Wanted: Special Student Leaders

We're looking for some special students to take on one of the biggest leadership challenges on campus: **RESIDENT ASSISTANT. RA** applications may be picked up in the Office of Student Services, and interviews will begin in the next few weeks. If you think you might have what it takes, or would just like to get some more information, come by and let's talk!

AFRICAN AMERICAN CHRISTIANS WHO MADE A DIFFERENCE

"If you, a family member, or a friend received a blood transfusion to help recover from an accident, illness, or surgery, you can thank Dr. Charles Drew (1904-1950). Dr. Drew was a pioneer in discovering ways to preserve blood plasma. Before his time there was no efficient and safe way to store large quantities of blood plasma for use during emergencies. By using refrigeration, Dr. Drew devised methods to safely store blood plasma for lengthy periods of time. As a result of his techniques, thousands of lives were saved during World War II.

"An unfortunate irony cost Dr. Drew his life at age 46. On April 1, 1950, he was injured in an automobile accident. Needing immediate emergency treatment, Dr. Drew was refused admittance to the nearest hospital because of his race. He bled to death on the way to a black hospital."

from Victor M. Parachin, "Hold in the Highest Regard," Christian Single, Feb. 1995.
