DEDICATION

With the love and best wishes of the Staff of 1913-14, this volume of the Ouachitonian is dedicated to the man who for eleven years, as our pastor, shared our defeats and rejoiced in our victories; whose life among us made us admire him, as his wonderful personality made us love him; to

Hardy Lathan Winburne

Our Friend.
Greetings

In extending to you this "Panorama of Life at Ouachita," we feel that no apology is necessary but that, on the other hand, congratulations are in order. We regret that (owing to the fact that we were "financially straitened") we have not been able to introduce several color plates. However, what we have lacked in money, we have tried to make up in hard work. Now, heartaches and backaches alike are forgotten in the pleasure of giving this new volume of the Ouachitonian to the many friends of our dear old Alma Mater.

To the Student Body, the Seniors, the Faculty, the Alumni, and all of our Friends, we hope that this will prove more than a picture book, to be skimmed through carelessly and thrown aside indifferently. We want it to be and feel that it is a collection of heart-throbs of the student life at Ouachita, a scrap book to bring back happy memories of the good year of 1913-14.

Ouachita, we sing thy praises,
Thy beauty, thy power, thy fame;
Each loyal heart upraises,
A cheer to thy glorious name.

O-U-A-C-
Here's good
May all
Raise a cheer
A loud
O-U-A-C-
Ouachita, thy sons and daughters,
    Will carry thy flag unfurled,
For none can e'er surpass thee,
    The Queen of the college world.
The Preparatory Department

The Preparatory Department is by no means insignificant because it is preparatory. When we remember that the great majority of the boys and girls in the state at large seldom go higher in school than the high school or Preparatory Department and then note the much smaller number who finish the college work, we are made to think that the Preparatory Department of Ouachita is, if not more, just as important to its host of friends in Arkansas, as the higher departments.

The value of this department over that of the ordinary high school consists in the Christian influence and the fact that all the teachers are artists in their special lines of work.

Every man and every woman of our land needs a certain amount of reserve force for emergencies that are sure to arise in life. No one will doubt that a Christian college needs a reserve force. The Preparatory Department is Ouachita's reserve force. The "Preps" are the boys and girls who fill in the ranks of Freshmen, Sophomores, Juniors and even Seniors as those composing these departments drop out from year to year.

It would take many weeks' search—if indeed there is to be found in any high school or college in the state—to find more intelligence, interest, earnestness, and that which goes to make solid character, than may be found in the present group of preparatory students of Ouachita College.

These are those who are learning to say,
O-U-A-C-H-I-T-A
With a long, hip, hip, hooray,
Who will be in the front rank some day.

MOTTO: Let us put more sunshine than shadow into life

COLORS: Lavender and Purple  FLOWER: Violet

THE CLASS OF '17

The class of '17 is not ashamed of its present standing in College. In fact, we are proud of our places and, for the time, we do not envy the dignified Seniors with their quaint attire, their privileges and their ridiculous forms of amusement. It is true, they use magnifying glasses in order to recognize us on the campus, but we concede that to their nearsightedness. Therefore, we do not feel humiliated when a Senior brandishes his ocular instrument and focuses the same on one of our class.

We do not wish to make any one feel little, but in order to straighten up the records, let us turn to history. The Seniors boast of the great men who have carried diplomas away from their Alma Mater. Turn to the histories of all great men they may name and see if those great men did not also, at one time, honor a Freshman class with their membership. This proven, let us consider those prominent in history who never became members of a Senior class, but took pride in the fact that they were Freshmen. It is not necessary to name these, since Freshmen know the statement is true and the ignorance of the fact on the part of Seniors would reflect mightily on their dignity. Hence, it is proven that the Freshman class deserves respect rather than the Senior class.

But, as the reverse order of affairs is the case, we of the class of '17 have resolved to follow diligently in the paths of the learned. We concede the supremacy of Seniority, and only ask that they stand from between us and the sun, while we by the faint glimmer of dawning fame tread the tedious and hazardous trail from the shaded valley of obscurity to the glorious mountain-top of honor and power. And, in the dim vista of years, as we see nations swayed by the universal wand of efficiency and righteousness, we feel that we see, standing bravely and steadfastly among those who struggle for a stronger bond of human sympathies and a truer conception of human potentialities, those who will have left the doors of Ouachita with their sheepskin in June of '17.

J. H. S.
My Esteemed Amicus:

In reply to your latest interrogation, beg to state that the military discipline in force at these springs of knowledge is on duty. It is provoking to meditate upon the direful action of fate which prevents my walking with Annie Lou — sweetest girl in our Sunny South — even ten times per diem.

Otherwise, Yours for gastronomical perfection.

Hermesian.

Dearest Clyta:

I have just received the deploring news of Coach Jennings’ departure for Mississippi. It wouldn’t be so bad if it hadn’t been for four weeks since I heard from “P. K.” But never mind the silver lining is fast appearing for it was only today that Mr. Berry, yes Ruby’s old “Jeb,” gave me a very meaning look as I entered the science building. He must be working for a M. H. E. degree for he showed me how to knit at the last physics’ lab.

See what you can do to help along the delayed news from “P. K.” But then, “Wild Bill” will be back.

Yours lovingly,

“Bess” Autrey.

OUACHITA.

My Dear Lois:

Am so glad you are enjoying the bliss of teaching 2 and 2 are four, or should I say “is”? I am still pegging away on the ivory for Mr. Mitchell and writing to “Jack” every night.

Write me soon.

Corinnean.

My Dear Sis:

Wish I were in St. Louis with you. Believe me, I would sure have me some sporty clothes.

Spencer and Shep are still on the list. Haven’t decided whether Mr. Carr and Mr. Reaves will be that lucky. Love to you and yours, your Sis,

Robert Carpenter.

Cannon House.

Dear Sis:

I do not understand why they put me on this “H” in the junior class unless it was to fill out space. I had junior privileges until Prof. “Me” found me out.

Will do better next time.

Get next.

Jay Toland.

Dearest Sport:

It is just my luck to be down here. Another headache of course, but I will not blame it on the dear old Junior-Senior reception. Do you love the “Lame Duck” or the “Tango” best? Allen and Ernie keep me busy writing.

Love,

Alpha Kappa.

Lela (Fussie) Courson.

O. C.

My Dear Pal:

How is everything in Pine Bluff now? Wish I were at home except for the fact that I could not see Robert. She sure is a dandy girl and you ought to hear her play ragas.

We are in the Junior Play, but unfortunately I am not with her. I am clean out of money but nothing new for me. Could you send me a buck or two?

When did you hear from Mayme?

Your pal,

Hermesian.

Spencer Fox.

O. C.

Dearest Old Top:

OUACHITA is a dandy place, but Mississippi can’t be outdone. I wish you could see some of those gay OUACHITA Juniors for once. They are all mighty stuck up since they have gotten their Junior privileges, but there’s nine out of ten of ’em that won’t keep them long.

Say, Kid, I am an awful popular Junior. Had one bust-up already. Got another on the string now.

Write double quick.

Hermesian.

Annis Lo (Mac) McAlister.
DEAREST MAUDE:
Just received a letter from Ruth telling me of her plans to return to O. B. C. next year. I wonder what could have come over her? Surely Jack is going back to Henderson. We had a big fire last night and the first thing I heard was, "Don't leave your rooms, girls"—as if we could keep still. Bill Barrow has just received a big box from home, but the rats beat our time—made way with the cake and soap, too.

Yours lovingly,
Alpha Kappa.

OUACHITA.

MY DEAR "MOON":
You should be back in dear old Ouachita this year. We are having grand times. Baseball season opens next week and we are expecting great results.

Write me, old boy.
Your old roommate.

MY DEAR RUTH:
We are deep in preparations for the Junior-Senior reception which is to be the affair of the season. Poor Seniors! Little suspect what we are going to spring on them. The funniest thing happened the other day. I had my fountain pen fixed, and when they sent it back to me it wouldn't write a thing but O-R-R. Don't you think Marvin is a pretty name?

Write soon.
Alpha Kappa.

OUACHITA.

DEAR JANET:
Wish you were here with me, I am mad. Got caught out of my room and lost my privileges. I want you to tell Dad to send me a check and beg him to let me come home. Ruth, Lucile and I are going to make candy tonight.

Send me the Check and permit sure. Lovingly your sis.

DEAR OLD SUMMER FRIEND:
We are having a high time at Ouachita this year. Really I should say the fun is more prevalent than the work. However, exams are in sight just now.

Yours sincerely,

DEAREST ETHEL:
Guess what the latest is. I am taking piano from your old music "Pro" and pipe organ from Prof. Taylor. Everybody says I'm most as good as you, only I'm too easy. What do you think of that?

Hermesian.

DEAR CUTIE:
Work, work, work, that is all I have to do from one end of the day to the other. It's committees, committees, committees and even my walking privileges have to be neglected. But you just wait, I am not an adding machine, if I do look like one.

Lovingly,

MY DEAR OLD CHUM:

You should be down here with me in Ouachita. I have the grandest time with my Junior privileges. A date nearly every Friday night. When I become a suffragette I am going to vote for the "Bull Moose" party. I sit at Miss Stort's table with a bunch of "Silent Juniors." My voice is improving and I am glad.

Do write and tell me all about everything. Lots of love.

DEAREST ESTHER:

I am sorry you won't be here to spend the week previous to exams, with me in pursuing Logic. The Juniors

As the earth revolves in its orbit, thus causing the four seasons, spring, summer, autumn and winter, so the cycles of time bring to Ouachita four distinct periods. The Freshman period, when the young idea begins to shoot and the emerald hues of budding verdure are most in evidence; the Sophomore, with all its boldness of immature fruition; the Junior, when the winds are fresh with the promise of harvest and every tree drops the manna of knowledge; and the Senior, when the sheaves are being gathered and the reapers are sent to their deserted homes.

At the present time the Junior class of 1914 is in full sway. With all its originality, intelligence and brilliancy, it stands as a model class at Ouachita, nothing that can be said or done can detract from the glory of past achievements or add to the promise of the future. Whenever there has been a call for volunteers, either in physical or mental contest, the members of the Junior class have been found carrying the standards forward for a "greater Ouachita."

We do not thus sing the praises of the class of 1915 for mere purpose of boasting, but that we may assure the Seniors that the enviable position they are leaving is to be filled by those in whose hands the honor of past achievements will be unsullied.

And now, Seniors, there is but little that we may have to say that will alter the record you have left behind you or brighten the path you have chosen. Whatever position of Ouachita's history it has been your privilege to write, for better or for worse, the final chapter is nearing its close. The scepter of authority must now pass from your hands to ours; we realize that to aim only to equal you in achievement and in honor is to invite certain failure. Every year shatters the world’s standard and crumbles the world’s idols, and from their ruins rise the goals of newer and greater inspirations. Your record has been enviable but our deeds are to be the product of greater factors and must conform to greater ideals. With an abiding faith in the resourcefulness of every member, and in the tried and tested loyalty to all the great interests of our school, we boldly step forward into the places you are leaving vacant, and close up the depleted ranks with the assurance that the royal purple of Ouachita will be handed down without a stain.

Opportunities many and varied await you, before you lies a world of wide horizons, full of endeavor and possibilities; the doors of our school are swinging outward. Before you go, a hand-clasp, a God-speed—

Here's to you, Seniors, tell the world we're coming.

CLASS SONG
(Air—Russian Hymn)
To thee, O Ouachita, sing we with hearts
Aflame with loyalty, and love for thee
Under thy standards may we strive for thee forever!
Always thy loving subjects may we be.

Hail! Hail, O Ouachita! Hail, Alma Mater!
List, thy class of Fourteen sings to thee.
Fourteen, the latest and the best of all thy children,
Smile on us, Alma Mater, graciously!

Conservatory
A tree is known by its fruits and so Ouachita's Conservatory of Fine Arts is judged by the quality of work it does and by the success of its students in all parts of the country. That it is no longer an experiment, but a proven success, goes without saying and we have only to direct your attention to the large hosts of graduates who have gone out from its walls and to the successful careers they have established and are establishing for themselves.

The man to whom much credit is due for the progress made in this department is the Director, L. H. Mitchell, who has had charge of the department for the past four years. That Prof. Mitchell is particularly adapted to his work is evidenced by the care with which he has chosen his training and the degree of earnestness he has manifested in taking advantage of every available opportunity by which he may become more efficiently prepared for his work. His early training was under Adolph Koelling of the Chicago Musical College. Later he studied with Emil Liebling, taking also a special course in the Virgil Clavier School. His summer vacations have been given largely to study. In 1910 he was in Paris studying piano with Moszkowski and theory with Emil Schwartz. In 1913 he studied in Berlin under the successful piano pedagogue, Mayer-Maht.

Aside from having a most thorough knowledge of music and a very successful method of teaching, Prof. Mitchell is a likable man, and one whom the whole school admires. His congenial disposition and attractive personality are felt by every one and one feels as though life is more worth living for having come in contact with him, and having shared with him his ever abundant supply of optimism.

Ouachita Conservatory

Perhaps some of us in the rush of our school life accept as a matter of course many of our privileges and blessings. Fancy after leaving here to have no memories of that conglomeration of sounds from the practice rooms mingling with your dreams of the beautiful campus and the shade of our classic trees. Eliminate the recollections of the student recitals, the college plays and operettas and does it not leave a big empty place? Often in later years will come the memory of some rousing song in chapel or on the field led by our loyal Conservatory girls. Give flowers then to the living; appreciate us while we are here.

The year that has passed was a good one for our Conservatory—the enrollment of new students showed a larger number of advanced students than ever before in our history. Graduates from the conservatories and mature students have come to us to better equip themselves for success in their profession.

Our regular students’ recitals have been maintained, and two faculty recitals have been given. We have had several praiseworthy concerts by the companies of our lecture course—among them a recital by Carl Beutel, an excellent pianist and lecturer.

Our Conservatory faculty has four new members this year. Miss Shelby of the Art Department is generally conceded to be the best artist our school has ever had. Miss Perryman in the Voice Department is rapidly winning herself a place in the hearts of the people of the school and town. Miss Rees, at the head of the Expression Department, came to us from the same school as her predecessor, Miss Barnes. She has taken up and carried on the work that fell from Miss Barnes’ efficient hands and as her assistant has had the help of Miss Jordan, a Ouachita graduate who is doing her full share to help Miss Rees keep up the standard of our Expression Department.
The Art Department

"Look Without!"

Behold the beauty of the day, the shout of color to glad color—rocks and trees, and sun and sea, and wind and sky! All these are God's expression, Art—works of His hand, which men must love, ere they can understand."

It is the eye and the heart of the Painter that puts into these familiar things the beauty which charms us. Perhaps that is why the art room at Ouachita is such an interesting place. Each girl in the department is working at art because she loves it. And because the students love their work they are accomplishing great things. Under the supervision of Miss Shelby, we feel that the Art Department has attained a higher degree of excellence than ever before in the history of the College.

The first year students who work at charcoal, as well as the water-color and oil students, are earnestly striving to express beauty in their work and to interpret life and color, uninfluenced by the manner and thought of others. The students who are making china decoration a specialty, are working for beauty and variety in their designs. The class in free hand drawing, meeting one hour a week, is a large and interesting one. The members work at still life, nature, flowers and fruit.

Taken as a whole, the art department at Ouachita is developing a gift, the power of seeing beauty in little things, for:

"How beautiful common things can be:
How Heaven may be glimpsed through a wayside tree:
The gift of an artist's eye!"

The year of 1912-13 saw the birth of the Dramatic Club of Ouachita College, the year 1914 sees it in the glory of its youth, the year 1914-15 will see it—but we must stop now as time alone can tell the glorious results that will be obtained through this club.

Just before Thanksgiving, as the Athletic Association of the College was handicapped by a debt. The dramatic club was called upon for assistance. A play was given, “College Town,” which was a great success.

A later play, “The Kingdom of Heart’s Content,” given for the benefit of the Ouachitonian met with no less approval, and by the comments made upon the actors each one flattered himself that he was not considered a mere amateur.

Throughout the year the members of this club showed a willingness at all times to do their part, and under the leadership of Miss Rees, maintained the high standard, and left as a memory their work of 1914.

CHRISTIAN ACTIVITIES.
The Ripples Staff
A philosopher of ancient Greece was the first to give expression to the well known law, "In unity there is strength." With this in view the ministerial association of Ouachita was organized.

We are here to be benefited in every way possible, by which we may be better servants of our Savior. Because of this need and desire, the members of the association meet weekly and discuss Biblical subjects and other topics which are calculated to strengthen us for service. The benefits thus obtained are numerous, but the most helpful ones are the social, intellectual and spiritual.

Justice demands that we say that the association is finishing the most successful year of its career. The attendance has been remarkably better, and an interest along every line has been demonstrated far in advance of that of any previous year. The programs have been interesting and vitalizing; frequently have our souls been quickened and mountain peaks in spiritual experience have been reached. But, thankful for what we have accomplished this year, we renew our courage and are determined to make the association better still next year.

The Bowers Baraca Class

Christian manhood is a fundamental requisite for noble service in life.

The Bowers Baraca Class is endeavoring to teach and carry out the principles of Christian manhood, by the edification of the mind and the deepening of the soul. The work is vital and far-reaching and vibrates, with telling effect, throughout the entire student body.

Miss Storts, the teacher of the class, is the leader and life of the work. She is untiring in her efforts, and, in her lectures and character, she is, veritably, an exponent of Christian love and service. Through the influence of her talks, from time to time, many have openly confessed Jesus Christ as their Savior, thereby grasping a different, yet a brighter and more everlasting view of life.

The class now has a membership of about forty boys, who are interested in the work, and who are holding up, before the student body, an example of Christian service and devotion. The four presidents for 1913-14 are as follows: B. B. Bailey, Jr., J. H. Holeman, J. F. Moose, and J. G. Lewis.
The Wallis Baraca Class

The Wallis Baraca Class has continued to fill its place in the life and work of the student body, and together with the college it has done much to round out the ideal man; the physical, the mental and the spiritual.

We were unable to have with us this year, Dr. Wallis, our former teacher. We were fortunate, however, in securing the services of Prof. Grice, of the English Department, who, with Mr. Owens, our Assistant teacher, has brought us some very interesting and instructive lessons.

The attendance has been exceptionally good, considering that many of our class are young ministers, who are frequently away filling their appointments. The work, as a whole, has been good and the Baracas have always been found faithful in their duties to the church.
The Ouachita Christian Association

The Young Women's Christian Association of Ouachita College is taking a deep interest in religious affairs. Their programs are both useful and helpful, and every Wednesday night's meeting is attended by a large number of girls who put their hearts and souls into whatever subject is studied. An example of the interest taken is the following account:

On the 18th of February at the Wednesday night meeting of our Christian Association we took for the scripture reading the ever enjoyable "Beatitudes." The girls were asked to give their favorite Beatitude and also the reason why she chose that one. Among those who volunteered it seemed that their favorites were—"Blessed are the peacemakers, for they shall be called the children of God," and "Blessed are the pure in heart, for they shall see God."

Looking back over the achievements of history, we are impressed with the fact that all the illustrious events in the progress of the human race cluster around a relatively small number of great epochs. The reason for this is not necessarily that one age has excelled another in the activity of its people, nor that men in one age have unconsciously wrought marvels for civilization. Those periods of history were greatest in which the ideal was service to mankind, when men realized that "Unless what we do is useful the glory is vain." Such is the motto inscribed on the Philomathean banner; such is the motto instilled in the minds of the hundreds of Philomatheans who have gone out into the realms of fame.

The name of our society is suggestive of the character of students who constitute our organization—"Lovers of Learning." It is thus more easily understood why Philomatheans have always been the undisputed leaders in the literary life at Ouachita; why it is that during the present year all four of the men who are to represent the college in its two debates are Philomatheans. We believe in work, and we pursue our studies with the firm conviction that in the "Majority" of instances strong men are produced by work, taking courage also in the belief that "merit" will win.

Though we stress literary work, we do not believe in a one-sided man. In the Military Department nine of the eleven commissioned officers are Philomatheans. The president of the Athletic Association; every manager of athletic activities in the college; and the stars on the varsity football team,—are all loyal "PHILOS."

We detest the boastful spirit in any one, and what has been said, we feel, is but proper justice to all concerned. And so, in rehearsing these events, our desire is not that they may become a worshipped fetish, the lauded record of bygone days to our society, but that they may prove a beacon-light to nobler aspiration, to more honest endeavor, to greater achievement among the student body of Ouachita College.

Hermesian

Corinnean
Hermesian Society

Back of every good institution there glows the radium of an ideal; the spirit which dwells in the souls of men and impels them to evolve products of their higher selves. The Hermesian Society is the Gibraltar behind which a congenial convention of Ouachita men stand, draw taut their bows of purpose, and aim arrows of achievement at the treasure castles of the skies. The Hermesian Society is one of the giant reflectors of Ouachita College which throws a shaft of light into the berg-beridden sea of the future aiding her pilots to steer into ports of safety without disaster.

Their is a quest after the ideal, a seeking after truth, and an effort to take into their mental storehouses the good things that are of first aid on the pilgrimage of life. Theirs is an organization of eager, enthusiastic students bound together with ties of friendship, striving for the realization of those things for which every ambitious college man yearns—the acquirement of poise and personality in public speaking, and the forming of friendship with men of action. “By their fruits ye shall know them” is proof positive of the worth of men and institutions.

Is Hermesianism fruitful of good? Hermians have certainly enlisted in Ouachita’s cause in the past—that is gratitude, the most blessed impulse of man. In the battle-front of this institution (Ouachita), on forum and athletic field stand heroes who lead the way. Two out of three wear the courageous colors, Red and White. As they point their swords forward the line moves and herculean tasks are accomplished. The battle cry which rises like the famous old “Rebel Yell” is “Nil Cedendum,” which means NEVER YIELD, or rather, OVERCOME. That quality of leadership, so much sought for, so much desired, and so lacking in most people, is the predominating characteristic of Hermesianism. Years come and go, college generations spring up, flourish and pass out into the world to enter the knighthood of life, but like Tennyson’s brook, we go on forever. The spirit of Nil Cedendum is suffocating for him who has the asthma of inertia. We want workers. Investigate us, you who contemplate entering Ouachita in the future. Our cry echoes forward, reverberates into the future. We dare to dream, because dreams are the beams which cleave the track of life ahead, and we would always follow the light that leads.
Corinnean Literary Society

Soon after Ouachita was founded, the Junior and Senior girls organized the Alpha Kappa Literary Society. Two years later the younger girls became interested in this work and as they were not eligible to the Alpha Kappa Society, they decided to organize one for themselves. Accordingly several of the leading girls got together, elected officers, and appointed a committee to write the constitution and by-laws for their society. Thus was the Corinnean Literary Society organized. The name was chosen from "Corinne," De Stael's admirable character. Judge Crawford was asked to write the constitution and by-laws, and he, with few suggestions from the committee, formulated the constitution which, with few changes and additions, is used today. The flower chosen for the society was the Easter Lily, and the motto, "Purity and Womanliness." Girls began work enthusiastically. The first President was Coy Dale (now Mrs. Fordyce). Other charter members were Sallie Williams, Effie McCallum and Lizzie Williams. Mrs. Estelle Blake was the Adviser, and it was to her that the girls went with their problems and difficulties.

For a year or two, as a girl became a Junior, she left the Corinnean Society and joined the Alpha Kappa. But with hard work came society spirit and love, and soon Corinneans were unwilling to leave their society. It was when Jennie Compere and Joe Patton were Juniors that the motto that all Corinneans know and love was begun—"Once a Corinnean, Always a Corinnean." These girls, without stirring up hard feelings, remained in this society. Others followed their lead and a year or two later the Corinnean Society was no longer a "preparatory society”—a training school for the Alpha Kappa, but she was on an equal basis with her older sister.

Naturally, rivalry sprung up, but it was the rivalry that stimulated ambition, and the girls in each society worked to surpass in both Literary and Conservatory departments.

Corinneans are proud of the name they bear, they are proud of the girls that have gone out of the dear old Hall into the world—they are proud of the record that these girls have made. Corinneans have from the beginning won a liberal share of the honors. But since 1905 actual statistics show that in 1905 six out of seven honors given to girls, were won by Corinneans. In 1906 three of the six fell to Corinneans, and in 1907 five out of six. In 1908 only four honors were offered to girls—Corinneans won two of these while each of the other two societies won one. The next year, 1909, only three honors were won by girls. One was won by each society.

In 1910 ten out of the eleven honors were won by Corinneans and in 1911, eleven of the thirteen fell to Corinneans. Of the eight contestants sent to Little Rock in 1910 and 1911 six were Corinneans. In 1913 four of the five honors fell to Corinnean Seniors.

It was in 1910 that class honors were specially called attention to. In this year honors were won by Effie Goodgane, in 1911 Flossie Singleton won for the Corinneans. In 1912 Alice Patterson tied with two others, while in 1913 Alma Patterson and Ruth Cowling had the highest records.

But it is not only of our record that Corinneans are proud. We are proud of our motto, we are proud of the work we do. We boast of the most strictly parliamentary business meeting of any society at Ouachita.

Above all we are ambitious. We not only strive to live up to the record that our sisters have made for us, but we long to surpass, to make each year a better year, to send out girls with ideals nobler and characters stronger for having had as their motto, "Purity and Womanliness."
Oratorical Contest

Owing to certain difficulties which were strictly unavoidable the Inter-Society Oratorical Contest between the Hermesian and Philomathean Literary Societies was not held before the Ouachitonian went to press. All that could be said in reference to the contest could only be prophecy.

The contest as it is staged now will be held on the 17th of April. On the eve of that day, with Society spirit reigning high, each follower of their motto will assemble in the auditorium with voices tuned to the occasion, and ready to support their representative in the battle for victory.

Much enthusiasm will be shown when Mr. Nichols of the Hermesian Society and Mr. Owens of the Philomathean appear on the stage. The whole audience will be in an uproar of yells and songs until the chairman arises to present the first speaker, who will be Mr. Nichols, who will speak on "The Nation's Growth," and with a send off of "H. L. S.,” the old battle cry of Hermes, he will rise to deliver his oration. Immediately following this elegant proclamation a musical number will break the monotony of contest yells and songs. Then Mr. Owens will be presented, who will speak on "The Signs of the Times," arising to the tune of "Hokie Pokie," the old battle cry heard from many voices, and will deliver his masterpiece.

Before he has finished, many opinions and decisions will have been made, till at last the real decision will be brought forward amid eager hearts and announced in favor of—the future will decide.
HOME ECONOMICS
Home Economics Department

This department is designed to meet the needs of girls who desire a knowledge of the principles of “Home-making” and their practical adaptation to home life. At present, owing to lack of funds and equipment for further growth, the course consists of only two years’ work which includes lectures, recitations and laboratory work. The texts used for study are the books published by the American School of Home Economics, and will be used throughout the entire course.

We believe “that right living should be the fourth ‘R’ in education; that home-making should be regarded as a profession; that on the home foundation is built all that is good in state or individual; that the spending of money is as important as the earning of money; that the most profitable, the most interesting study for woman is the home, for in it center all the issues of life and that the study of home problems may be made of no less cultural value than the study of art or literature and of much more immediate value.”

The department opened with an enrollment of seventeen members in the fall term. Four did not return after Christmas. Two new members were added to the class after the holidays. Four of the girls having had considerable study elsewhere, will be graduated from the department this year. Two other girls deserve honorable mention—Miss Bess Bussell and Miss Gertrude Calhoun. For various reasons they are not permitted to enter the graduating class, but they are taking a teacher’s course offered by the American School of Home Economics as well as the course offered here, and will receive certificates to teach.

FIRST YEAR

SEWING—Hand sewing to master stitches, use of patterns and the cutting and making of simple undergarments by hand.
Young Ladies' Home

The above shows a group of girls on the front steps of the Young Ladies' Home. The majority of the girls' rooms are in this building on the first and second floors. On the first floor also is the dining hall and on the third a large, well equipped gymnasium. The Conservatory also contains rooms for the girls though the first floor is given over entirely for the studios. There is no inconvenience because of separate buildings for the two are connected by a large bridge-way.

The influence of a home-life as is had here has much to do in bringing out the best and in giving opportunity for self-development to the girls. Everything that is conducive to a helpful, happy environment is placed around them, and the jolly group above are typical Ouachita girls.

Football

From the ringing of the gong on Thanksgiving Day, of the fall 1912, which marked the close of that season, Ouachita, her friends and supporters, anticipated and worked towards a team that should, in 1913, be strongest and best ever representing her; that should surpass the records of all her other football teams; and one that should be the best in the state. Nor were these anticipations unfounded.

School opened on September 20th and immediately football aspirants were to be seen each evening on the A. U. Williams field, going through the preliminary practices of tackling, kicking, falling on the ball, passing, etc., necessary to harden and train them for a strenuous football season.

Many of the regulars of 1912's team were missing. To take their places, however, Ouachita was blessed with a wealth of material entering college from high schools and training schools over the state. Seven of the old men returned and these formed a rich nucleus around which to build the 1913 machine.

As Ouachita was represented by the strongest team in her history, it was fitting that they should play a schedule superior, both in number of games and in quality of teams, to any heretofore. Opening the season on October 3rd with the Monticello Aggies, meeting through the season L. I. L., both at Ruston and on the campus, Mississippi College, Shreveport Centenary, Oklahoma State Normal, University of Arkansas, ending
with the University of Mississippi on Turkey Day, Ouachita had eight games, all against strong teams. In these she was victorious in four, played two scoreless ties, and was defeated twice.

We are proud of our football team: of the team as a whole and of each individual on it. They worked and labored faithfully, day after day, throughout the steady irksome grind of a football season for the glory and honor of their school. We are indeed proud of them.

We are proud of our football team: of the team as a whole and of each individual on it. They worked and labored faithfully, day after day, throughout the steady irksome grind of a football season for the glory and honor of their school. We are indeed proud of them.

Volmer Tobey, Right Tackle

As majestic as the sweep of the Gulf Stream "Smut" Tobey, the "Tiger" Captain, touches all the shores of football and leaves there a warmth of enthusiasm and good fellowship. The leader of the 1913 machine rounded and polished the quality sports of his squad in such a manner that almost perfect harmony pervaded in the ranks of the "Tigers."

This is Volmer's third year, and the time has told. "Smut" will be here again next season, and we know what to expect of him. He is medium sized, tinted with a bland finish that spreads the breeze, and can be identified anywhere by a broad smile. He was a good leader because he was liked.

Jay Toland, Right Half-back

Behold our Captain for 1914. At the general elections held around the banquet board soon after Thanksgiving, Jay was elected to pilot the "Tigers" for next year. Jay has played on the Ouachita squad long enough to know how. Two years as a scrub and two more as a half-back have fitted him for his future duties. He knows the ups and downs, ins and outs of a football player.

Our new Captain can promote a good fellowship and direct his team in a business-like manner, and that's enough for a Captain to know. 1914 will be Jay's last year.
Nor should the "Scrubs" be forgotten. Theirs was the task of hardships and drudgery in which there was no reward, no laurels, no honor. Whatever success the Varsity experienced was due to the "Scrubs" more than to any one other factor. We are proud of our "Scrubs" and appreciate their assistance in turning out the strongest team in the state.

C. C. TOBEY, JR., Right Tackle

Sometimes nature fashions a man from the dust of the earth like unto Falstaff. Twenty-two years ago in the city of Arkadelphia there was born Clarence Tobey, known among his teammates as "Runt."

He weighs but a scant 210 pounds (guess you've read about the high price of beef). Well, Tobey is a valuable asset to a football team. It takes the faith which removes mountains to get this big tackle out of the way.

He was all-state guard in 1910. The five golden ringlets he wears on his sleeve indicate that he has supported the purple and gold for a quintet of seasons. And now he is going to graduate.

JOHN G. LEWIS, Left End

Manager John Lewis, and left end for three seasons, procured a good schedule for the "Tigers" and then assisted them in drubbing the guests. Johnnie is twenty years of age; he weighs 150 pounds, and when in an upright position, stands five feet ten inches in height. Lewis served two years on the scrubs; then two seasons on the Varsity. He dives under interference through pure curiosity. If he is consistent after graduation he will be successful in the lists of love. Lewis has college spirit, which is gratitude for his Alma Mater. He takes an A.B. degree in June.
J. Fletcher Moose, End

J. F. Moose, otherwise and pre-eminently known as "Bull Moose," came back this season with enough determination to make the "Tiger" team, despite his languor, lazity, and love of woman. He played left end, and occasionally plugged the pigskin for long punts. When Moose takes a notion he plays football, and plays it well—after the manner of Ted Coy or Hobey Baker—despite his modest weight of 145 pounds. He is twenty-three years of age, and will "skiddoo" in June when he graduates.

Bruce Jackson, Full-back

Bruce Jackson, full-back, graduates this year and leaves his Alma Mater. He leaves a football record also which will be envied by coming generations. When the all-state team was selected it was said that Bruce had no close rival for the position of full-back. When he charges a line the line gives way for a Ouachita gain. Bruce subbed two years and then occupied full-back for his Alma Mater two seasons where he made more touchdowns than any two of his teammates. May he hit the trail of life as swiftly and hard as he smashed the line of opposition.
W. R. BROOKSHER, JR., Quarter-back

William R. Brooksher, the fighting Fort Smith son subbed at quarter for most of the season; but while he was in the game he was a regular. He weighs 135 pounds ring-side. His height is five feet four inches, just barely tall enough for the army; his age, nineteen years. He will graduate in 1915 and attend the Panama Pacific Exposition.

W. R. BROOKSHER, JR., Quarter

B. TOLAND, Left Tackle

BUTLER TOLAND, Left Tackle

Some are born great, some achieve greatness, and some have greatness thrust upon them. Butler has arisen from the horizon of his high school days to the zenith of collegiate football all in one season, having been chosen all-state guard. But this big boy plays at tackle—and he plays at tackle. Butler weighs 190 pounds, is 6 full feet in height, and is a fast man. Not only is he the pride of the Toland family; he is also the rose and expectancy of Ouachita. He is a Freshman who has just put on long trousers.
JOE TOLAND, Center

Some people have a habit of getting into the middle of things. Joe Toland is the center of the Ouachita team, and his first year here was successful.

He is 6 feet 3 inches tall, eighteen years of age and weighs 202 pounds. He is a seeker after football knowledge and learns well what he is told. When his youth gives way to maturity he will develop into a human landslide. It is not unlikely that Joe will be all-state center in 1914. He is a Freshman.

R. A. HONEYCUTT, Right Guard

This big right guard is twenty-one years of age, weighs 198 pounds, and is 6 feet 1 inch tall, all of which indicates that he has the proportions for a football player and a guard. With some former experience on a Prep team and not being hard to teach, Coach Jennings transformed him into a pretty good guard; so good in fact that he was a perpetual obstacle to every line-smashing back who tried to run over him. As guards live the life of the commonplace, it is hard to picture them as heroes. It is his duty to prevent more than to make; but an ounce of prevention is worth a pound of cure. Well, figure up how many ounces there are in 198 pounds and you will have his efficiency as a footballist. "Honey" is eligible for four years still.
JACK HURLEY, End

Have you ever sat in a grandstand watching the pigskin oscillate between the two opposing forces on the gridiron? Did you ever see the ruby nose of the oval spiral toward the zenith and back to old mother earth fifty or more yards from where it started? It was Jack's role the past season to do the punting and drop kicking; both departments were taken care of well, too. Many were the yards he gained by good kicking and sweet were the points he gave Ouachita with his precious toe by the drop-kick route. As Hurley tackled well and carried the ball well, we may grow reckless and venture the opinion that he was a good football player. We hope Jack will be back next year. He is sweet two and twenty; 5 feet 10 inches, and a tipper of the scales at 167.

B. S. HARGIS, Guard

Hargis was tutored in the gentle art of bunting at Warren Training School under Big Dan Estes, of "Razorback" fame. Hargis was in the game from kickoff to curfew of the season. He has an ideal build for a guard; broad-shouldered and strong-limbed. He weighs 170 pounds and is about 5 feet 10 inches tall. He is twenty-two years of age.

He shows symptoms of being a good student; only once during the season did we see him in a high state of rejoicing, and that was when he had a chance to buck his old Coach, Estes of the "Razorbacks."

We expect Hargis to show considerable class next season.
ARTHUR L. SPARKS, Guard

Self-confidence, such as will cause one to constantly murmur, "I should worry," is the chief characteristic of this recruit from Hope, Arkansas. Then there may be something in a name; Sparks indicates fire, electricity, or action. He caught the significance of blocking his opponent in a nice, handy way, and was given temporary guardianship of the guard's position. He has speed, a pretty good asset. He weighs 170 pounds, is 5 feet 9 inches tall, and is twenty years of age. He ought to make a regular next season with a vengeance.

A. L. SPARKS, Guard

SAM JAMESON, Quarter-back

It was this old Roman senator that copped the position of quarter-back for the "Tigers" of 1913.

He is not the rough and ready rouster that Brooksher is, but just older and headier because of years of football experience. Sam is not a large man, and like Woodrow Wilson, he is not handsome, but possesses a charm that is hard to evade.

Sam, who is twenty-three, played four years at Mercer University in the S. I. A. A. It is to be regretted that he will not be here again.

116
JOHN ABRAHAM, Left Half

John Abraham, a native son, graduate of Arkadelphia High School, where he starred repeatedly for three seasons, came over to the A. U. Williams field early in the season, and proceeded with perseverance and hard driving to make the team. Abraham sparkled on the gridiron the past season and will continue to be a shining star. He can use his 175 pounds in a most terrifying manner when moving in a horizontal position. Johnnie is a Freshman of eighteen, and will be a star for three years more.

JAMES STREIBLING, Anywhere

J. Streibling is a blonde Eskimo, aged nineteen. He weighs 165 pounds, and has 5 feet 9 inches of altitude. He comes from South Carolina and goes as "Mercy" on account of his previous condition of servitude in Mercer University. "Mercy" subbed at almost every position, and he subbed well. When he is on the side lines he is anxious to get into play—isn't that natural! He takes his degree in June from his adopted mother of learning, after which he will locate at Stuttgart, Arkansas.
**Ed Shugart, End**

Mayhap Carnegie will some day award Ed Shugart a hero medal for his persistent efforts to make end. The fellows call him "Shug," but there is nothing sweet in his smashing interference. He performs almost miraculously at times, a good sign in an "end."

"Shug" lives in Arkadelphia, where he has ties of close attachment, such as a good home and an access to the Clark County jail. He weighs 160 pounds, is nineteen years of age and is 5 feet 10 inches in height.

---

**Ed Hinton, Capt. 2nd Team**

One very essential factor in the development of a strong football team is to develop a good "Scrub" team. Hinton, as Captain of the "Scubs," was a very important element in their success and therefore in the Varsity's. Working faithfully at all times and against tremendous odds, he infused fight and "pep" into his teammates and many were the fierce scrimmages into which he led them. This is Hinton's first year in football. He is 5 feet 11 inches tall, and weighs 160 pounds. Those who watched his work this year predict for him a regular berth in the Varsity line next season.
The Thanksgiving Game That Should Have Been

We cannot close our history of the football season without referring to the Thanksgiving game that should have been. It was a sore disappointment to us not to get to play Henderson-Brown on that day. We expected the game. The Henderson-Brown students expected it. The President of Henderson-Brown said in the Ouachita Chapel in September that he expected it. Everybody in Arkadelphia expected it. But it wasn’t played. Why? For years Ouachita had gone down in defeat; but always came up smiling, waiting for another chance. This year the Henderson-Brown officials read the handwriting on the wall; and only three weeks before the game, they took a course that they knew would save their team from certain defeat. How these men can keep a straight face is a mystery! They claimed Ouachita was not in the Association and they couldn’t play us. Yet they played us a year ago; they played us last spring; they did their best to get a Thanksgiving game with a black-listed team. Why did they wait till just before the game to tell us of their predicament? What has the Arkansas Association done with Hendrix College for playing with a black-listed team? What has the Association done with Henderson-Brown and Hendrix for playing with the University of Arkansas—a free lance? O, consistency, thou art a jewel! O, ye sportsmen who strained at a gnat and swallowed a camel! How can ye keep a straight face?

Rules. are they that ye talk about? Where, then, are your rules? Clean teams, is it that ye prate of? Where, then, O Henderson-Brown, is thy clean team? Are the fingers of thy athletes free of filthy lucre, that thou dost dare to throw stones? Why, rules or no rules, the Ouachita team was freer of athletic taint than the neighbors across the way; and that’s why all Arkadelphia “smile a smile” at the hypocrisy of the belated challenge.

But lo! we have wandered afield. We only meant to say we were sorry Henderson-Brown officials—not the team—took cold feet. How are the mighty fallen! But even at that, they call their team “College Champions” of Arkansas. It is to laugh! And now we wail our wail: “Oh that we could have played the Reddies on Thanksgiving Day.” Why didn’t they play us? They knew they couldn’t play us and be the “College Champions” of Arkansas; but they were determined evidently to be “College Champions.” Therefore, they are now the “College Champions of Arkansas,” Q. E. D.—G.

Ouachita's First Winning Football Team 1895

The Tigerettes, Who Will Win Future Battles for Ouachita
Basket Ball

The basket ball team of Ouachita College was greatly handicapped on account of our not having a gymnasium and an indoor court. We realize more fully each season the disadvantages under which we must labor and hope that in the near future some very loyal supporter of Ouachita and of athletics will give us the much needed gymnasium. Several have already dreamed of this gymnasium, in fact the site has already been selected, and now we only need the money with which to build it.

We had, this year, material for a good strong team but hampered as we were by the lack of an indoor court we could not develop a five that could compete favorably with a team trained on an indoor court and in games played on indoor courts, and so we were defeated by two secondary schools.

Landes, an all-state guard of last year, was chosen for Captain. He worked hard with the men and taught them some of the finer points of the game. Of last year's team we had three men—Toland, center; Ganaway, forward, and Lewis, guard. We also had Hargis of Warren, Bodie of Cabot, Fox of Pine Bluff, and Stribling of Mercer University.

During the reign of Dr. Jameson we hope that the dreams of a gymnasium will be realized. The rearing to the skies of this building will add more to the student body of Ouachita College than almost anything that can be done, and in it, should it ever be constructed, will be developed the three sides of the Triangle of Life.

Baseball

The gong of the bell which initiated the baseball season of 1914 was sounded on the 23rd day of February; thence came the migration to the A. U. Williams field where fully fifty enthusiastic aspirants appeared. From this number Coach Junnings was to select his bunch which should grace the diamond for Ouachita for the spring season.

All enthusiastic and ready to toss the old pill once more were put to work. Slight workouts were held for only a few days when the aspirants were buckled down to actual service.

Among the old men who are back and ready for the crush of young recruits were Catcher Toland, First Baseman Muse, Second Baseman Bailey and out fielders Jackson and Armstrong; also Gannaway and Joe Toland of last year’s Pitching staff.

Among the new men this year are Ward, Dearing, and Green who with veterans Muse and Toland will solve the infield problem. Wood of last year’s scrubs will fill the hole in right field. Bodie and Dudley are going, and will probably be initial men at the end of the season.

At this time the team has met four teams on home ground and has gotten away with three of them, only losing to University of Arkansas in the first game of the season by a small score.

We all regret the departure of our Coach, who left recently to take a position with the Atlanta club of the Southern League, but we feel that he has a worthy successor in Jack Hurley, the big First Baseman of the South Atlantic League. He knows baseball to perfection, and it is the general opinion that the team will finish with a good record under his guidance.

Manager Jackson has arranged games with Millsaps College to be played here next week, the 9th and 10th of April. Immediately on the following day the team leaves for an extended trip through Mississippi, playing games with Mississippi A. & M., Mississippi College, Millsaps, and Monticello Aggies of this state. After the trip, games will probably be played with Little Rock College, Russellville Aggies, and the University of Arkansas.

The team has the best of support from the student body and a good record is predicted when the season closes.

The Young Men's Boarding Club

For the last few years, a number of young men have grouped themselves together in a boarding club. In this way we get our board at the lowest possible cost.

This year Professor and Mrs. Compere willingly took the responsibility of managing our club, and opened up their home to us without charge. Each young man will always feel grateful to them for their kindness toward us. We have ever found Mrs. Compere ready to give us motherly advice. She is one of Ouachita's most choice daughters.

We feel that our association with one another has been beneficial to each and all of us, and that we will not soon forget the pleasant hours we have spent together.

25 Winnifred receives seven letters and six post cards—cannot decide which?

26 Billy and Annie Lou still on good terms. Patti finds she has date with both Spencer and Sam!
Ruby and Mr. Berry still on good terms.

28 Reva has a beau from home! She likes "Snider’s" catup, etc.

30 Frances receives box of candy from Fletcher. Football prospects good. Societies very enthusiastic.

---

1 Gertrude at her old trade—Bruce and Sparks already smitten.

2 Fussy hears from New York. Allen begins to get "fussy."
Mischief Makers organize; Ruth Curl, Maude Henderson, Reva Garrett, Elizabeth Autrey, Agnes Bush, Lucille Carroll, Willie Barrow.

6 First call meeting Ouachitonian Staff—Harry Muse and Margaret Crawford elected editors-in-chief.
Military department organizes fast.
Rumors of going to Hot Springs.

18 Psychology test. All pass! !

19 Dr. Bailey makes very interesting talk in chapel. Maggie Moore and Maude actually answer a question in English. Mr. Grace resolves not to fuss at big Sophomore English class any more.

21 Dr. Tate of Hot Springs conducts chapel. Annie Lou and Billy chased by Dr. Jameson.

22 Very enthusiastic Mass Meeting. Prof. Zellars climbs skyward in oratory.

27 Turkey Day. Rain! Rain! Rain! No less enthusiasm. Even Miss Storts goes to the game in the rain.
Henderson-Brown forsakes her own very dreary field to root with us to a scoreless tie. Bespattered, mud-smeared but radiant through the slimy covering the "Tigers" desperately fight with eleven similarly clad "Ole Missers." A sixty minute excavating and dredging contest on the A. U. Williams field. Everybody pleased with the end of a glorious season, not withstanding its dark finale —next year—do better. Reception at night. Old friends meet and talk of past wishing again and again to still be numbered among the Ouachita students.

28 Extra Lyceum number—Seniors have privilege of dates.

29 Societies welcome their old members back. Feasts, feasts, feasts! Miss Work discovers results. Football boys and the "lucky" girls were gloriously entertained at Dr. Jameson's.

1 Patti and Sam, Spencer and Robert, Billy and Annie Lou, Ruby and Mr. Berry, all still very congenial.

3 Gladys and Ida Mae study in parlor from 4-6. Maude, Reva, Willie, Elizabeth, Ruth, Lucille join them. Why can't girls stay in their rooms during study hour?

Southwestern Baptist Theological Seminary
FORT WORTH, TEXAS

This institution is located in the heart of a great Baptist Empire in the Southwest. It is under the control and direction of the State Baptist Conventions of Texas, Oklahoma, New Mexico, Arkansas and Louisiana. It has nine full professors and two tutors. Its enrollment of students, including the Missionary Training School for women, runs to more than two hundred twenty-five this year.

Its course of study covers all the branches of a thorough Theological Course, including the degrees Th.C., Th.B., Th.M., Th.D., and the English Bible Degree. It has a woman's Missionary Training School in connection with it and offers a thorough course covering two years for women desiring to be missionaries in the Home or Foreign Field, Sunday School Workers, Pastors' Assistants, or do other services in the Master's cause.

The health is almost ideal, the environment spiritual and evangelistic. Many churches in reach of Ft. Worth use the students as pastors. The Seminary provides a Students' Aid Fund for the help of those who need it on their personal expense. Ft. Worth Hall, the dormitory for men, offers boarding facilities for single men and married men and their wives who have no children.

The Training School Building offers quarters for more than one hundred women.

The Seminary has two special features—a four-year course in English Bible and a two-year course in Evangelism.
