APPENDIX.

A

We find that since our last meeting a number of our brethren and sisters have been called from time to eternity. We notice specially our brethren B. W. Millwee and J. W. Williams. Both promising young men and successful preachers. There was no better nor more promising young minister than Bro. Millwee yet God in his wisdom saw fit to remove him from our midst in the very commencement of his career of usefulness. Bro. Williams labored for many years among our churches almost gratuitously. We bow in submission to these dispensations of providence, feeling that He doeth all things well.

M. M. Cochran char.

B

We your committee on literature would recommend first the careful and prayerful study of the Bible. We also recommend the Arkansas Baptist and Tennessee Baptist papers as sound in the doctrines of the Bible. We would further recommend Kind Words and Kind Words Literature for our Sunday Schools. respectfully submitted Thomas Dulany char.

D

We your committee on education report that we find our present free school system very imperfect. But would urge the brethren to take advantage

of it and labor for its improvement as rapidly as possible. We point with pride to our college at Arkadelphia, and feel that it is abundantly supplying a long felt want. We would urge that brethren as far as they are able would patronize this grand institution. We further recommend that we do not neglect home training as it is around the fireside that the character is moulded for future usefulness. Our great men and women point with pride to home as the first school of training.

Respectfully Submitted

J. D. Rodgers, Chairman.

C

Committee on Documents Report. We find that County Line, Pleasant Valley, and Liberty churches petition the next sitting of this body, your committee would recommend that we hold the next session with Liberty church.

Respectfully Submitted

L. D. Tate chairman.

E

We your Committee on Temperance report the cause of temperance in our respective neighborhoods rapidly on the advance and we are gratified to report the cause meeting with measurable success not only in Arkansas but all over our sister States. Therefore we earnestly recommend that our brethren discourage the use of Alcoholic stimulants and that they use all legitimate means in promoting the glorious cause of temperance.

B. F. Boyd chairman

F

Your Committee on Sabbath Schools report that there is yet a sad lack of interest among our churches in regard to this important work. We are at a loss to know what course to recommend that would awaken more interest among our people in this direction. There certainly ought to be a Sabbath School in every church, in order to bring about this result we would recommend a hearty co-operation between pastor and people. We therefore recommend that each pastor sees to it that a Sunday School be organized in every church he serves. And let the matter be entirely under the control of the church.

Respectfully

M. M. Cochran chairman

G

Report on State Missions. We find State missions in a very healthy condition under the efficient management of M. D. Early State Mission Secretary. He is pushing the work almost day and night in order to secure men and means to occupy every destitute point in the State. There are 14 missionaries already at work occupying important fields from which they extend their labors and thus do a great deal of general good. These all receive their pay in full or in part from the State Board. The only difference

MINUTES OF THE S. W. B. A.

between State and home or associational missions is the field is larger. The demands are the same. This work is under the control of a State Mission Board with Rev. J. P. Eagle as President and John G. Holland Secretary. We recommend that this association co-operate with State Board in as much as all are engaged in the same work. And that they may know what we are doing in our masters' cause.

Report on Home Missions. We regard this as the most important work of this body. While much has been done during the past year for which we feel devoutly thankful, still much remains to be done. We would recommend first that the present plan of work be changed as follows viz. In as much as during the year six new churches have been organized and have called pastors and they not as yet self-sustaining we recommend that the Ex. board be authorized to supplement their salaries with the understanding that they become the missionaries of this association and that they supply the destitution that lies in their respective bounds as far as they are able and that they make quarterly reports of work done to the chairman of Ex. board. We suggest further that an executive board be appointed consisting of five brethren who shall have charge of the mission work in our bounds and that they shall see to the raising and disbursing of funds for the forwarding of this interest. And that three members of this board constitute a quorum.

We also recommend that the association sustain an efficient missionary for one month in Little River County to complete the years work in organizing churches at such points as the cause demands and that they be sustained on the plan mentioned above.

Ministerial Education. It is all important that we have an educated ministry in order to our successfully promulgating the truth. We regard it the duty of the churches to render all assistance in their power to needy young ministers to enable them to better prepare for their work, but we are pained to know that the churches are sadly neglectful of their duty in this respect. We recommend that steps be taken at once to aid in this important work and that the churches be urged by their pastors to send up quarterly collections to our mission meetings for this purpose. We recommend that the distribution of these funds be referred to the board of ministerial education who shall have full control in the matter and that said board be required to attend the missionary meetings that they may look more closely after this interest.

Fraternally submitted.

Jas. Copeland Chairman.

L

Foreign mission report. We realize the great importance of this work and our duty to go into all the world and preach the Gospel. We fear this duty is too much neglected by our churches to entitle us to the name "Missionary Baptist." We must by our means and otherwise assist in the glorious work. We recommend that quarterly collections be taken in all our churches and sent up to our mission meetings to aid in Foreign mission and that the pastors of all our churches urge the membership to give for this purpose. We further recommend that our sisters take special steps to aid us in the work.

Respectfully J. H. Denson Chairman.
