. Changes can be made at January registration, but he or she will not lose a place in a confirmed class.

Therefore, please participate in the Course Preference Survey and file the approved trial schedule as early as possible.
