Senate To Take

New Steps

Earlier this year, I told the Student Senate and the Student Body that I wanted to find new things for the Student Senate in with to be involved.

I have been in contact with several other student government officers of our state's other colleges and universities. I shared with them my interest in getting all of our

organizations together in some type of conference.

This would be a time where the various student government associations would share the experiences and happenings in their particular student government organization. I believe this exchange of ideas would be beneficial and make our organizations work more

efficiently. It is also my hope that out of this would arise some type of formal organization among the different student government organizations. This could provide a unified voice for student government organizations across the state. Such a voice would be helpful when issues effecting college students are being

debated. We would be able to respond to our elected officials and the media in a clear and concise manner.

Right now, this is just a concept. The Senate has given me the chance to pursue this, and I will be sharing more in the future.

David Sanders
Student Senate President
