HONORS COURSE ABSTRACT

PURPOSE

The purpose of this study is to improve and increase my vocabulary, prepare for the Medical College Admission Test.

PROCEDURE

My research procedures included the following steps.

1. Use Word Mastery Made Simple book.
2. Learn the spelling and pronunciation of the desired word.
3. Learn the general meaning of the unknown word and use it in a sentence.
4. If practical, learn the etymology of the word.
5. Occasionally review the newly learned words.

FINDINGS

The findings are listed on the following pages.

### CONCLUSIONS

In studying the vocabulary of this book, I have noticed several things:

1. My comprehension of various material read has increased. This awakened my appreciation and has given me a better understanding on such fields such as; literature, philosophy, psychology, history etc.
2. My speaking vocabulary has also increased. However, one should be careful not to use words that would sound too literary in speech. Also, one should bear in mind that a person's cognizance vocabulary should always exceed that of his speaking vocabulary.
3. Learning the etymology of the word is very interesting and meaningful. It has helped me in the application of the words in a sentence. It is also interesting to see how words sometimes are different from the original meaning. The Universality of English language is demonstrated by a number of English words that ~~are~~ <sup>have</sup> originated from foreign words and people.

In learning this book, not only the meaning of words are important, but the nuance, special signification and the circumstances under which the words are utilized. Politicians are aware of this fact. Just about any daily newspaper will exemplify this.

I found this course stimulating and rewarding and I hope that my "Word mastery" power will continue to increase.
