# THE HEALTH FAIR IS COMING

Tuesday, February 6, the Health Services Office of Ouachita will be sponsoring the first annual Ouachita Health Fair. The event will take place from 9:00 a.m. to 3:00 p.m. in Evans Student Center.

"This Health Fair is the first of its kind that will be held at Ouachita," said Molly Wallace, Director of Health Services. "The Health Fair will not only provide students with information but also with a chance to check out their own bodies by things like cholesterol measures and body fat counts," she added.

The Health Fair will also be set up for vision screenings, hearing screenings, and an aerobic demonstration by Bodz Gym. The fair will also provide information on sports injuries and other common injuries.

Many businesses in the area have helped sponsor the Health Fair, and there will be free drawings for prizes all day long.

## SENATE LOOKS FOR BETTER LIGHTING

Many of us can attest to late night hours of studying all over campus. After studying you must walk back to your dorm, or if you live off campus, your car.

This past Tuesday evening a proposal was brought before the Student Senate concerning inadequate lighting on Ouachita's campus. The Student Senate agreed to investigate this matter.

The External Affairs Committee is currently investigating places on campus that are not adequately lit at night. In the proposal brought to us by students' problem areas have already been identified. All first floor entrances to Mabree Fine Arts Building have been identified as poorly lit.

The Student Senate's hope is that we may effectively identify the problem areas on campus. When we have completed our investigation we will contact the administration to explore solutions to these concerns.

We want to open our investigation to your suggestions. Please come by our office in the Student Services Suite, or drop them off at box# 3062.
